

Subjects

Lecture 1 Introduction of Microbiology

Lecture 2 Bacterial structure

Lecture 3 Bacterial Growth and Physiology

lecture 4 part -1 Bacterial taxonomy, Classification, and laboratory diagnosis

lecture 5 part-2 Bacterial taxonomy, Classification, and laboratory diagnosis

Lecture 6 part-1 Sterilization & Disinfection

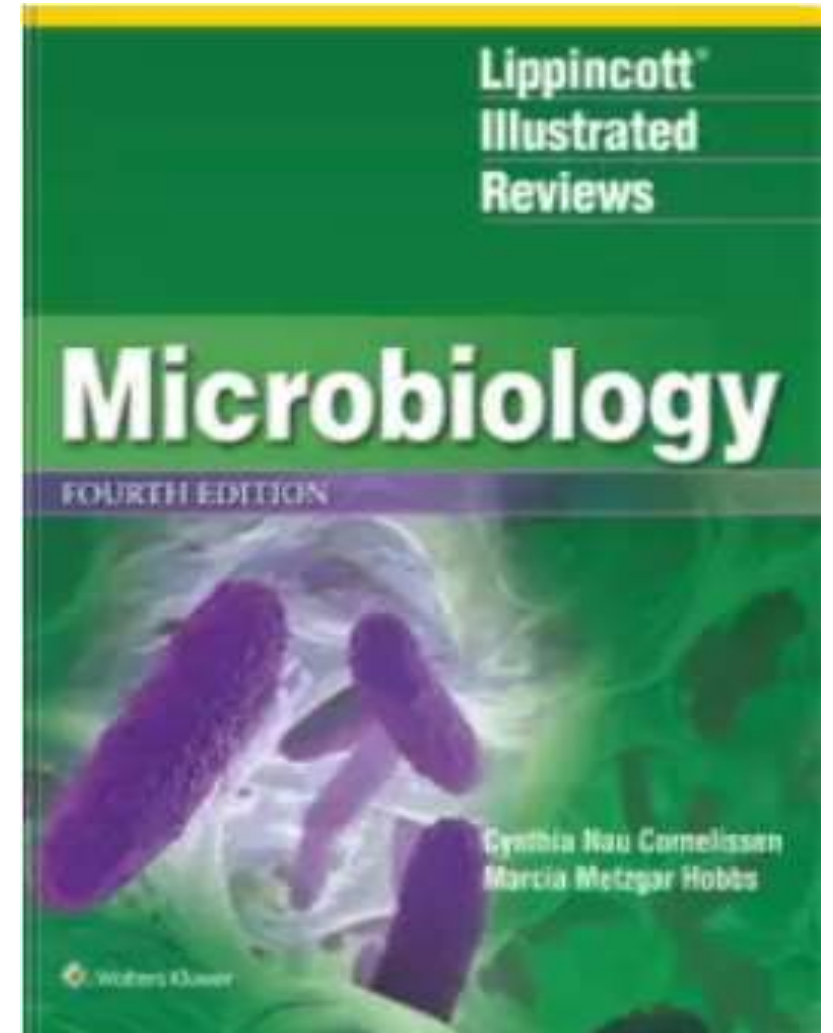

Lecture 7 part-2 Sterilization & Disinfection

Lecture 8 Part-1 Bacterial genetics and gene transfer

Lecture 9 part-2 Bacterial genetics and gene transfer
