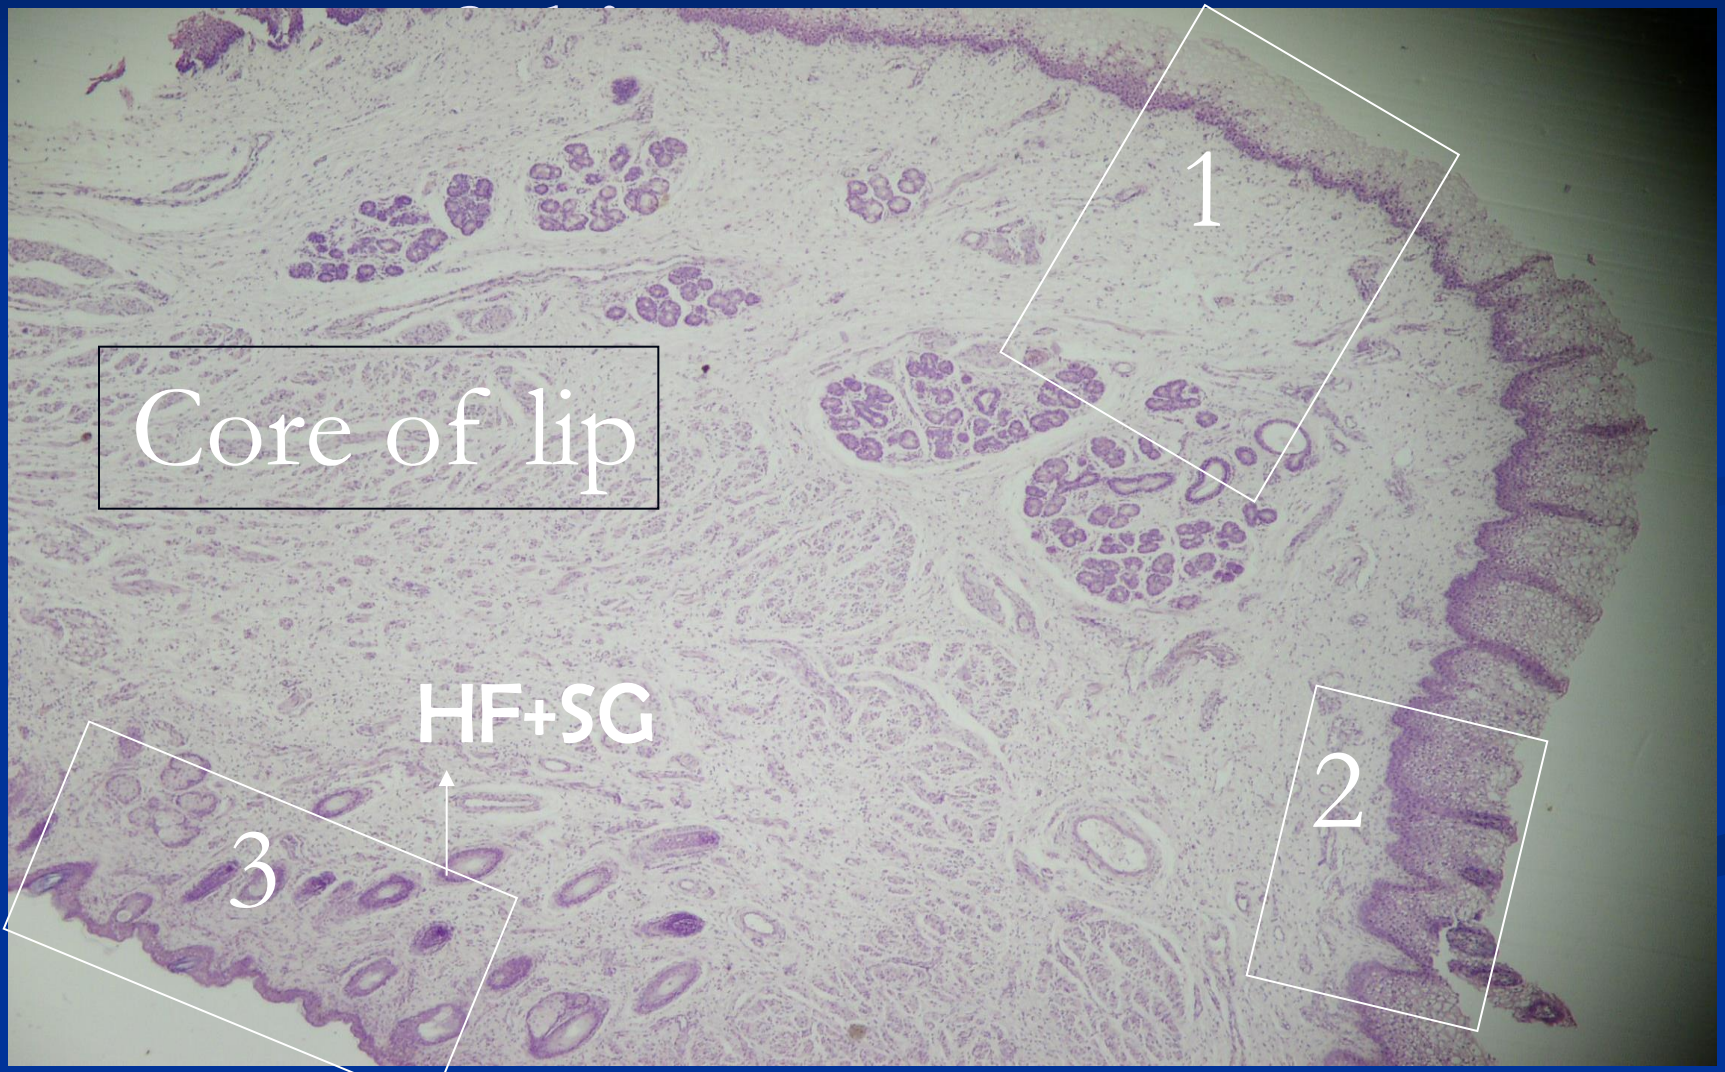
Oral cavity

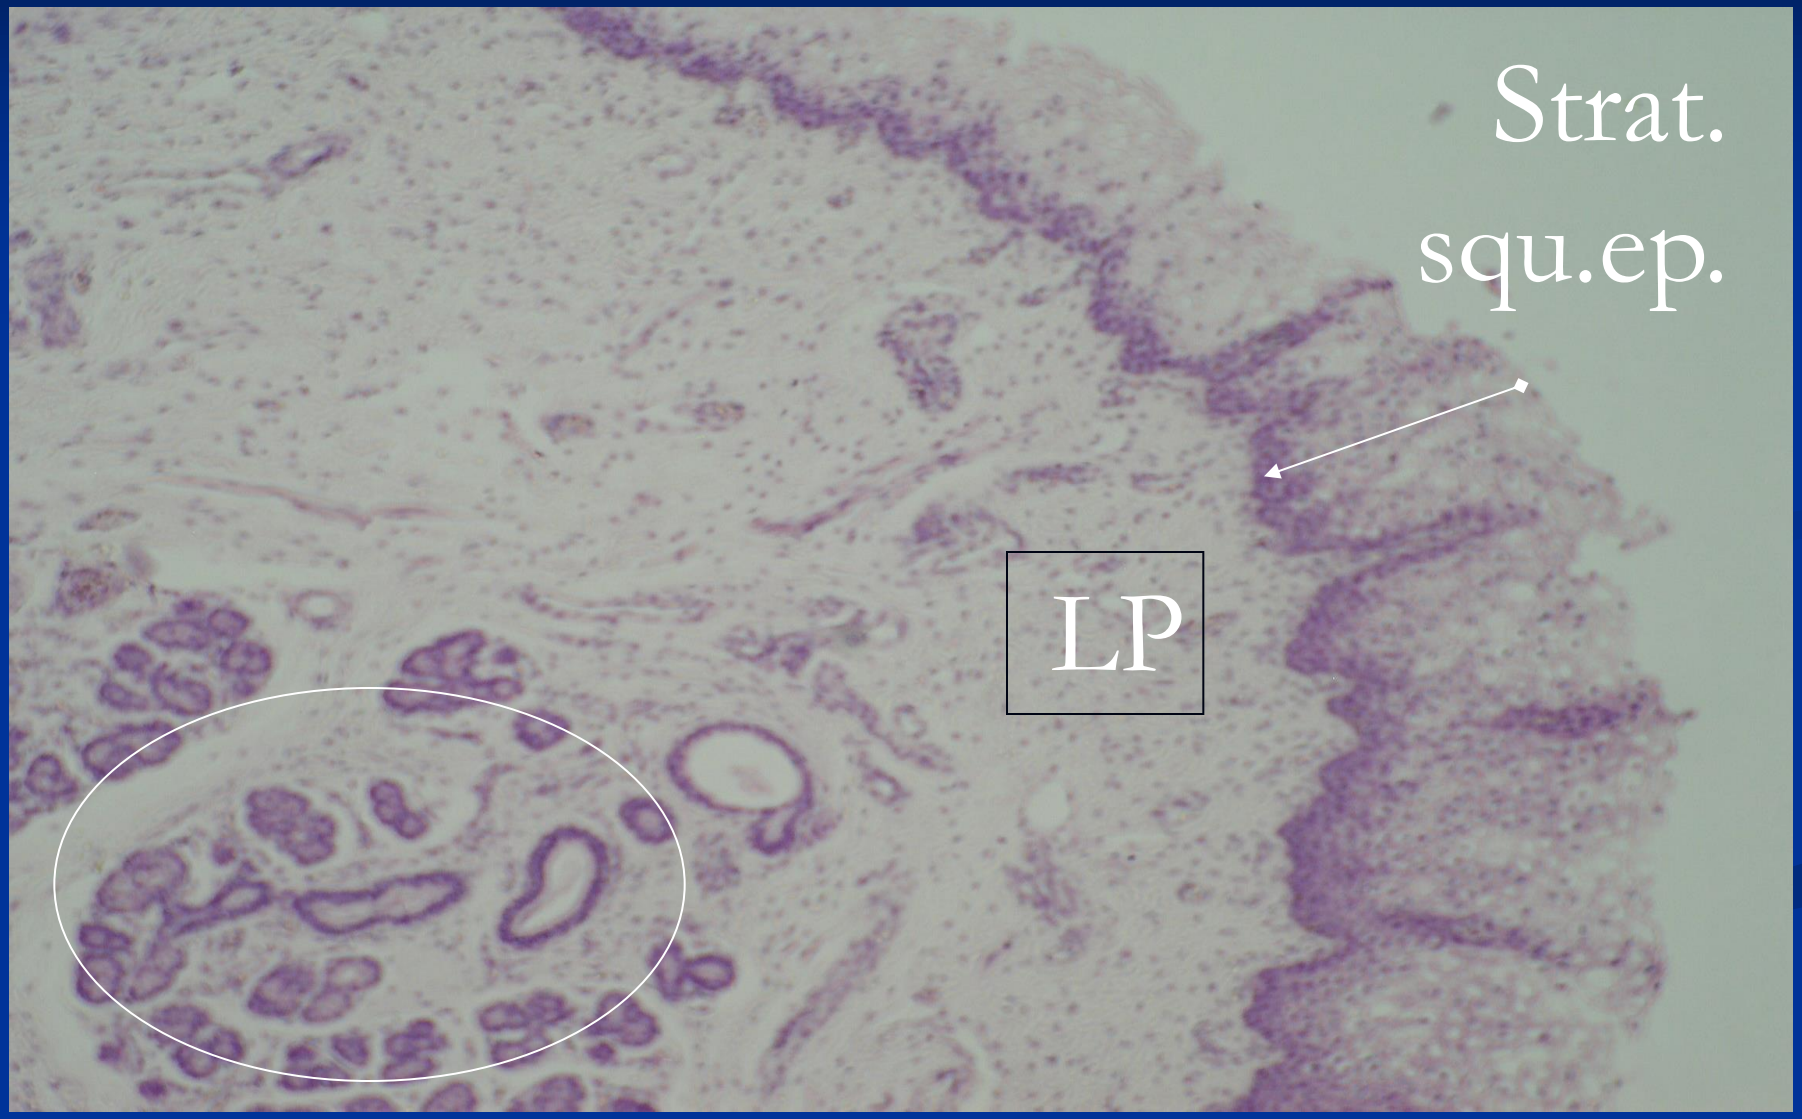
- A mucocutaneos junction (lip)
- Tongue
- Salivary glands

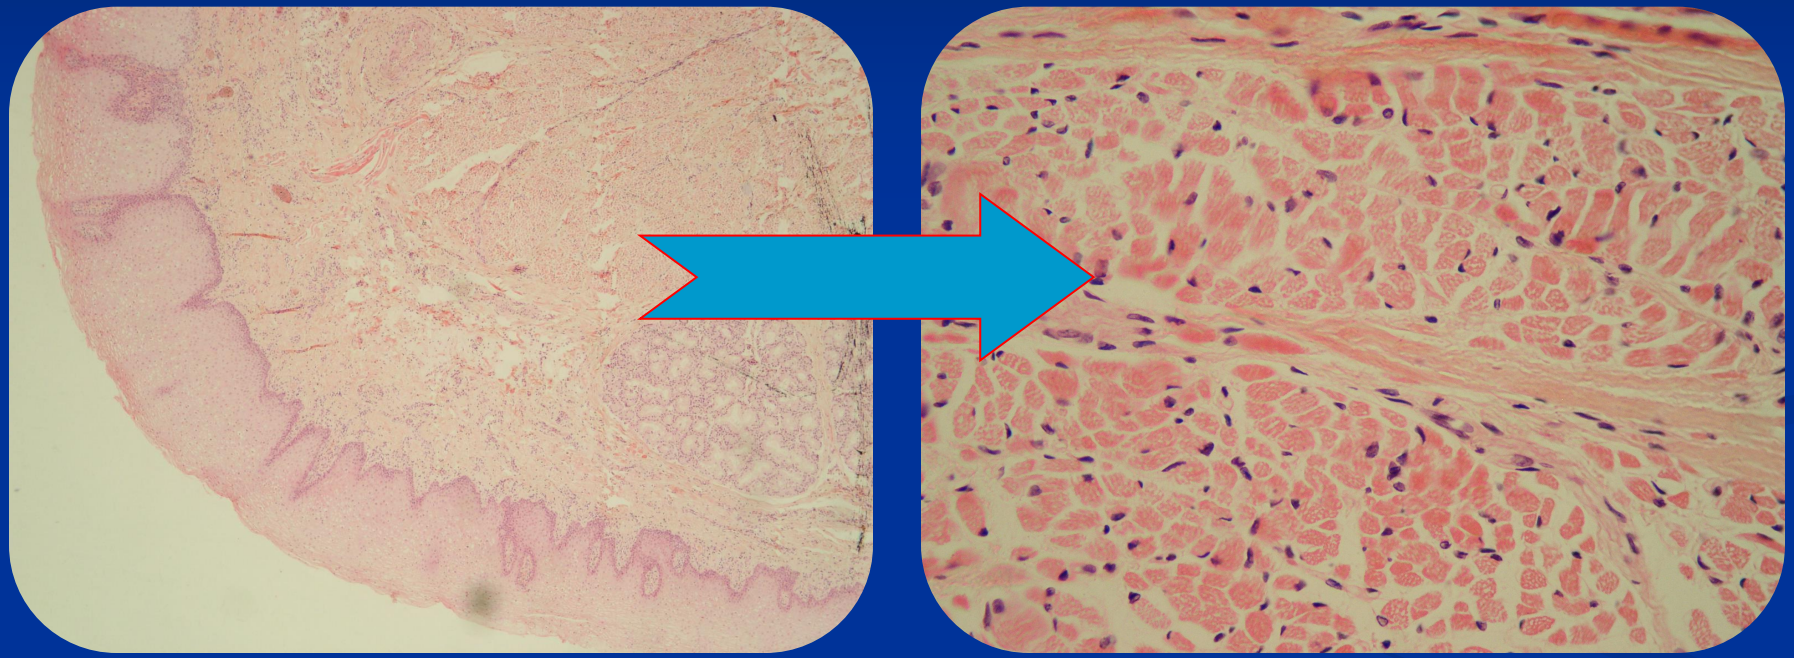
Sagital section of LIP

1 Oral mucosa 2red margin

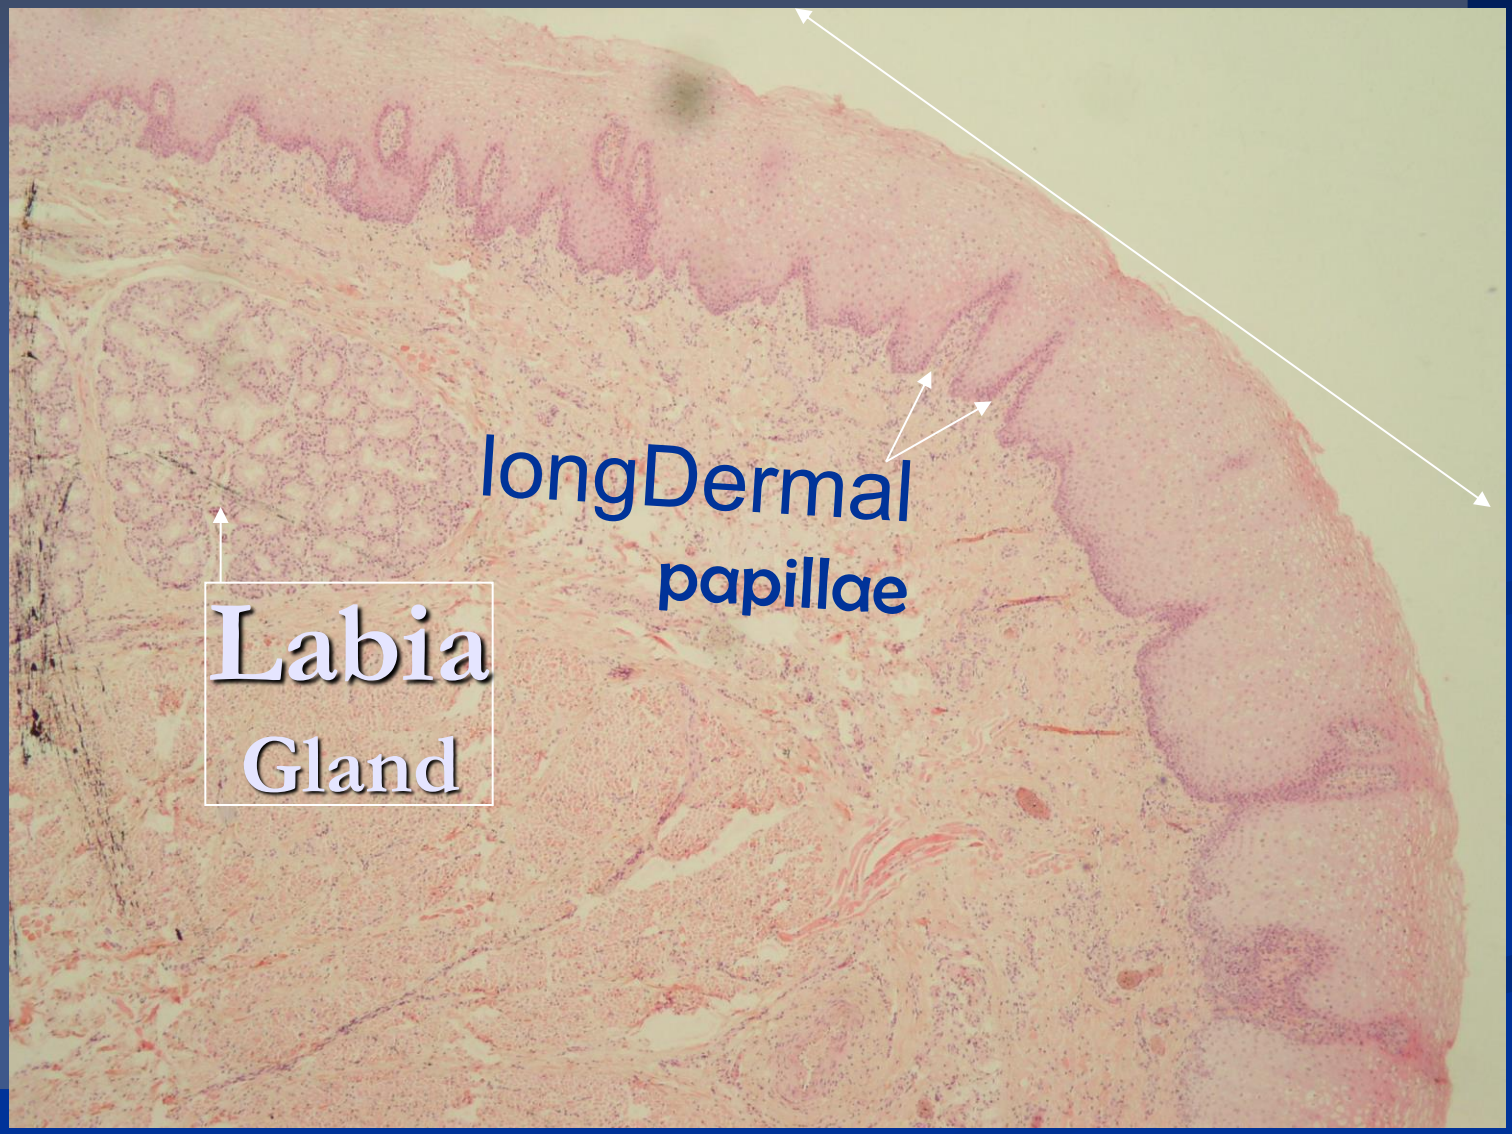


Oral mucosa part labial seromucous gland

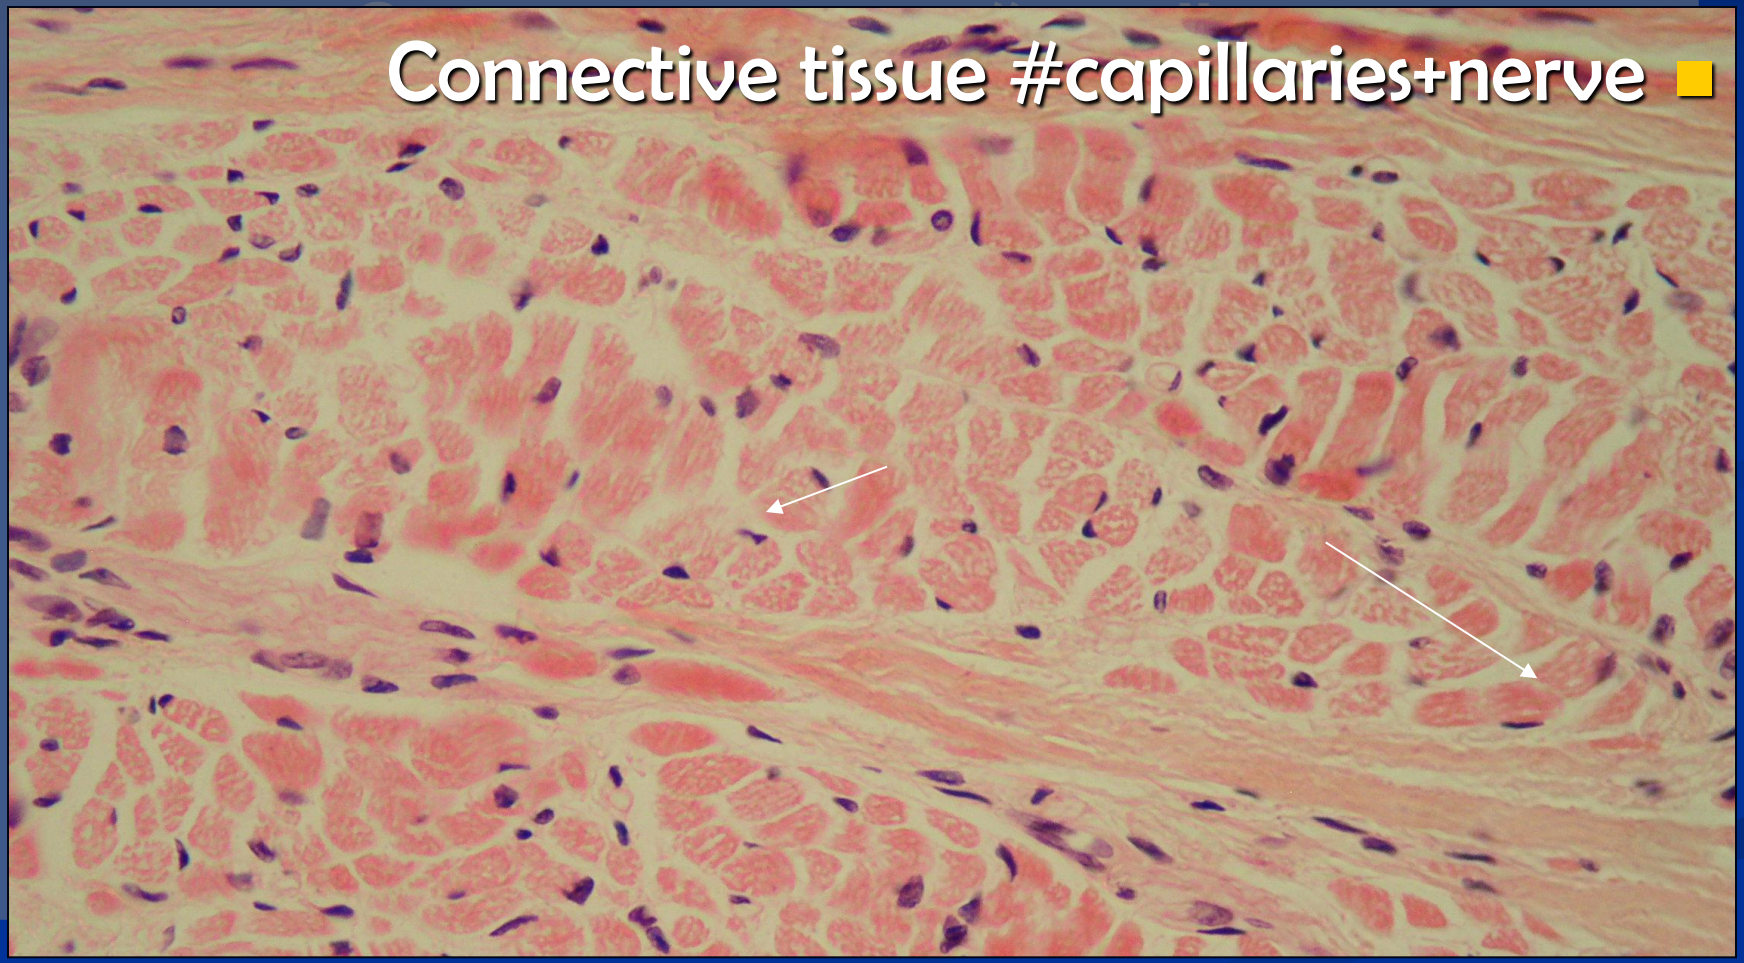




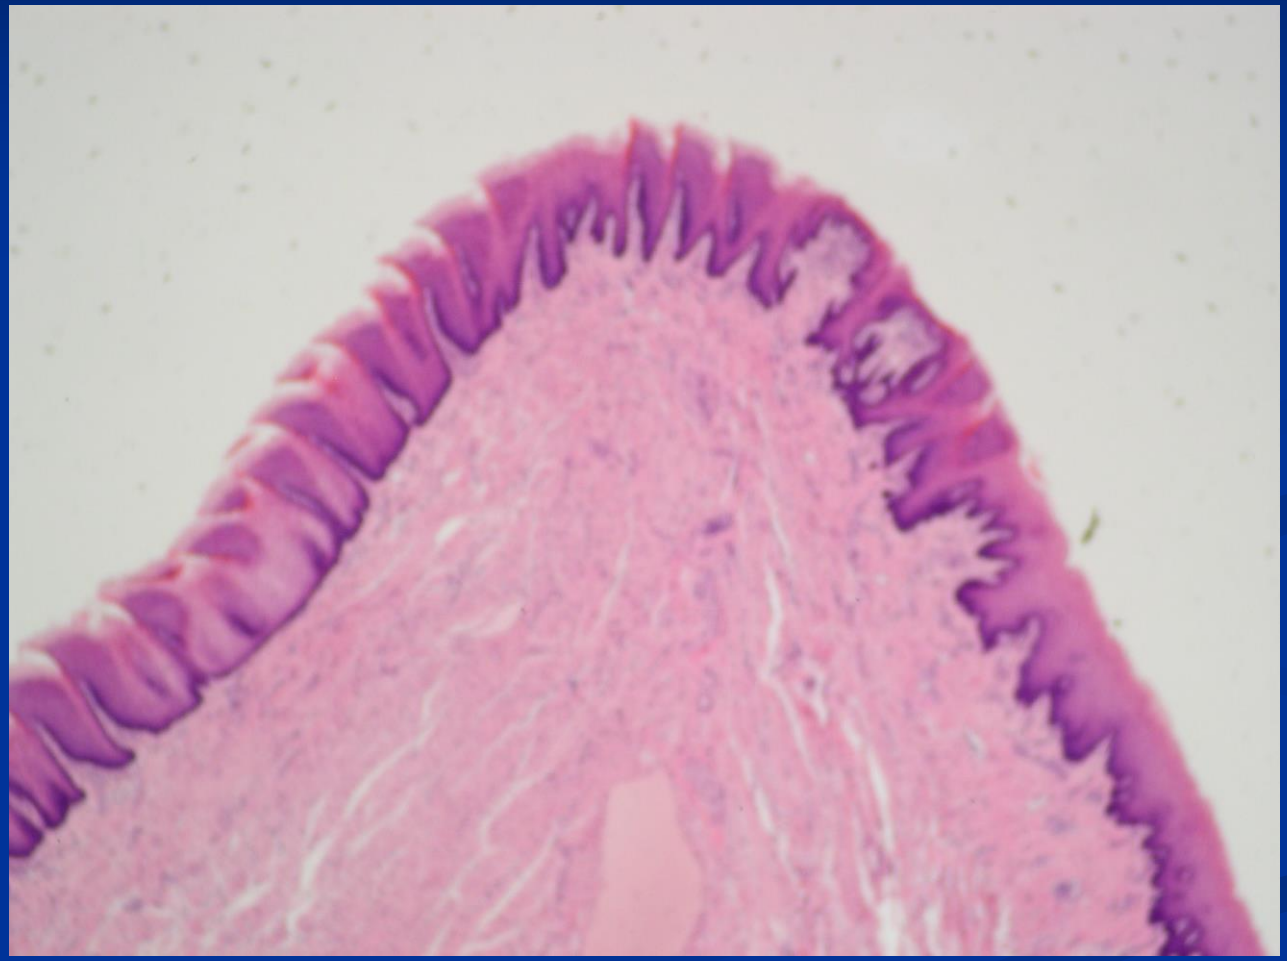
Vermilion(transition zone)



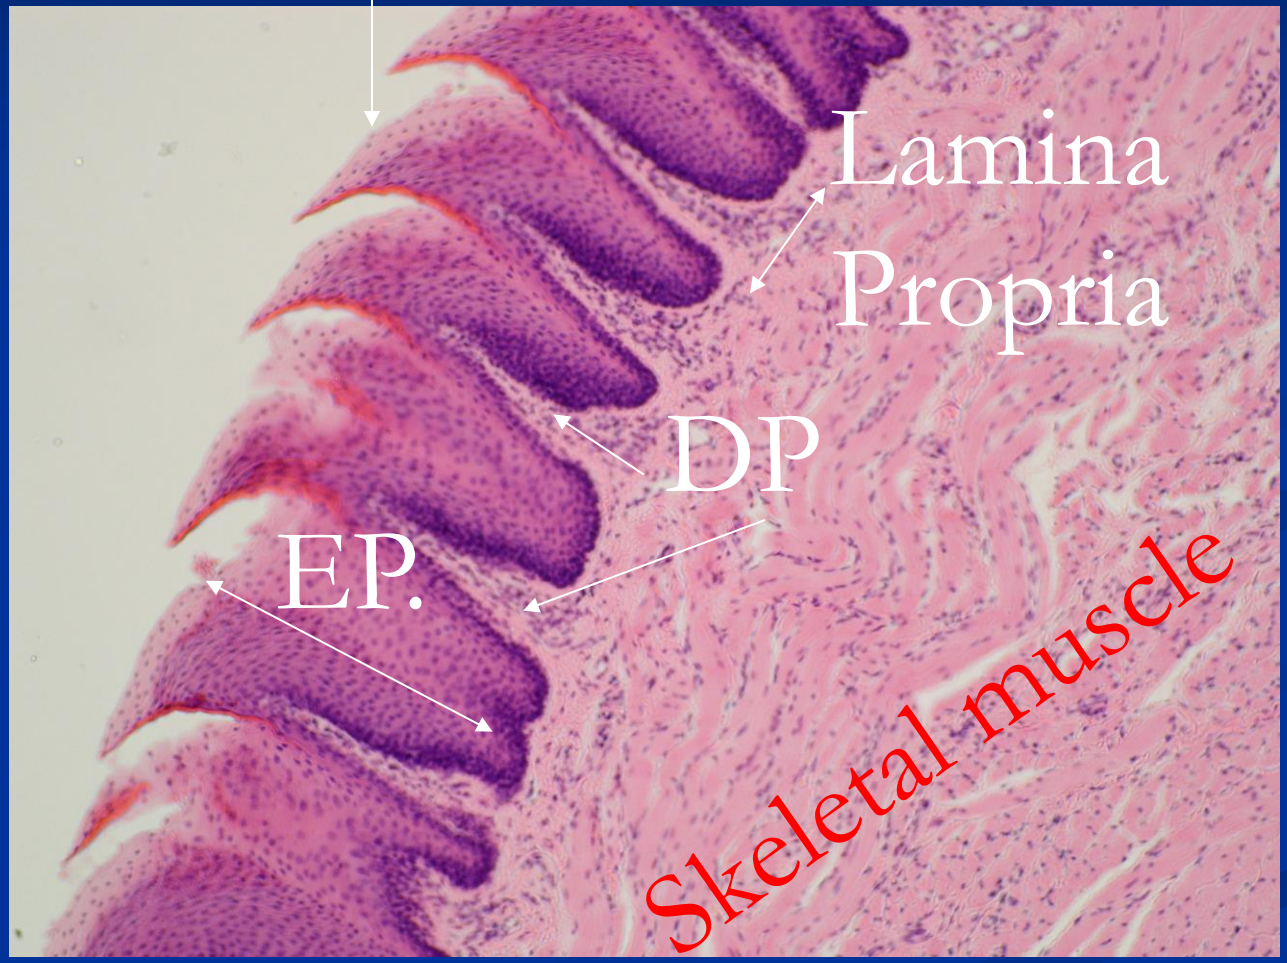
Fine skeletal muscle in core of lip

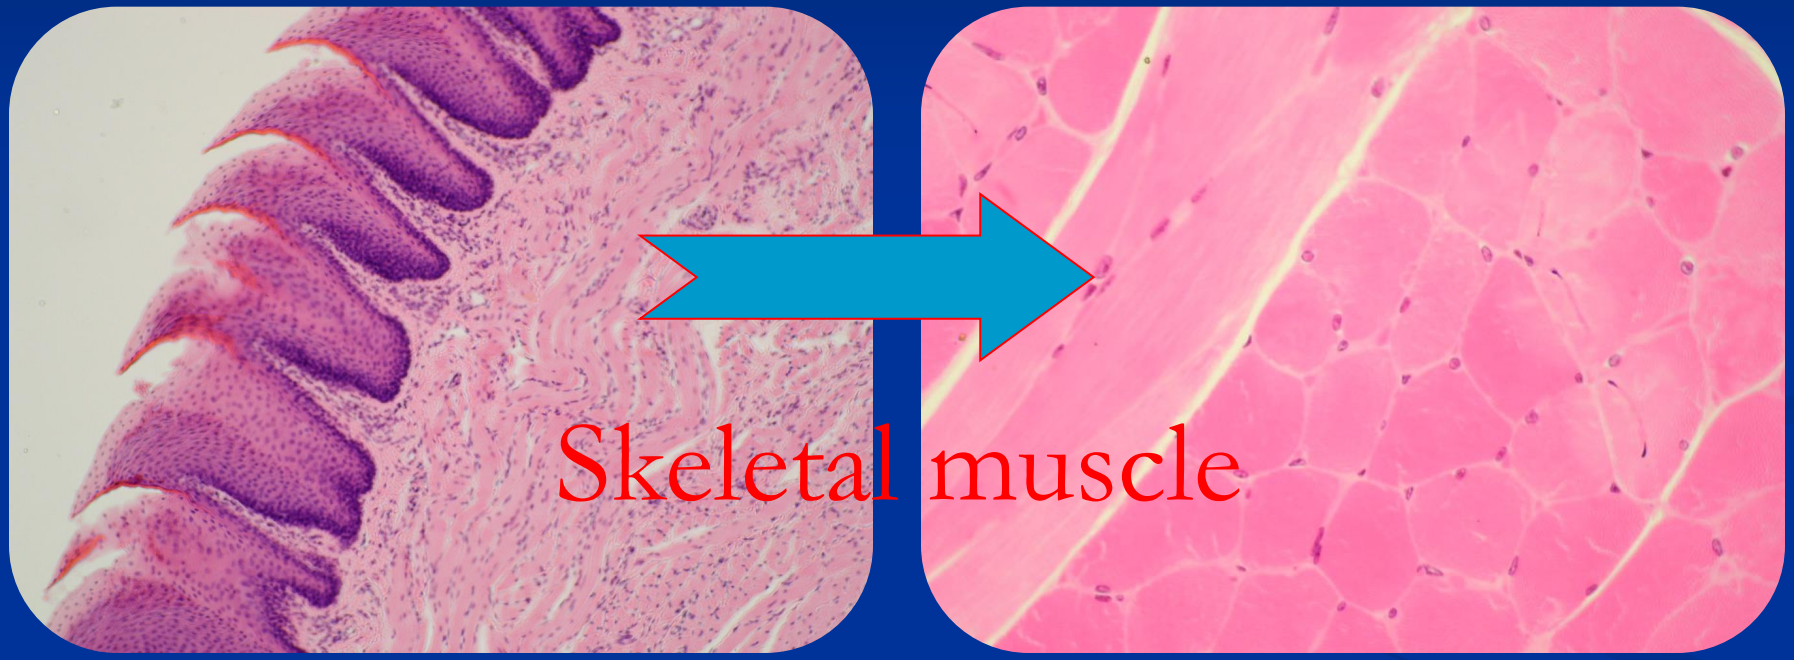


Tongue(dorsal surface)



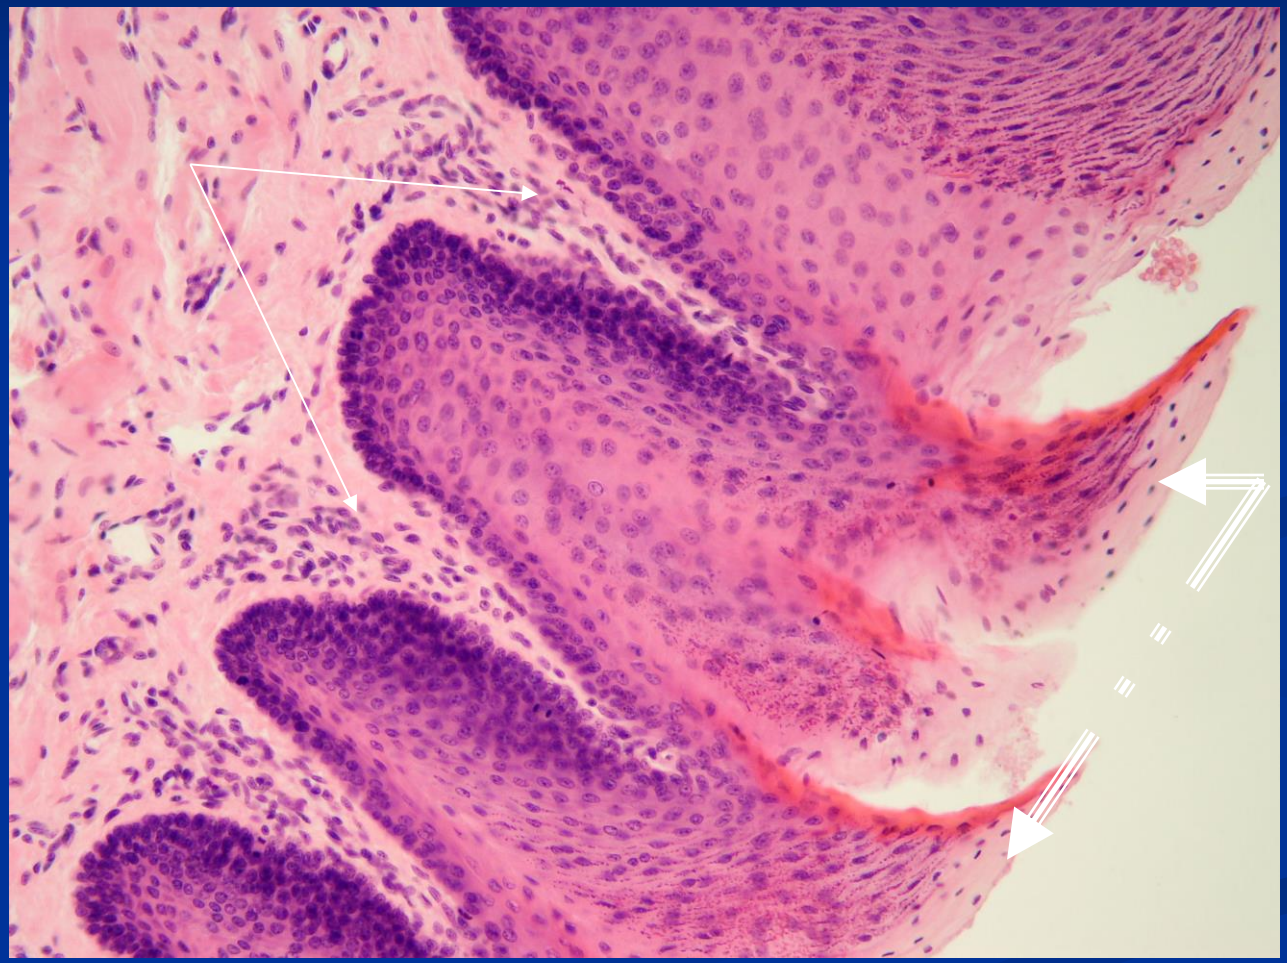
Filiform Papillae



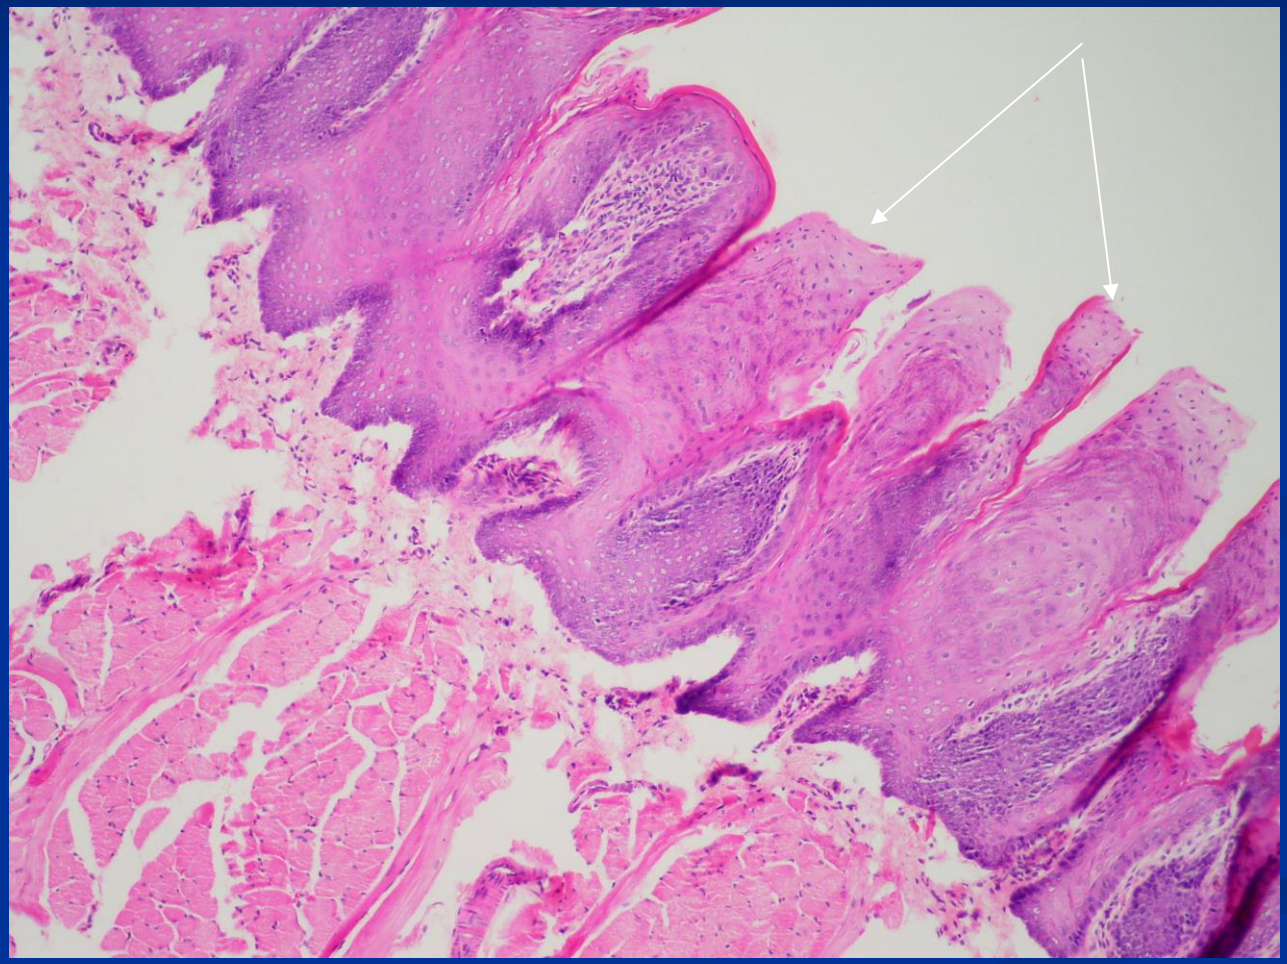


Skeletal muscle

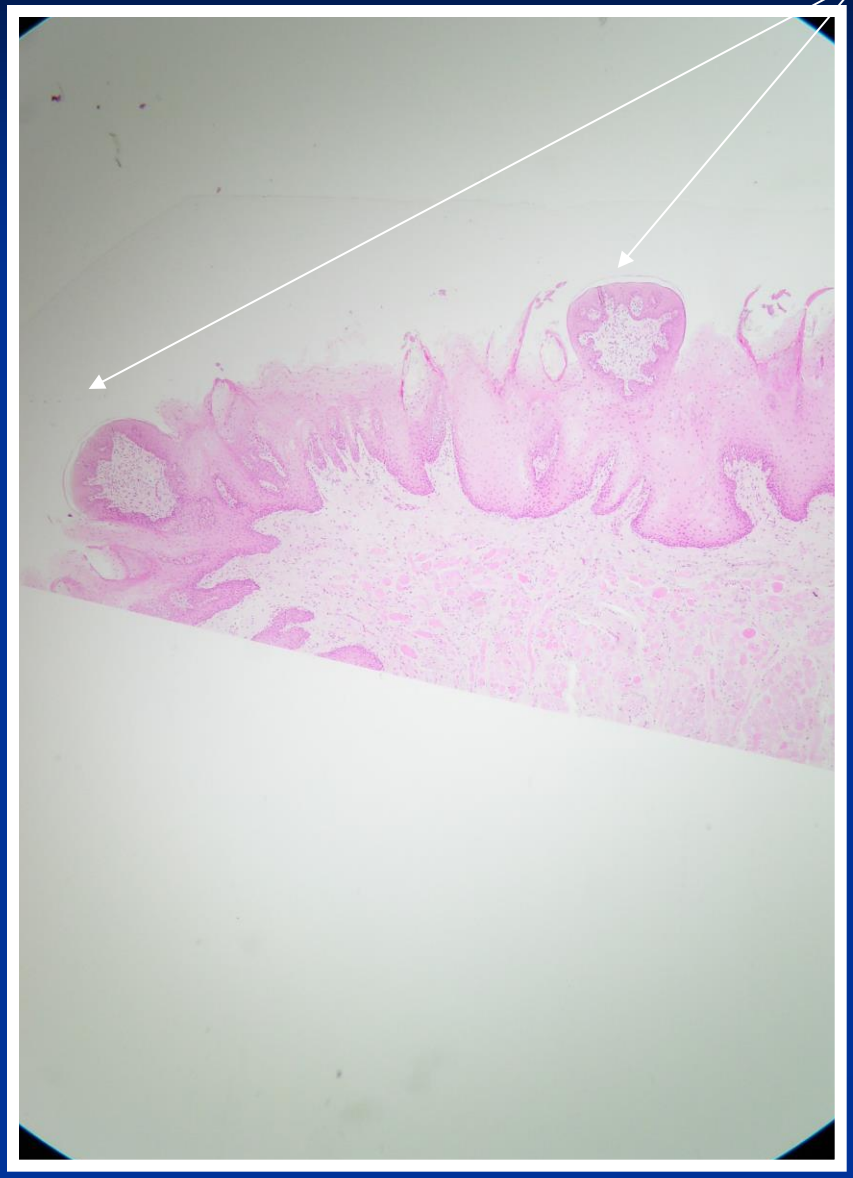
Filiform Papillae

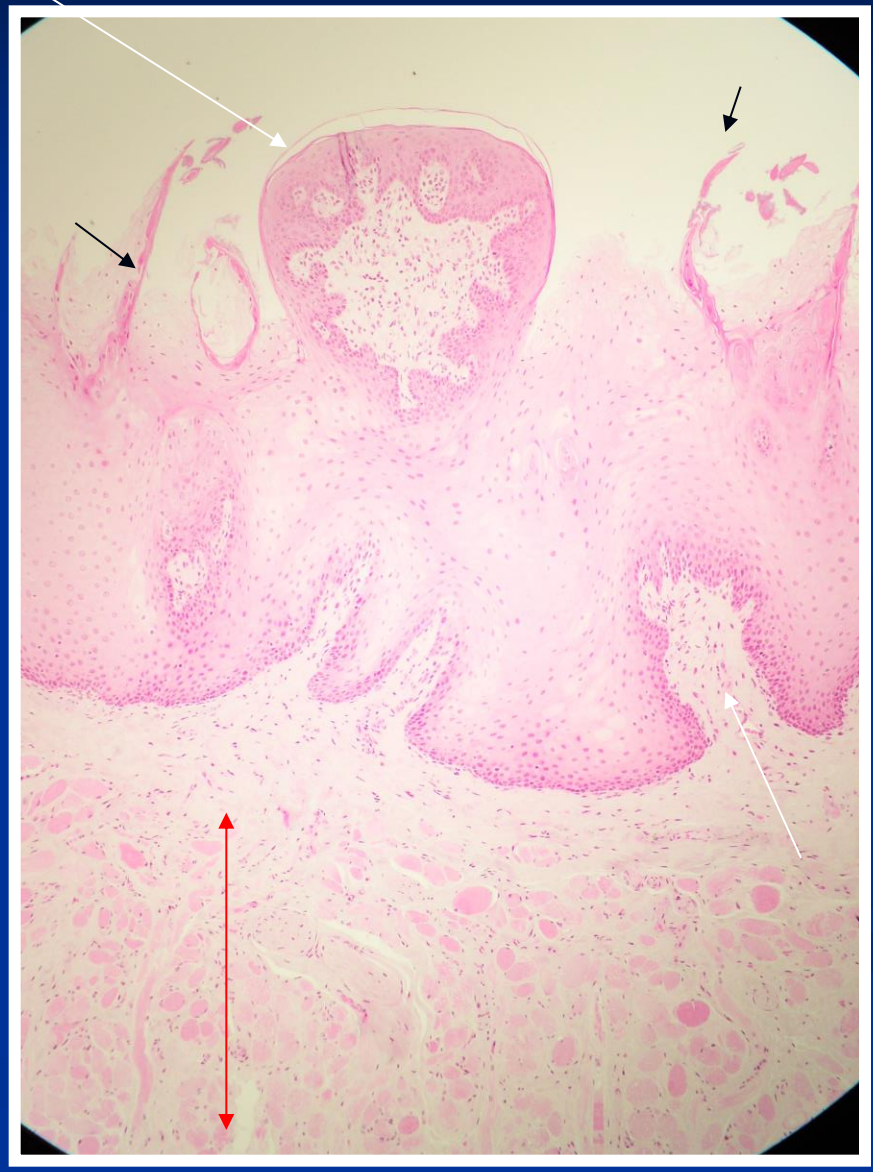


Filiform Papillae



Fungiform papilla

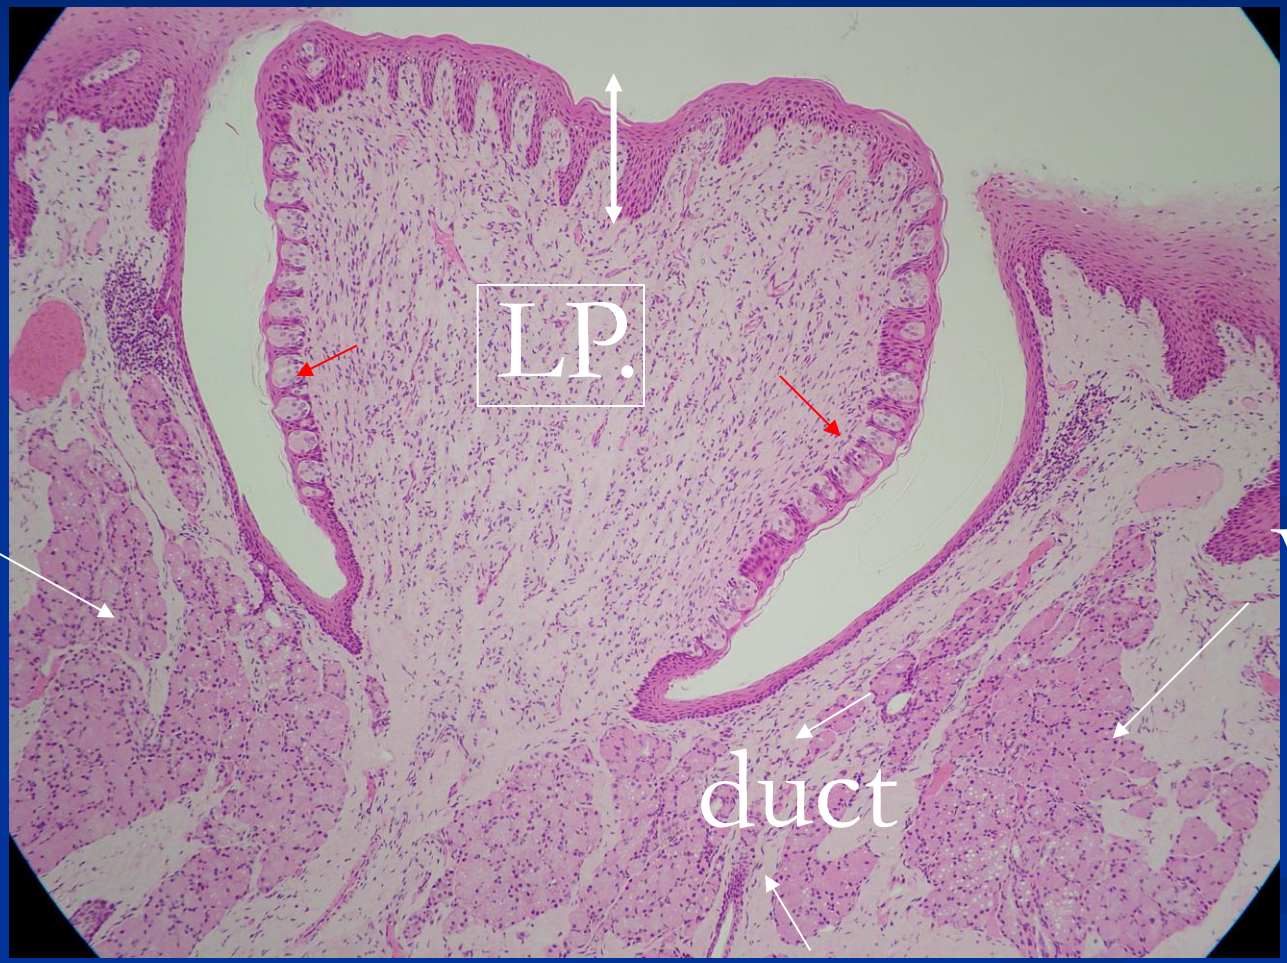




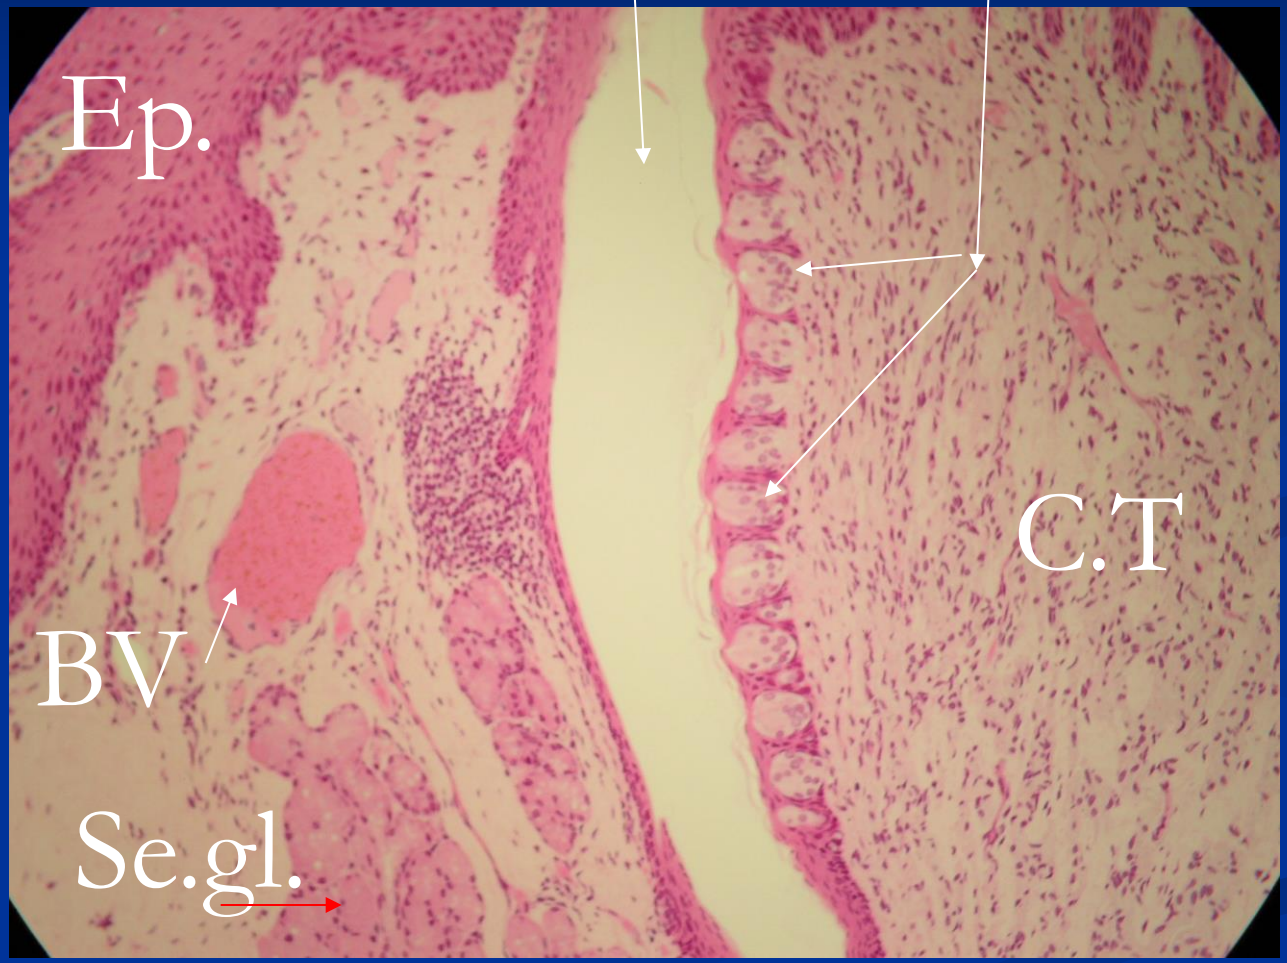
Str. Squa.Ep..

Circumvallate Papilla
sulcus=groove
VonIbner's gland

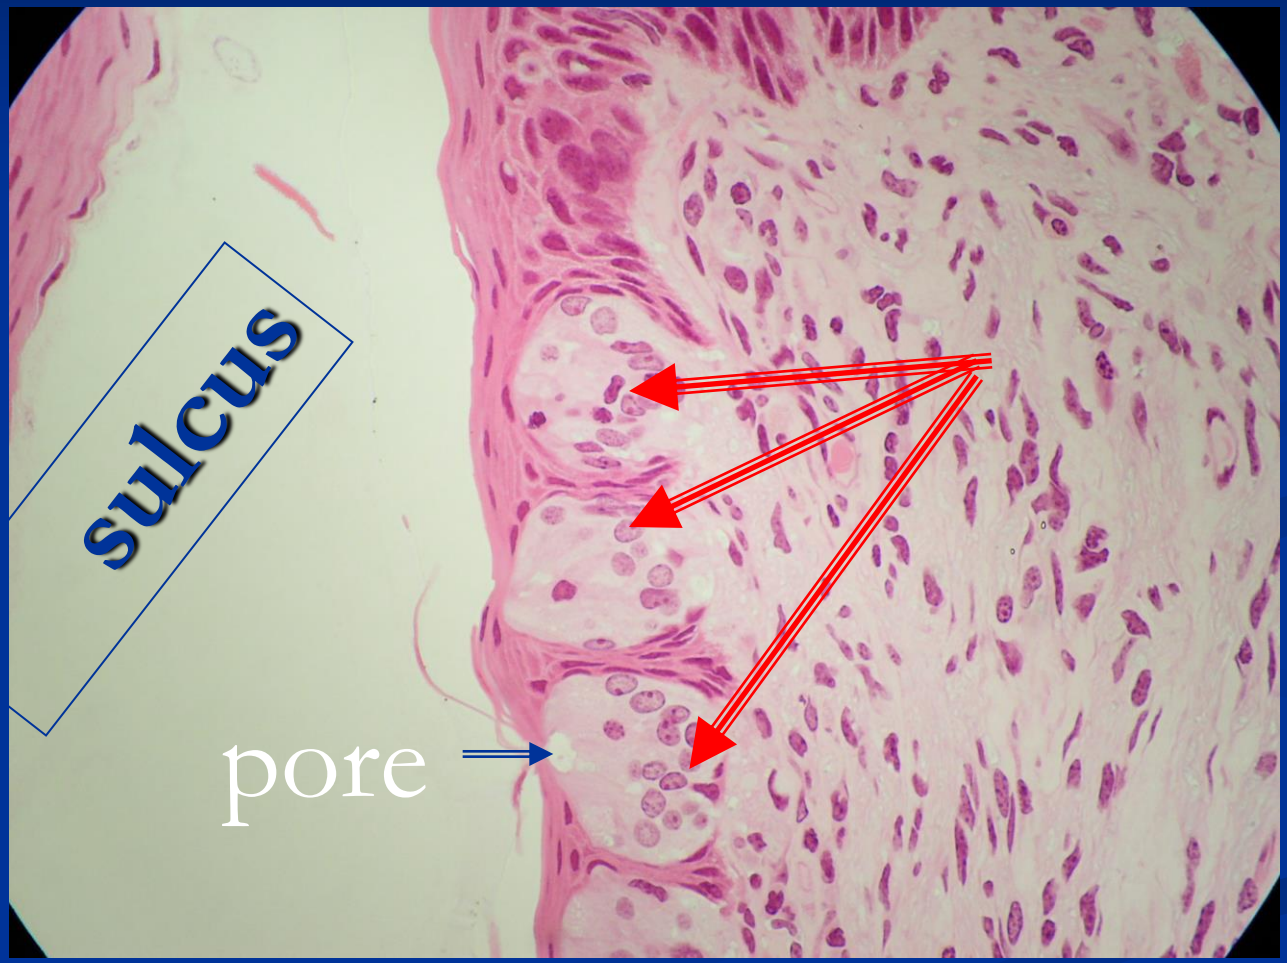
Taste bud

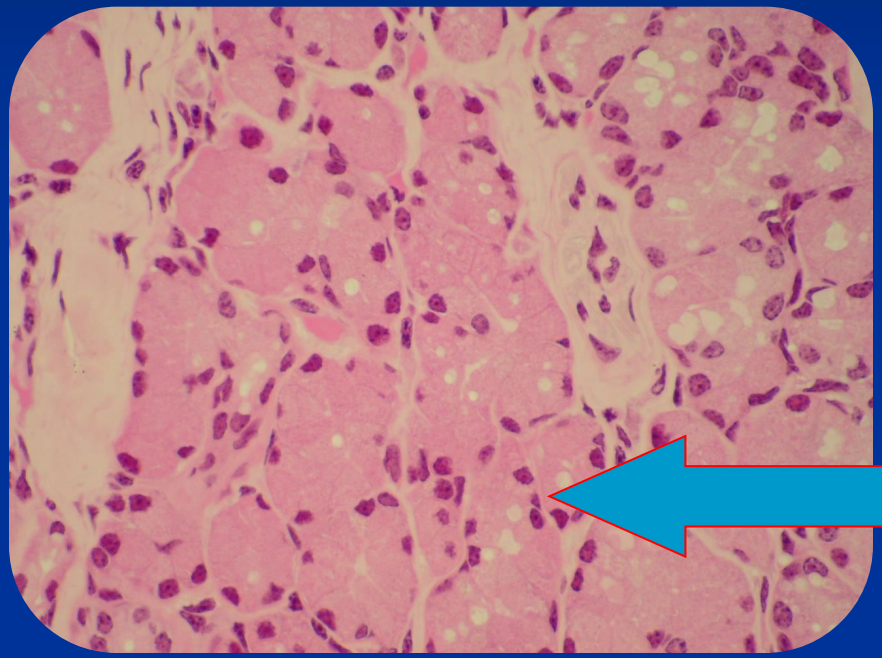


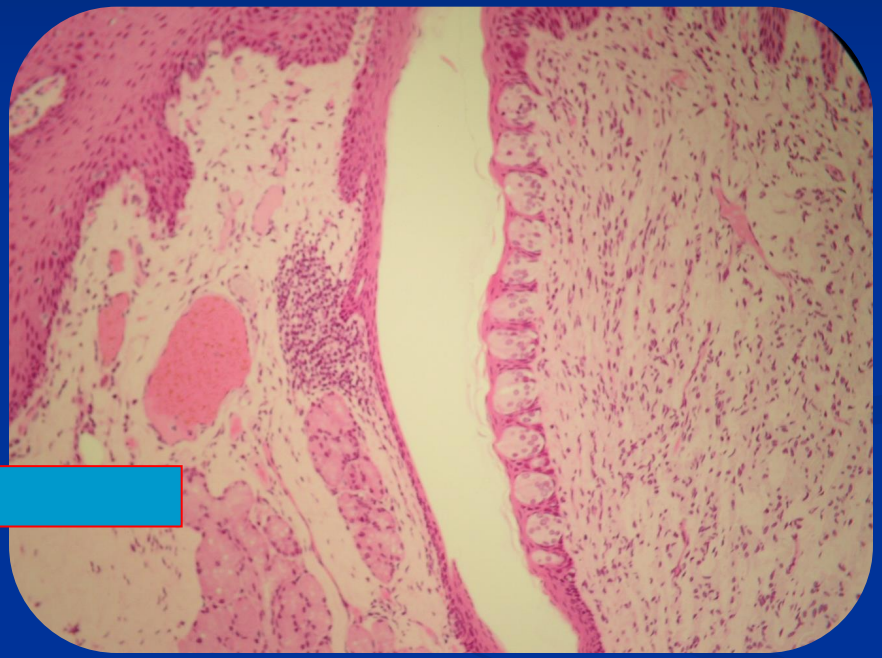
Serous gl. sulcus Taste bud



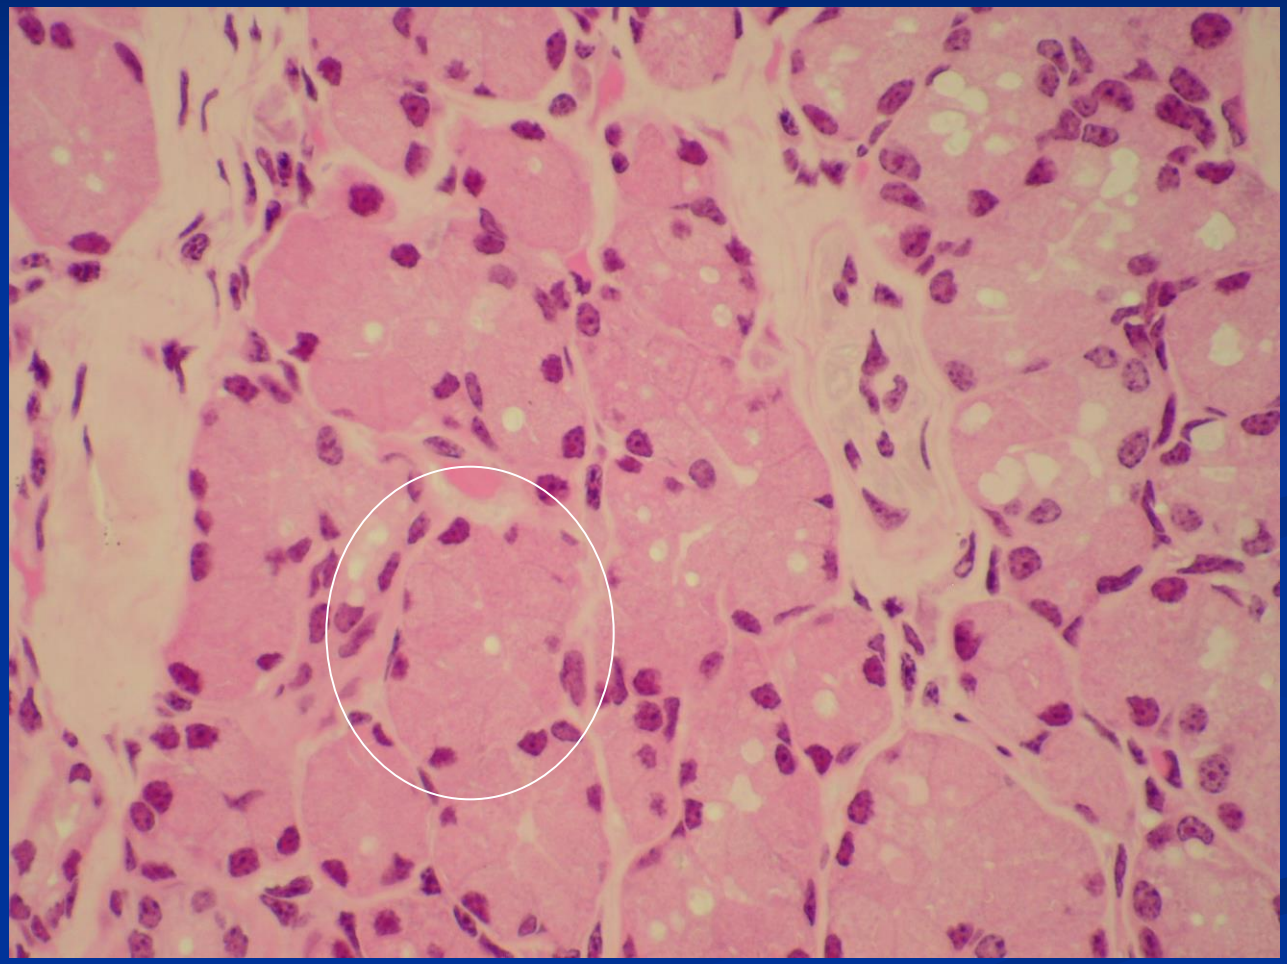
Taste bud





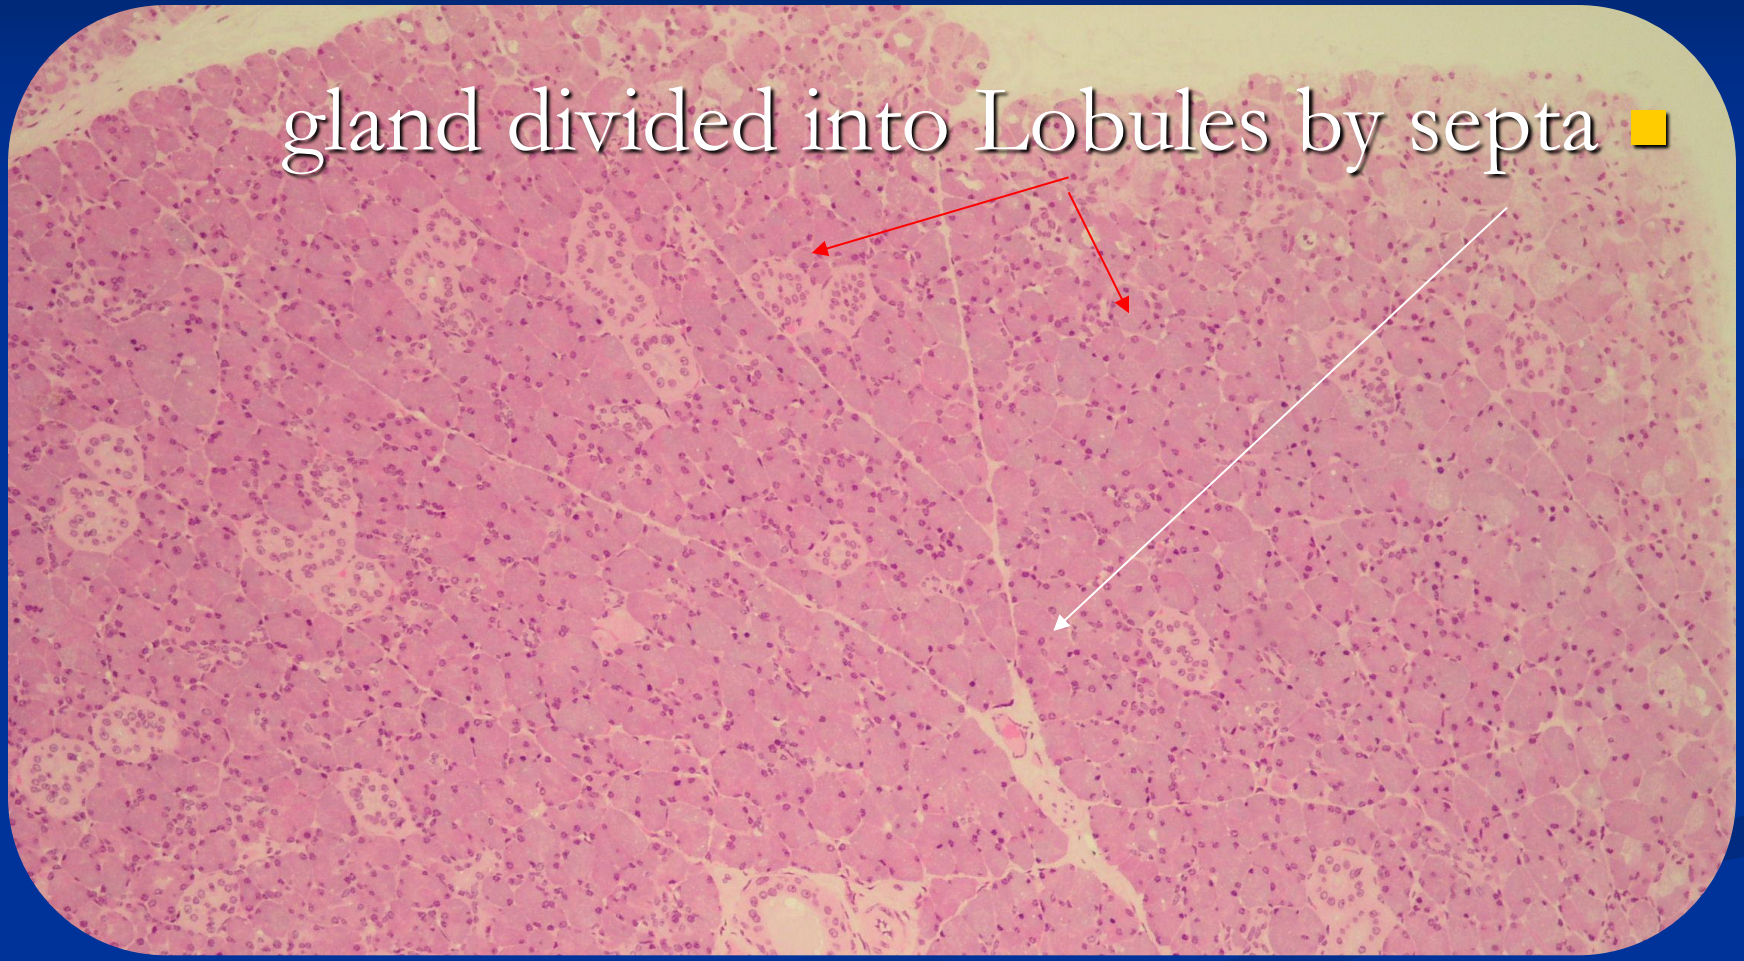


Serous acinus

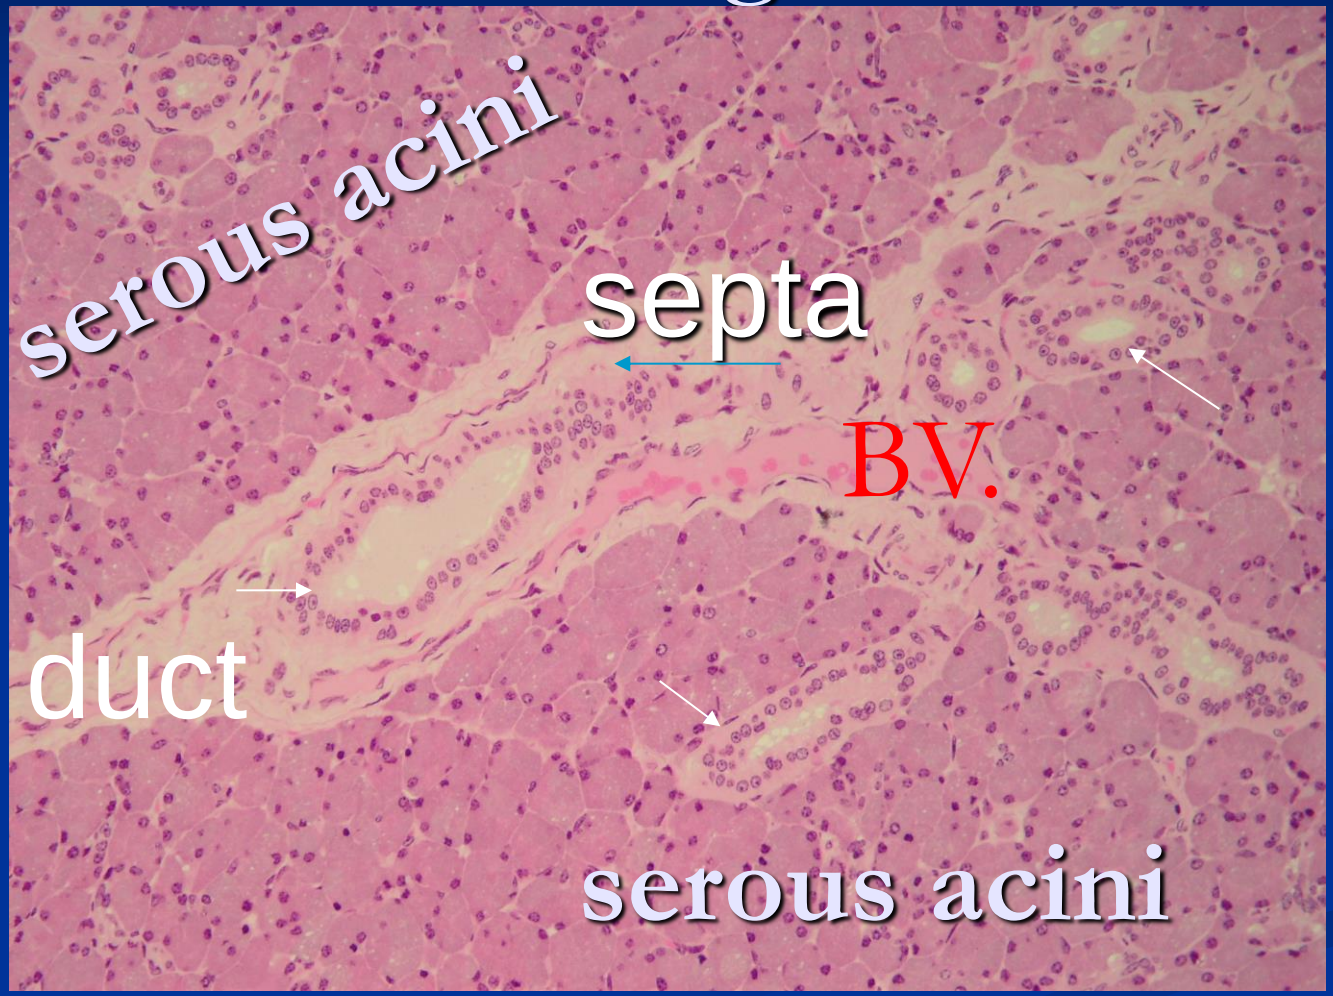


Salivary glands:
copound tubuloacinar gland
parenchyma&stroma

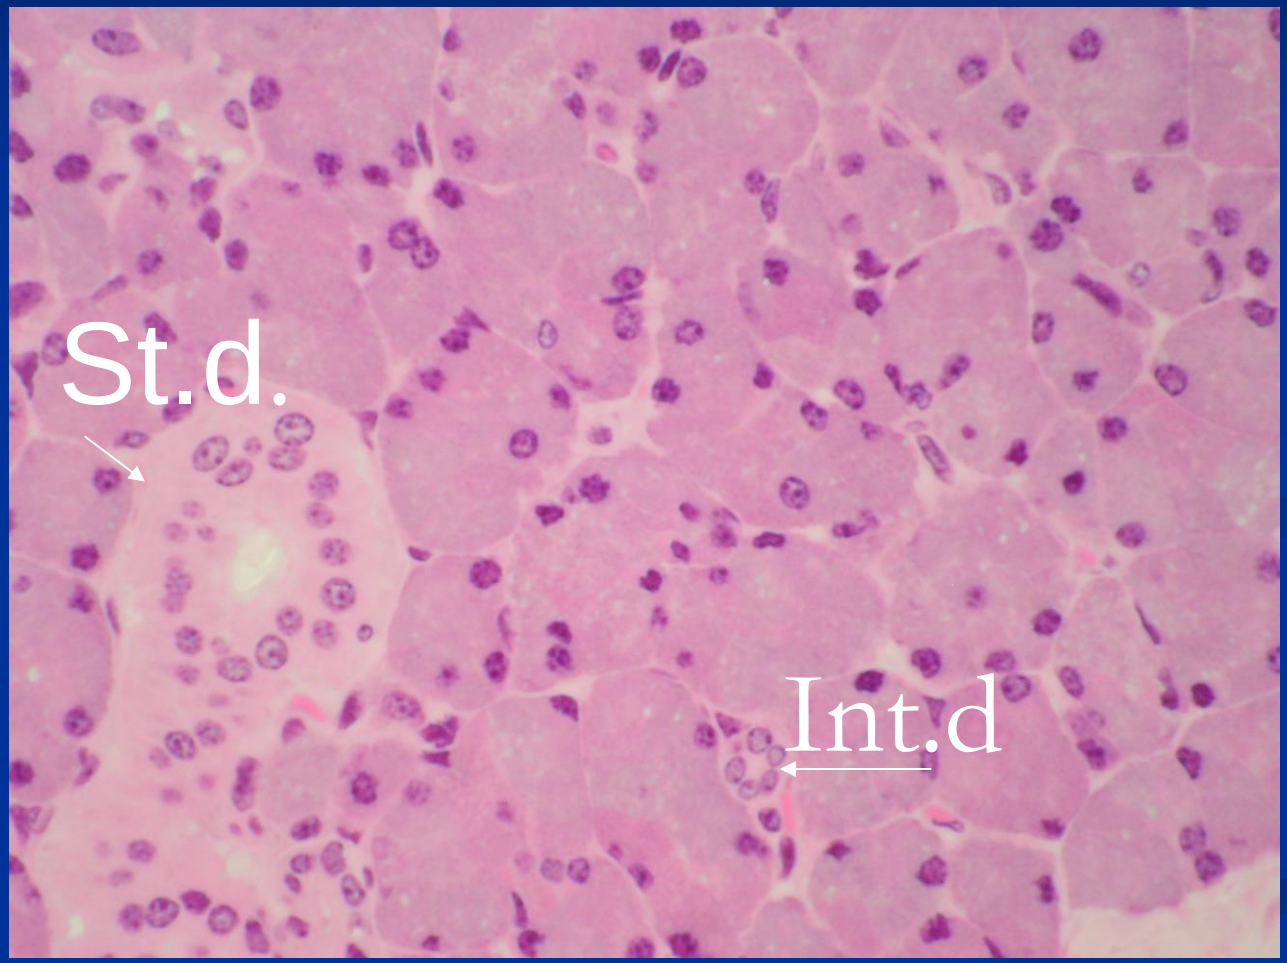
Parotid gland:

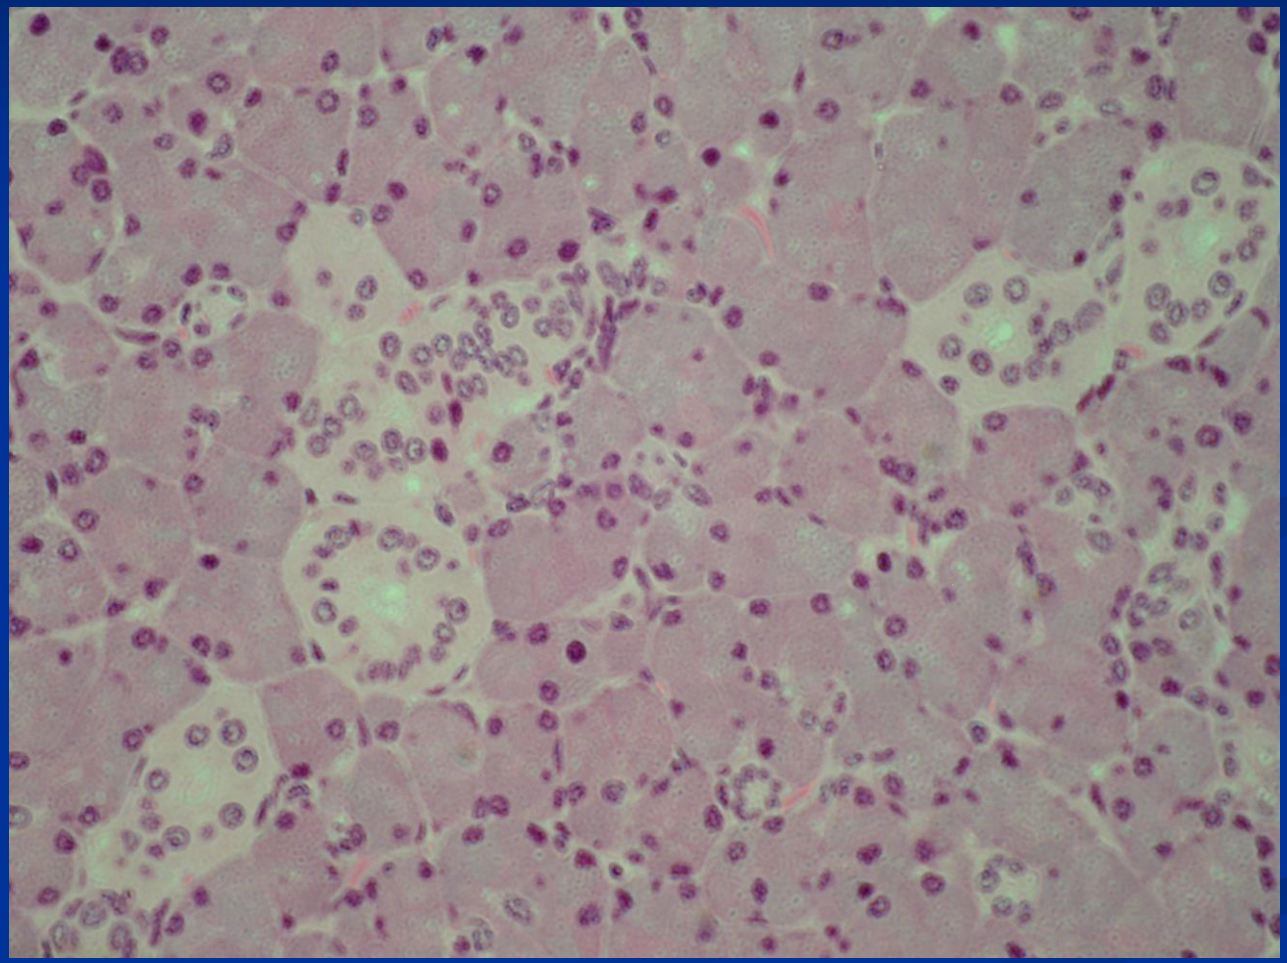


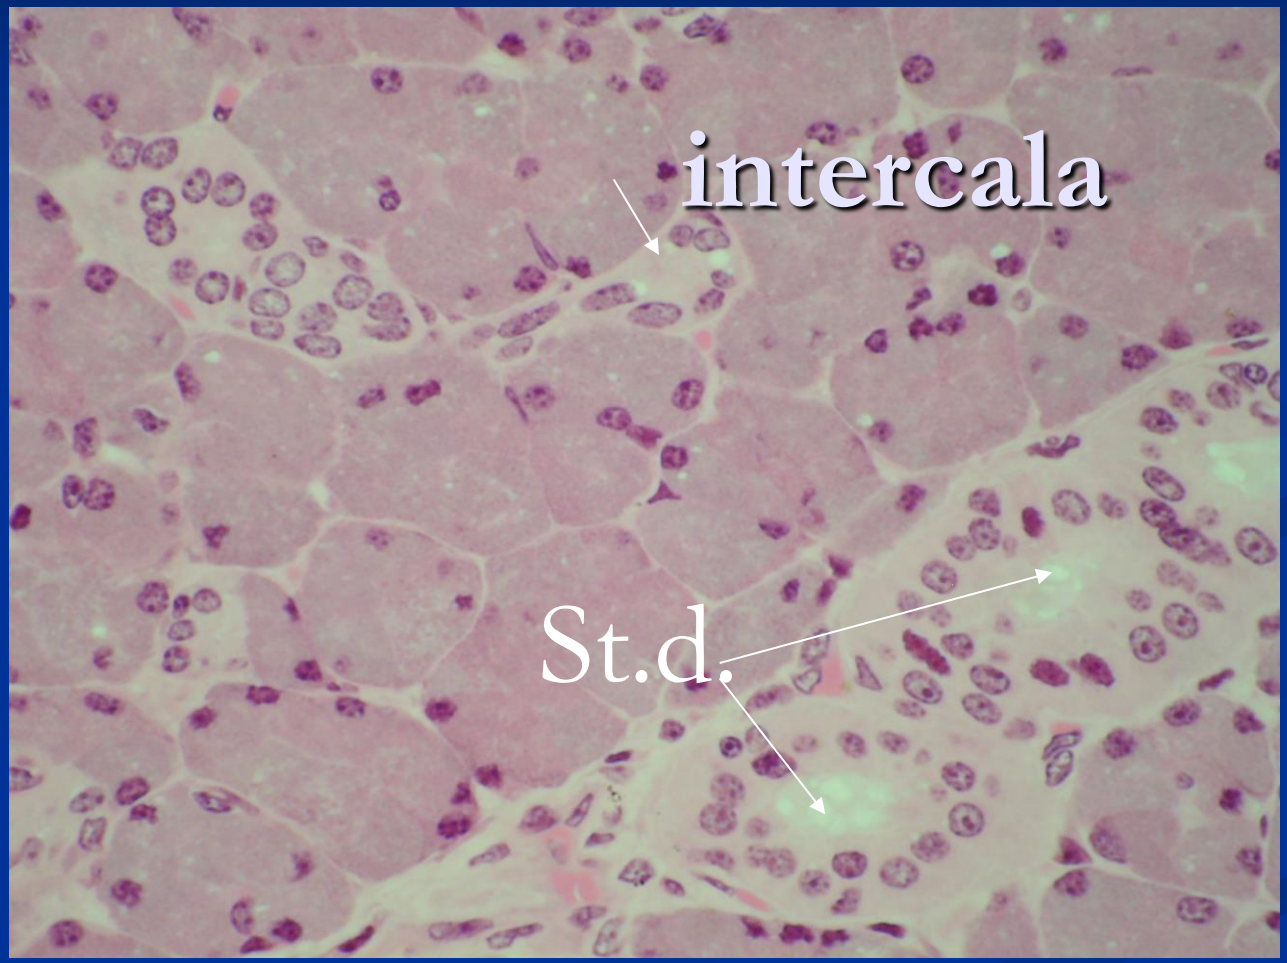
Parotid gland: serous gland



Striated&intercalated (Intralobular duct)



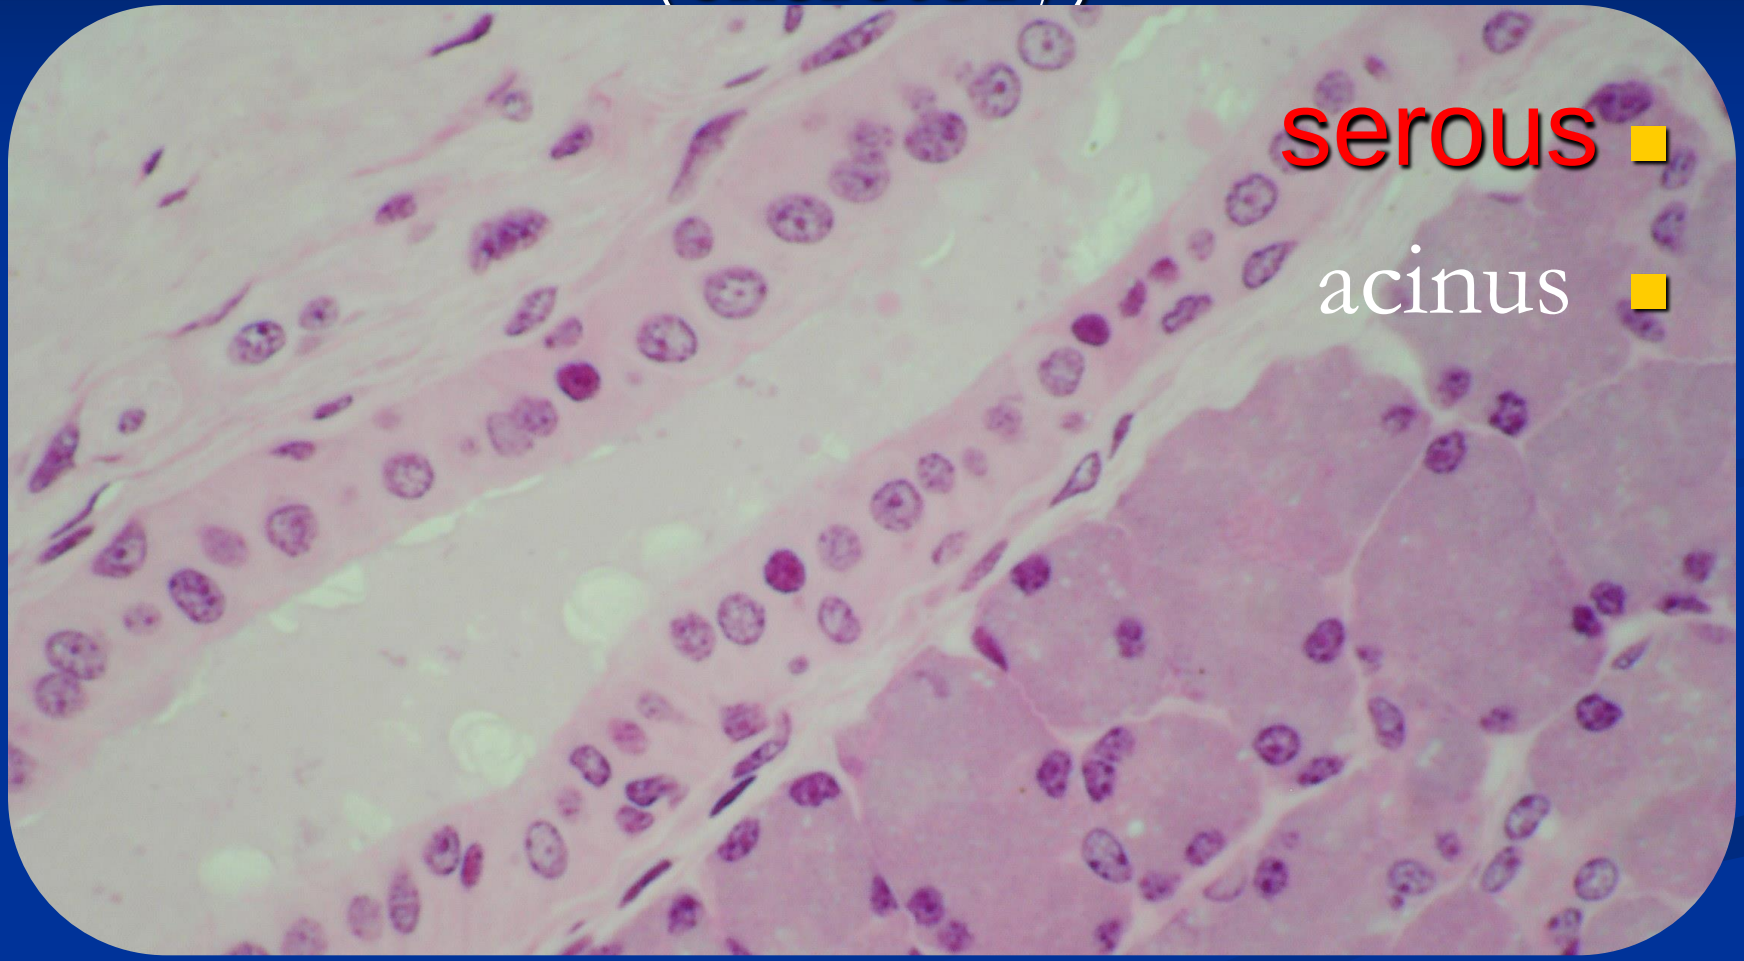




intercala
St.d.

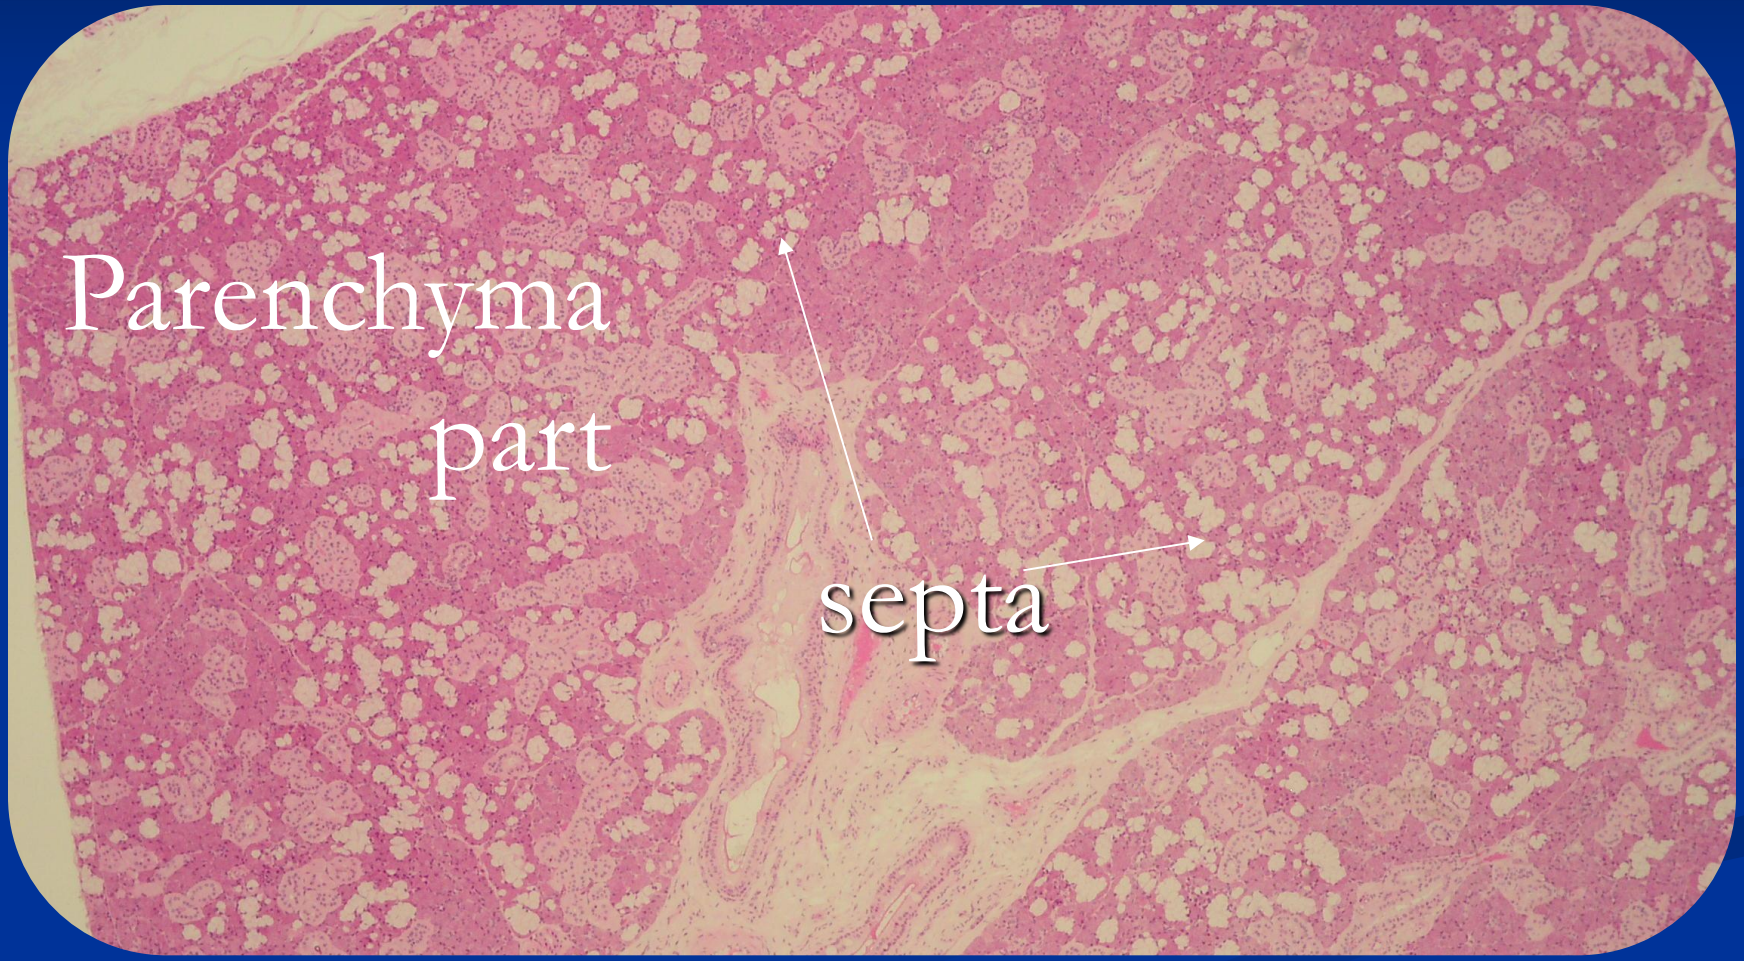
Serous acinus
Interlobular duct
Interlobular duct
S.

Interlobular duct (excretory)

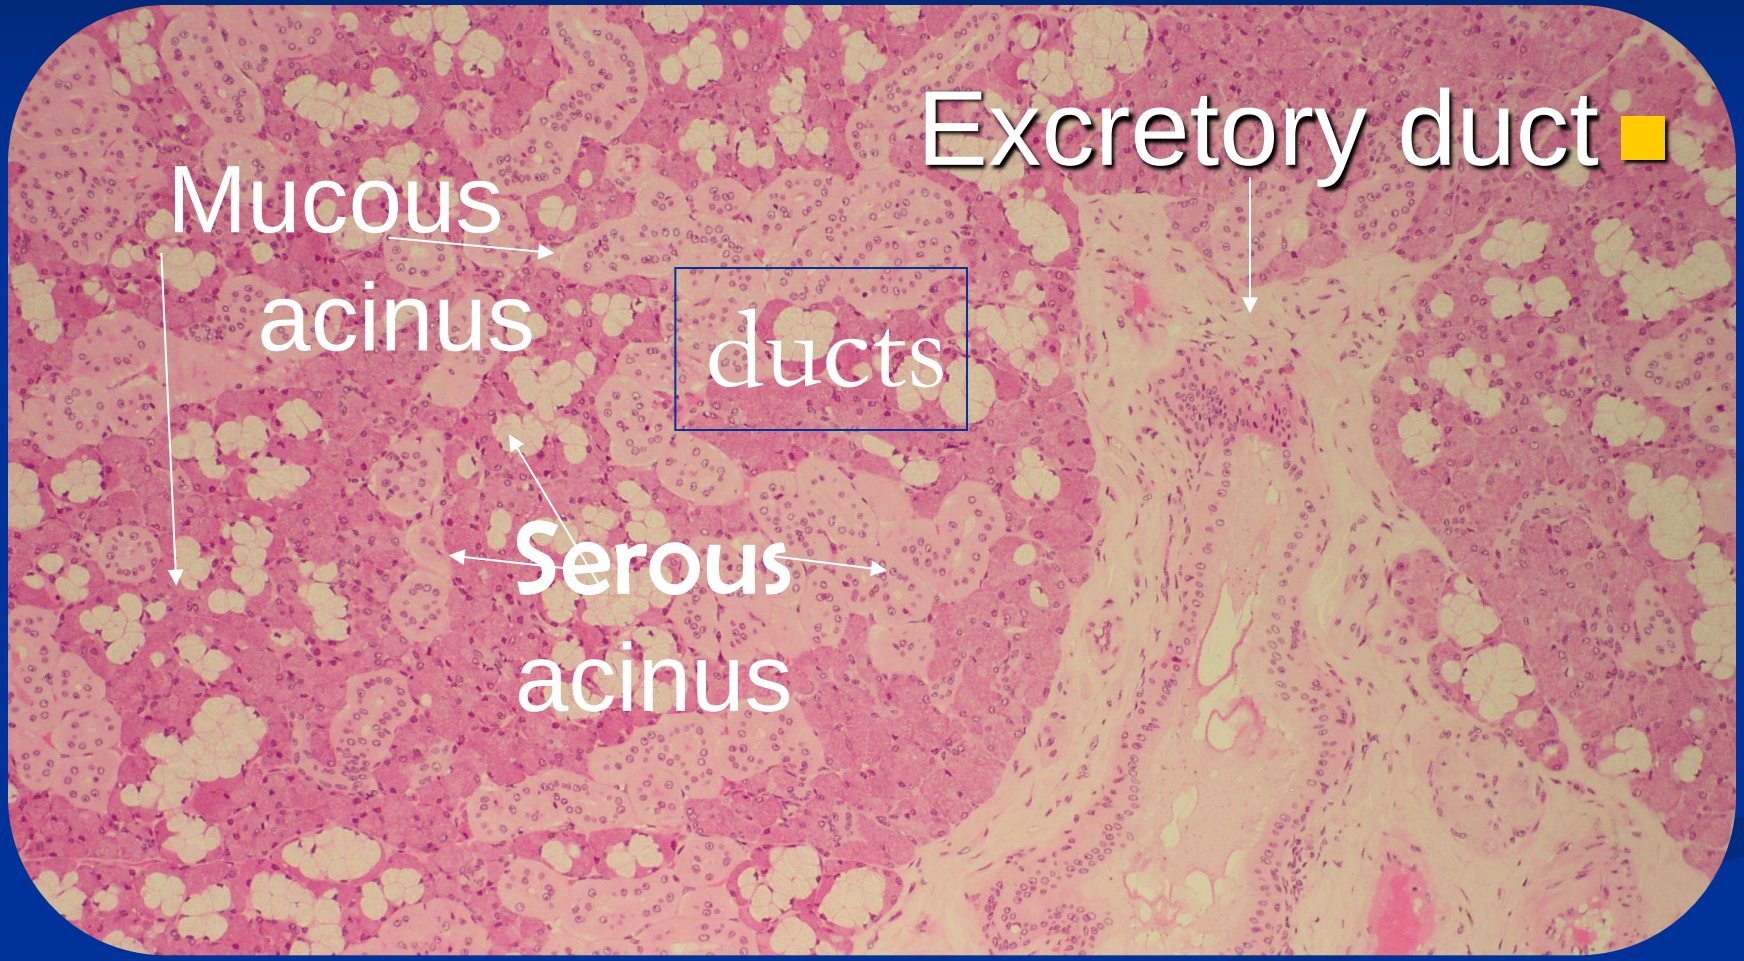


- serous
- acinus

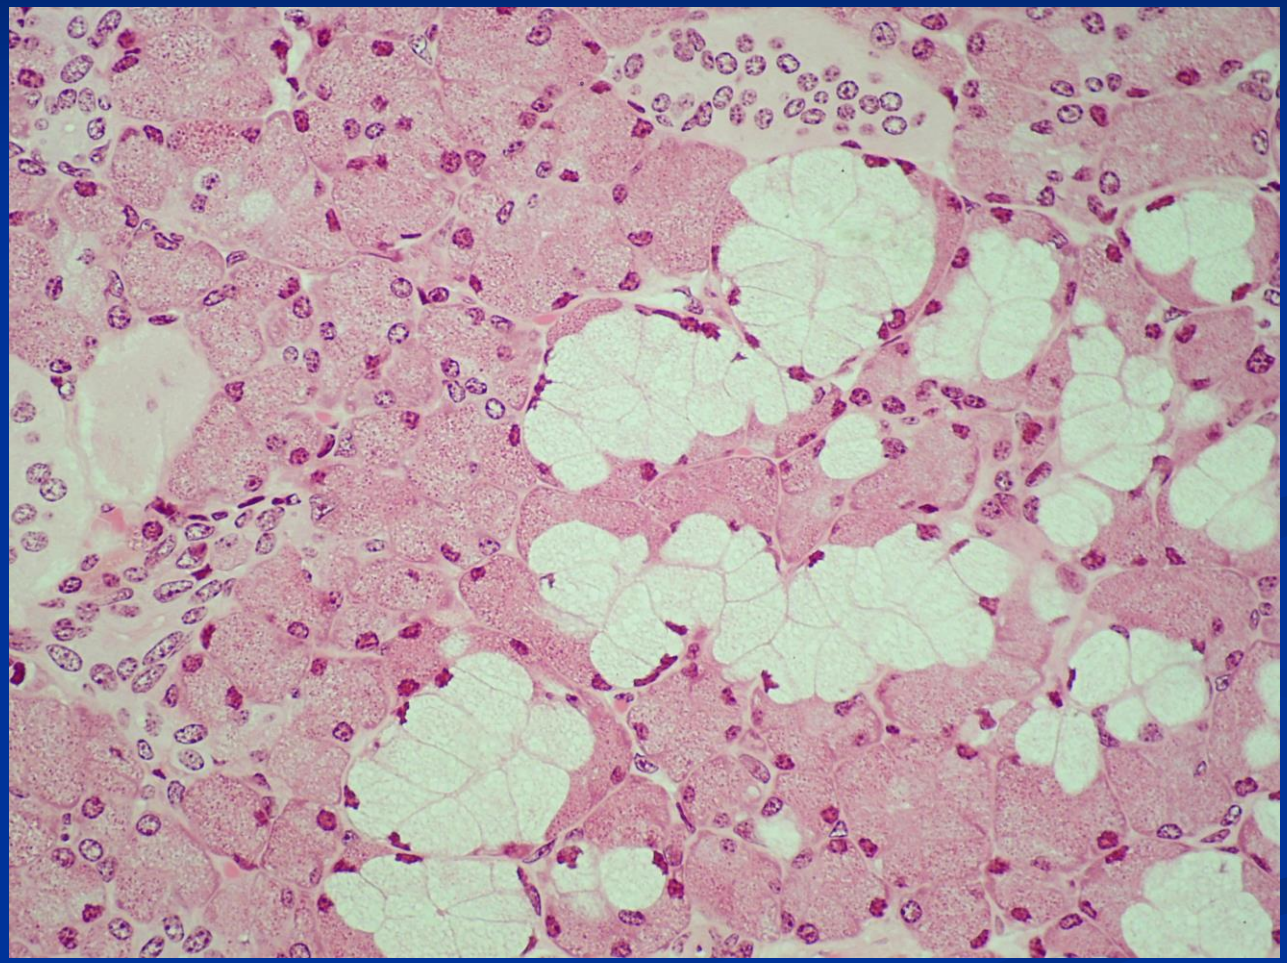
Submandibular gland

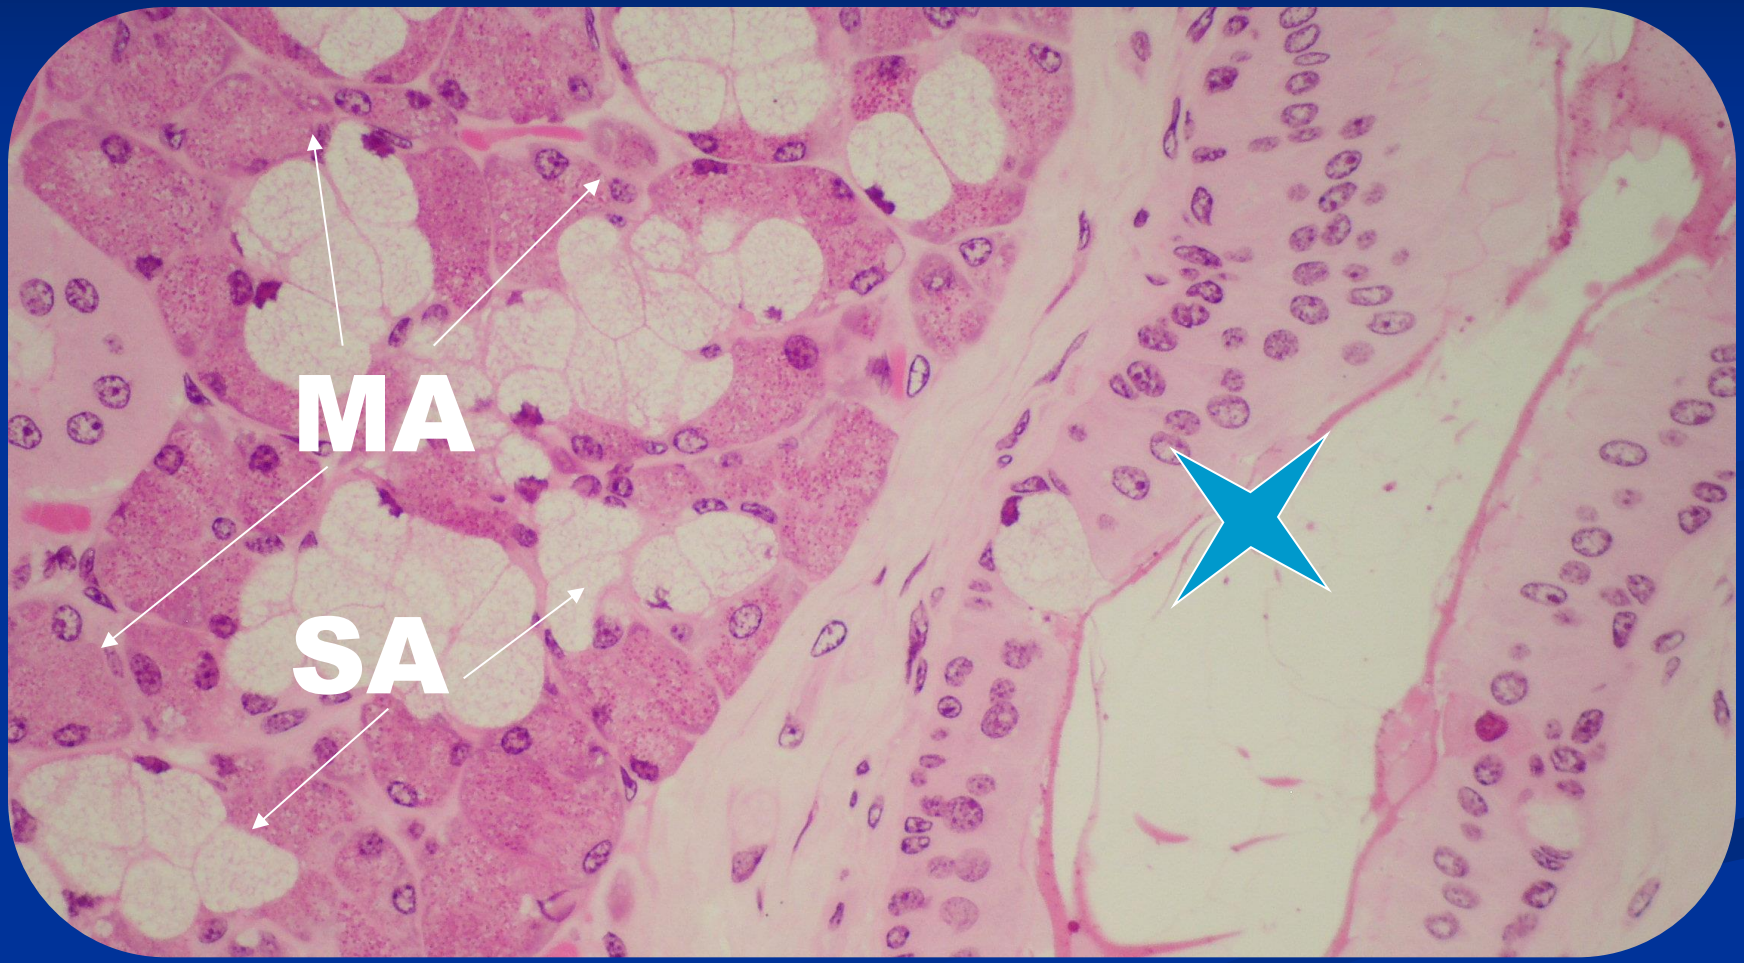


Seromucous gland(mixed)



Submandibular gland

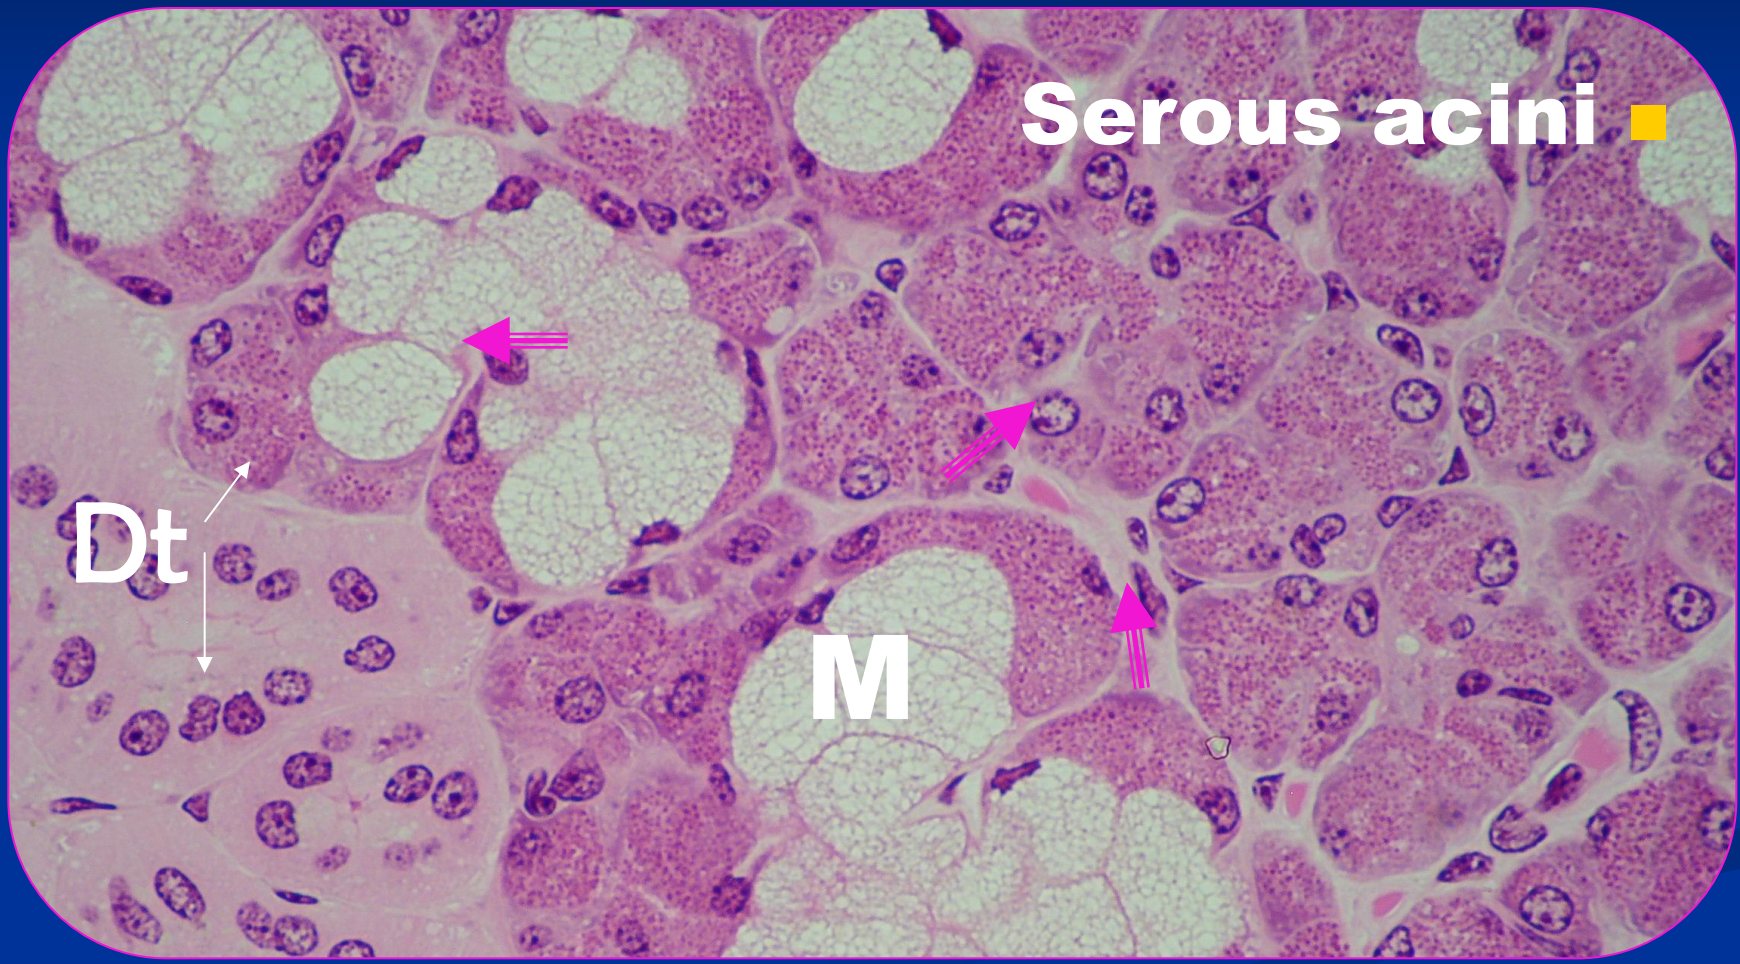




MA
SA

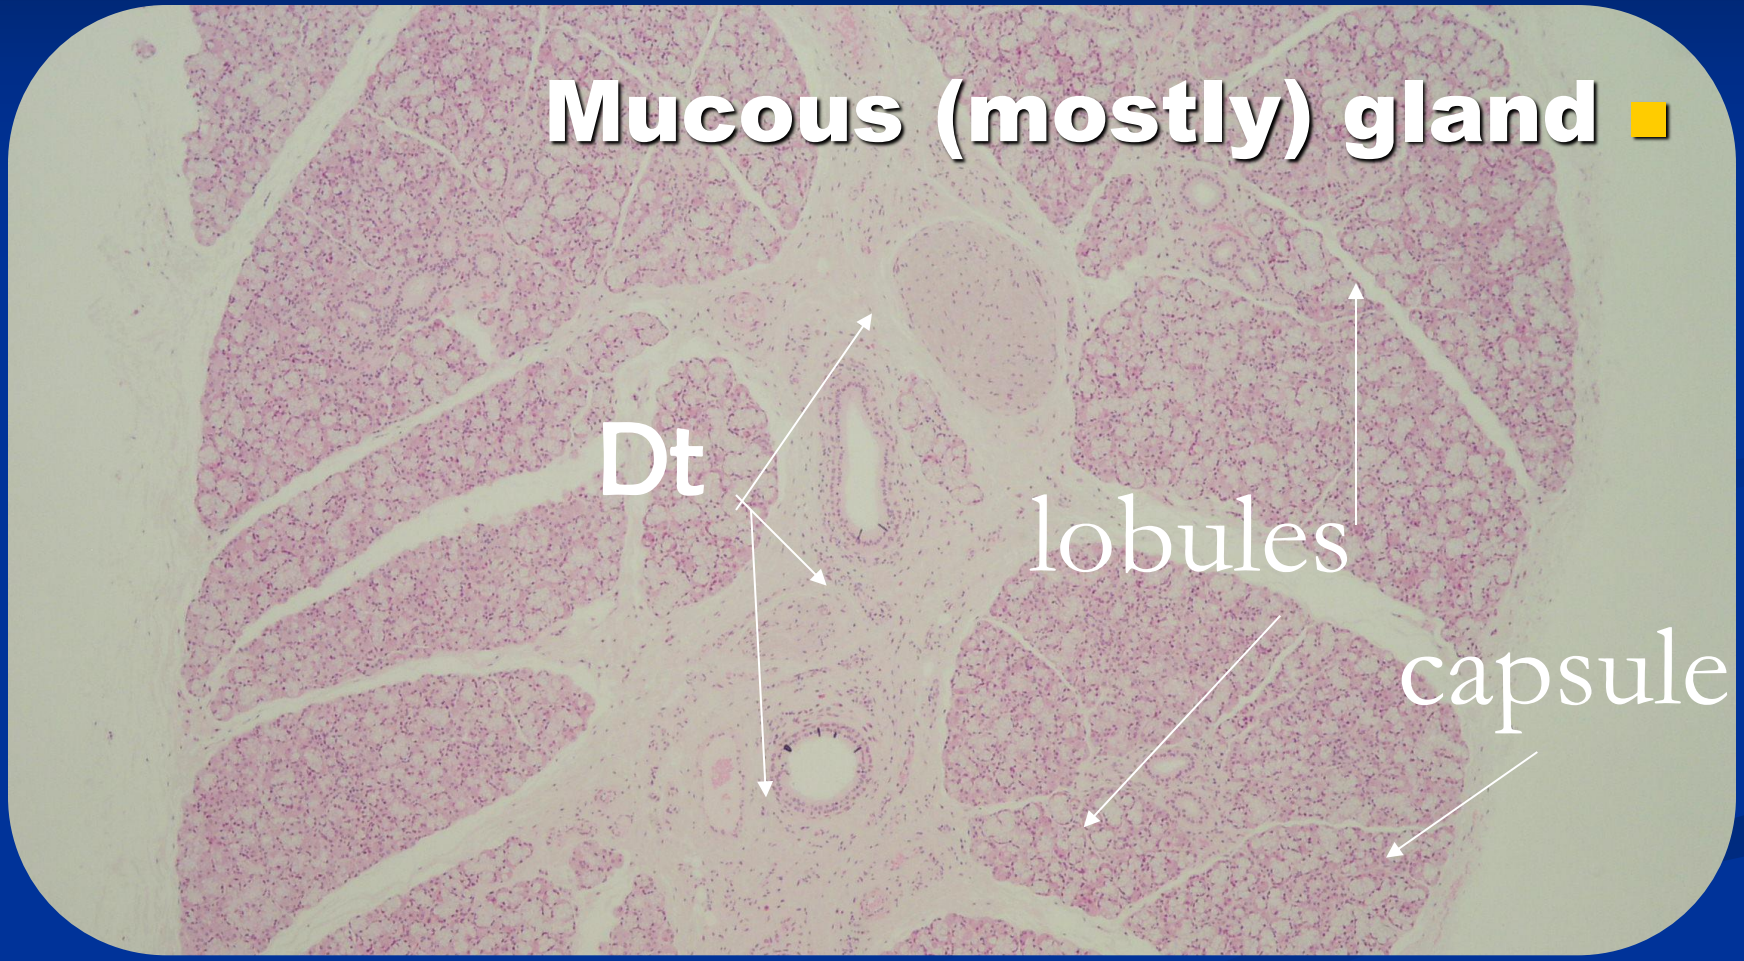
Serous demilune

Serous demilune

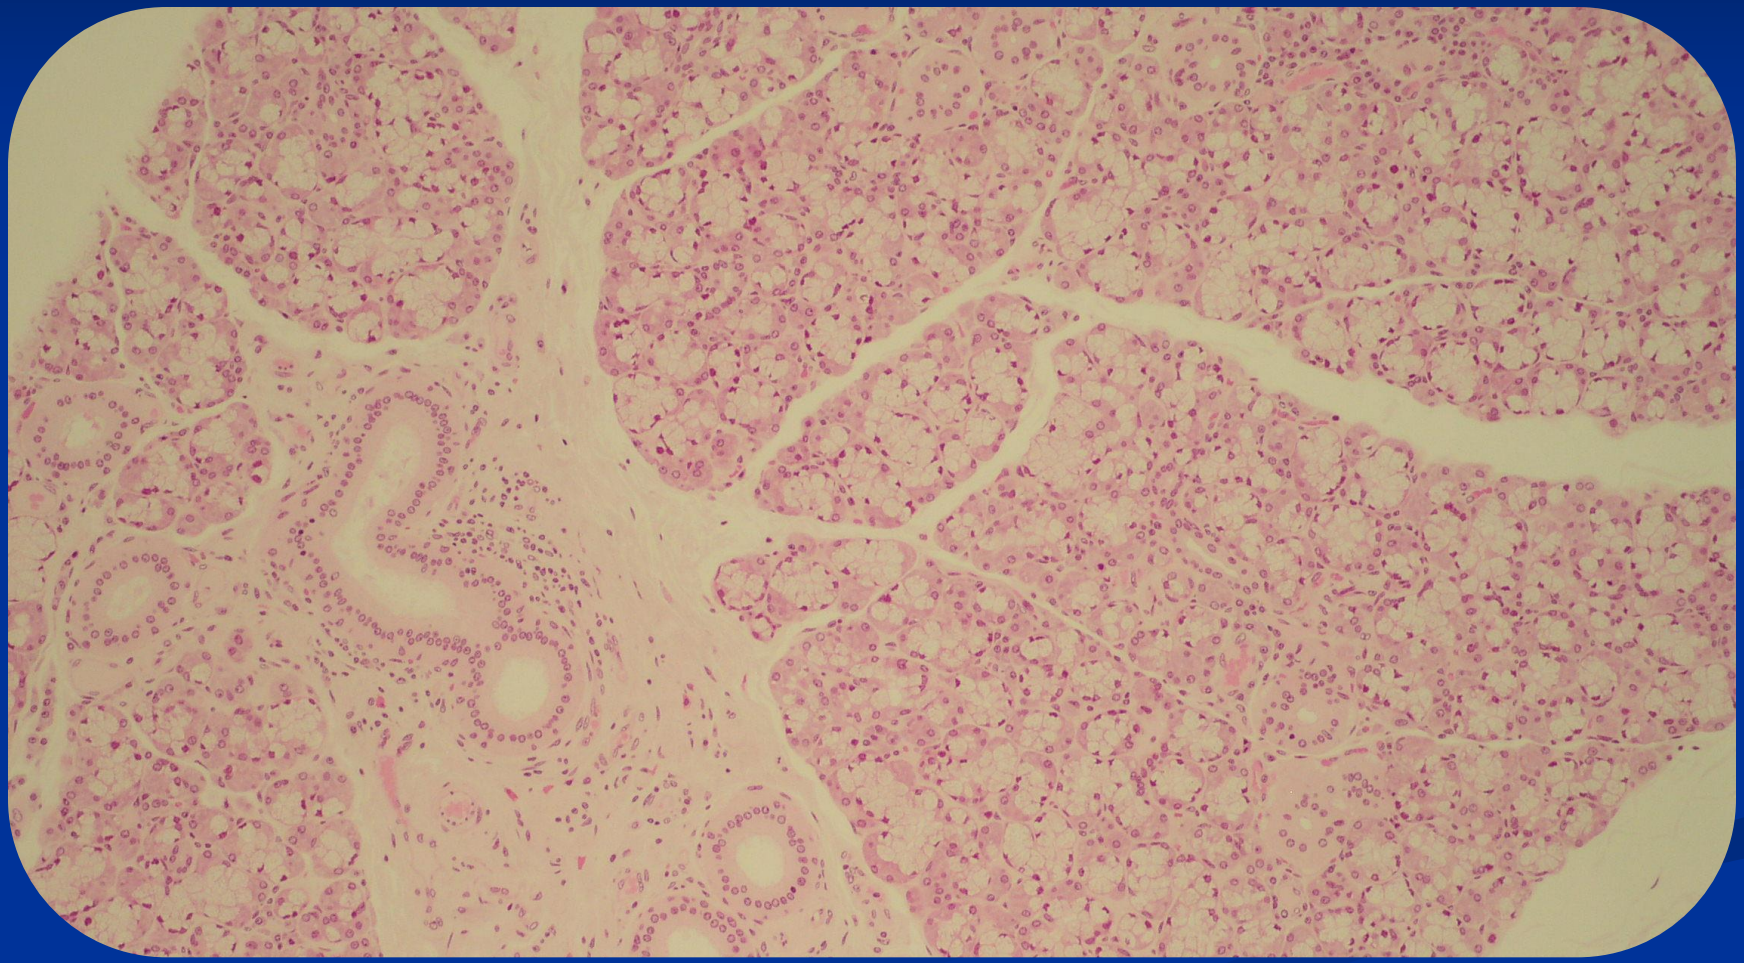


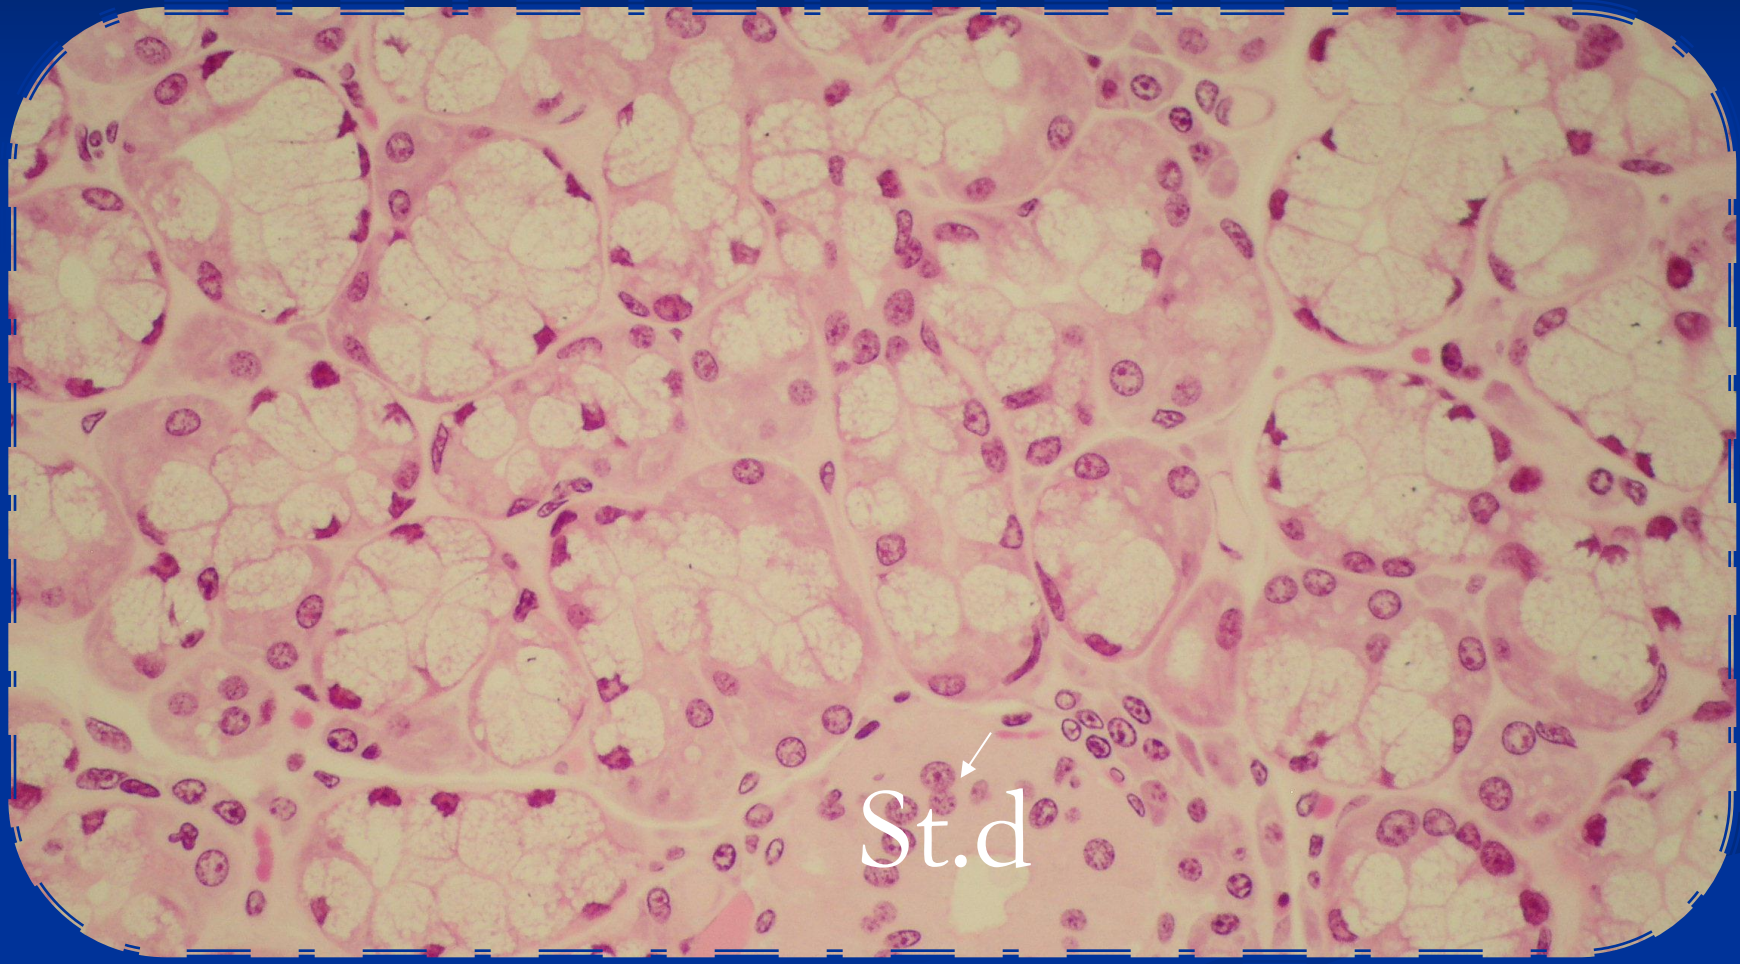
Sublingual gland

- **Mucous (mostly) gland**



copound tubuloacinar gland

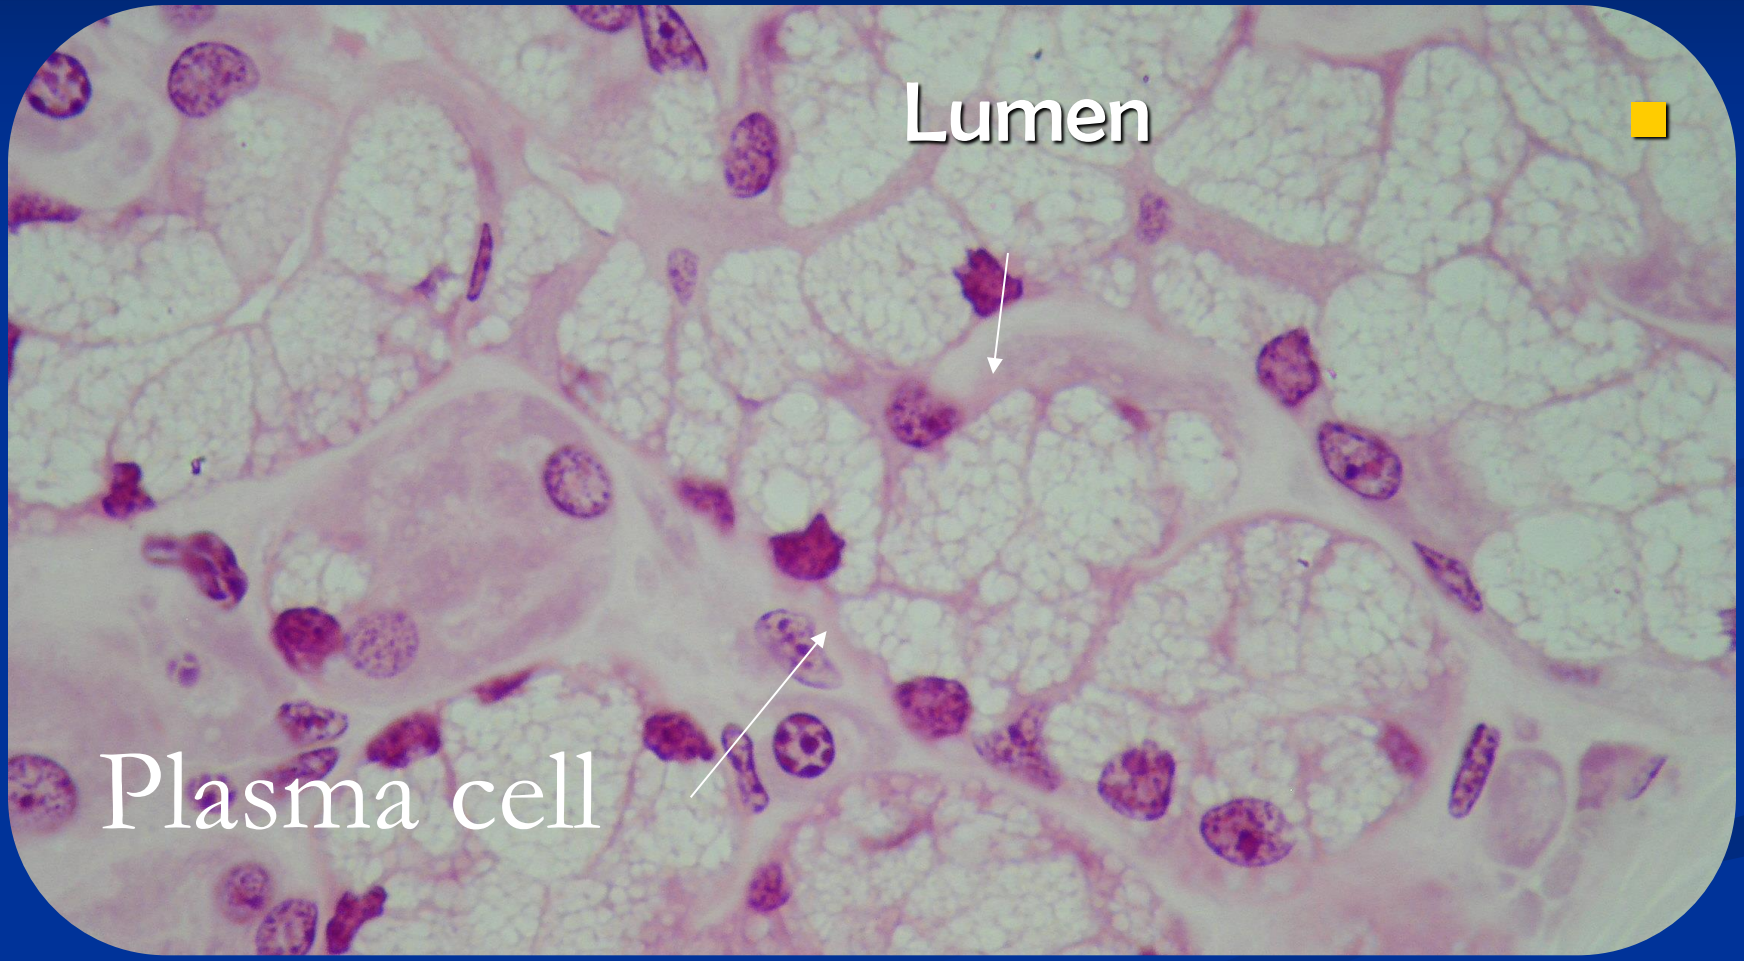




St.d

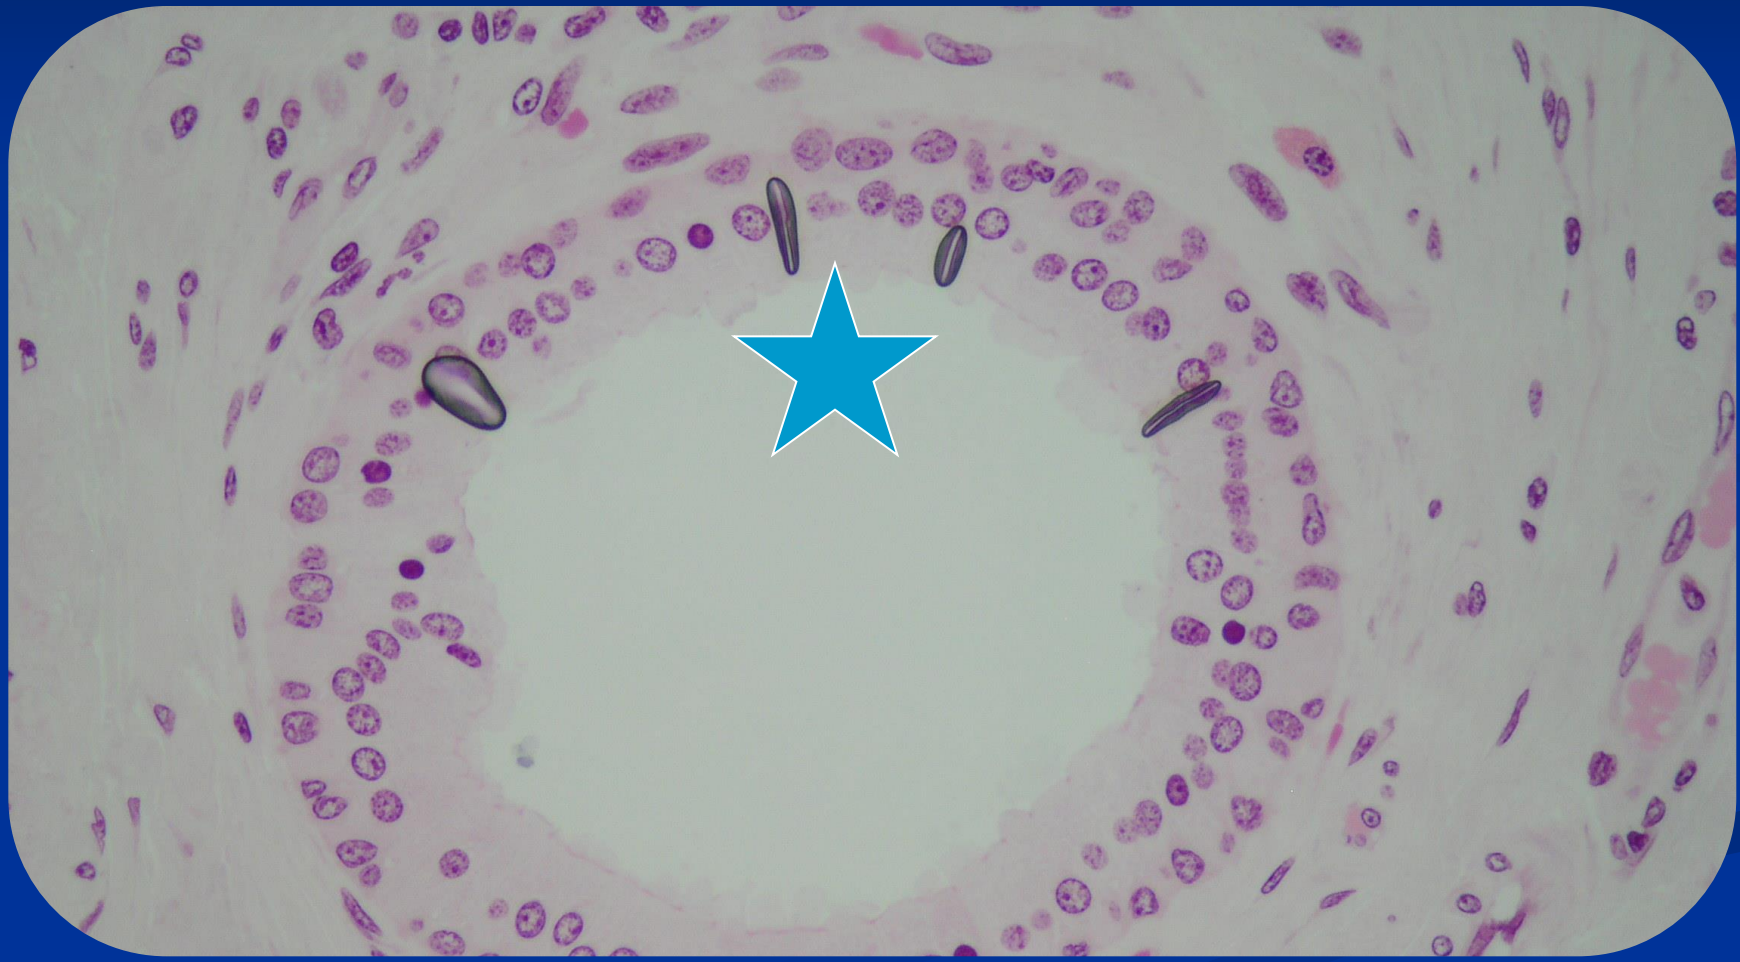
Serou demilune
MA

Sublingual gland



Lumen
Plasma cell

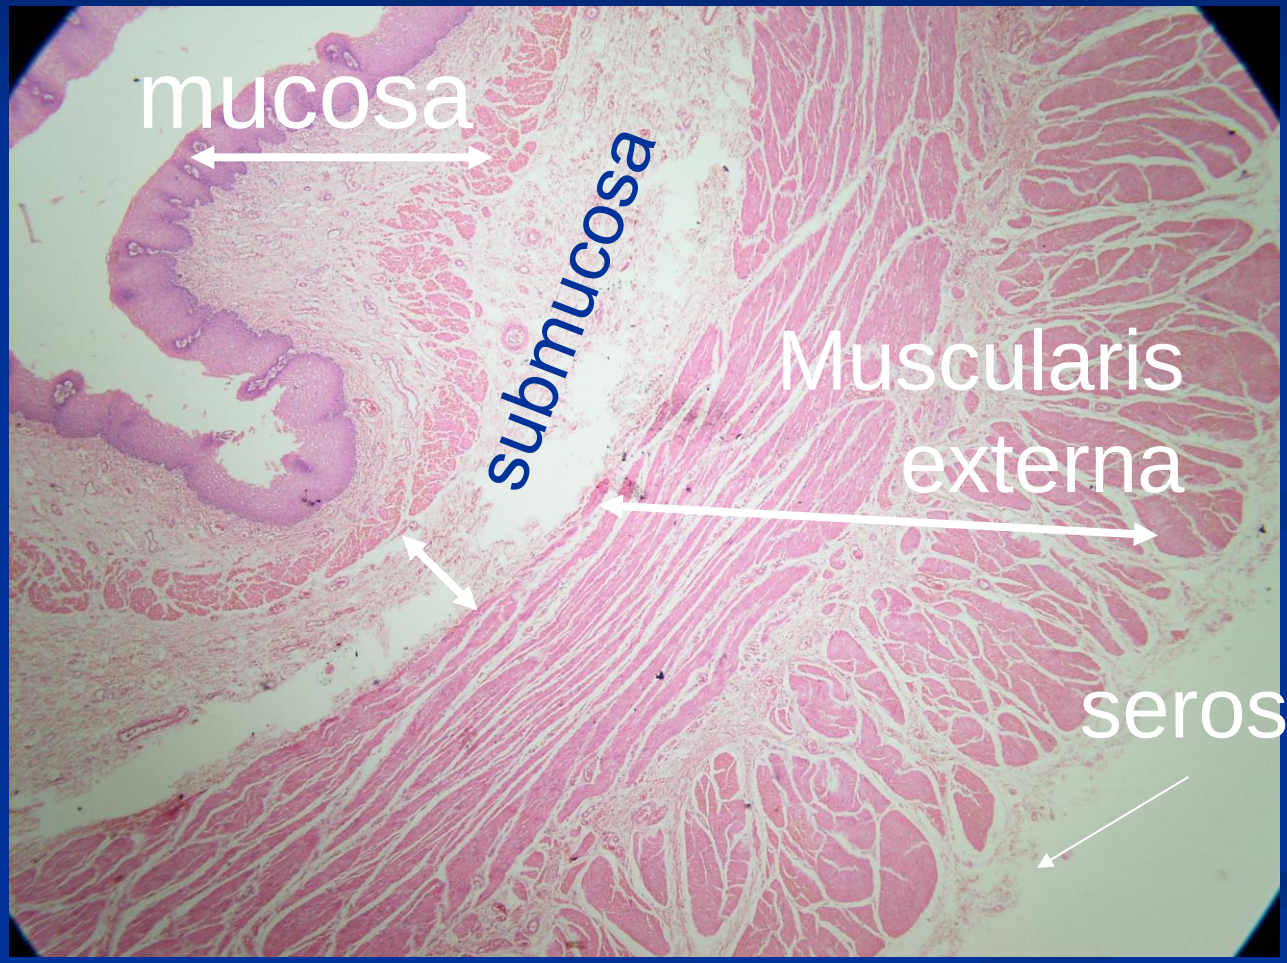
Strat. cubo.epth. duct



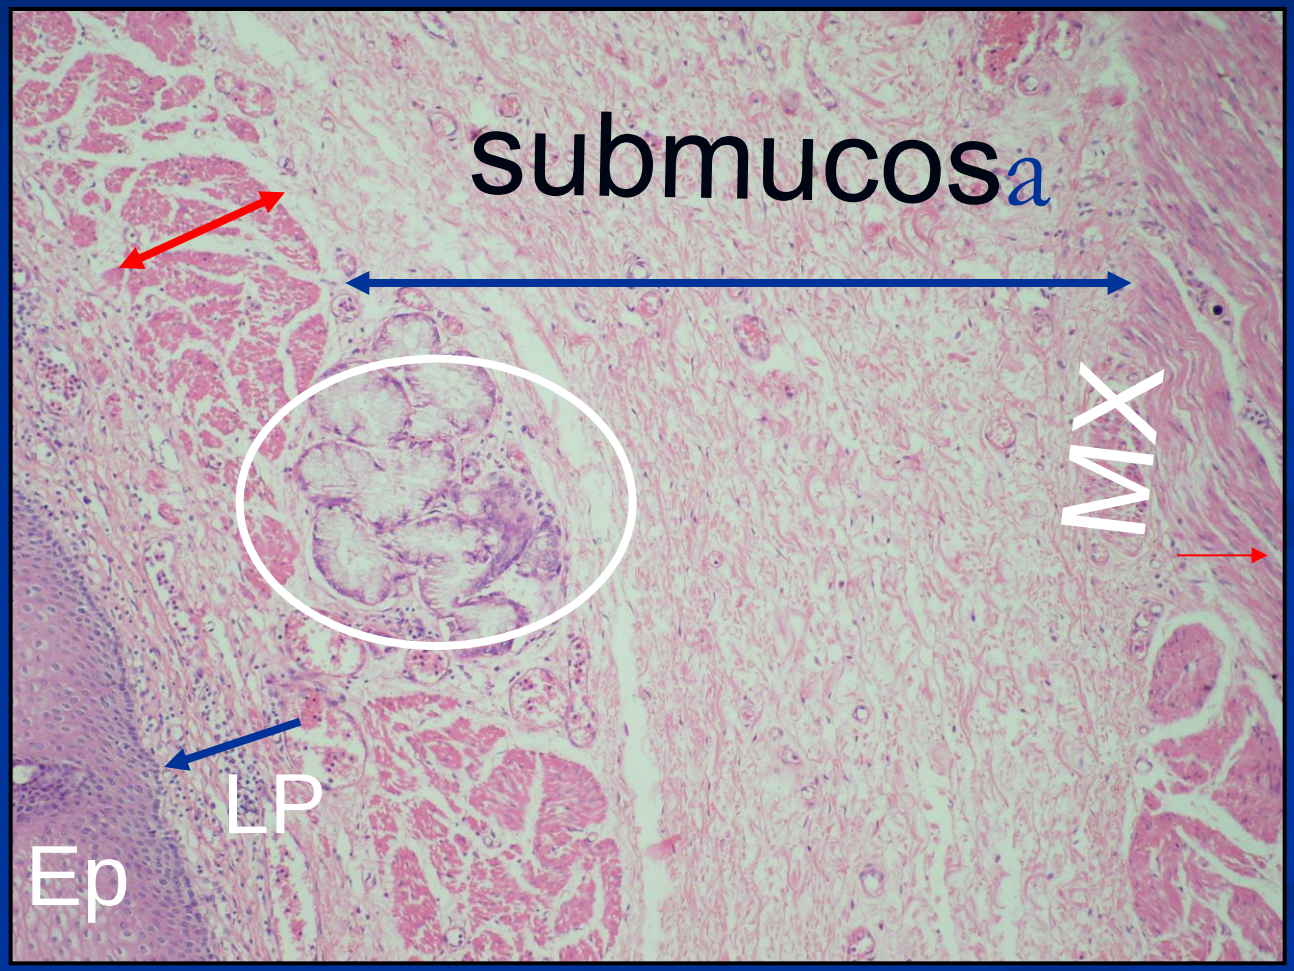
Esophagus

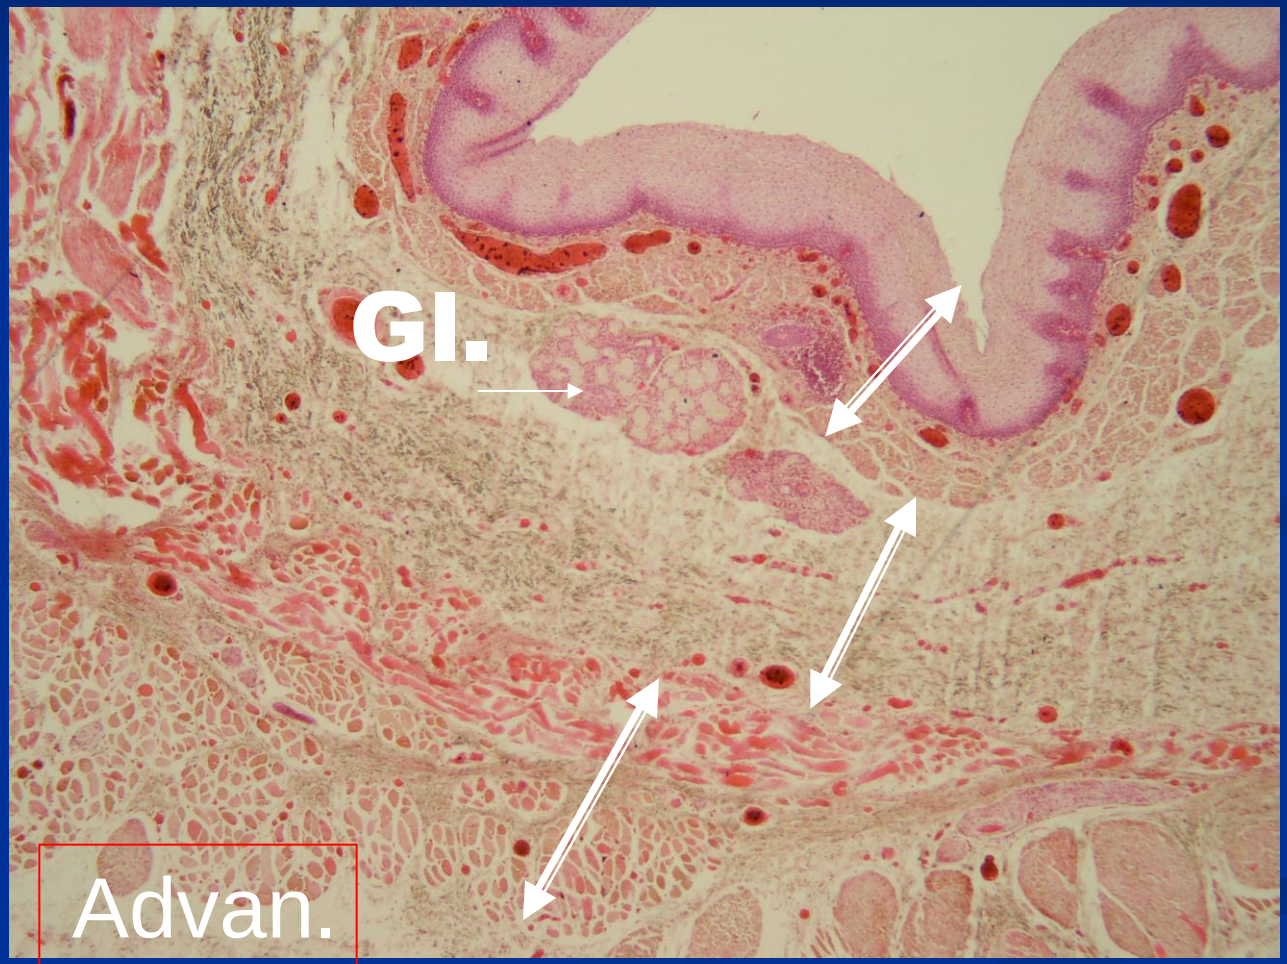
Esophagus(star lumen)

Esophagus(lower third)



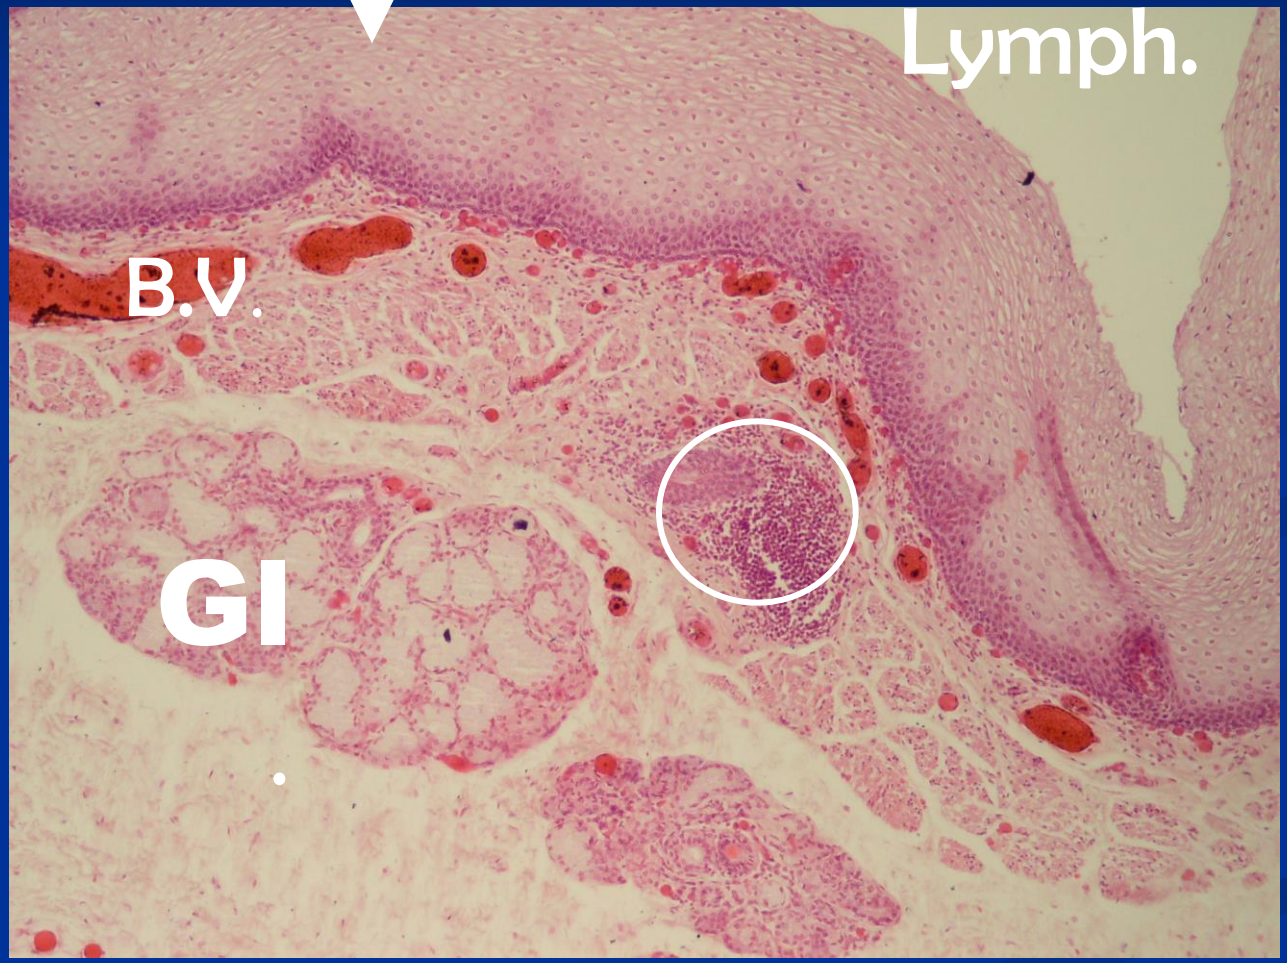
Eosophageal proper gland
muscularis mucosa



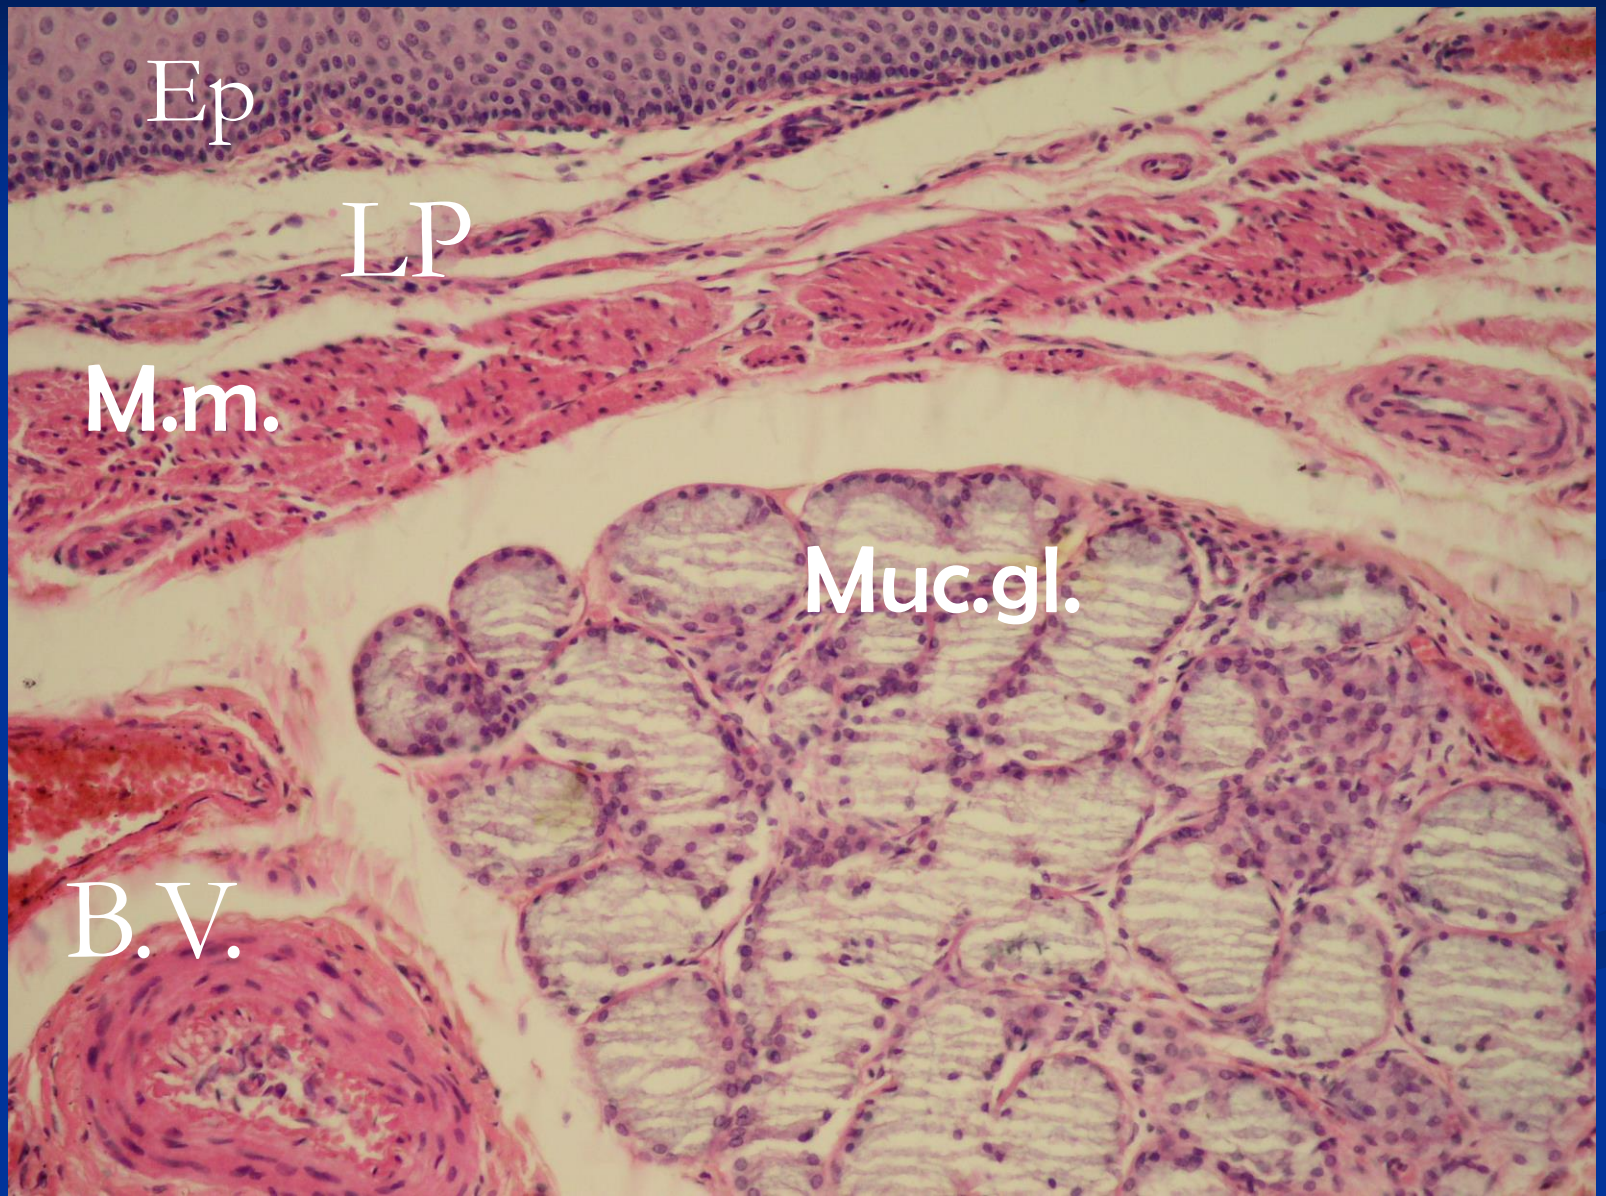


Gl.
Advan.

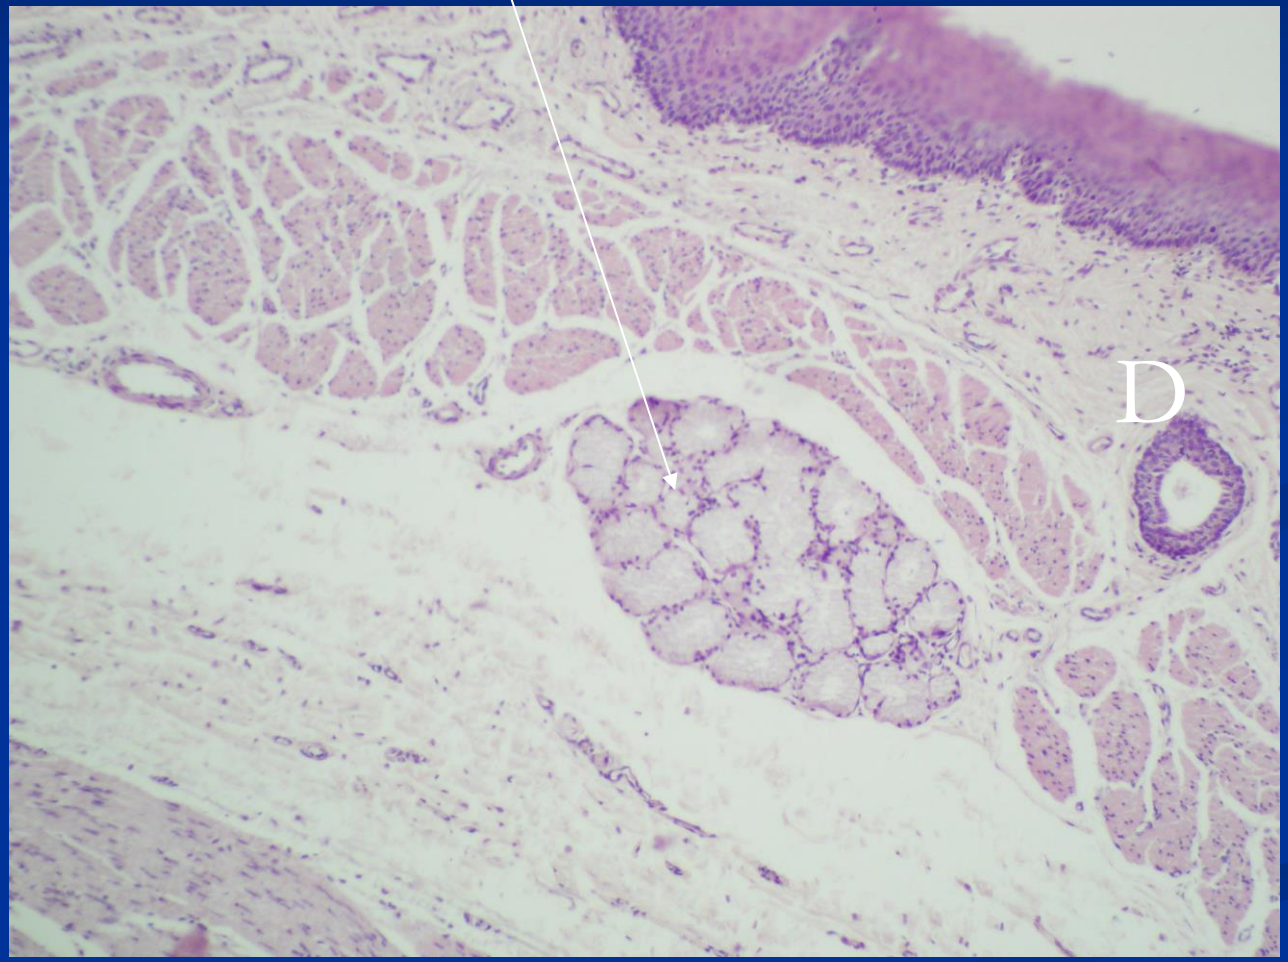
Str. Squa.epi.non ker.

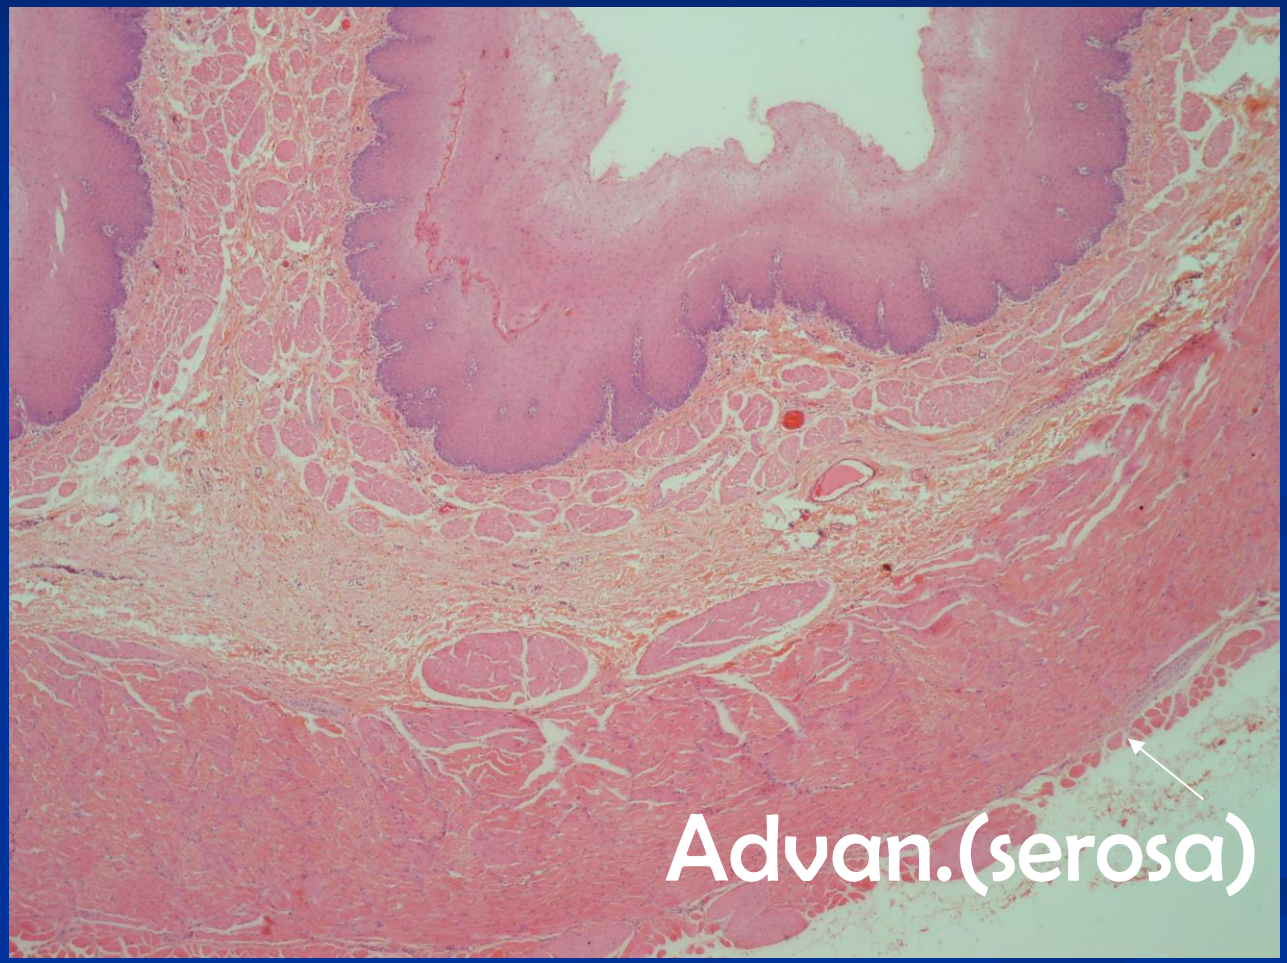


Eosophageal proper gland(in submucosa)



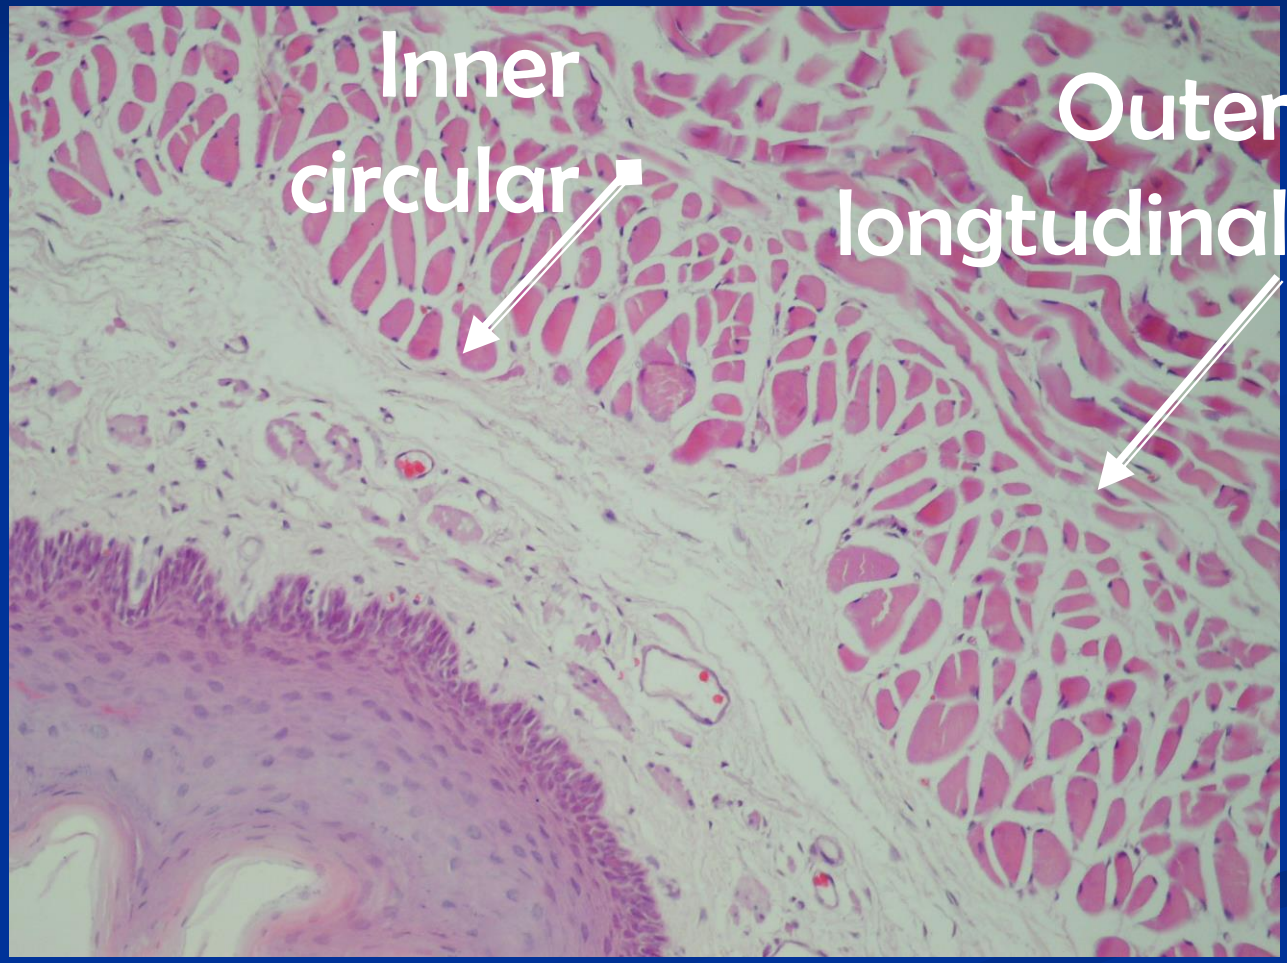
Esophagial gland proper (in submucosa)



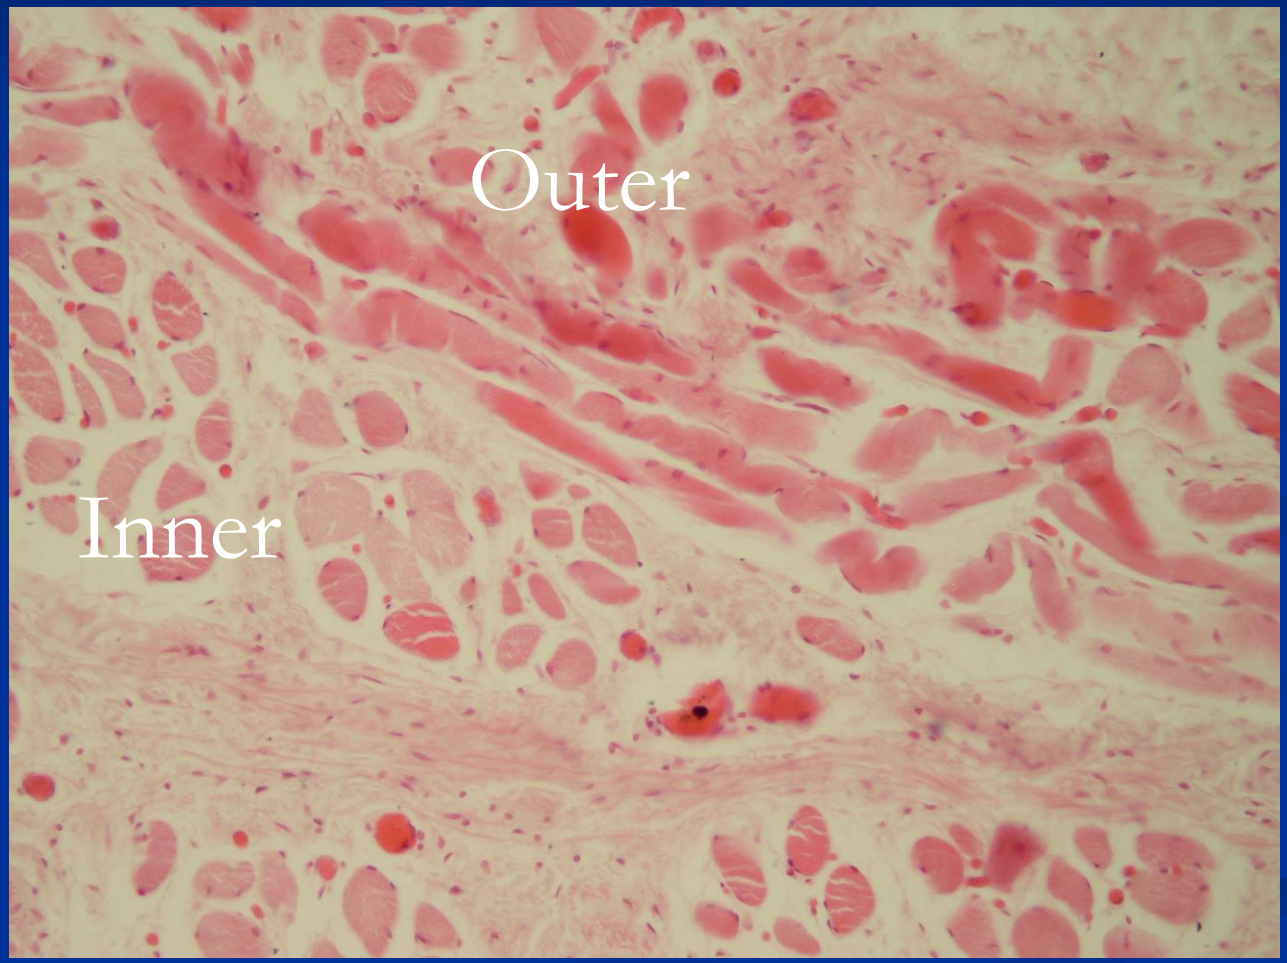


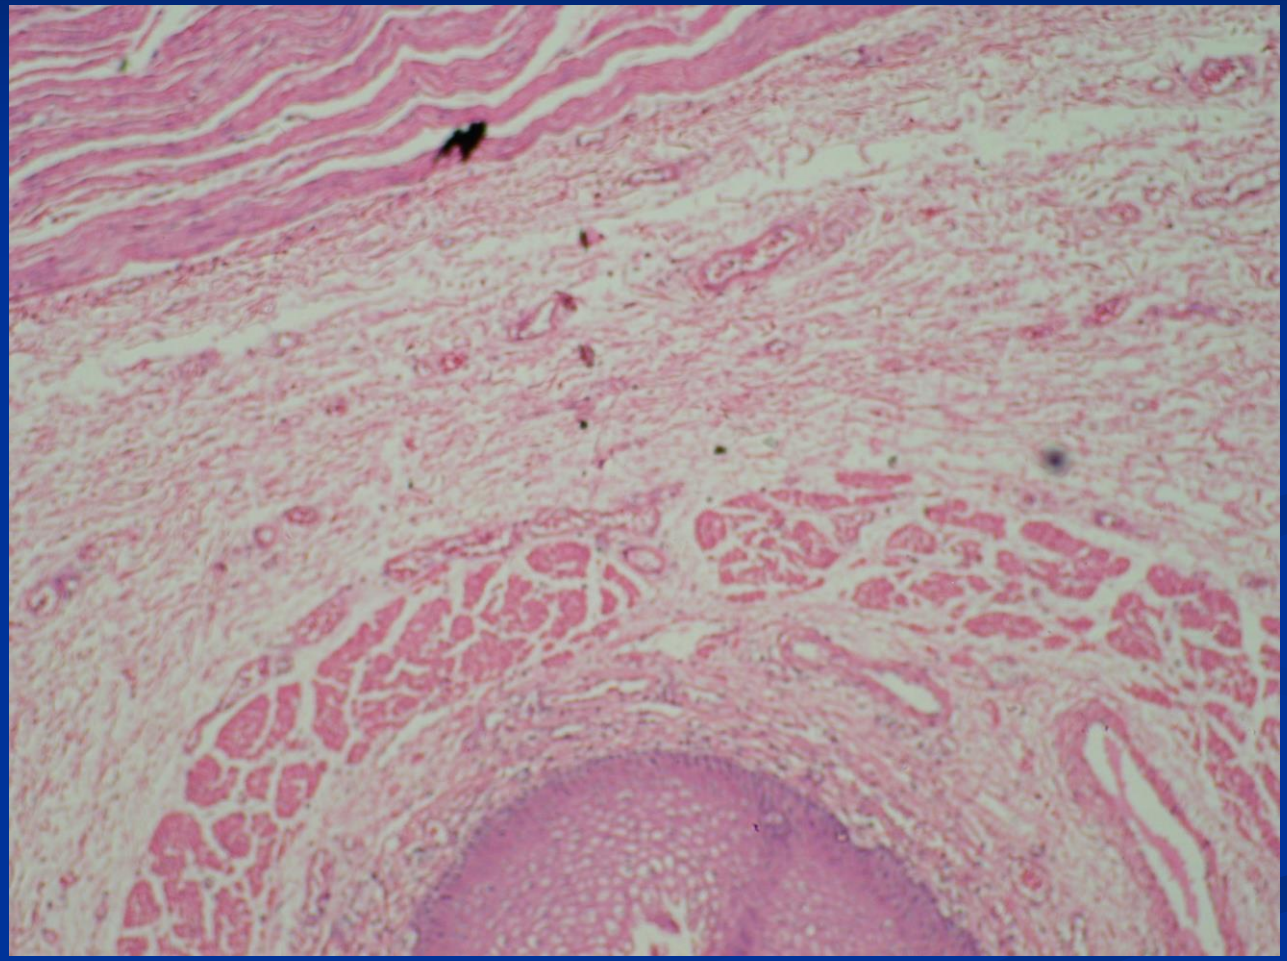
Advan.(serosa)

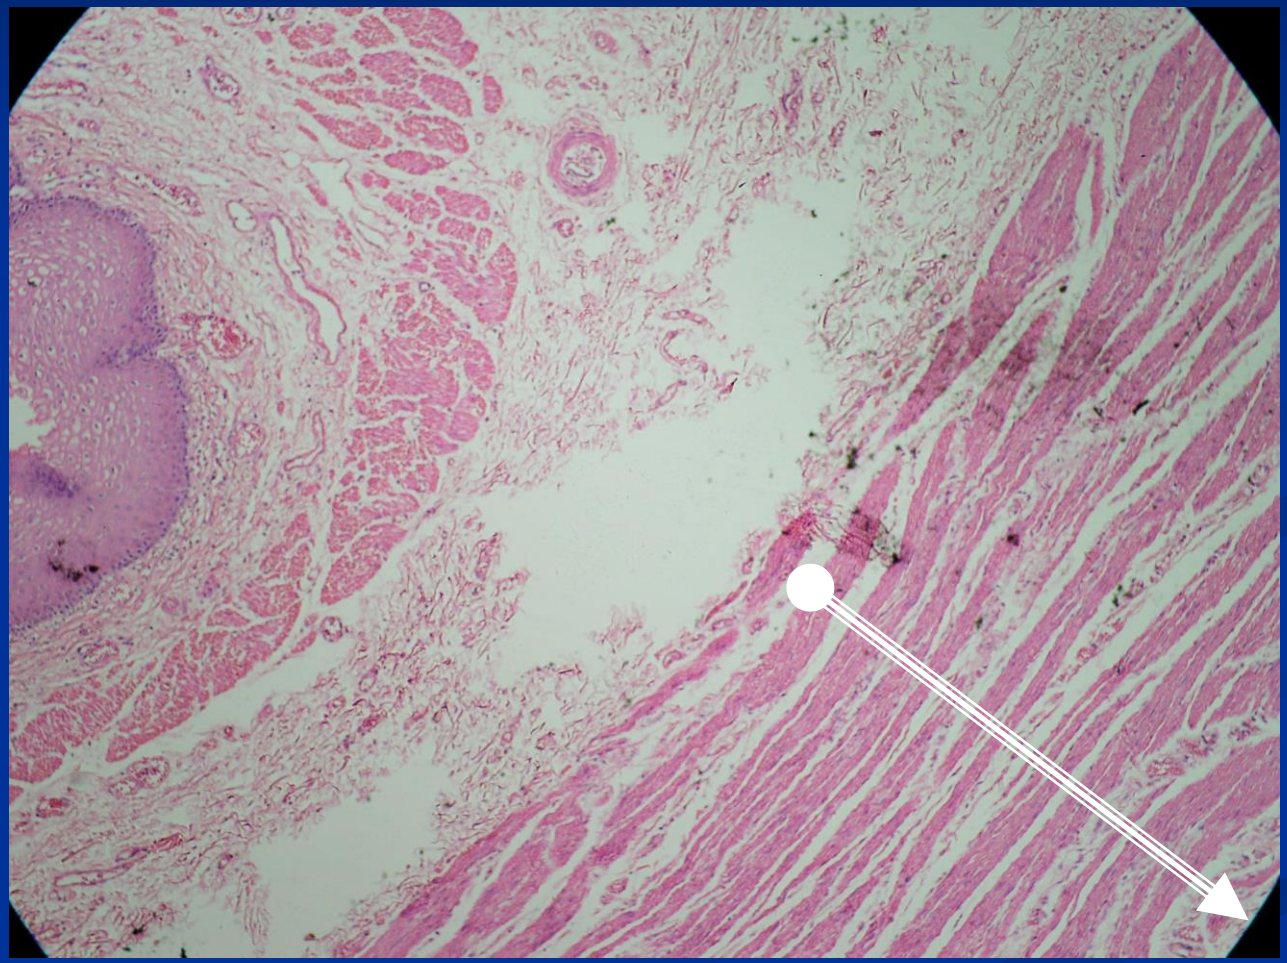
Esophagus(upper third)skeletal muscle mus. ext.



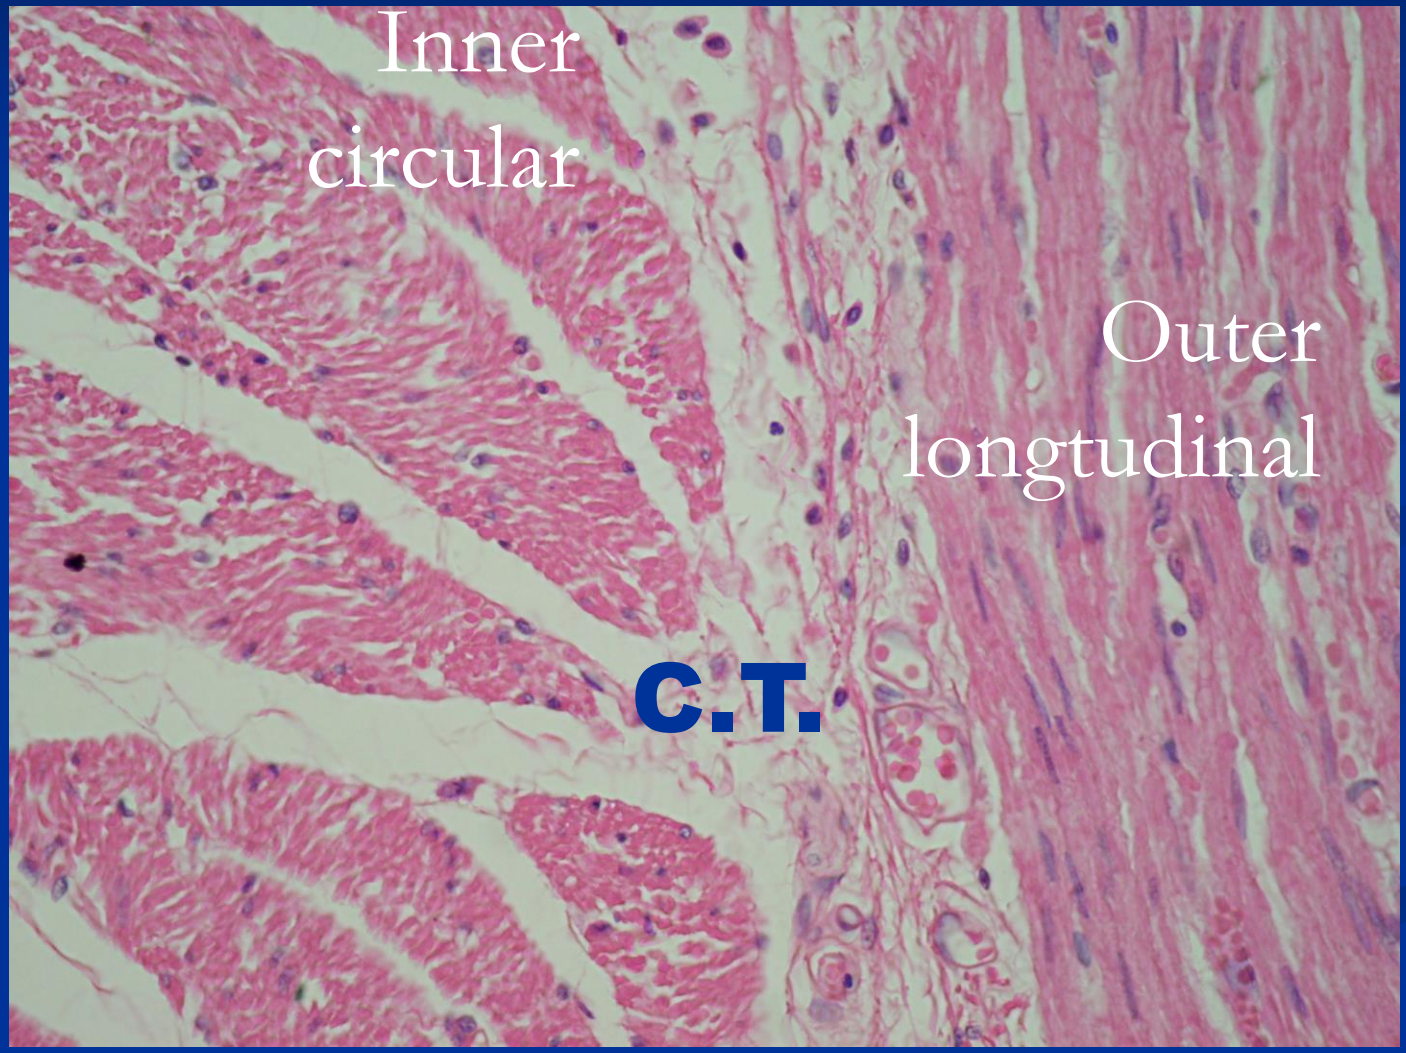
Skeletal mus.



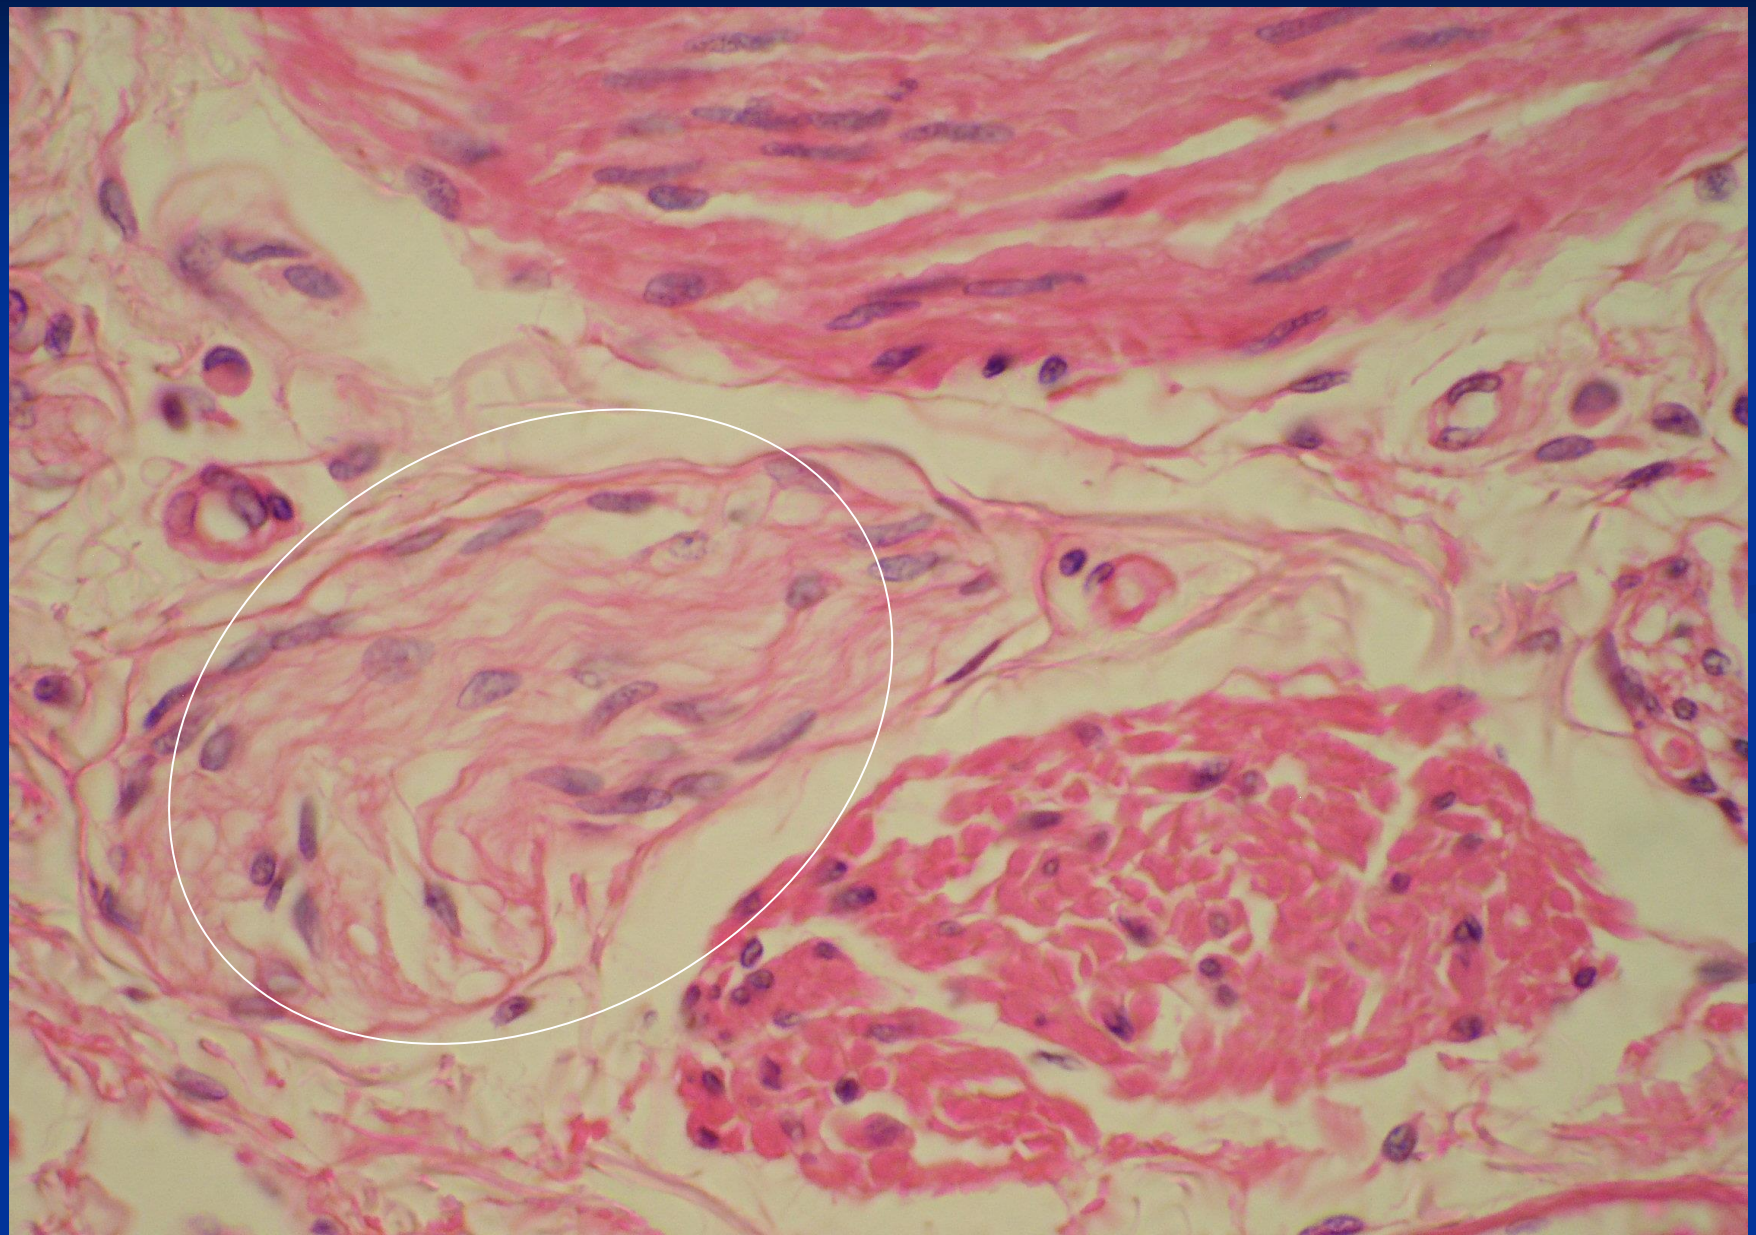




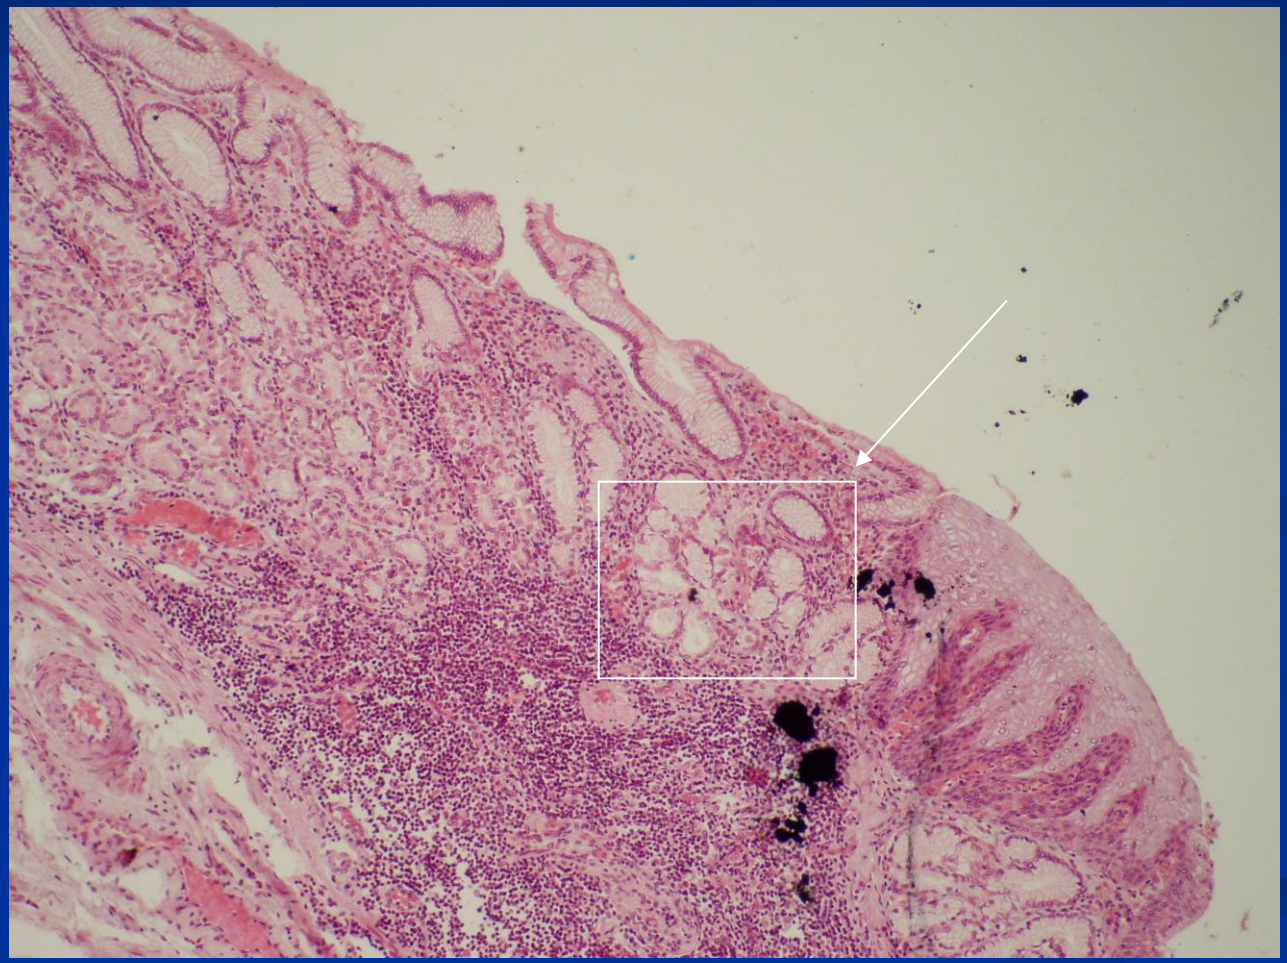
Lower third(smooth muscle)



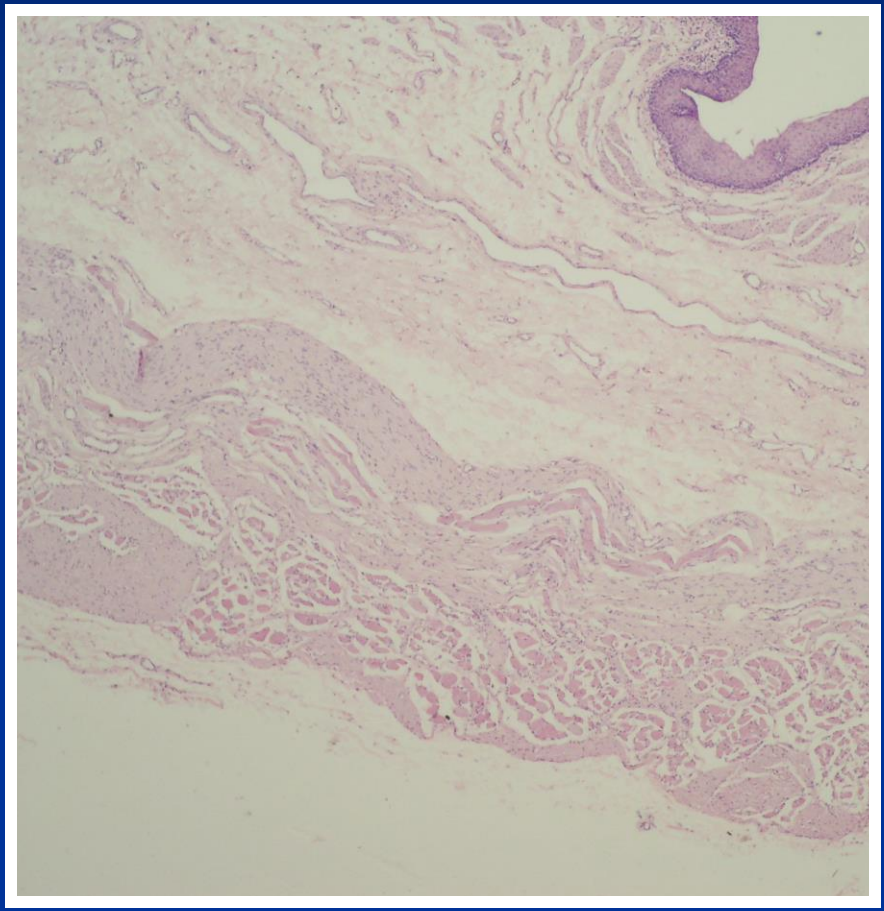
Nerve fibers

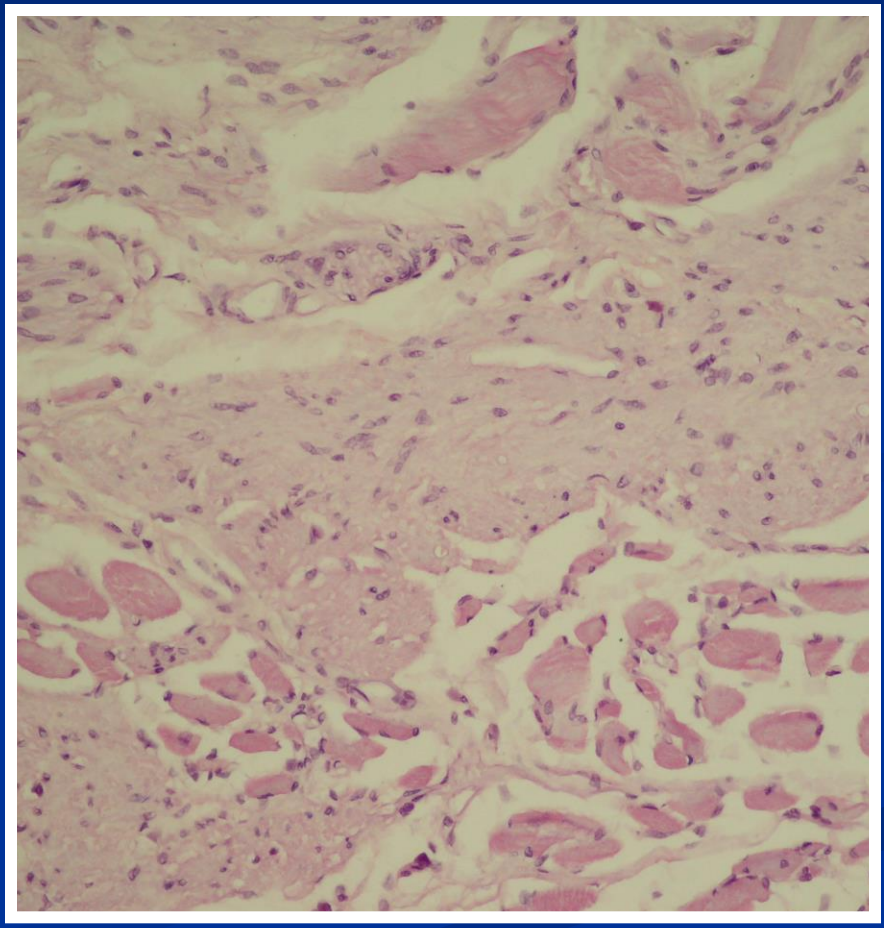


Cardiac gland in l.P.@junction

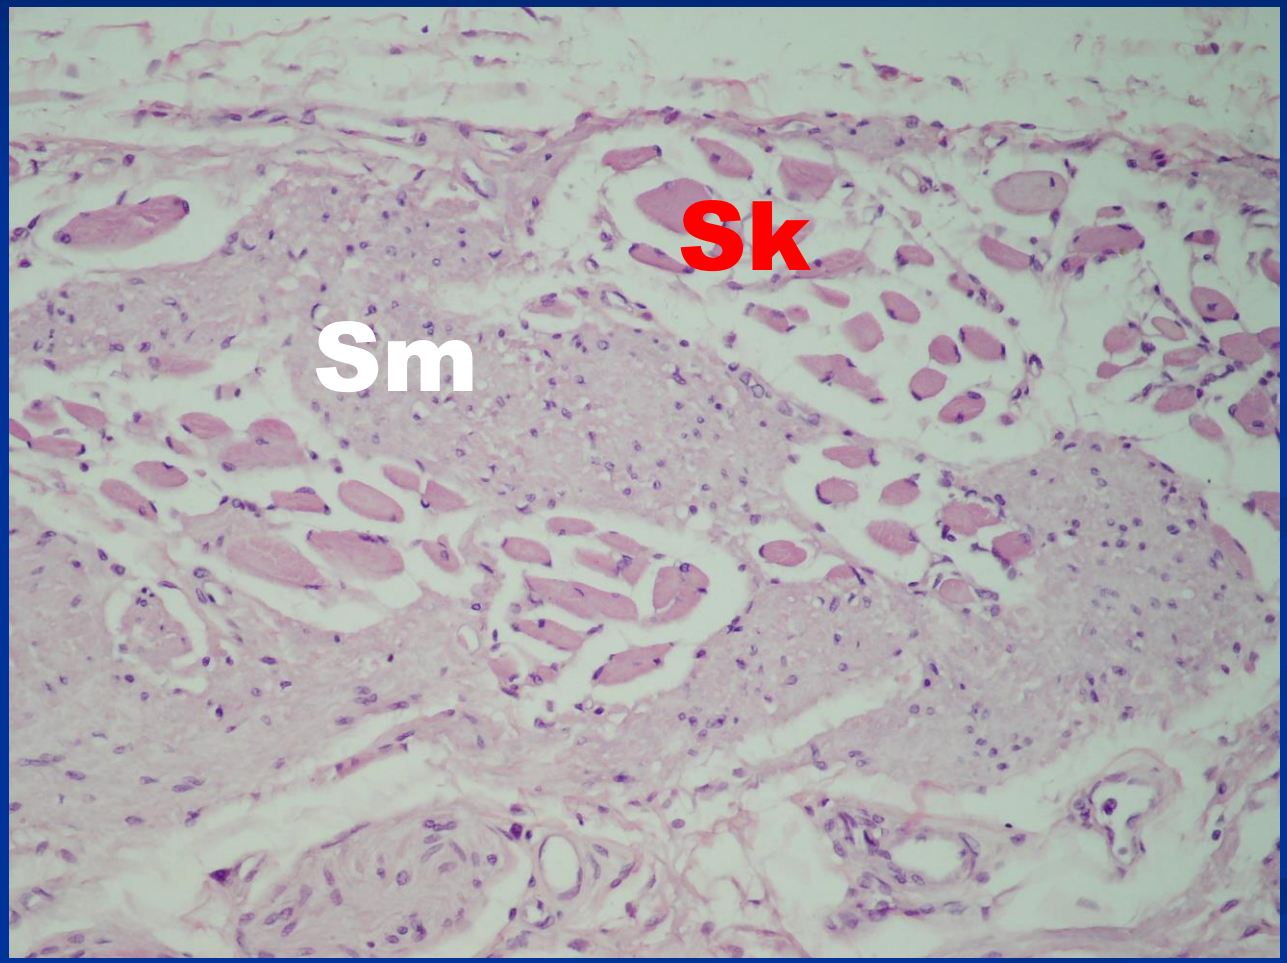


Mixed smooth&skeltal in mid. eOsoph.

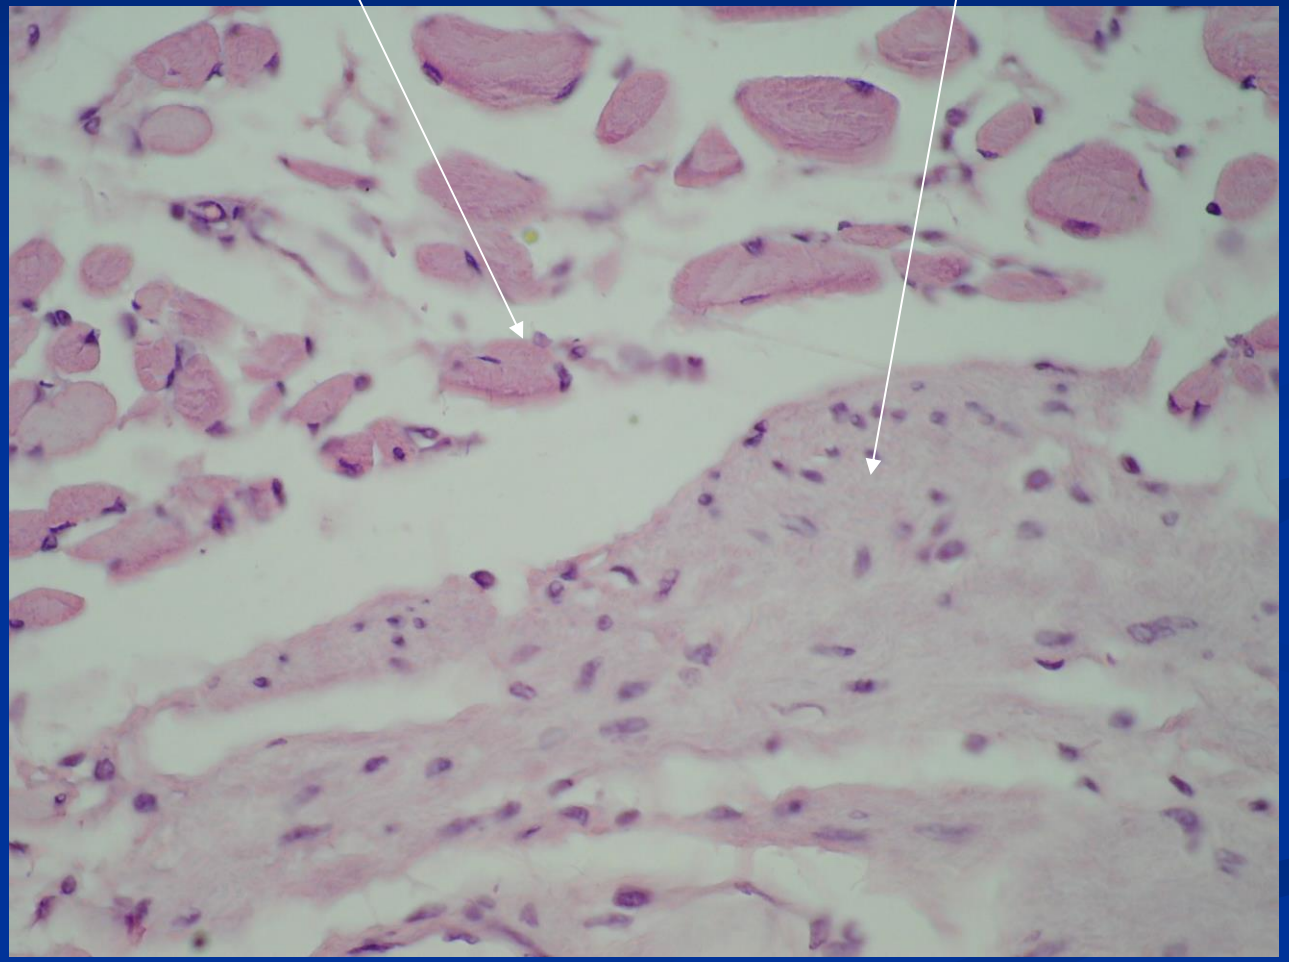




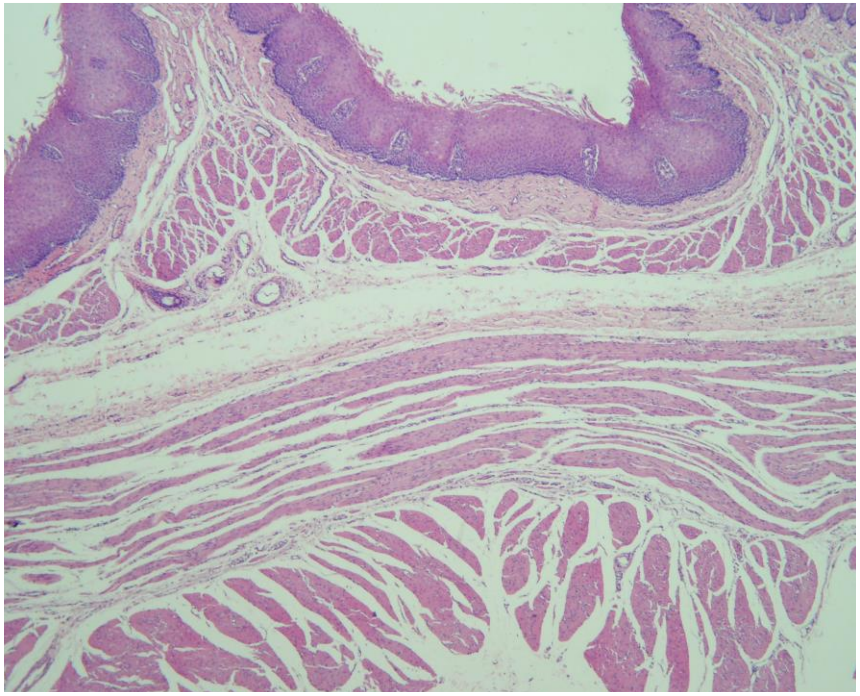
Smooth skeletal muscle

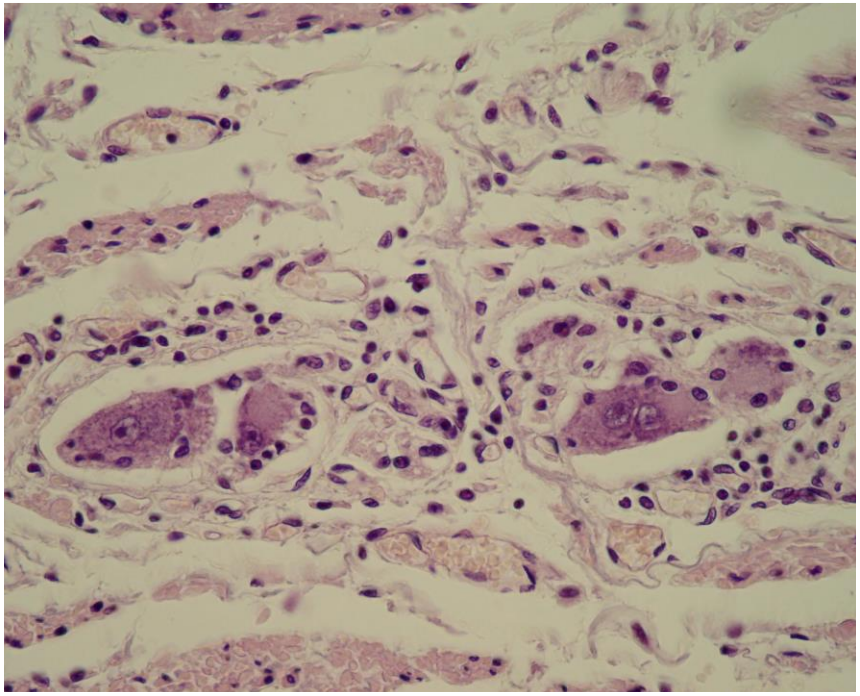


Mixed skeletal and smooth muscle

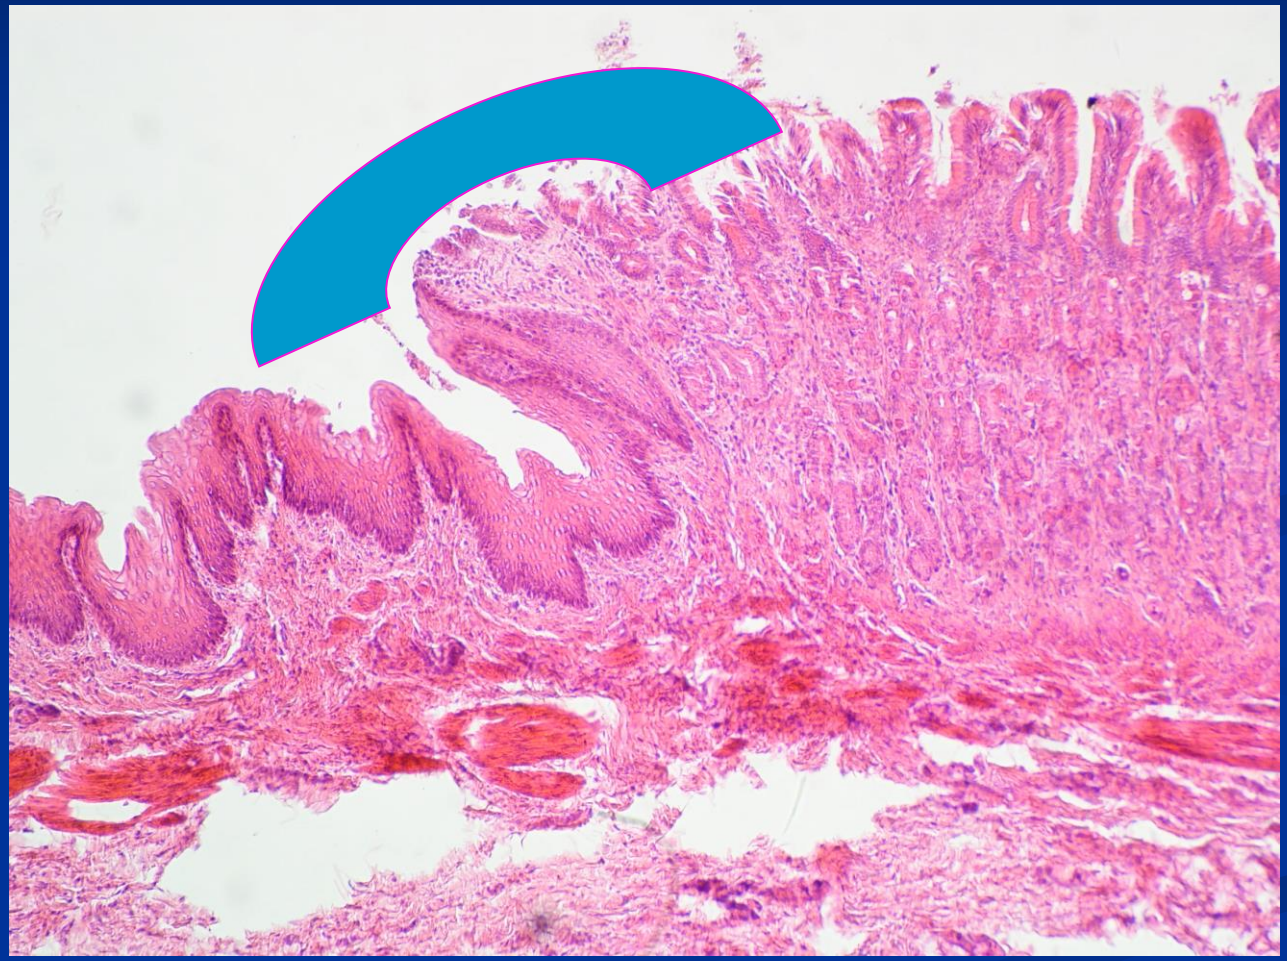


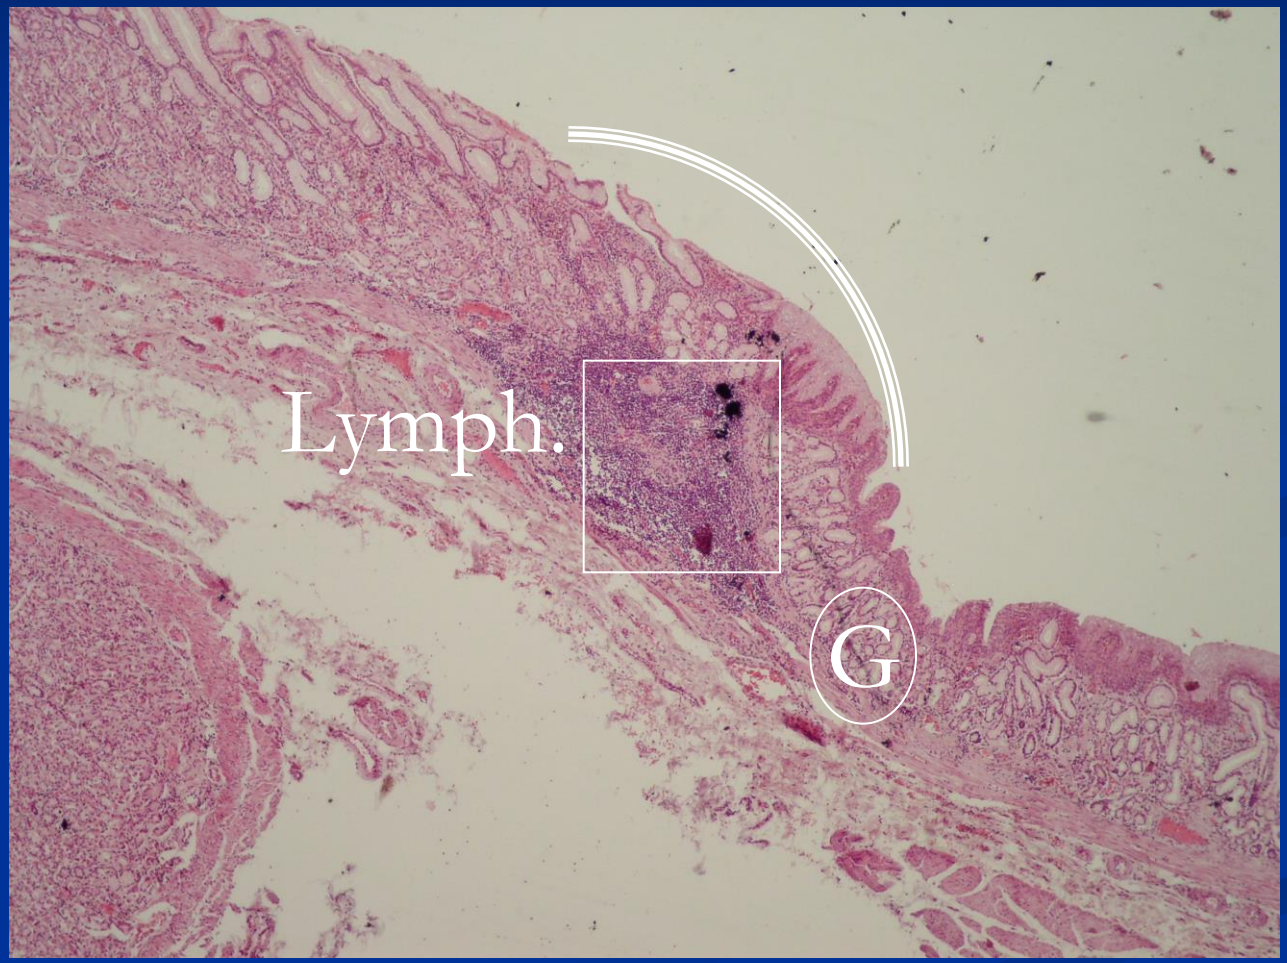
Parasympathetic ganglion-intramural (G.I.T.)





Oesophago-gastric junction

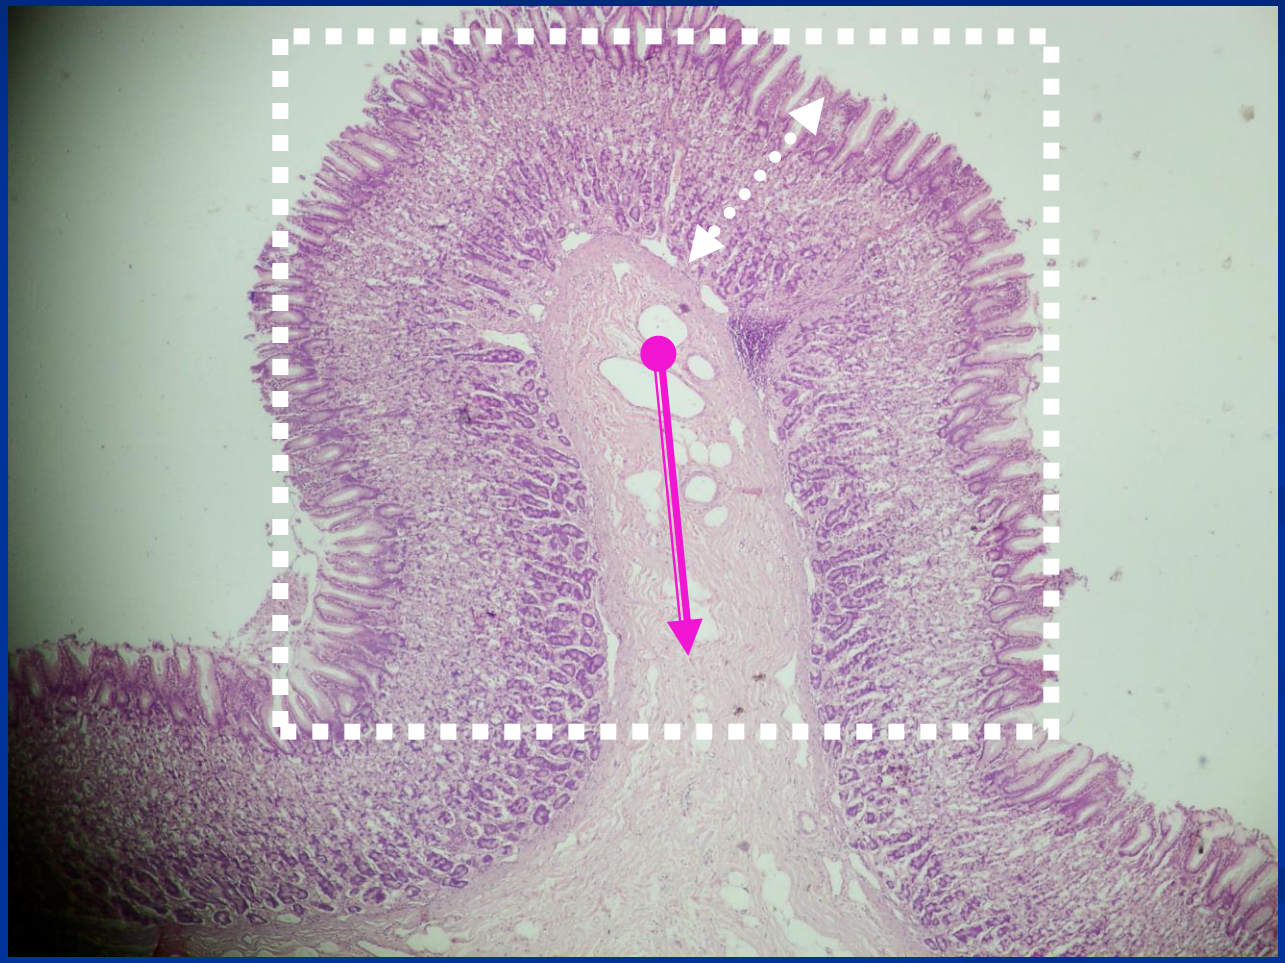




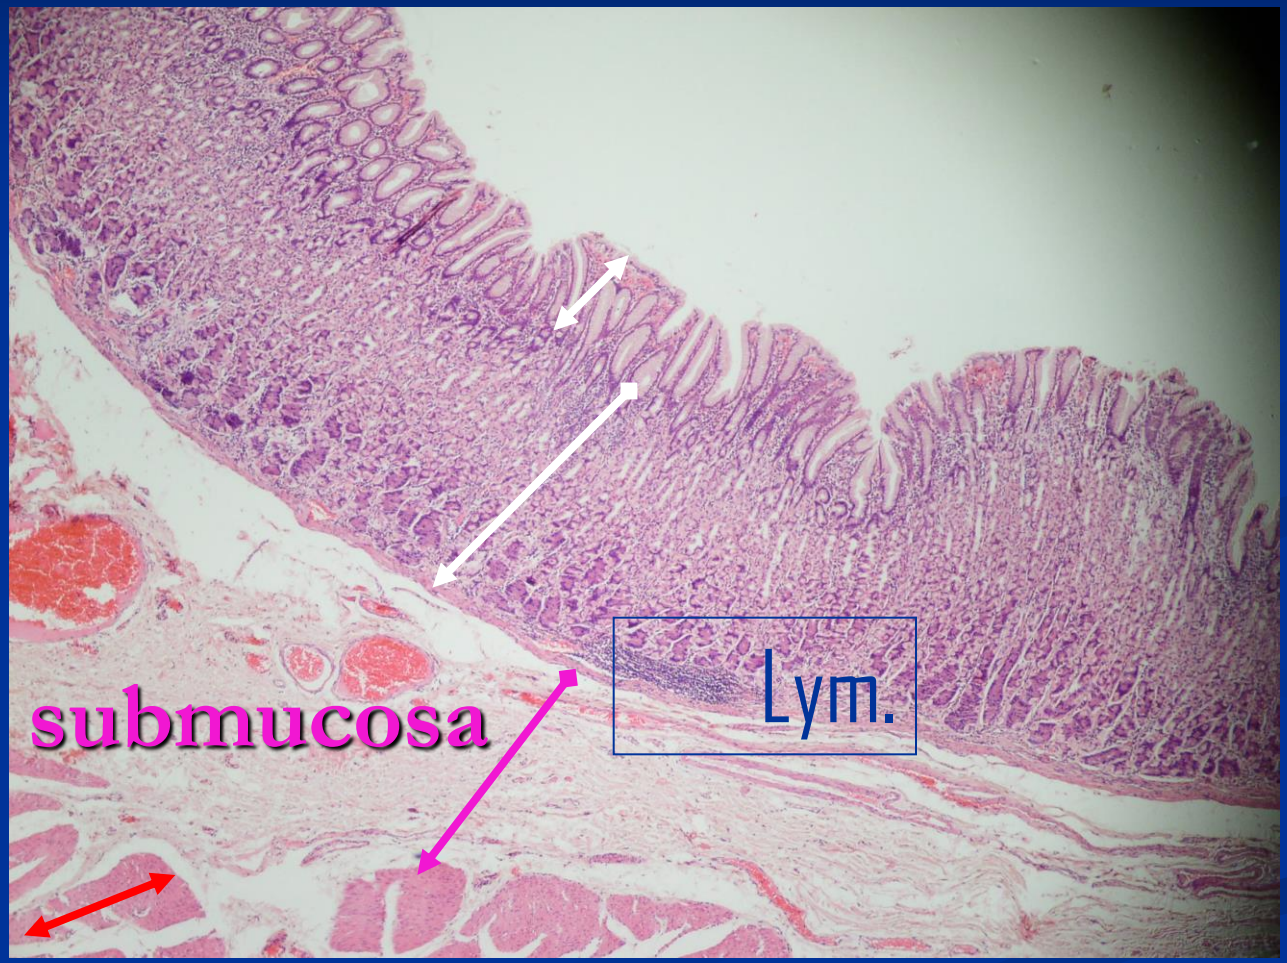
Lymph.
G

Stomach

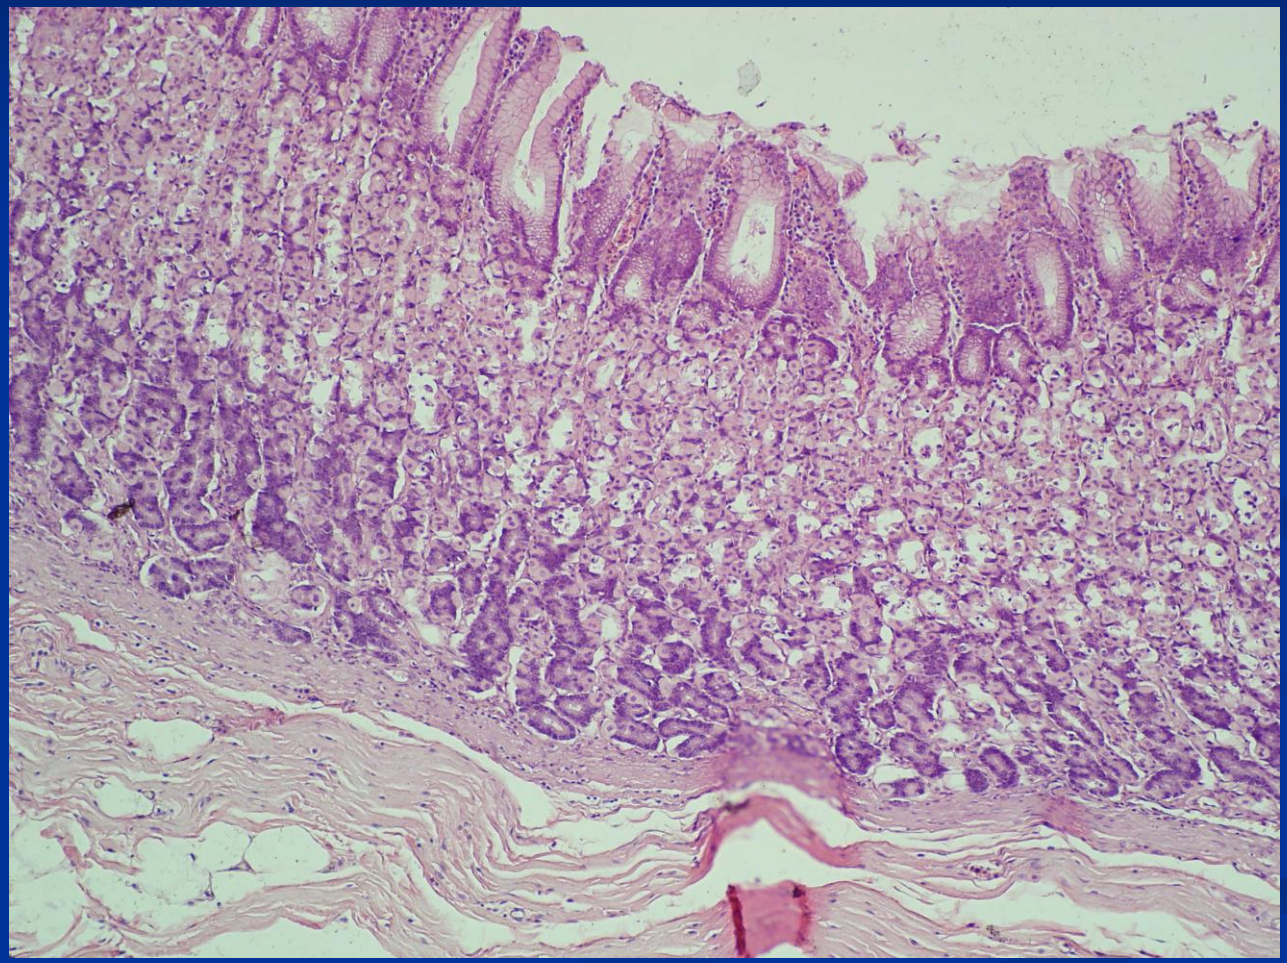
Rugae(stomach):mucosa+submucosa



-mucous membrane: gastric pit+l.p+mus.mucosa

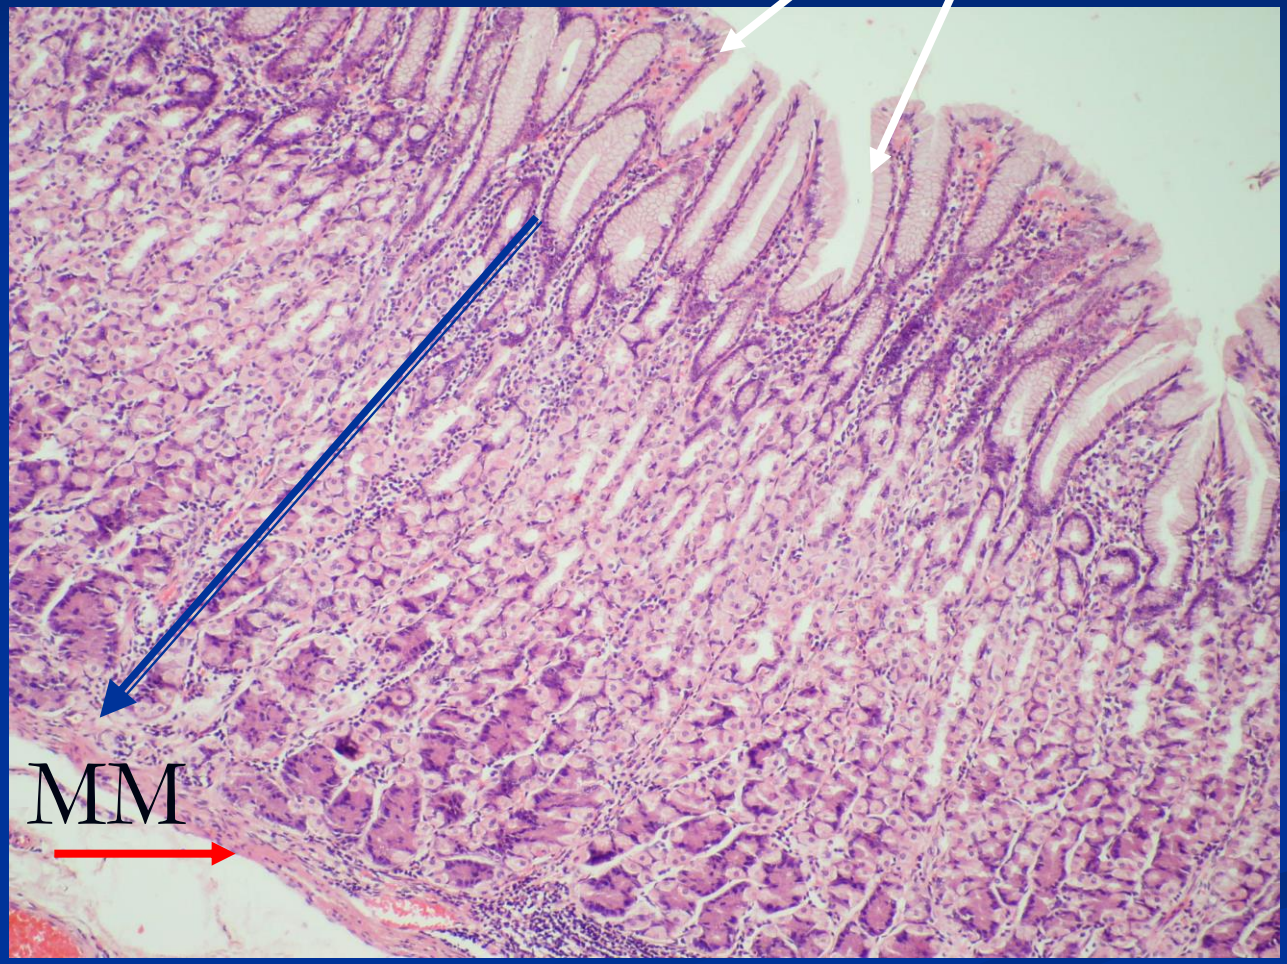


Fundus or body of stomach

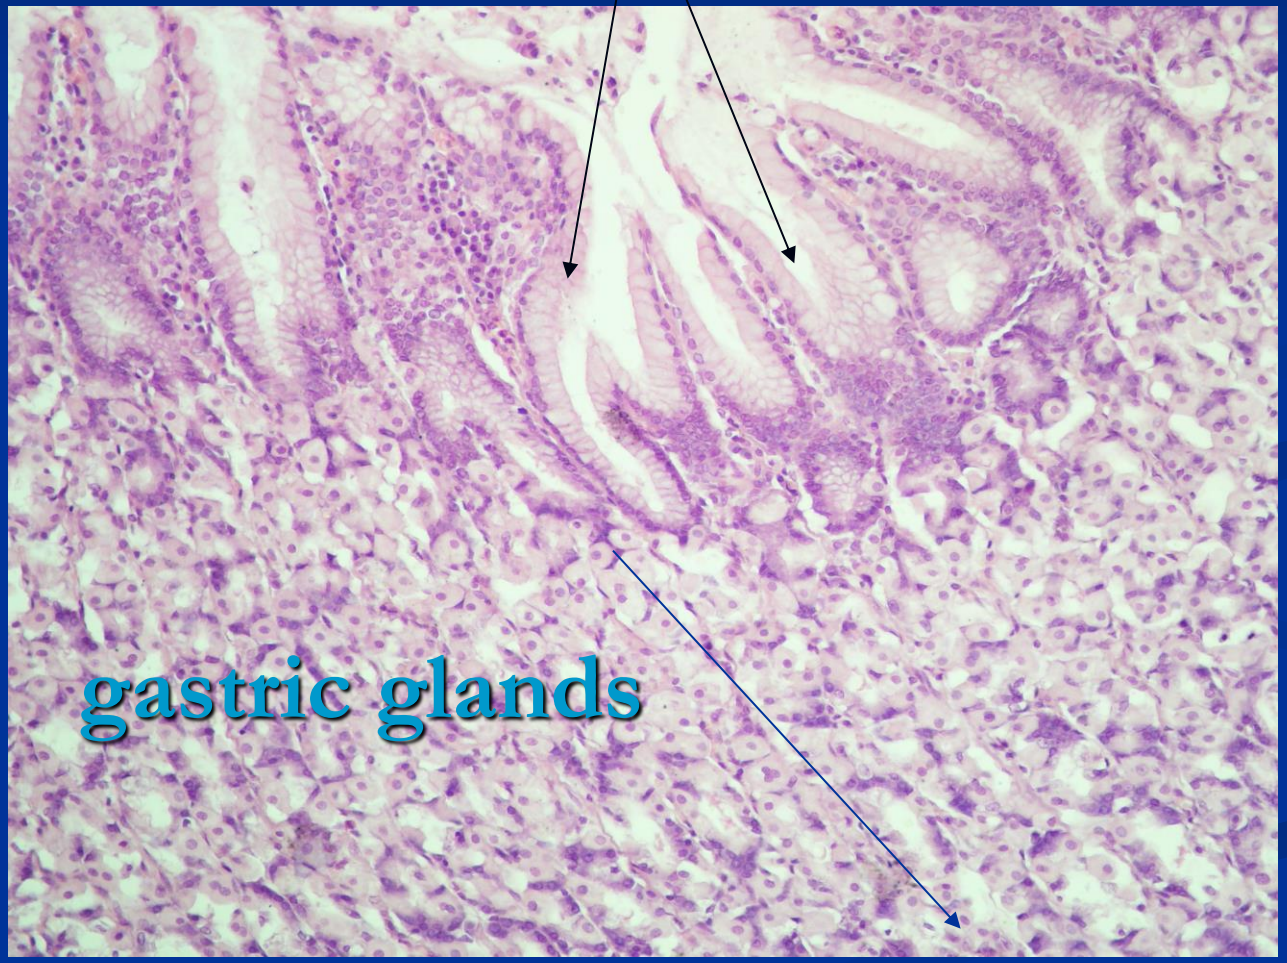


Gastric pit (simple columnar epith.)

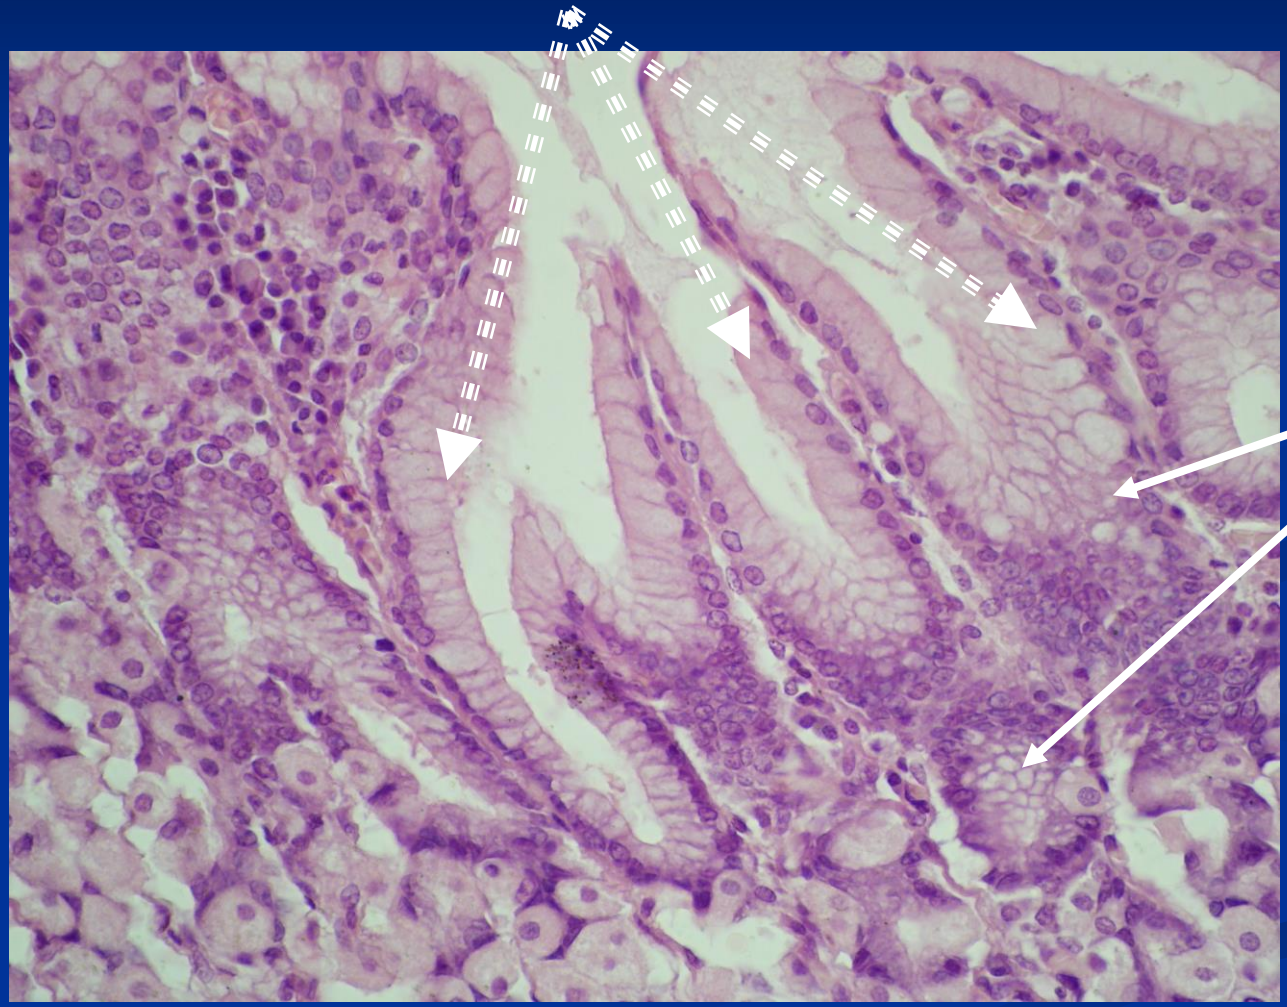
gastric glands



Gastric pit simple branched tubular gland

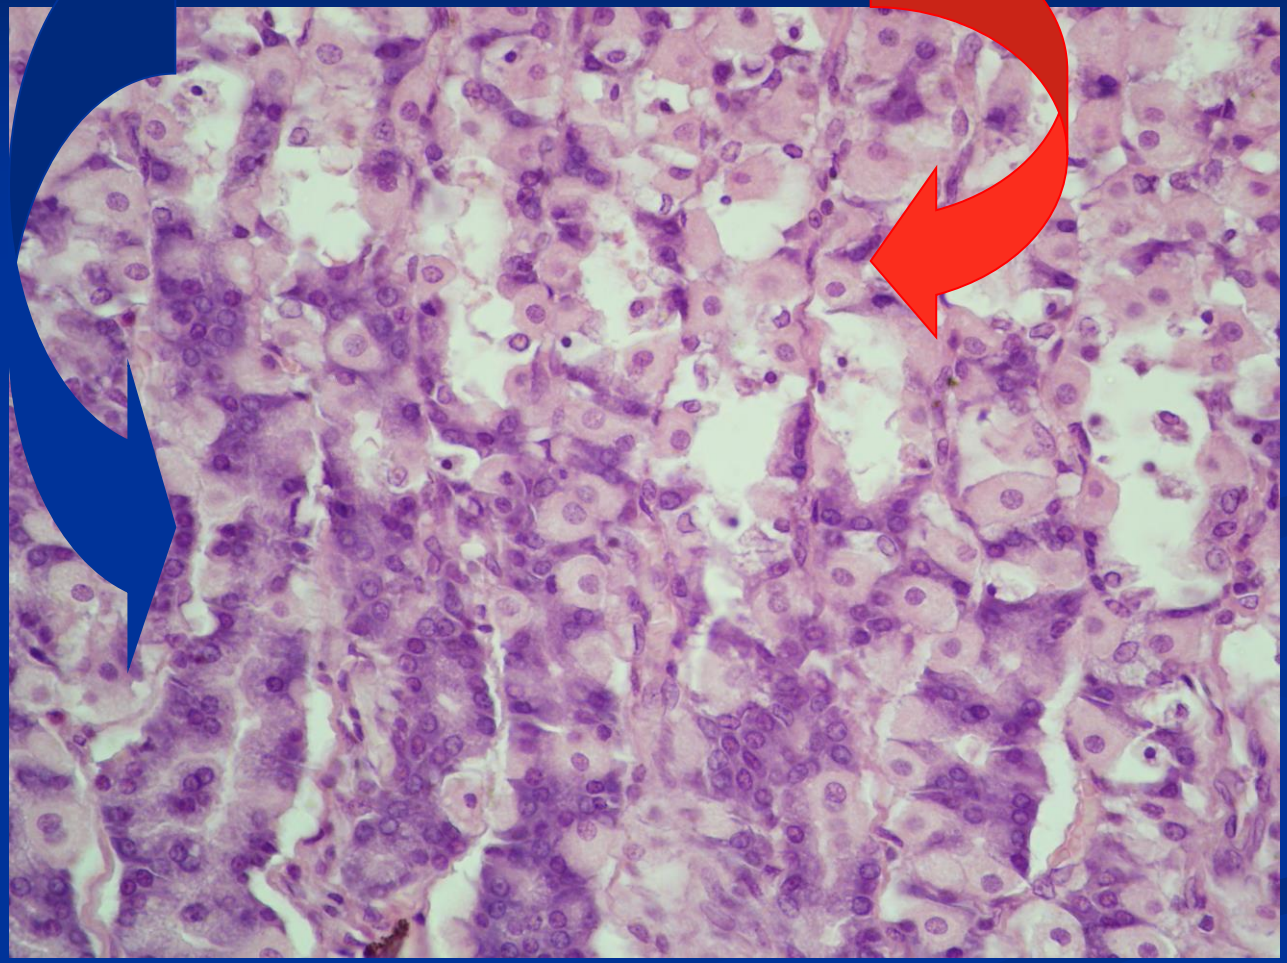


Mucous_secreting surface cells



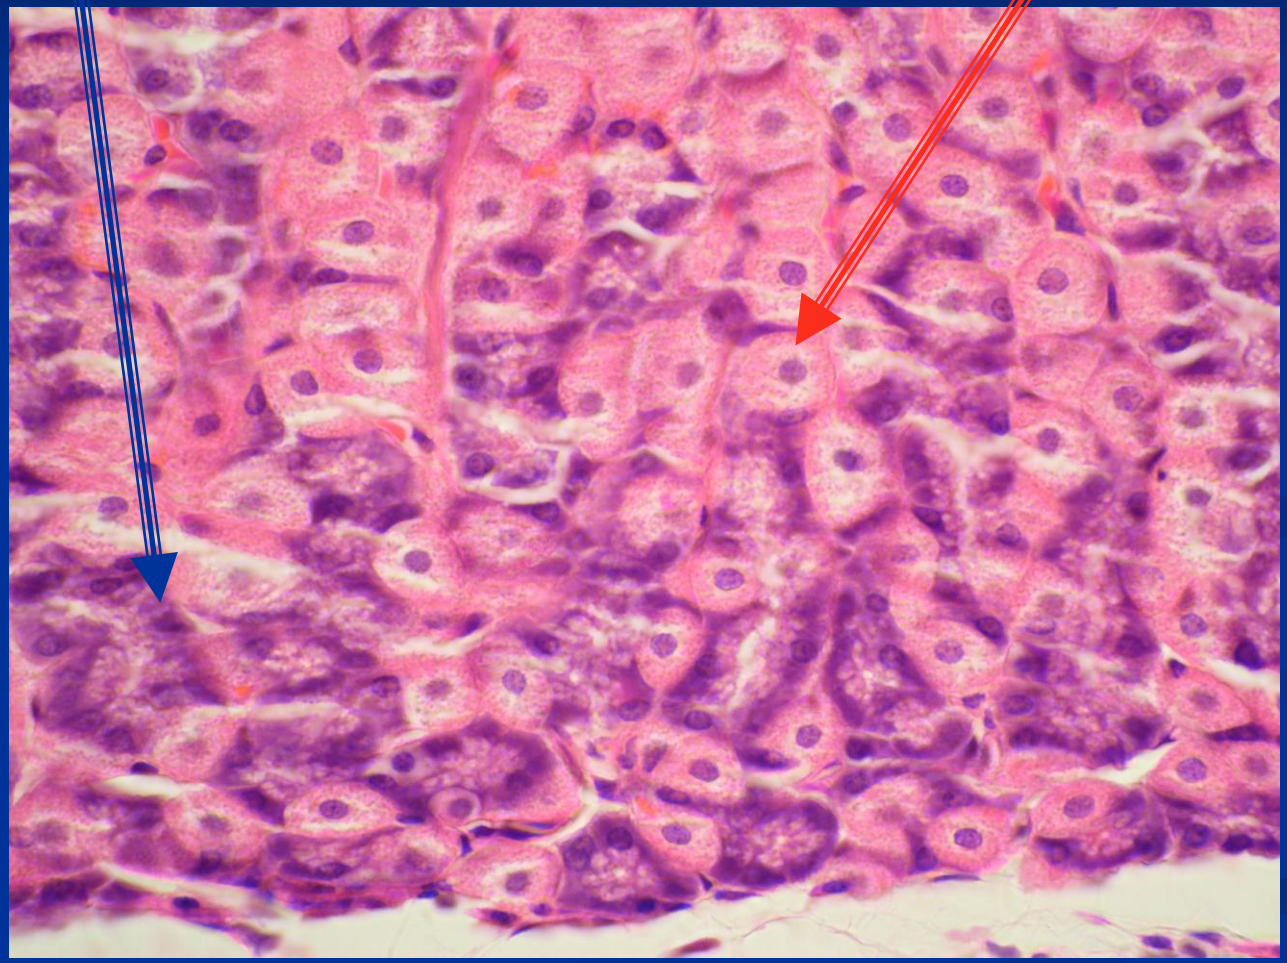
Neck mucous cells

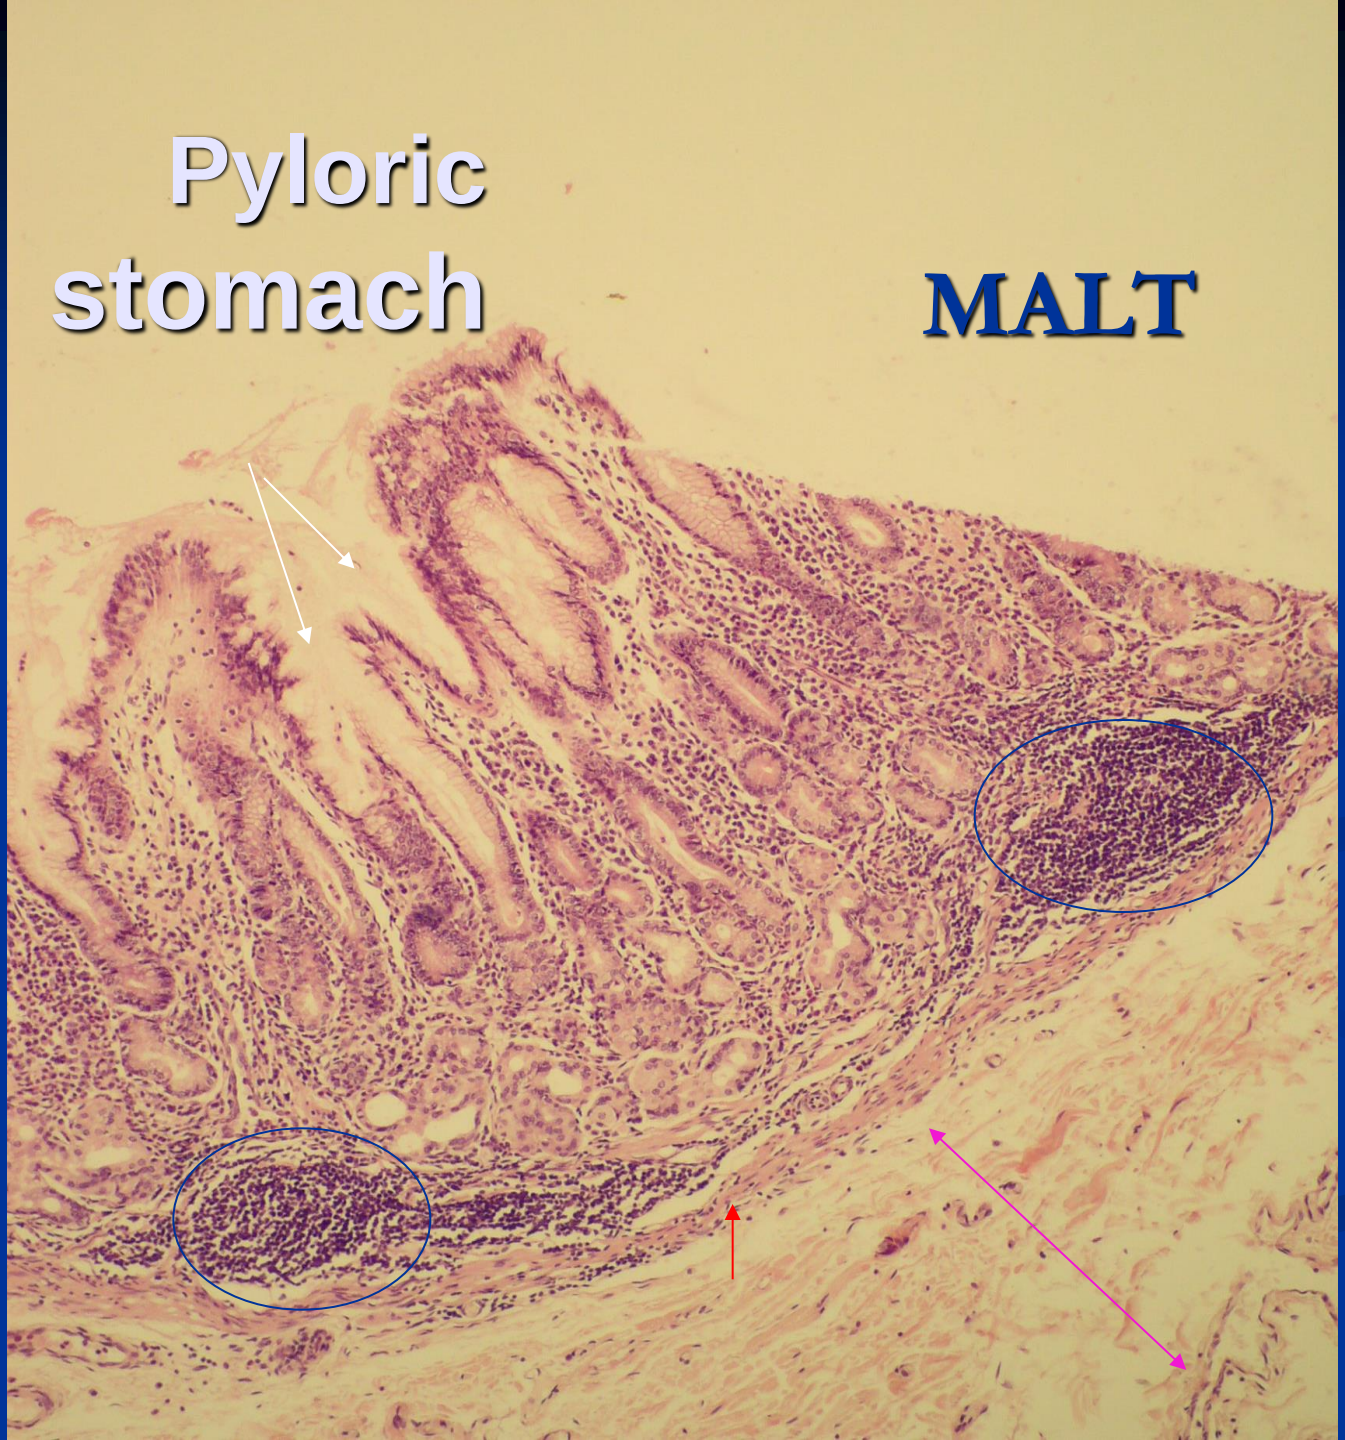
Chief cells parietal cell



Chief cells

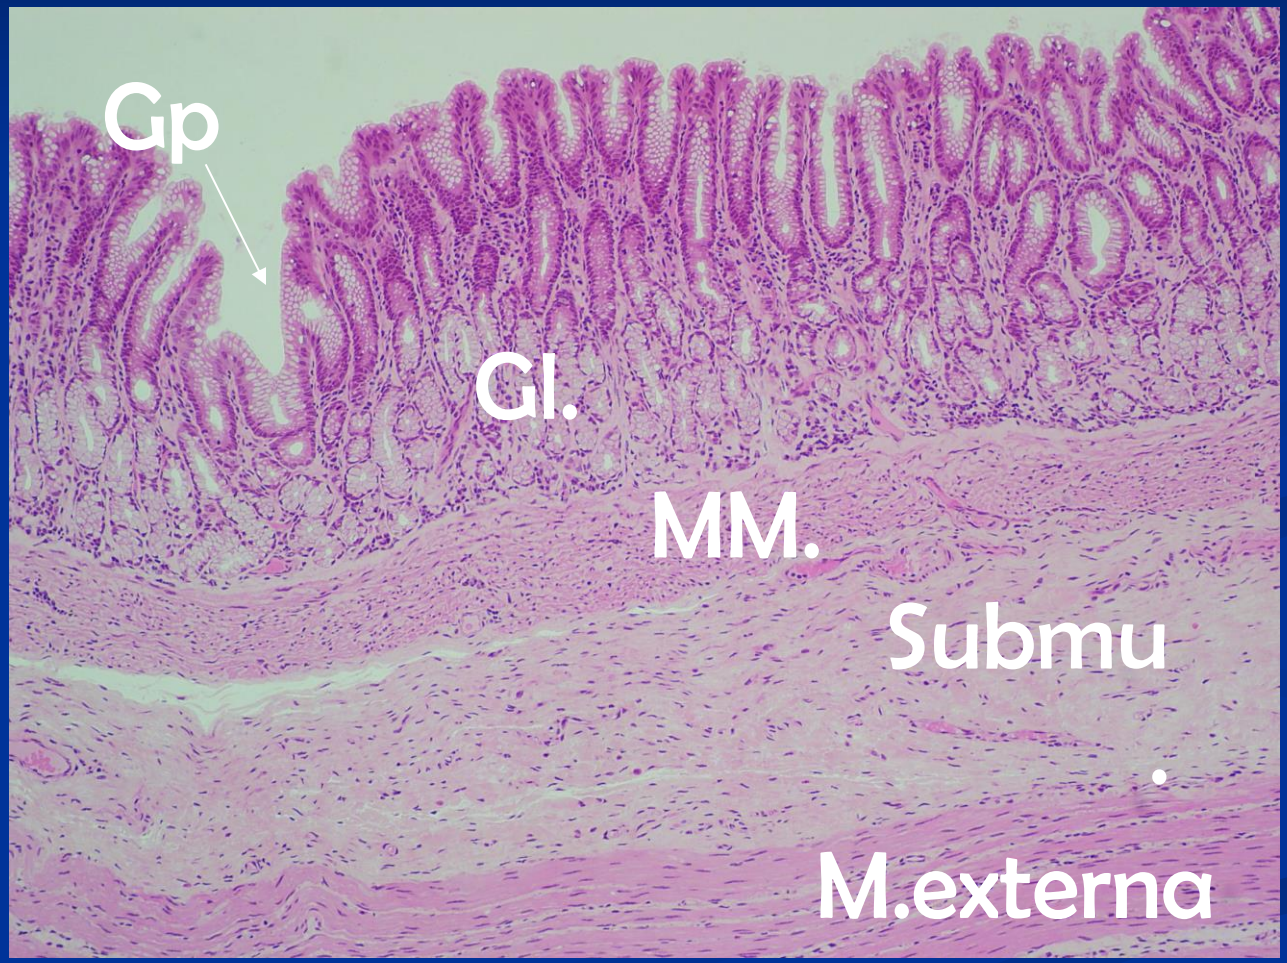
parietal cell



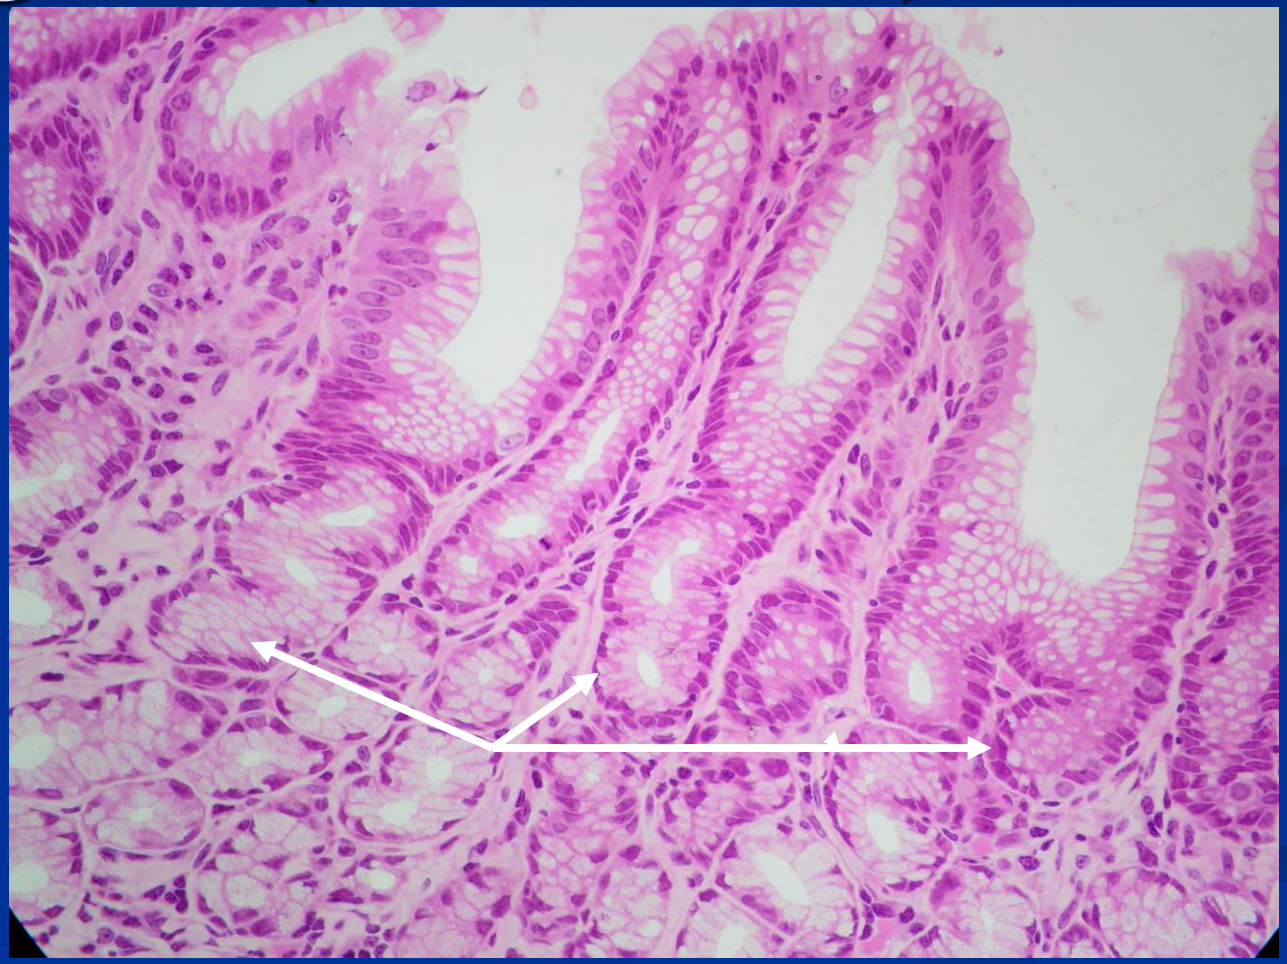


Pyloric stomach
MALT

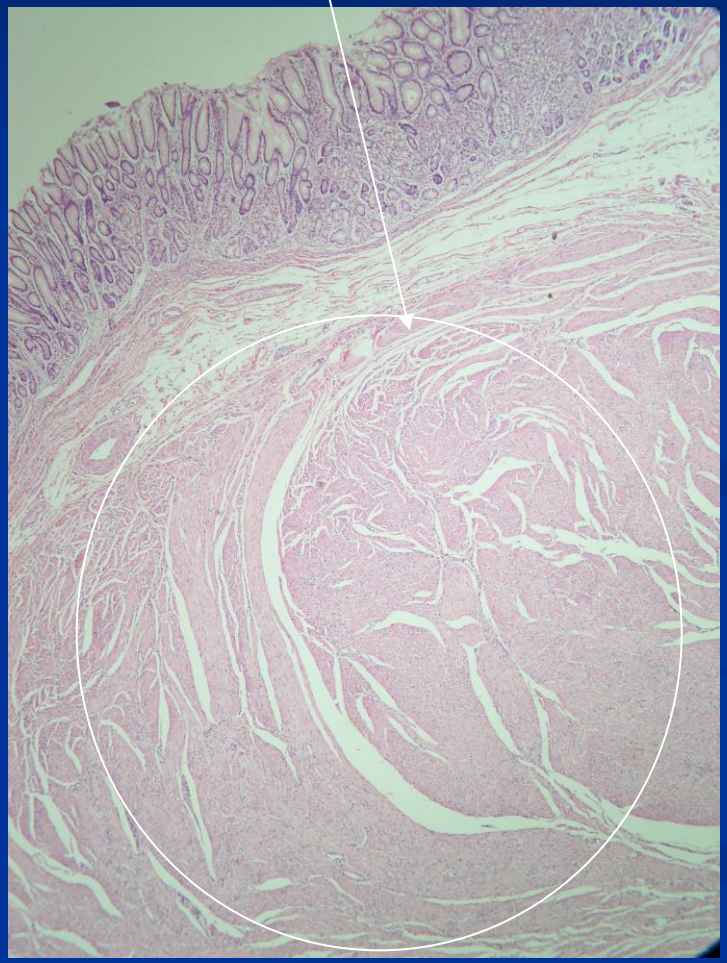
Pyloric stomach



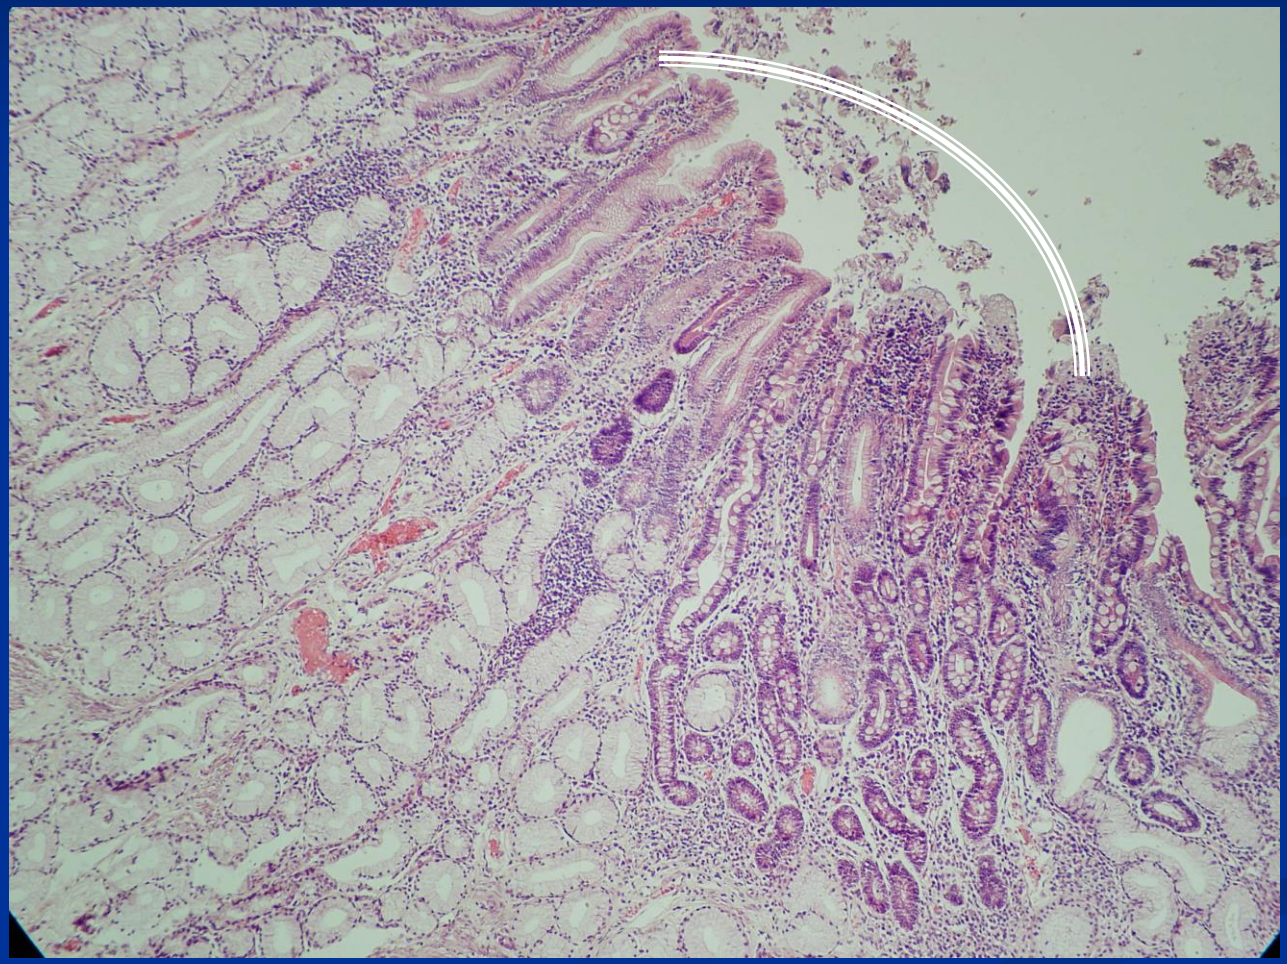
Pyloric glands simple branched tubular coiled glands(mucous cells)



Sphinctor pyloric

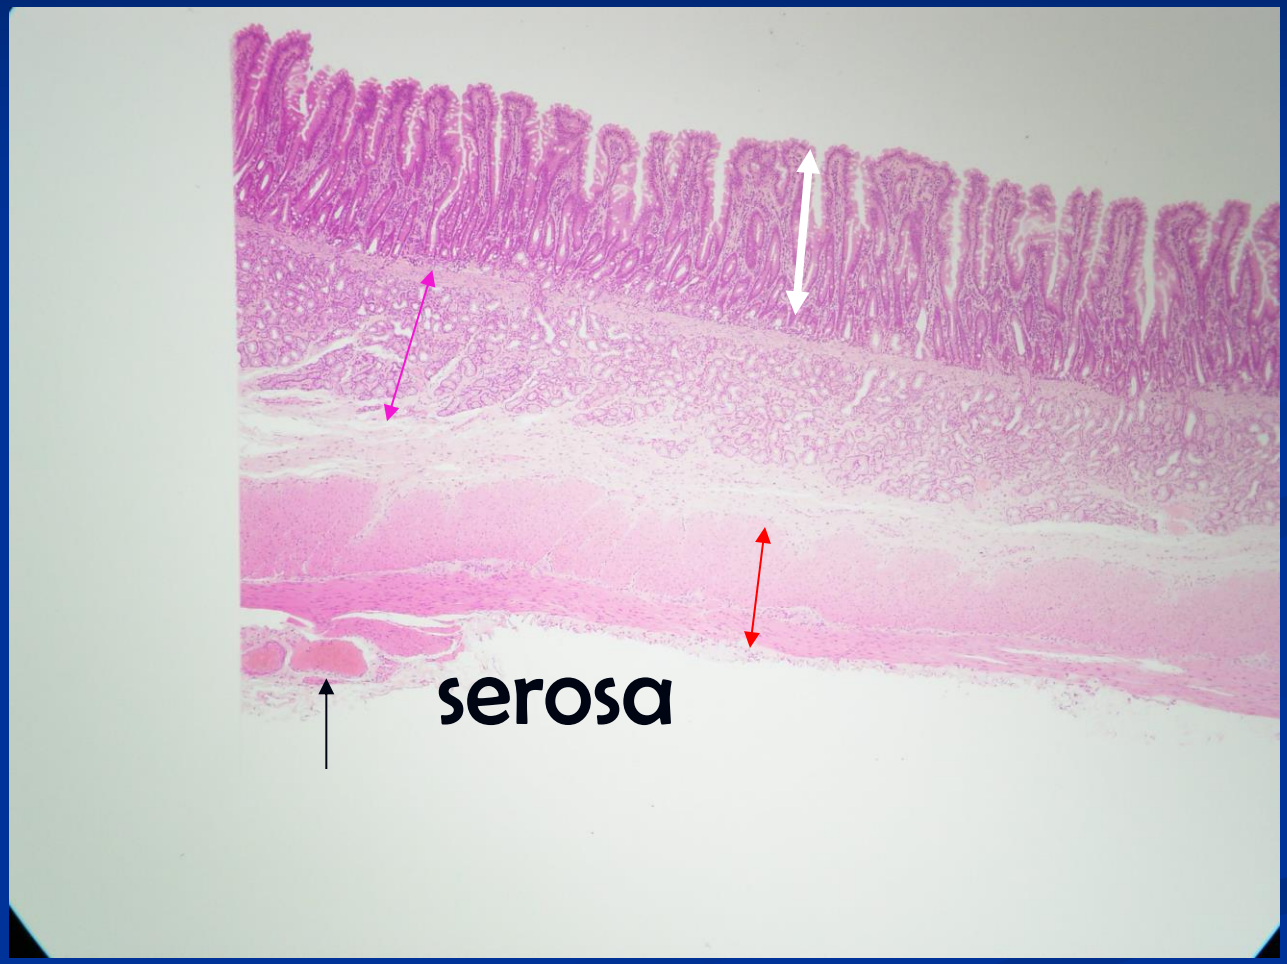


Pyloric- duodenal junction

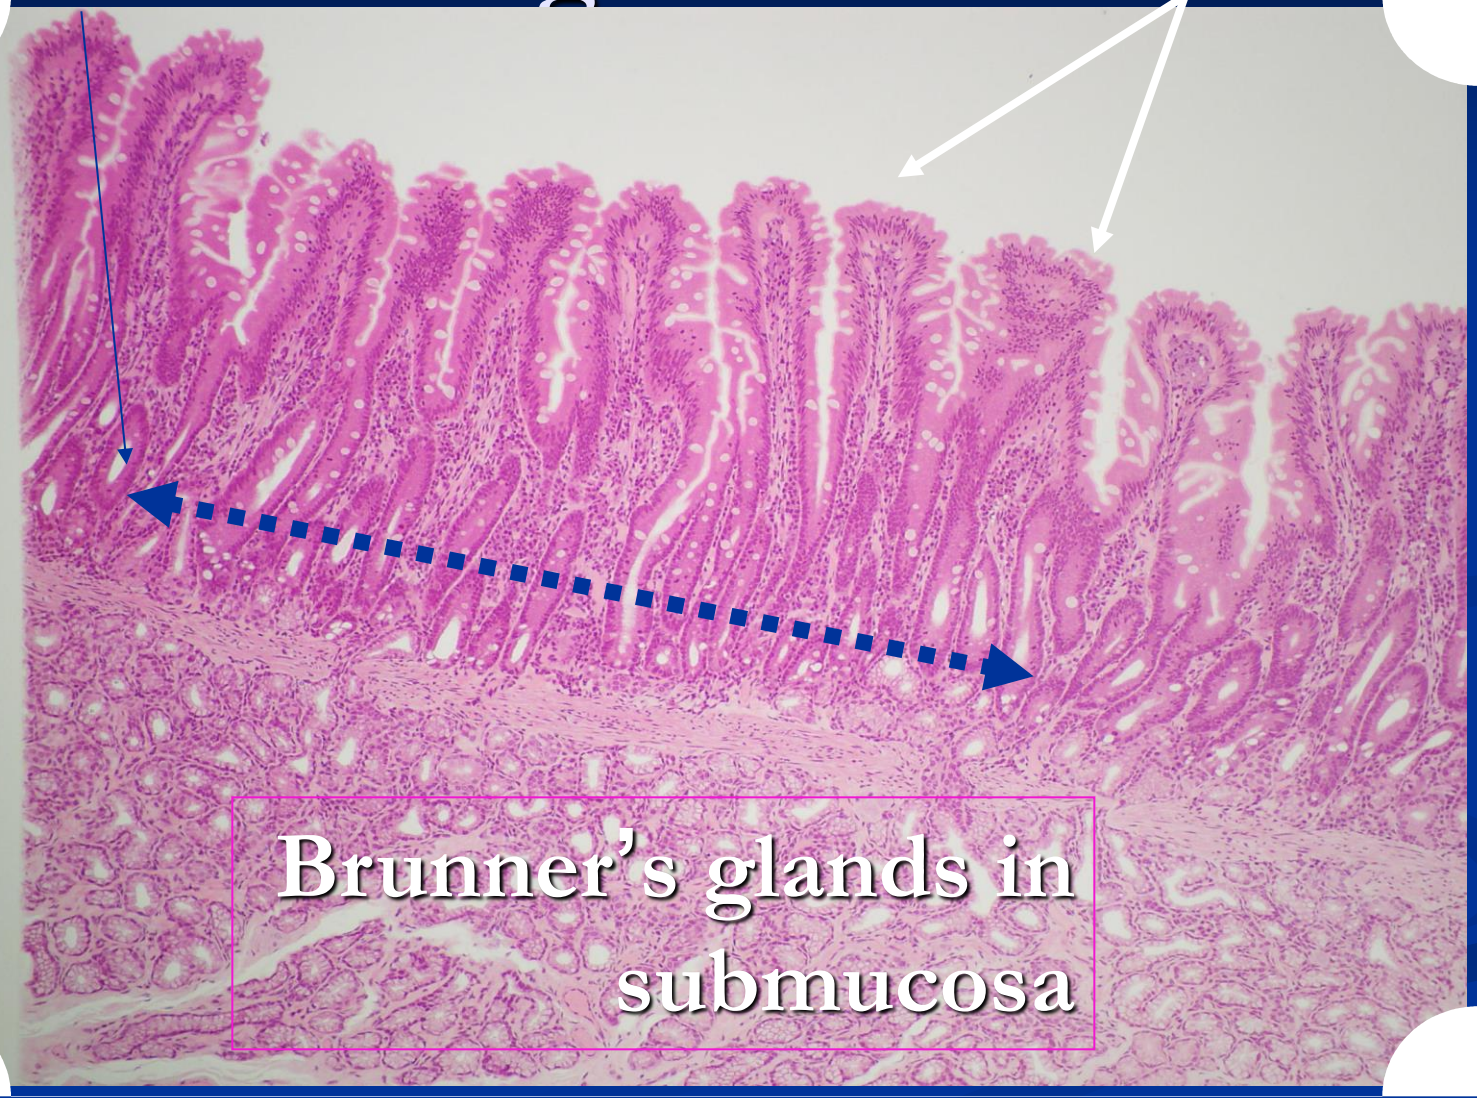


Small intestine

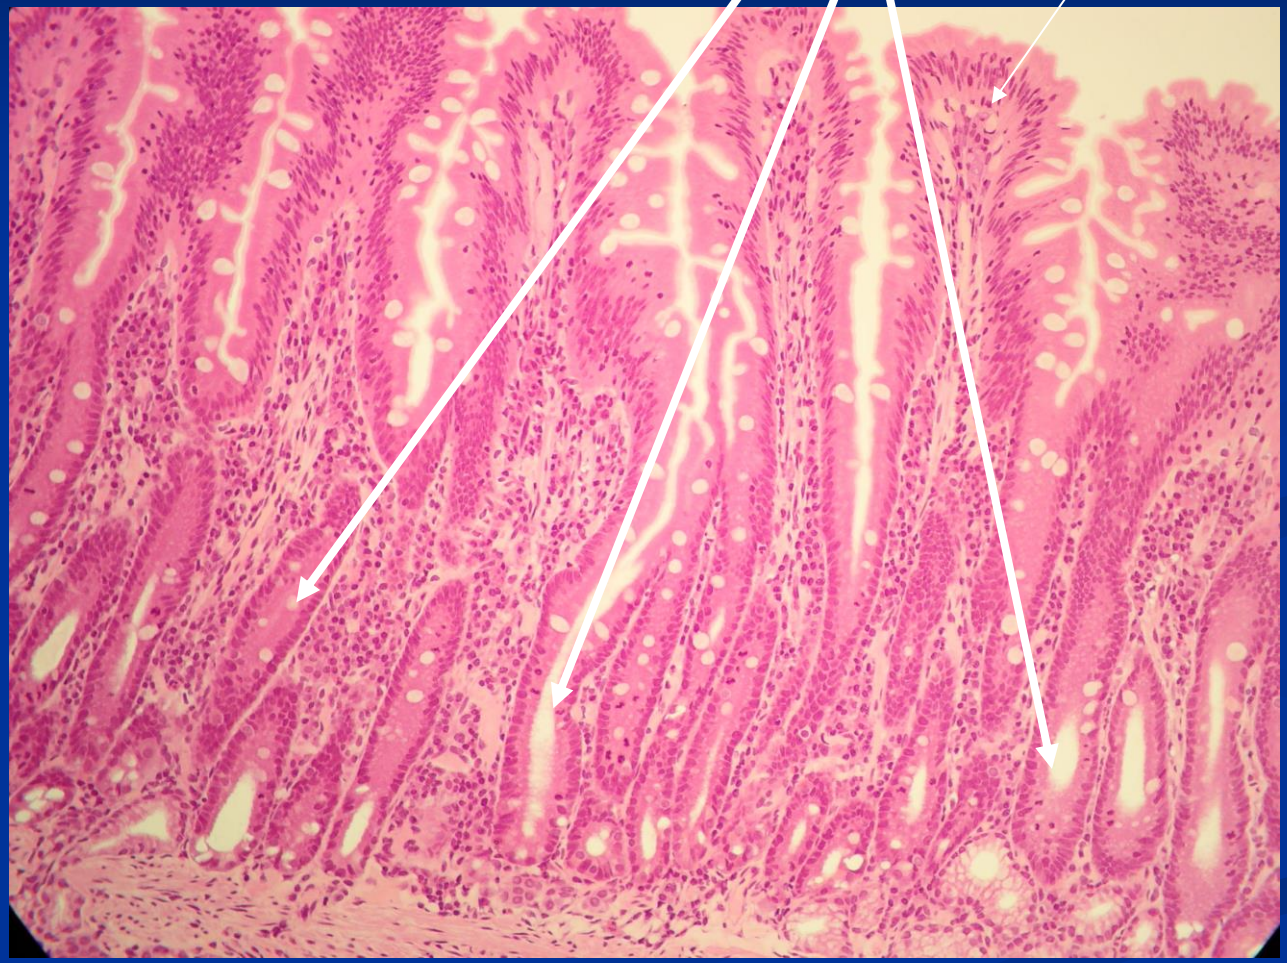
Duodenum

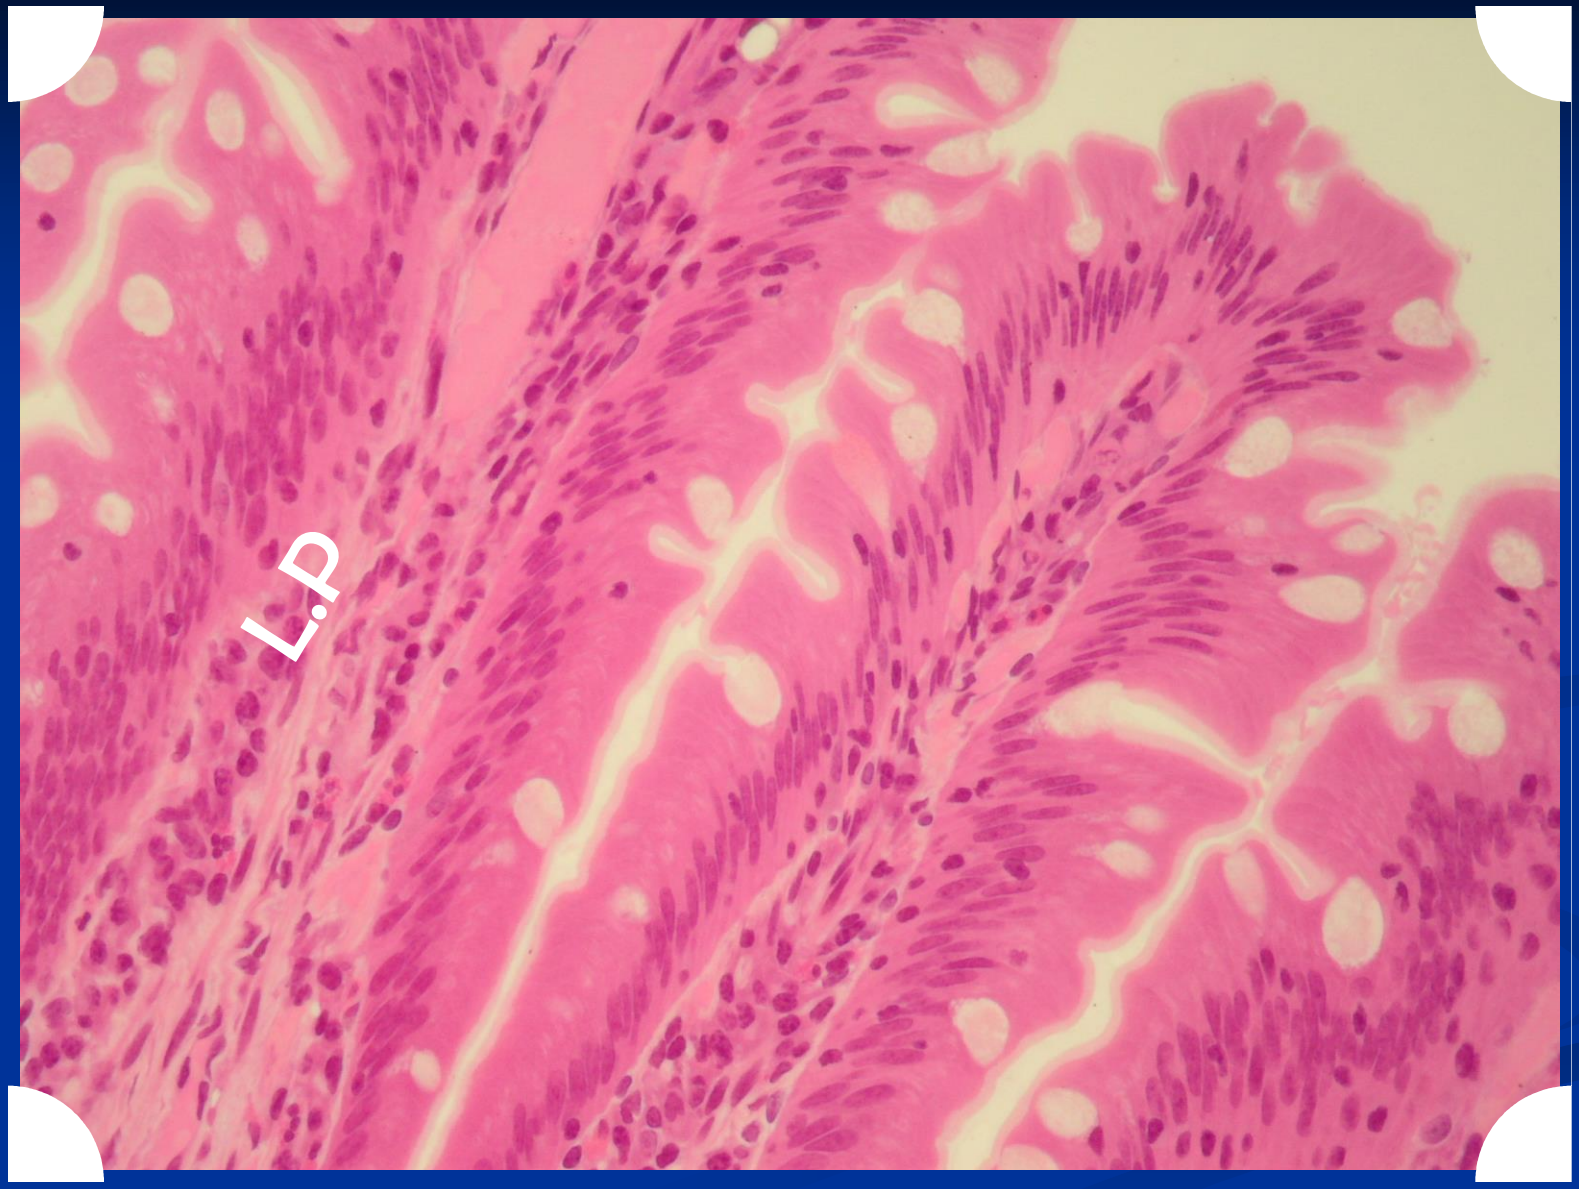


Intestinal glands villi



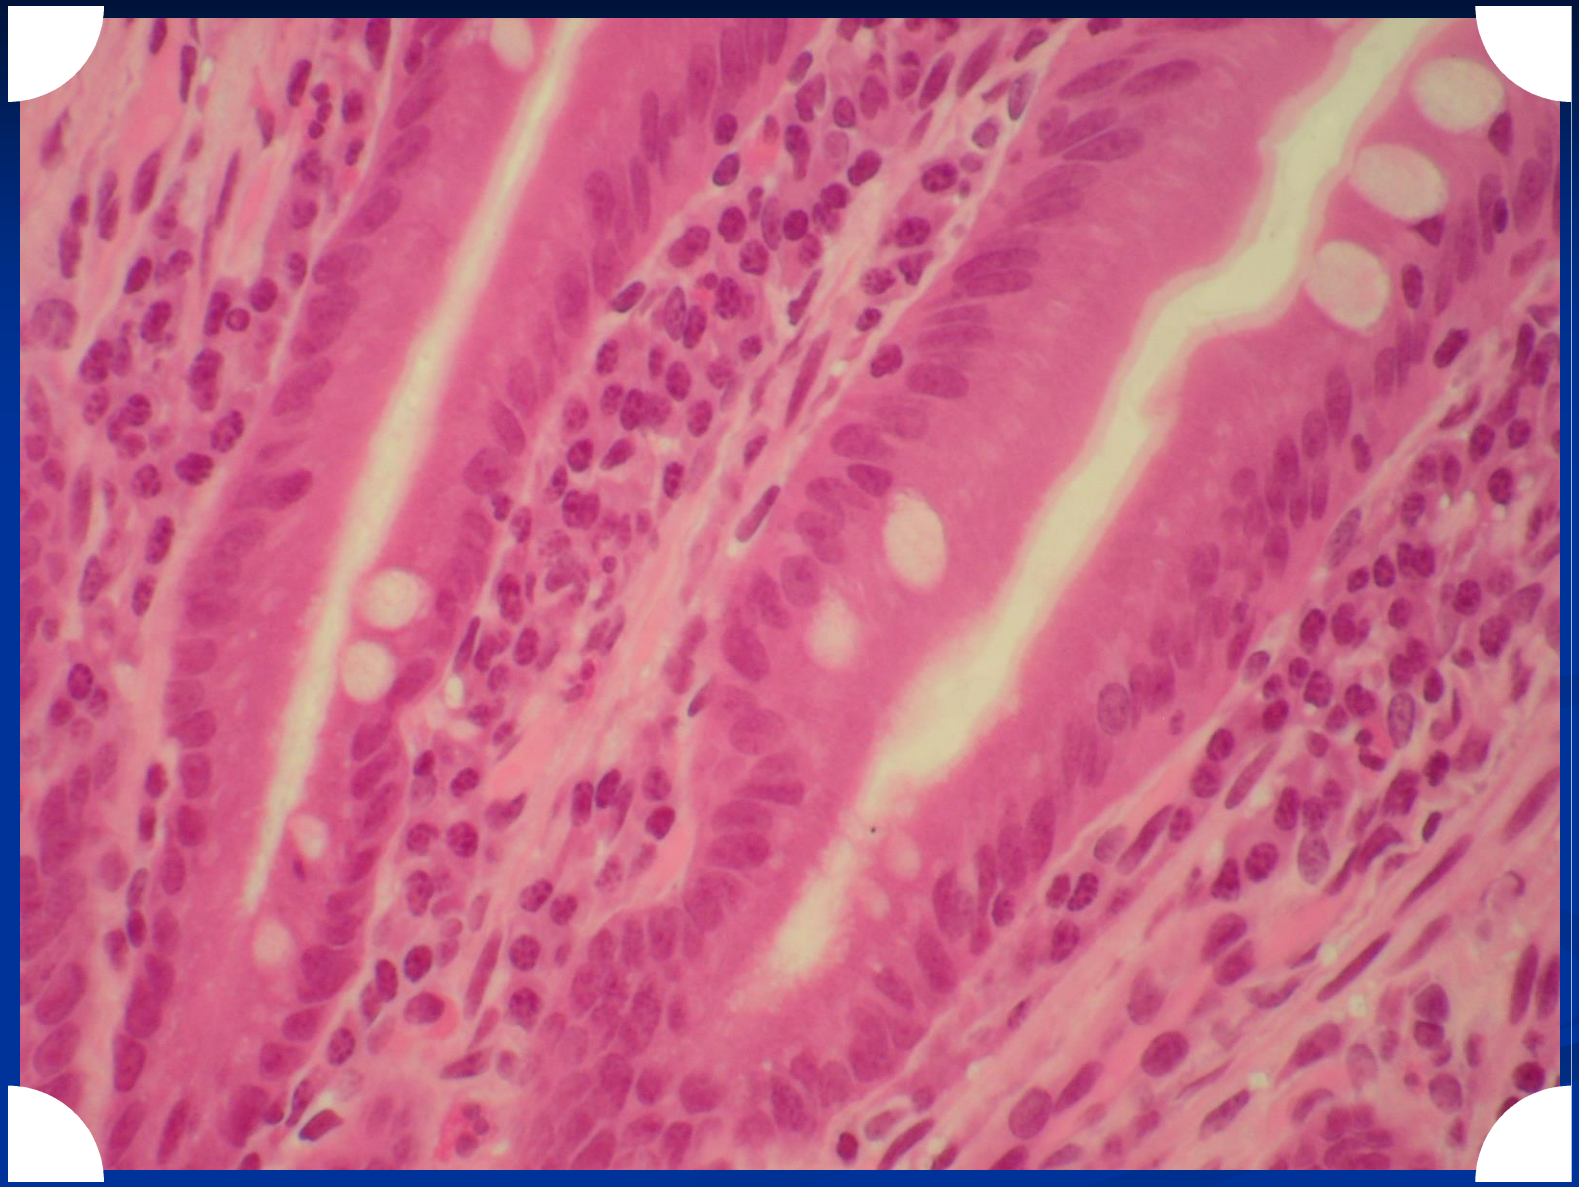
Crypt of Lieberkuhn villus





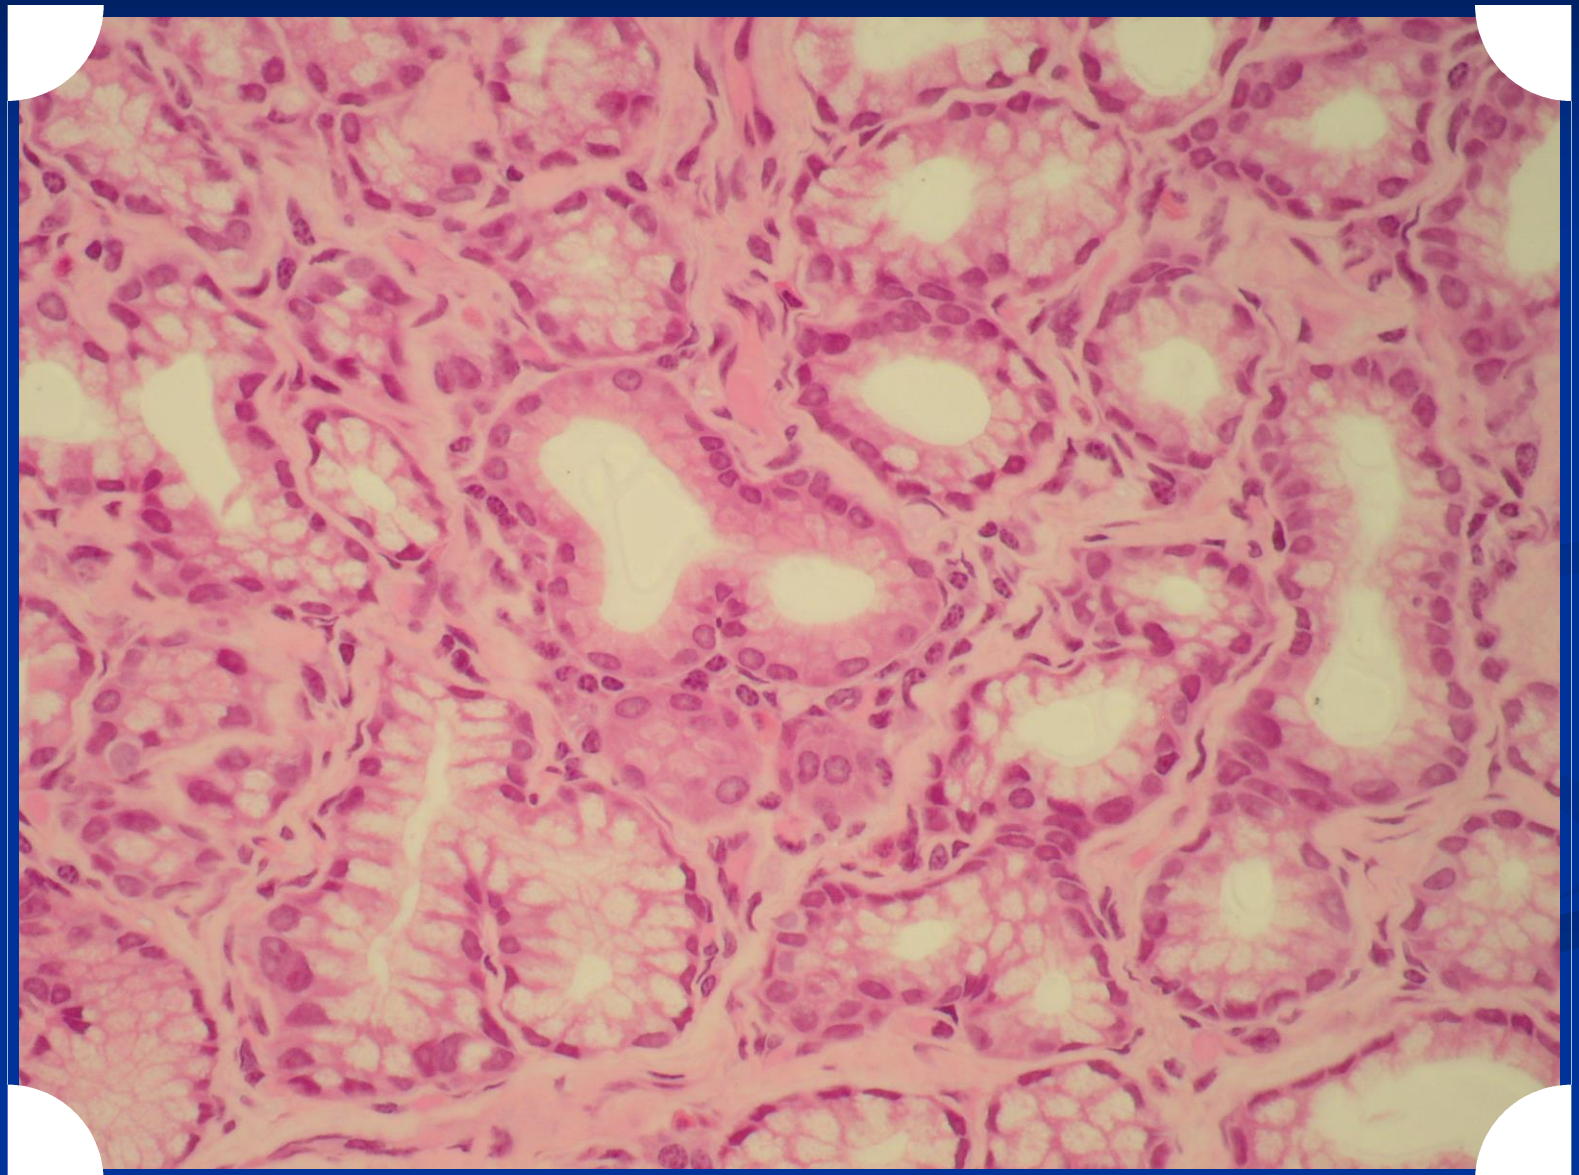
L.P

Surface absorbtive cells(simple columnar with brush border)

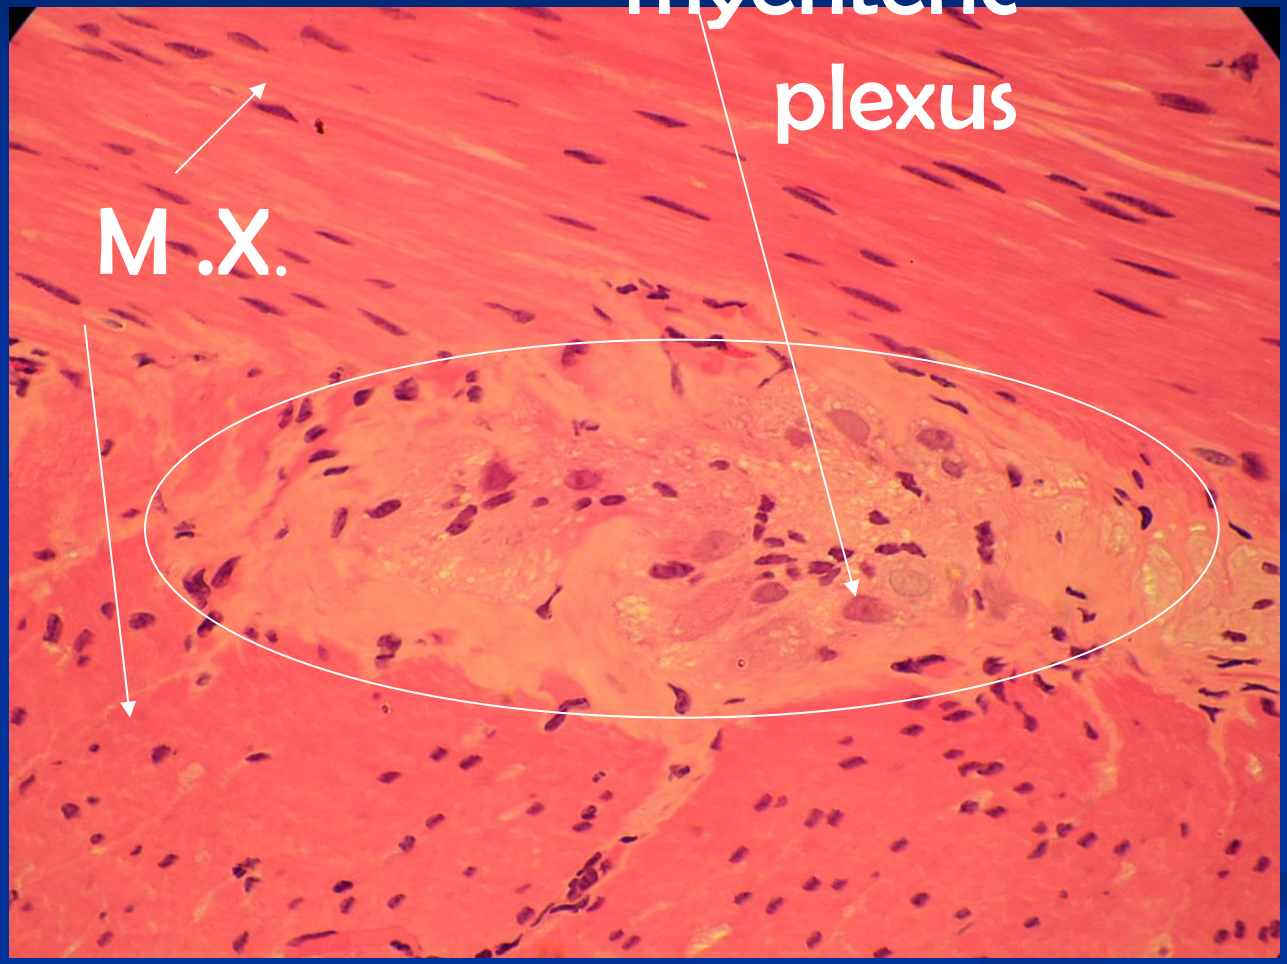


Lym.
MM
Brunner's glands

Simple branch tubular gl.=mucous



Auerbach's myenteric plexus

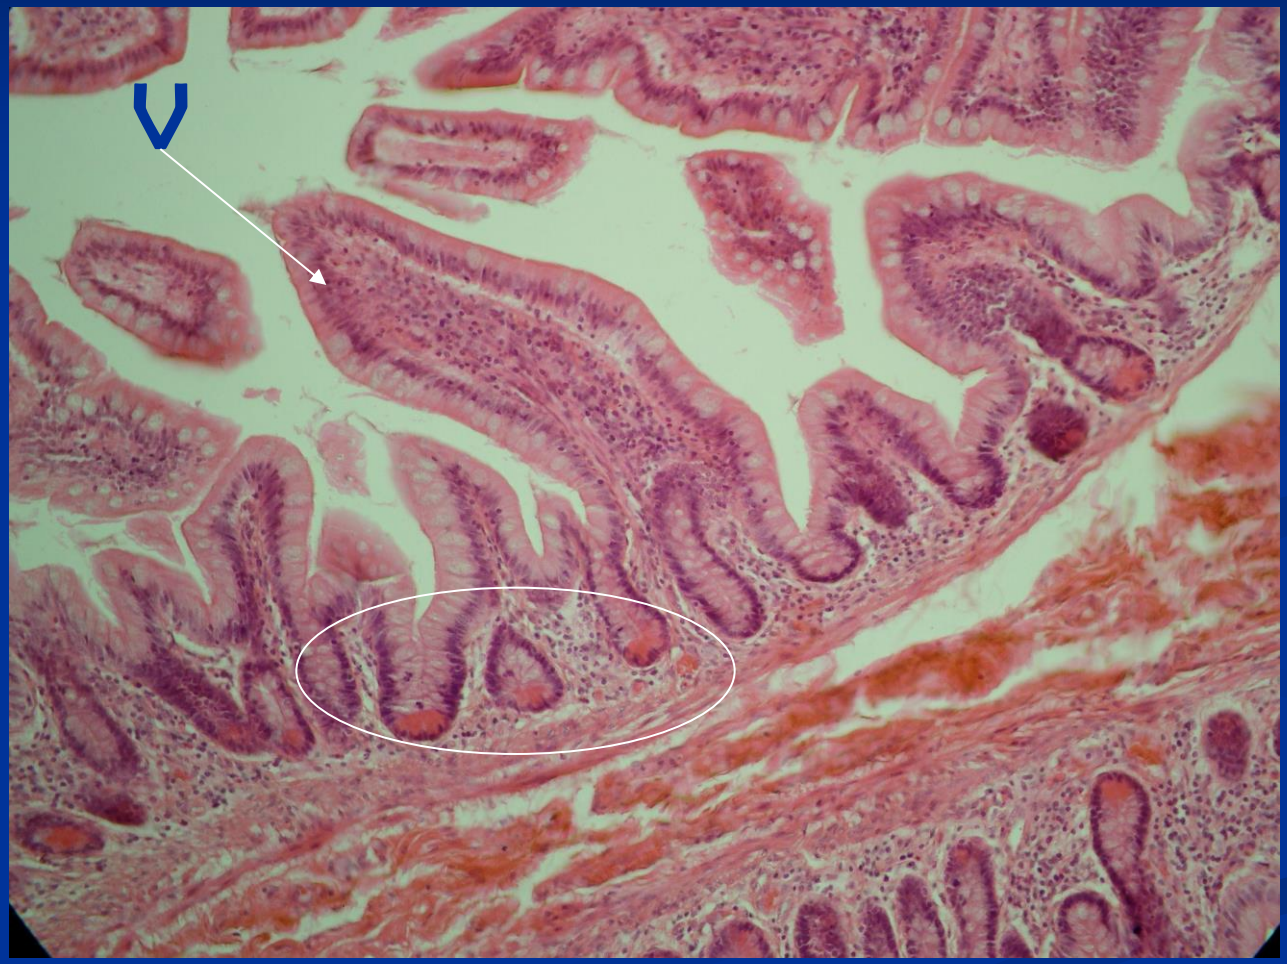


Plicae circularies in **jejunum**

villi

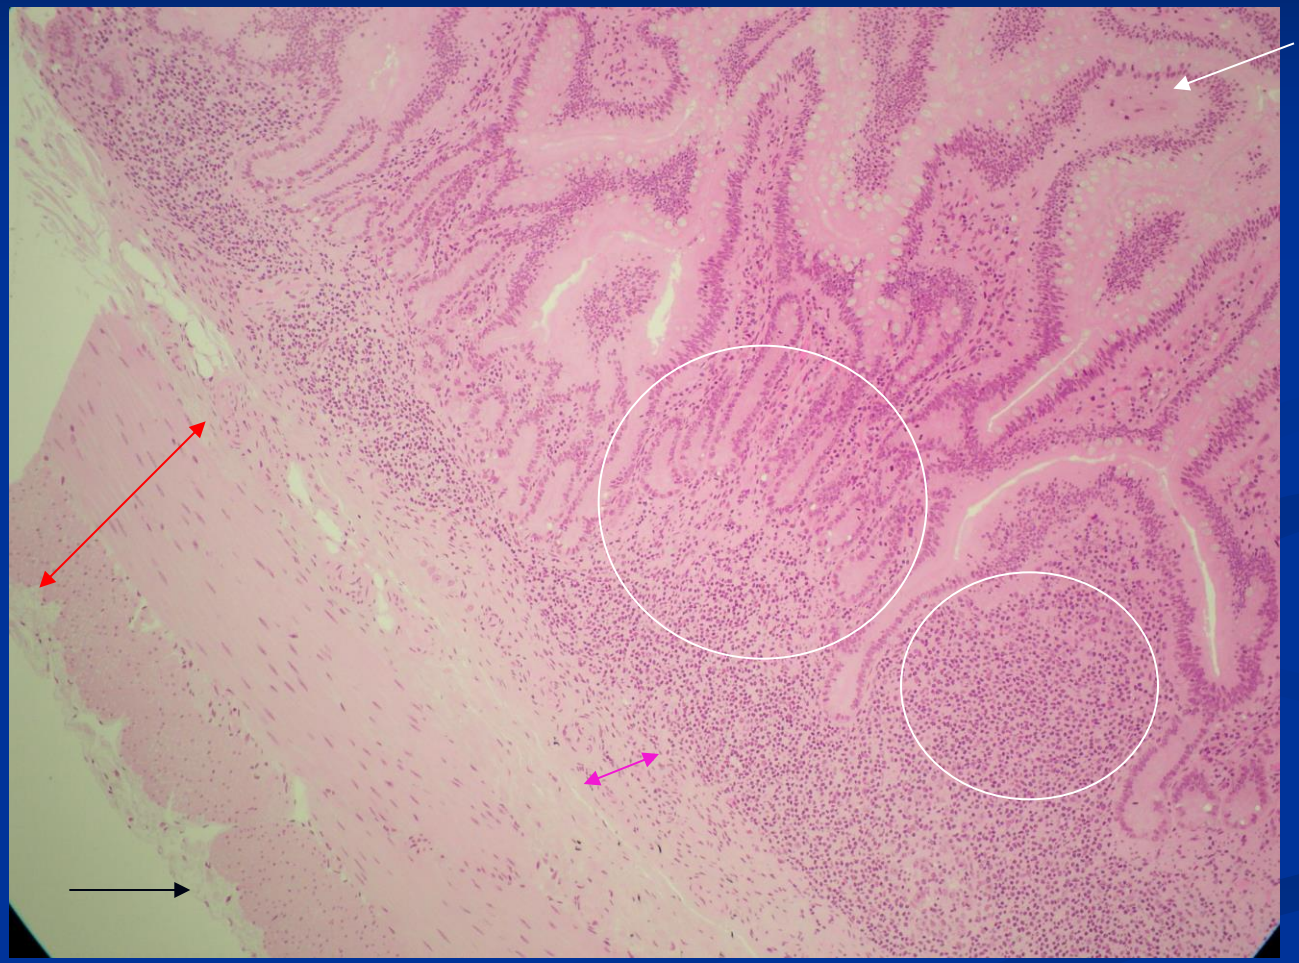
Plica circularis

Crypt= intestinal gland

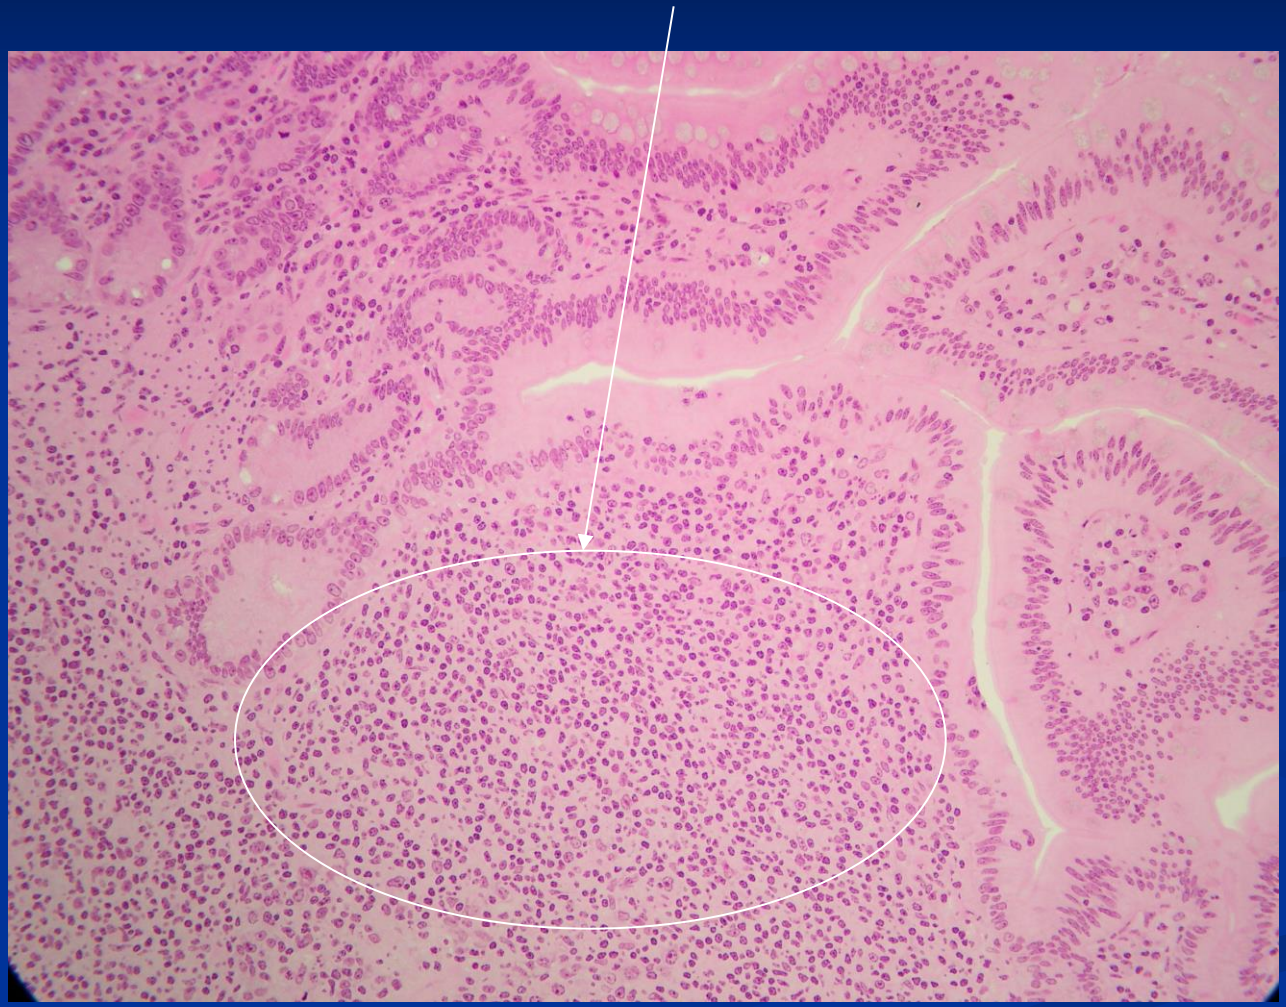


Paneth cell of intestinal gland

Ileum

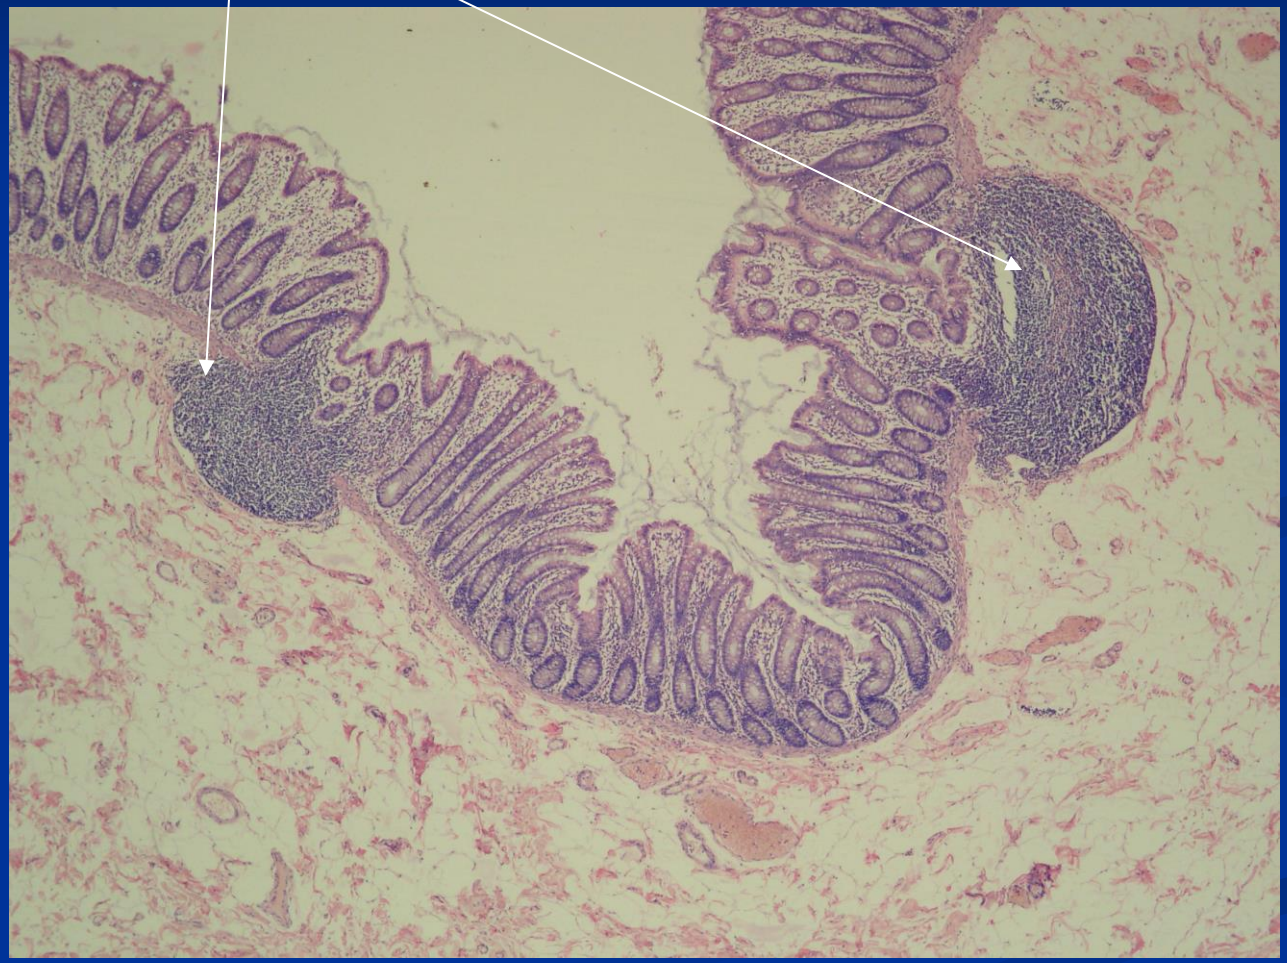


Peyer's patches

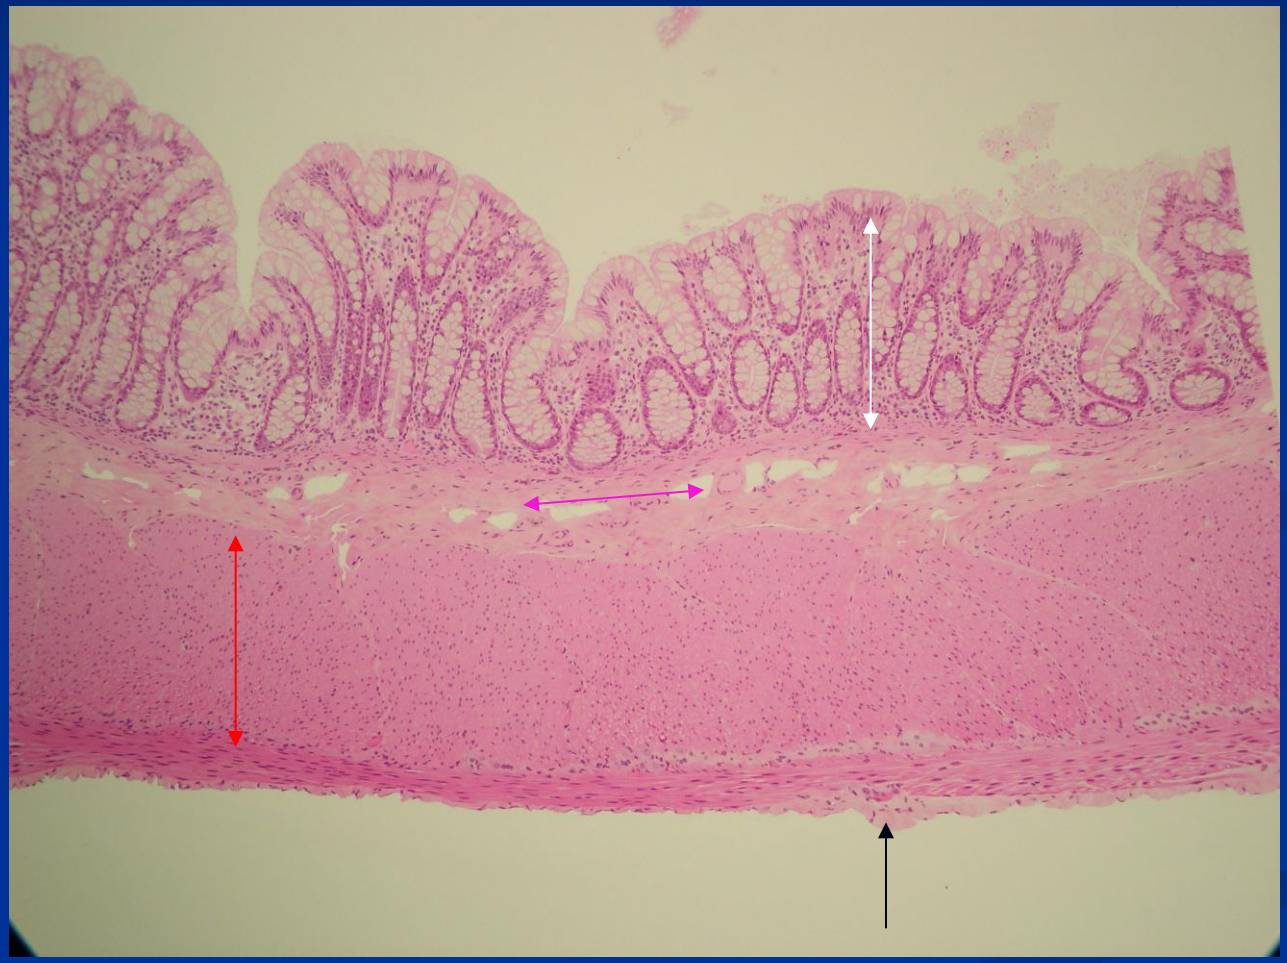


Large intestine

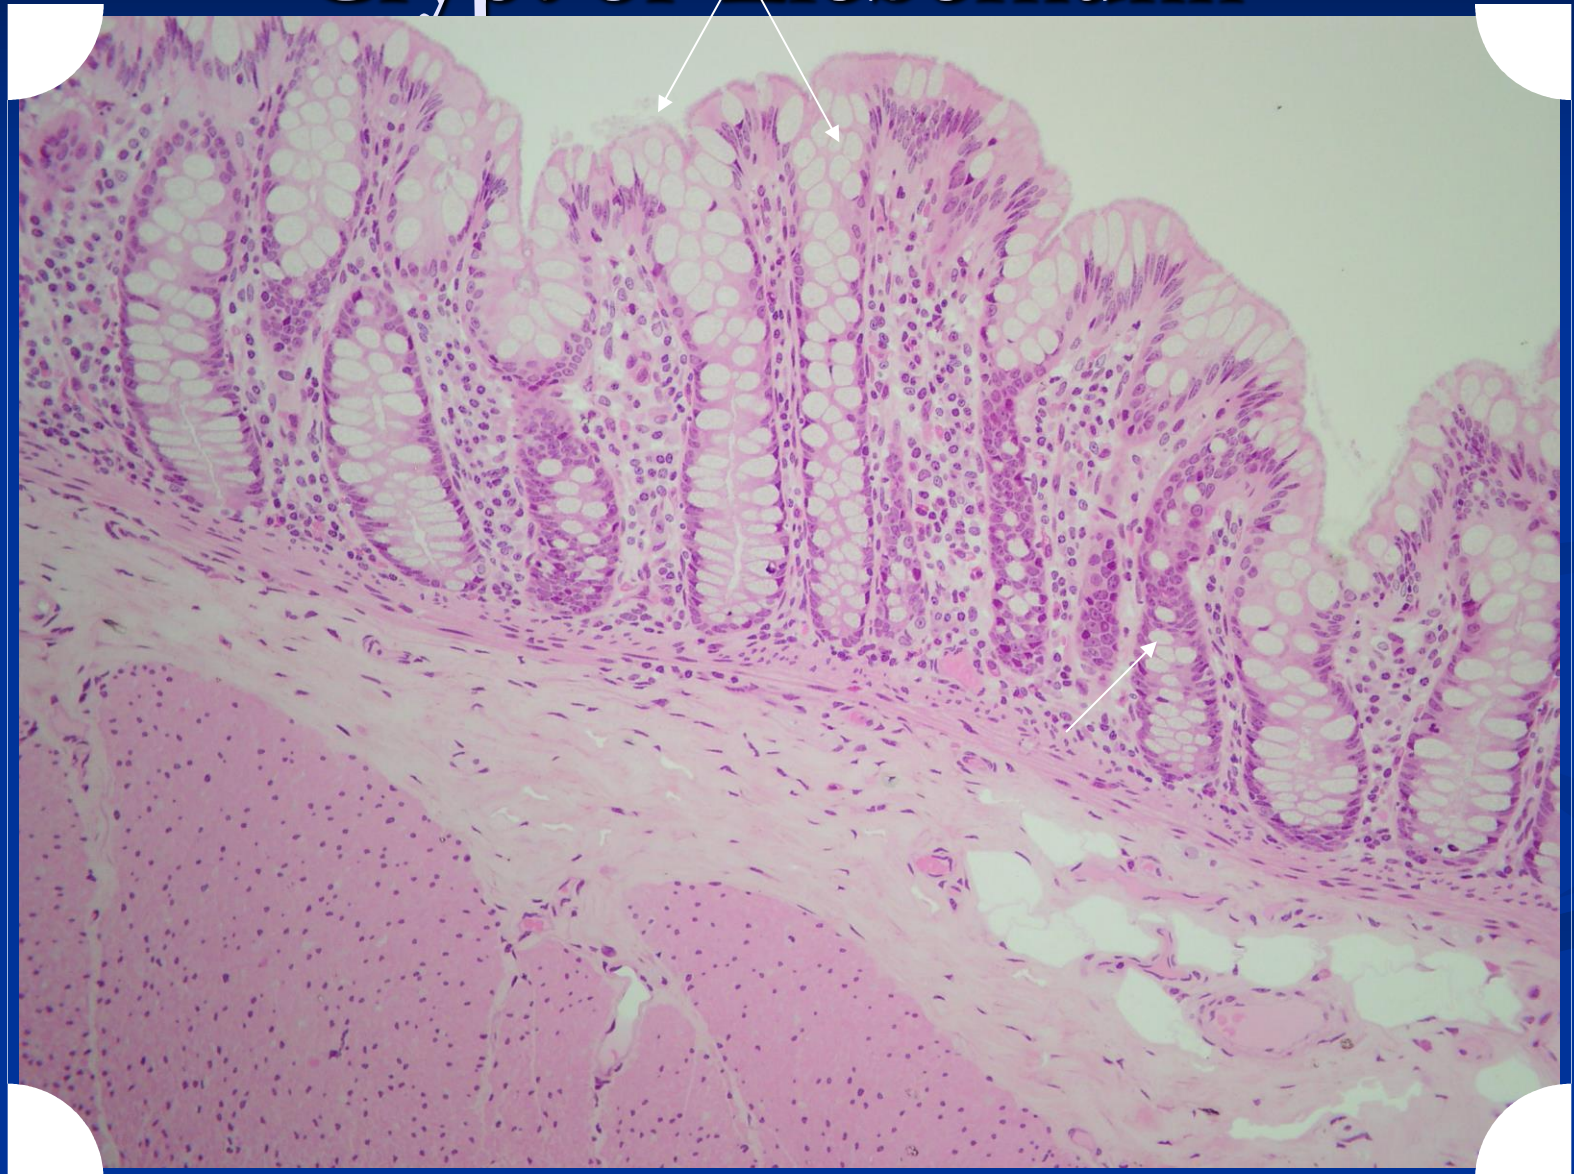
solitery nodule in colon



colon

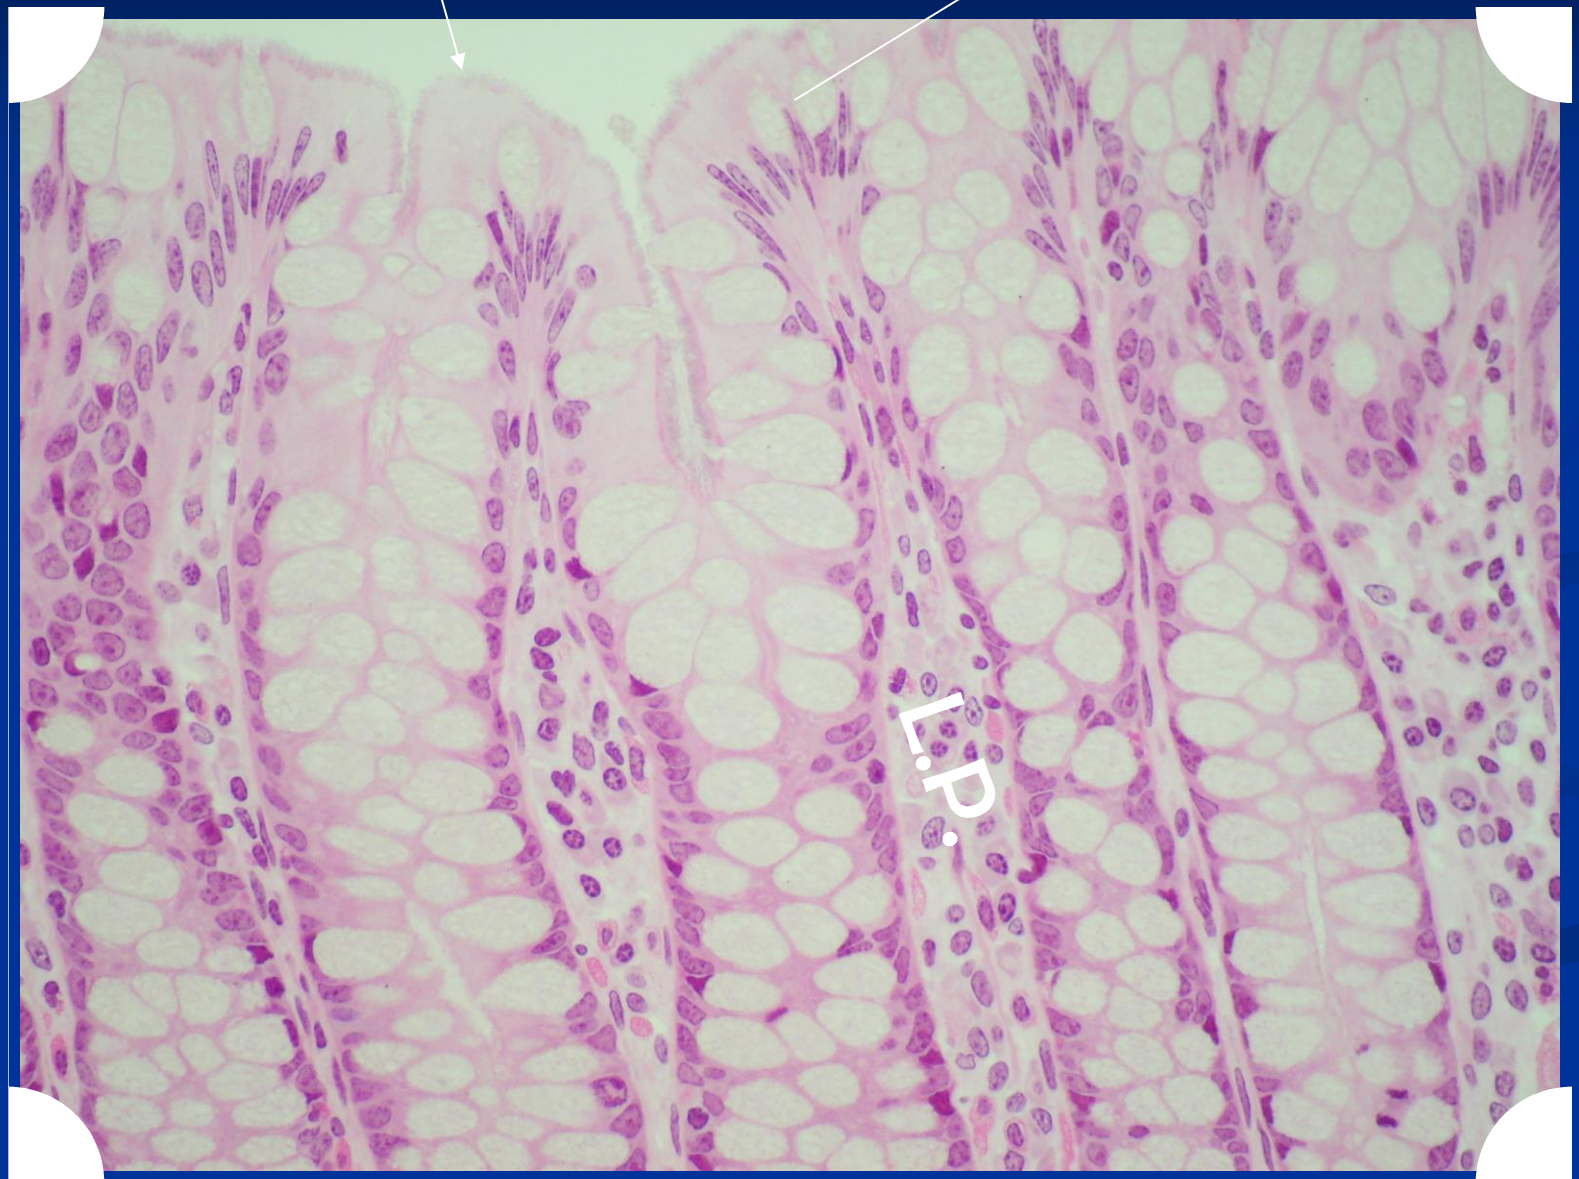


Simple tubular gland in colon
Crypt of Lieberkuhn=

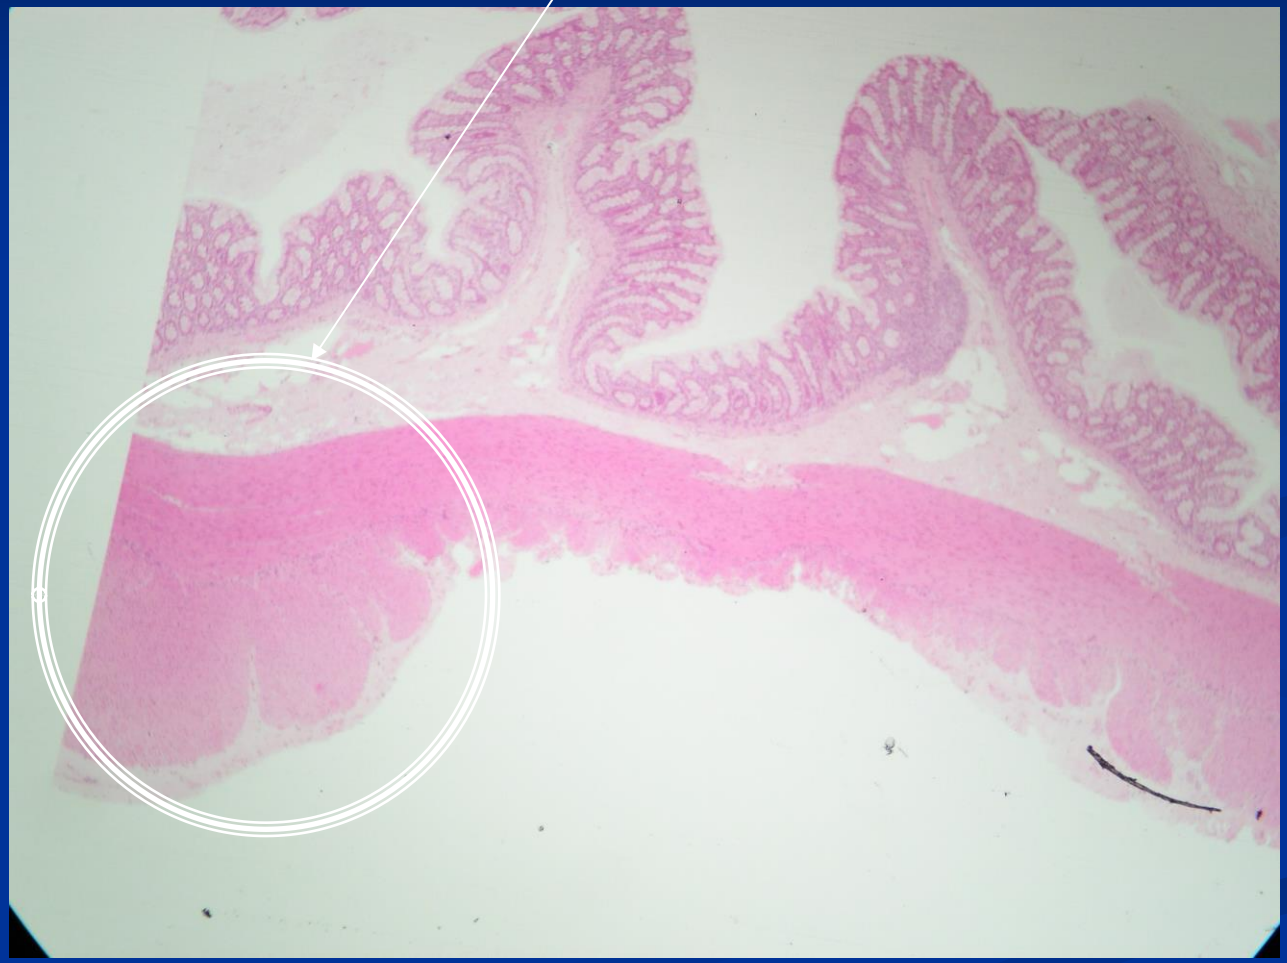


surface cell

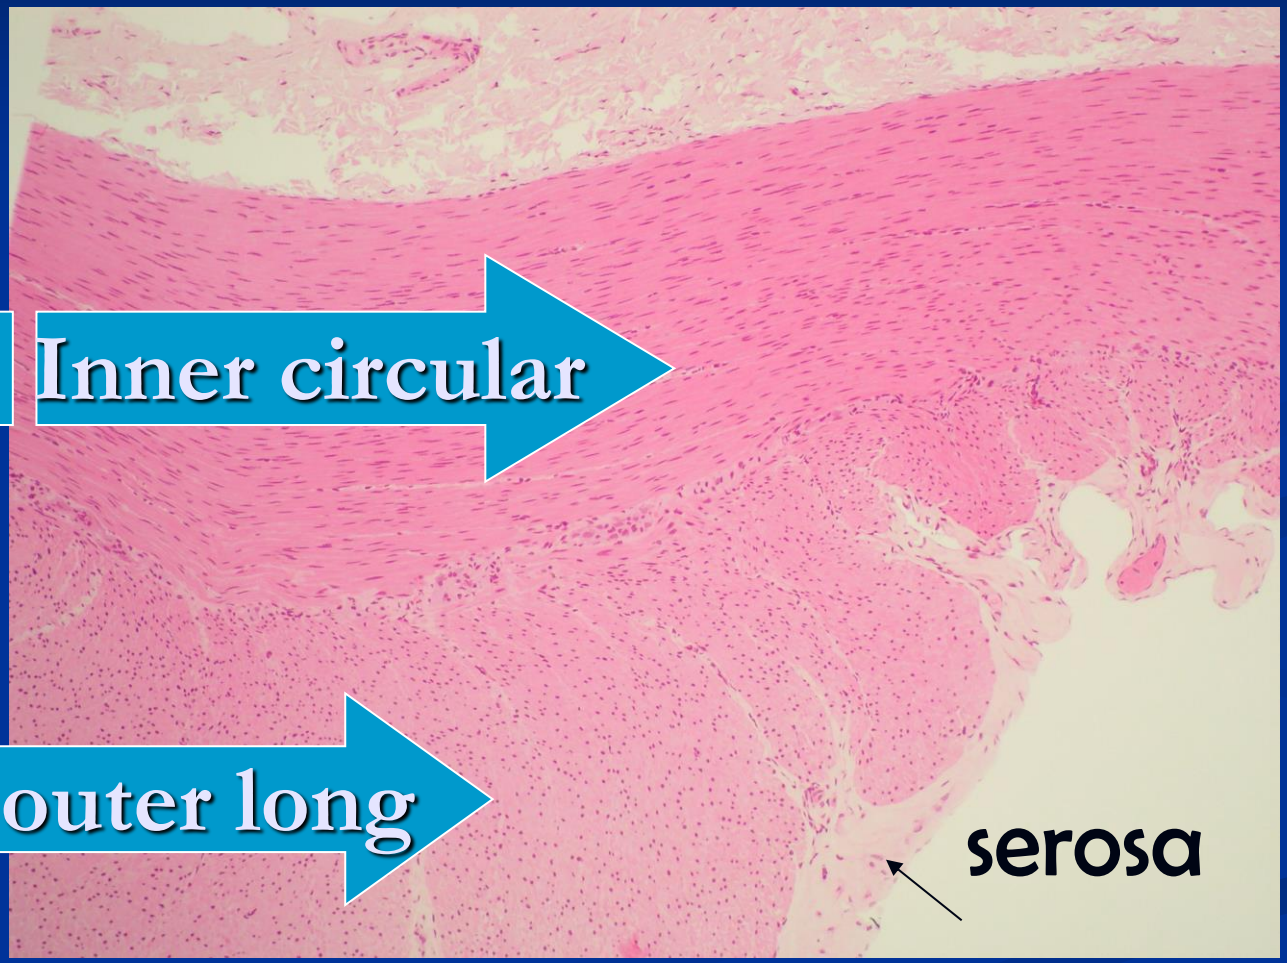
Goblet cells



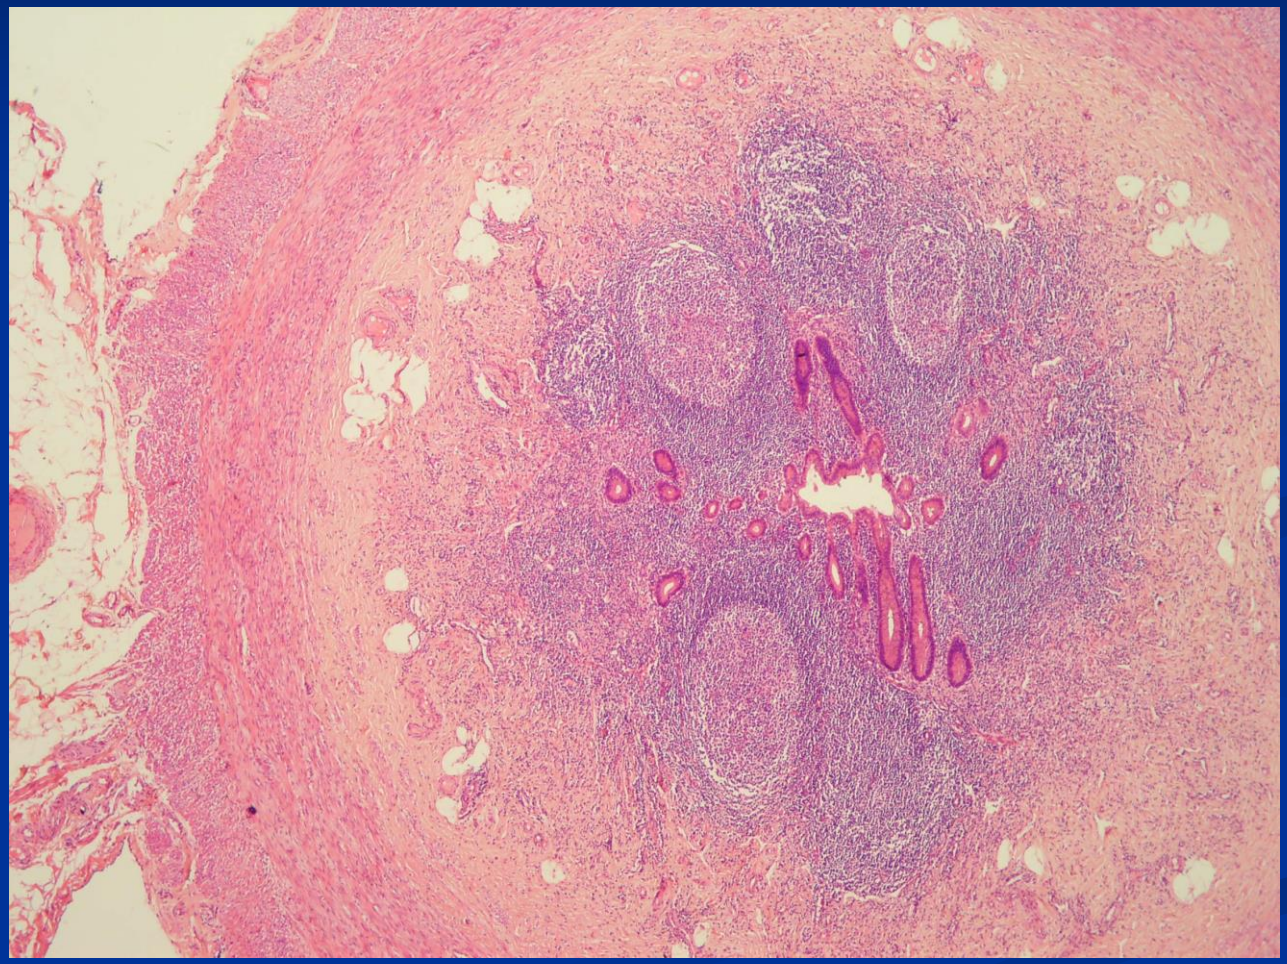
Taeniae coli



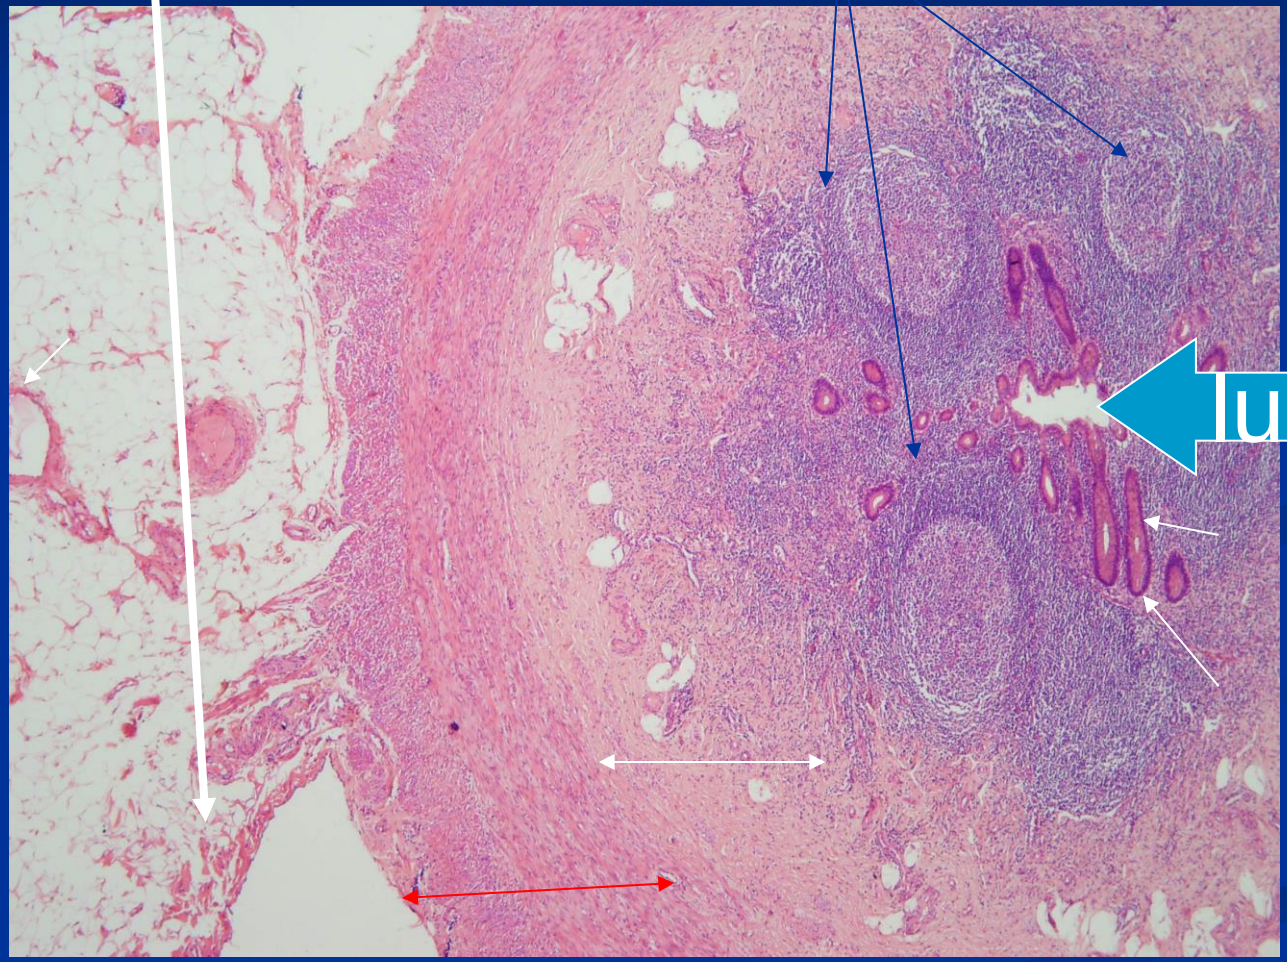
Inner circular outer long smooth muscle.



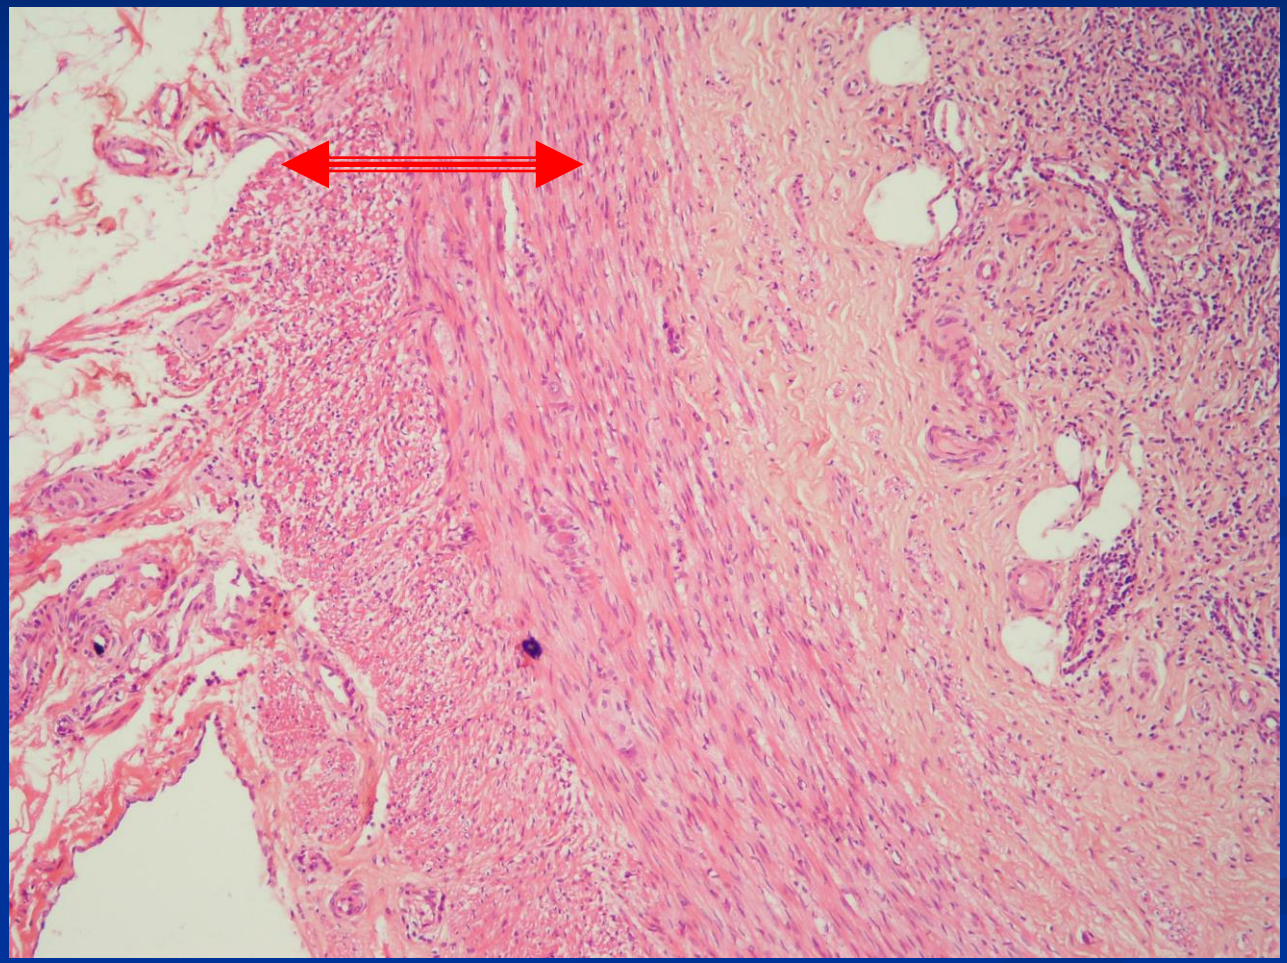
Appendix



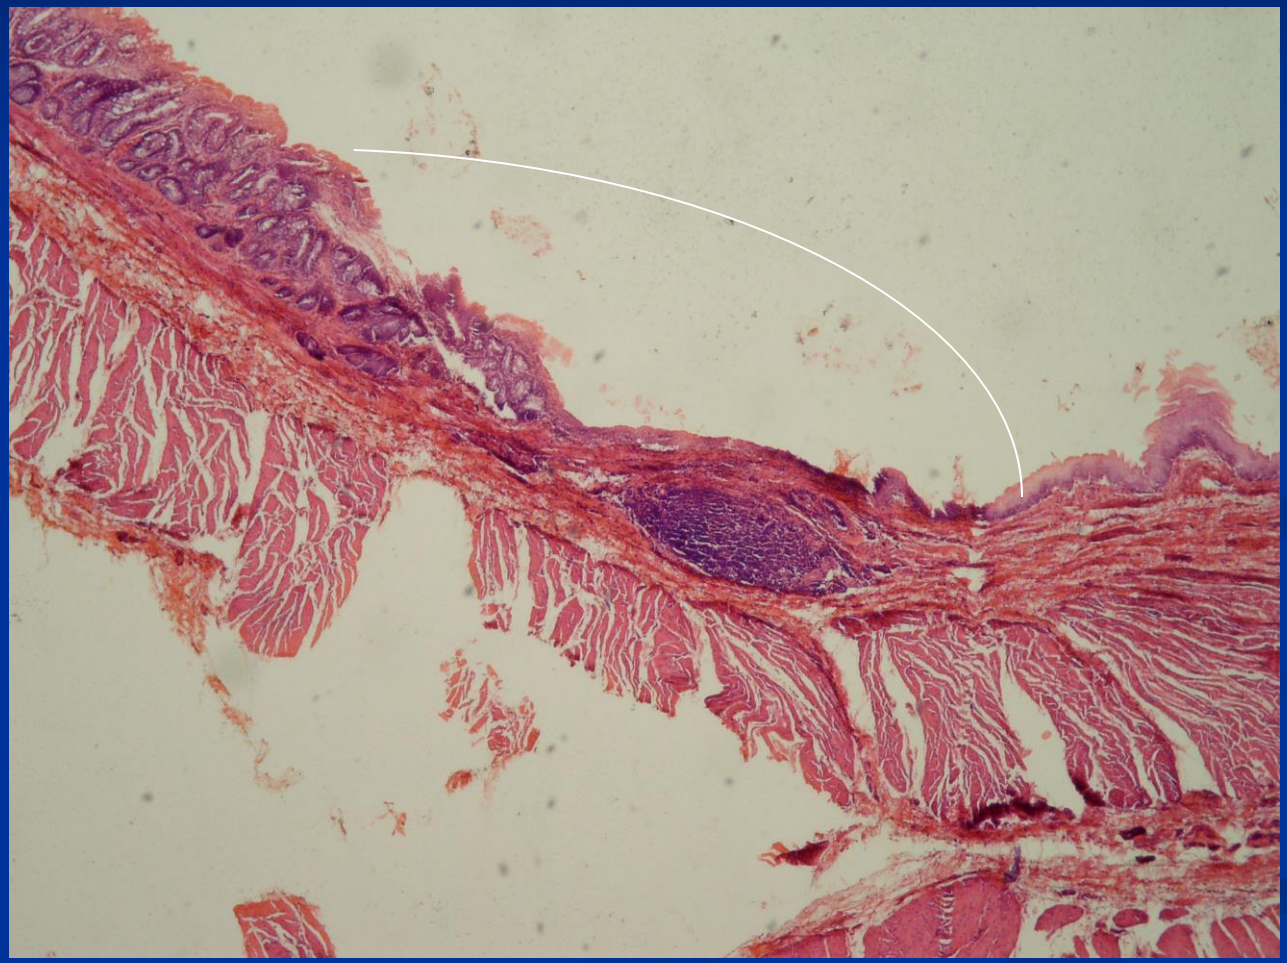
Mesoappedix lymph. Nodu.
Crypt of Lieberkuhn



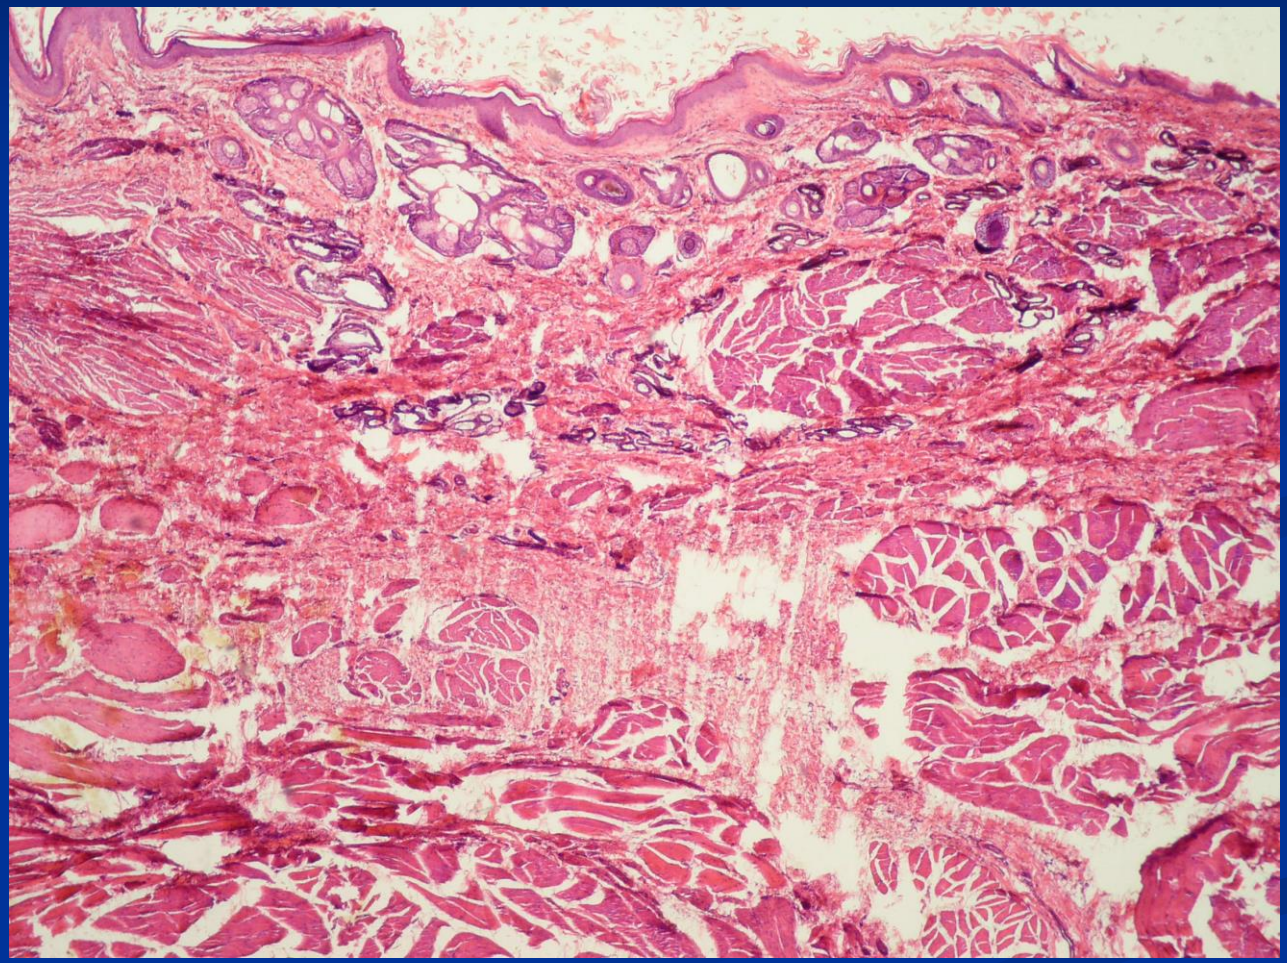
Mu.x.



Rectoanal junction

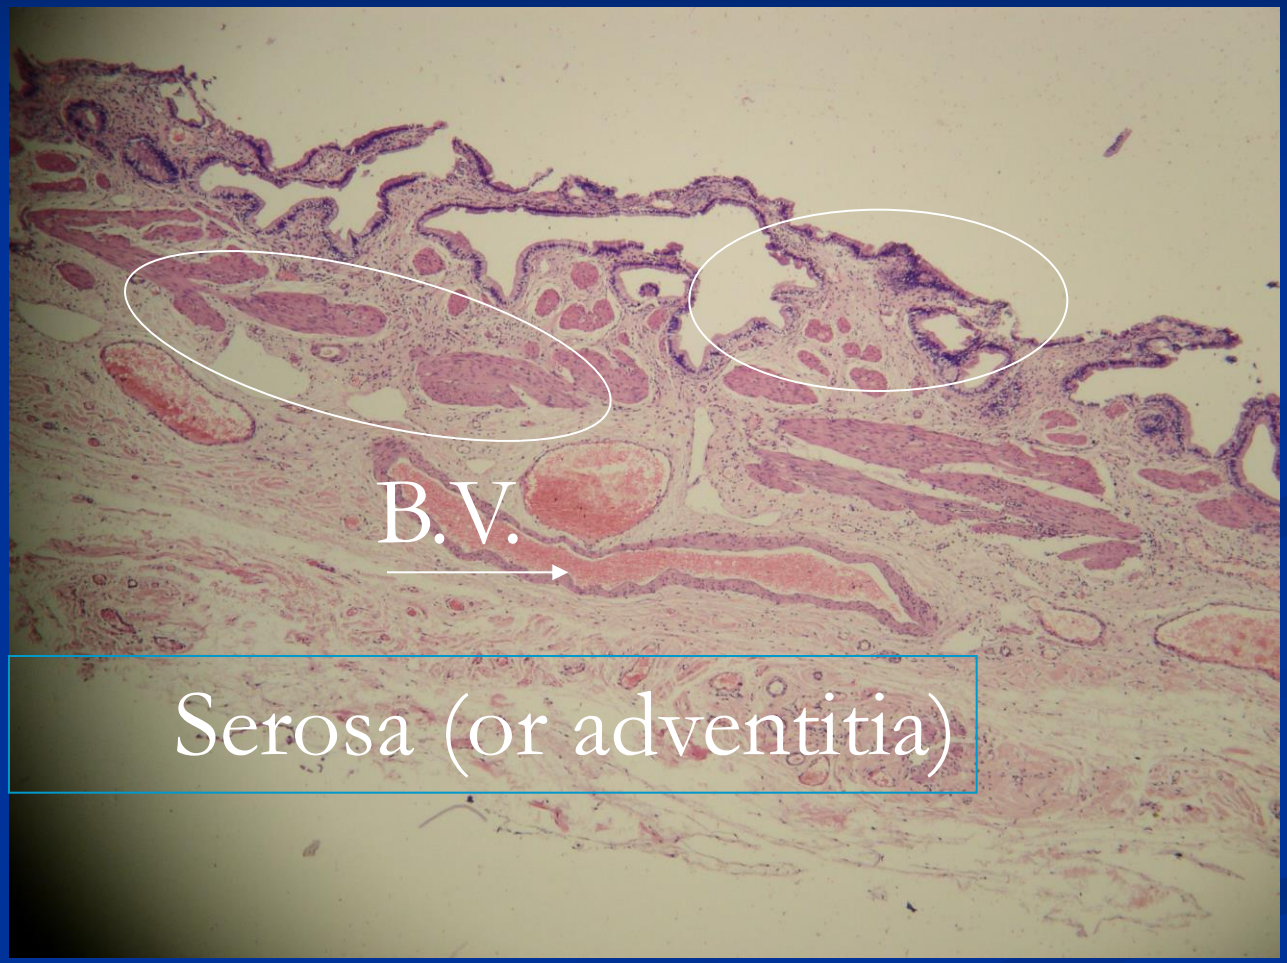


Lower anal canal

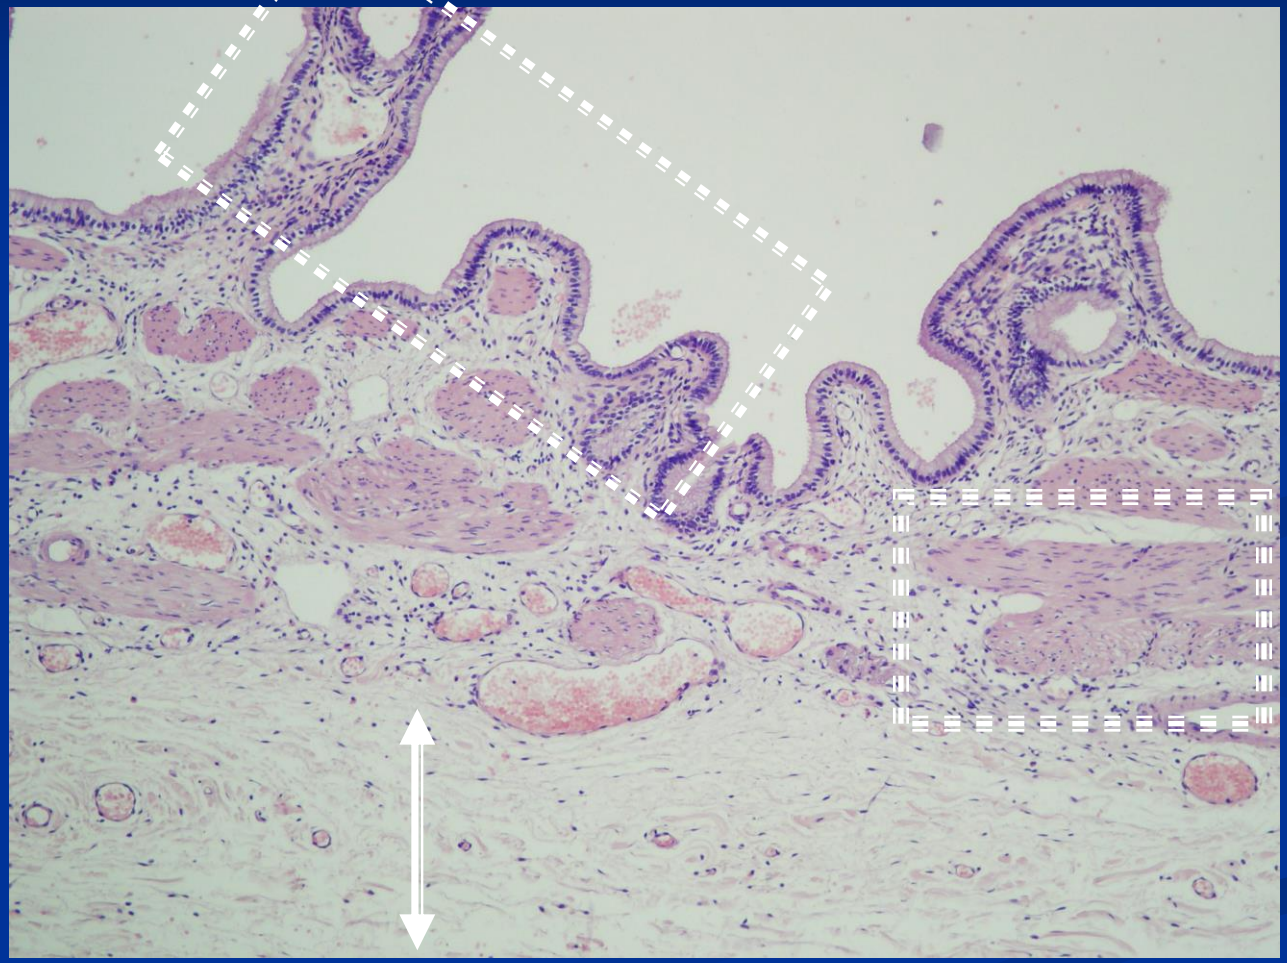


Gallbladder

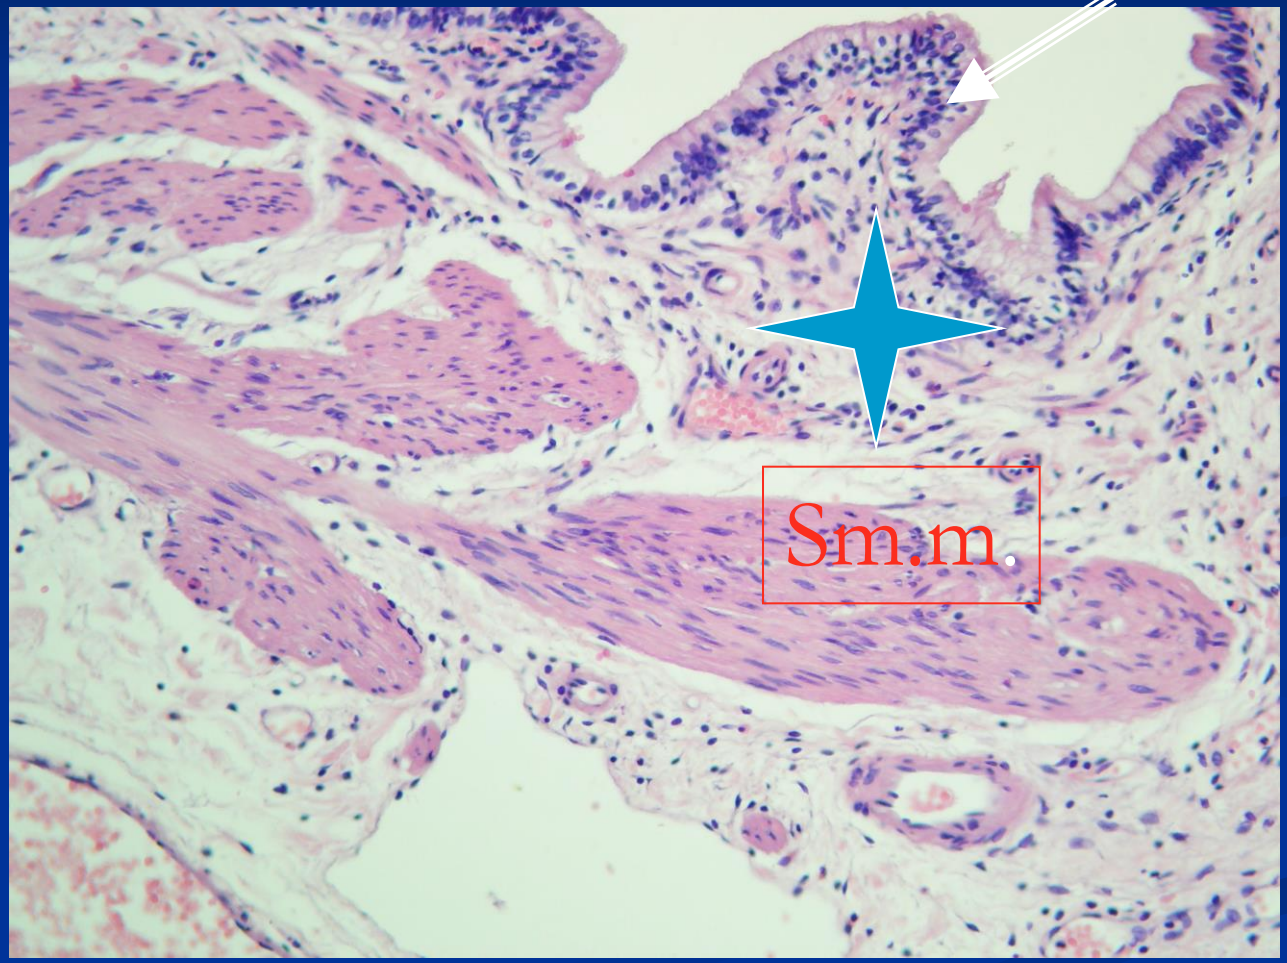
Honey comb folding musc. Bundleswithin lamina propria



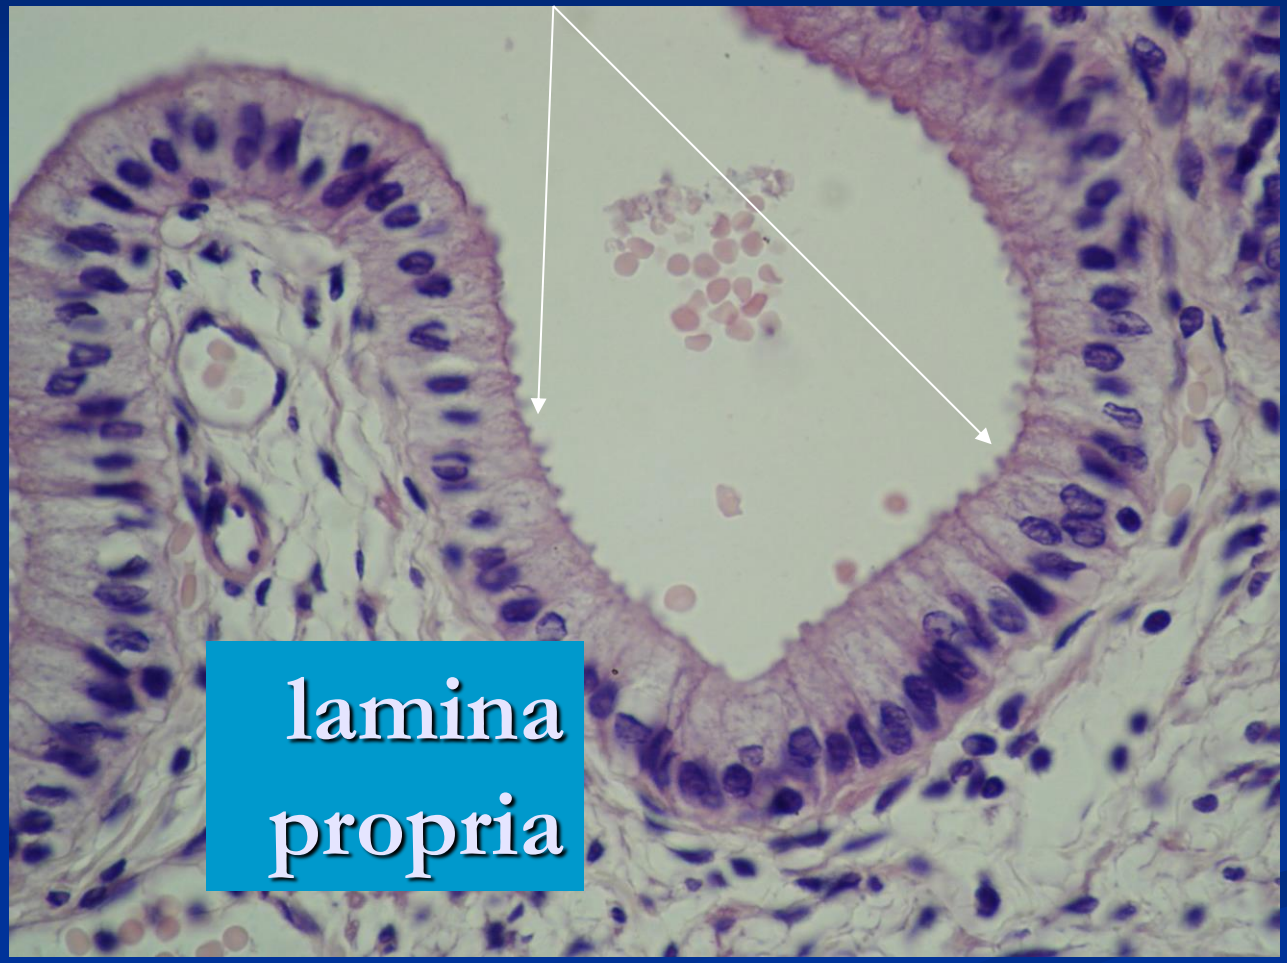
Honey comb folding mucosa musc. Bundleswithin lamina propria



lamina propria



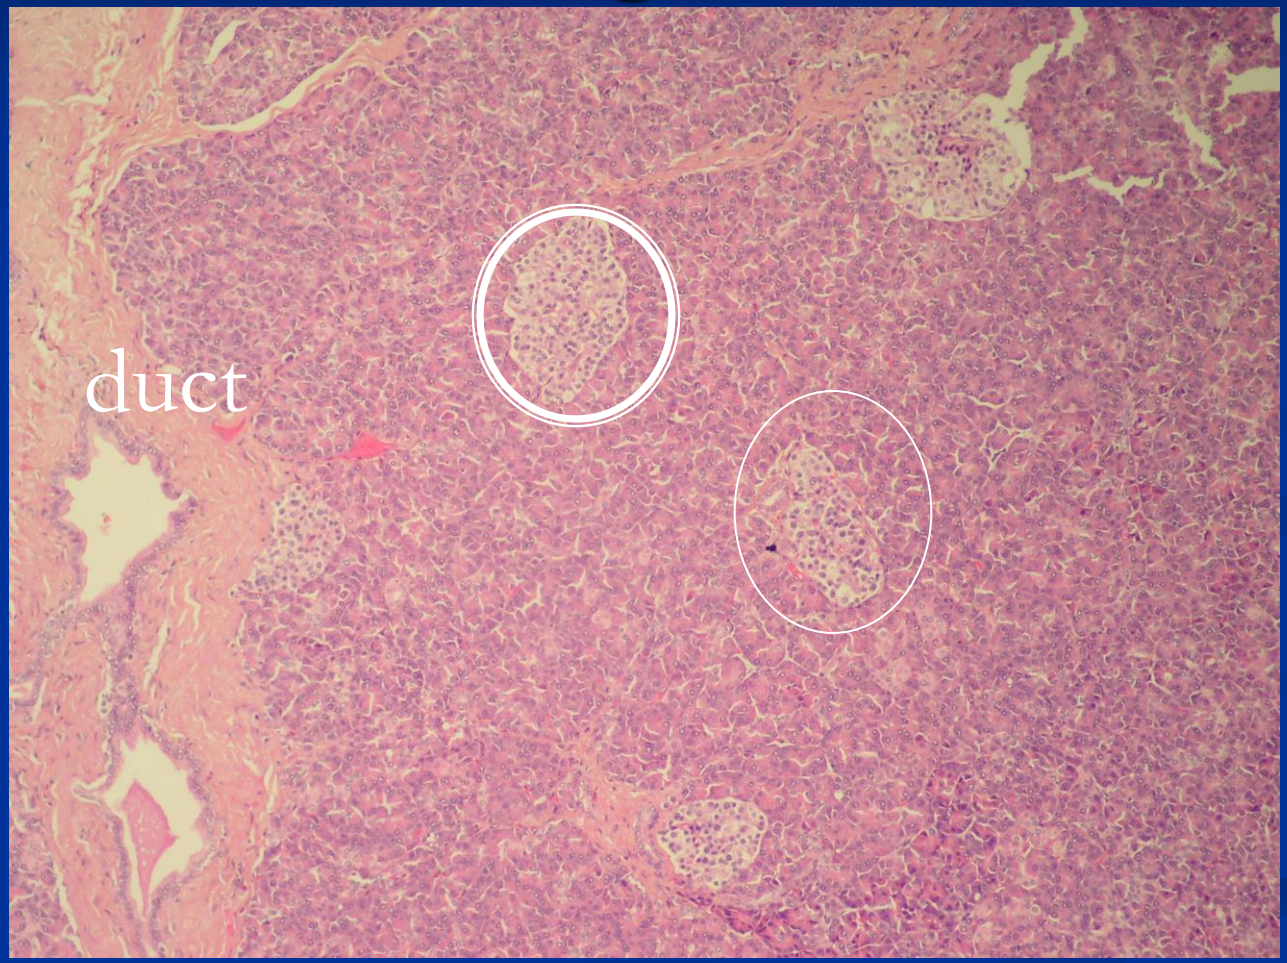
Simple columnar epithelium



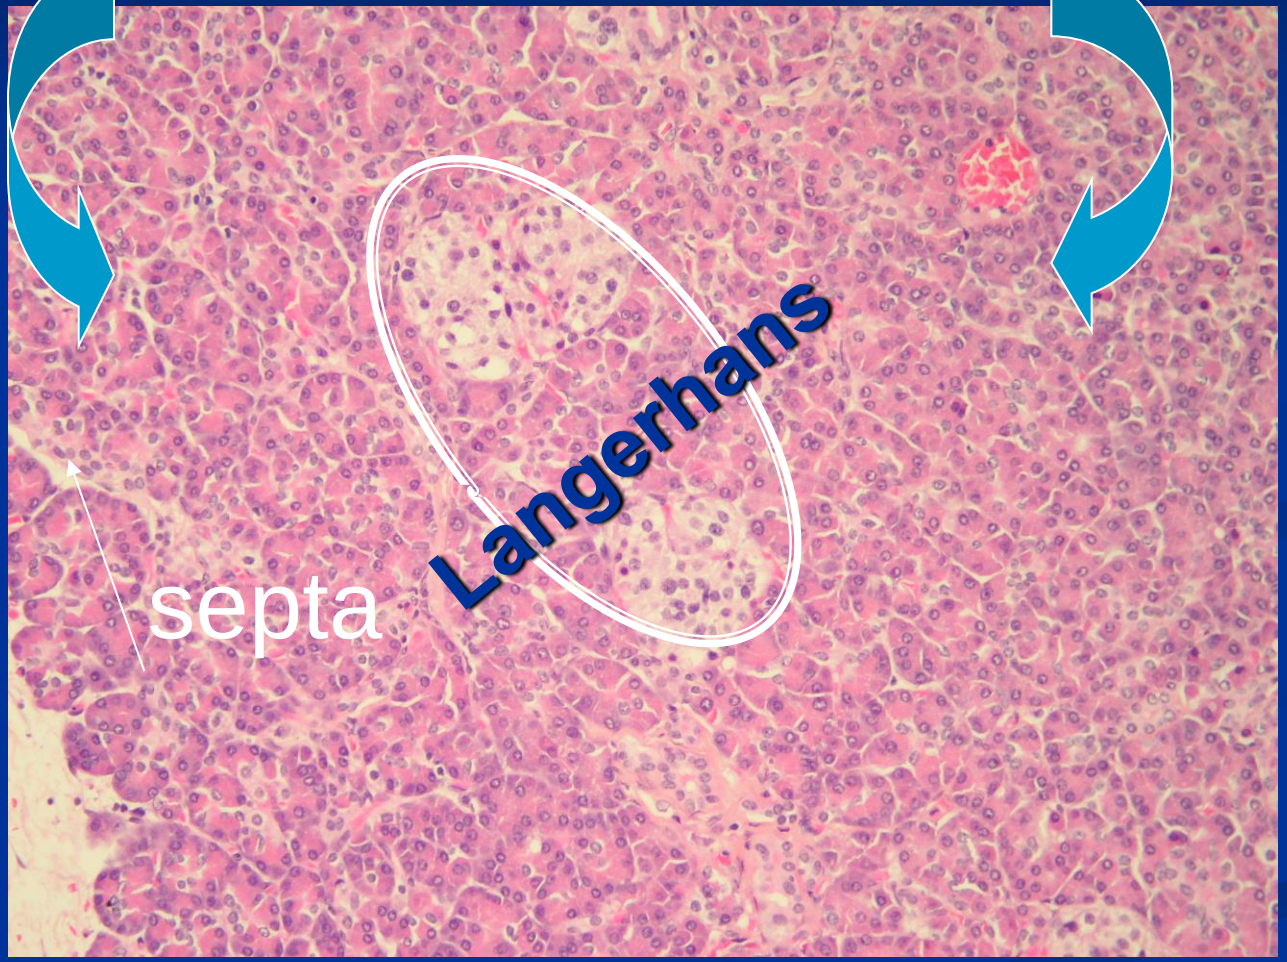
Pancreas

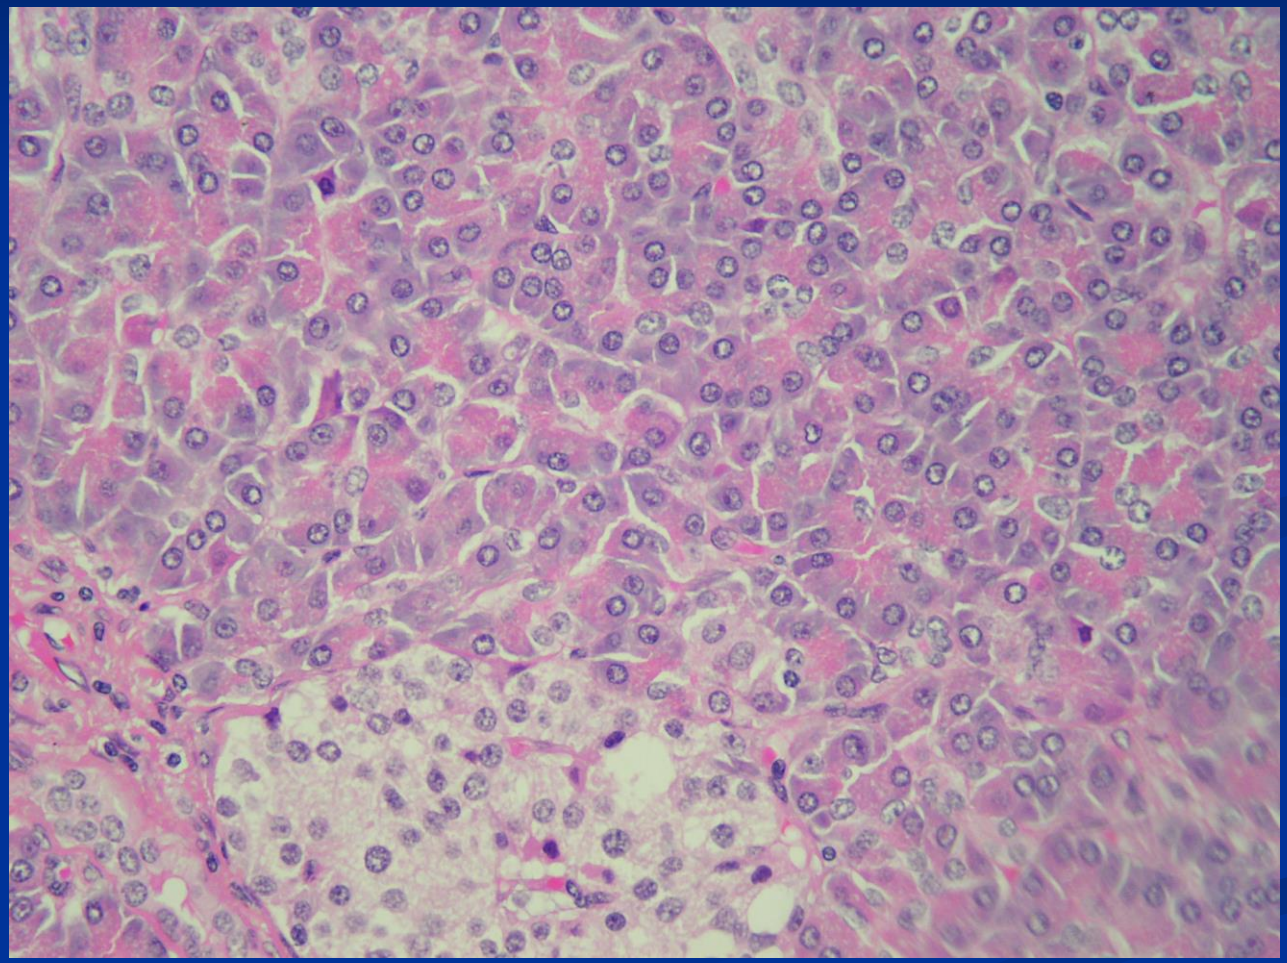
Mixed endocrine-exocrine gland

Islet of Langerhans

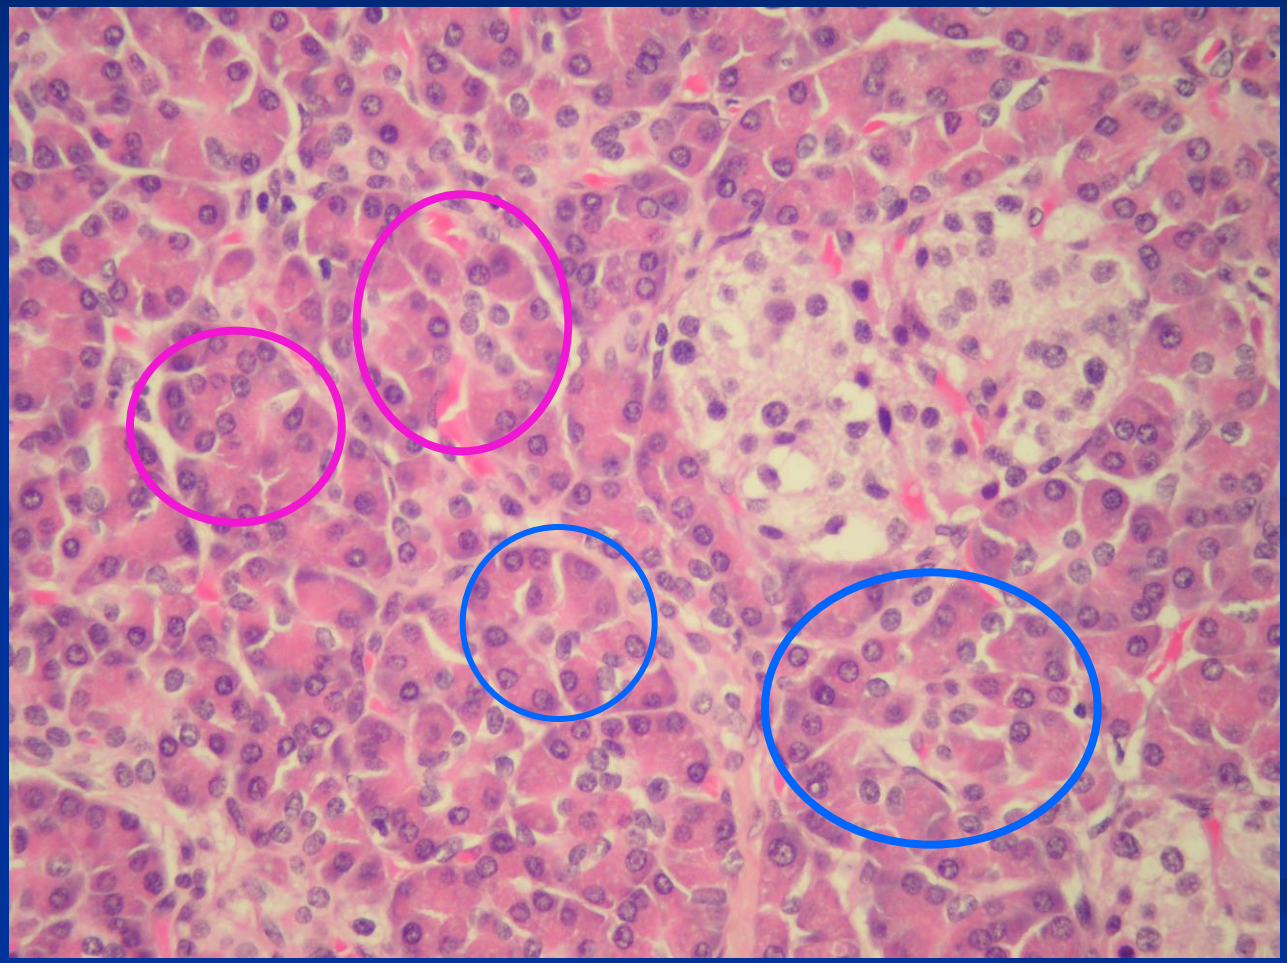


Exocrine pancreatic portion: compound acinar gland

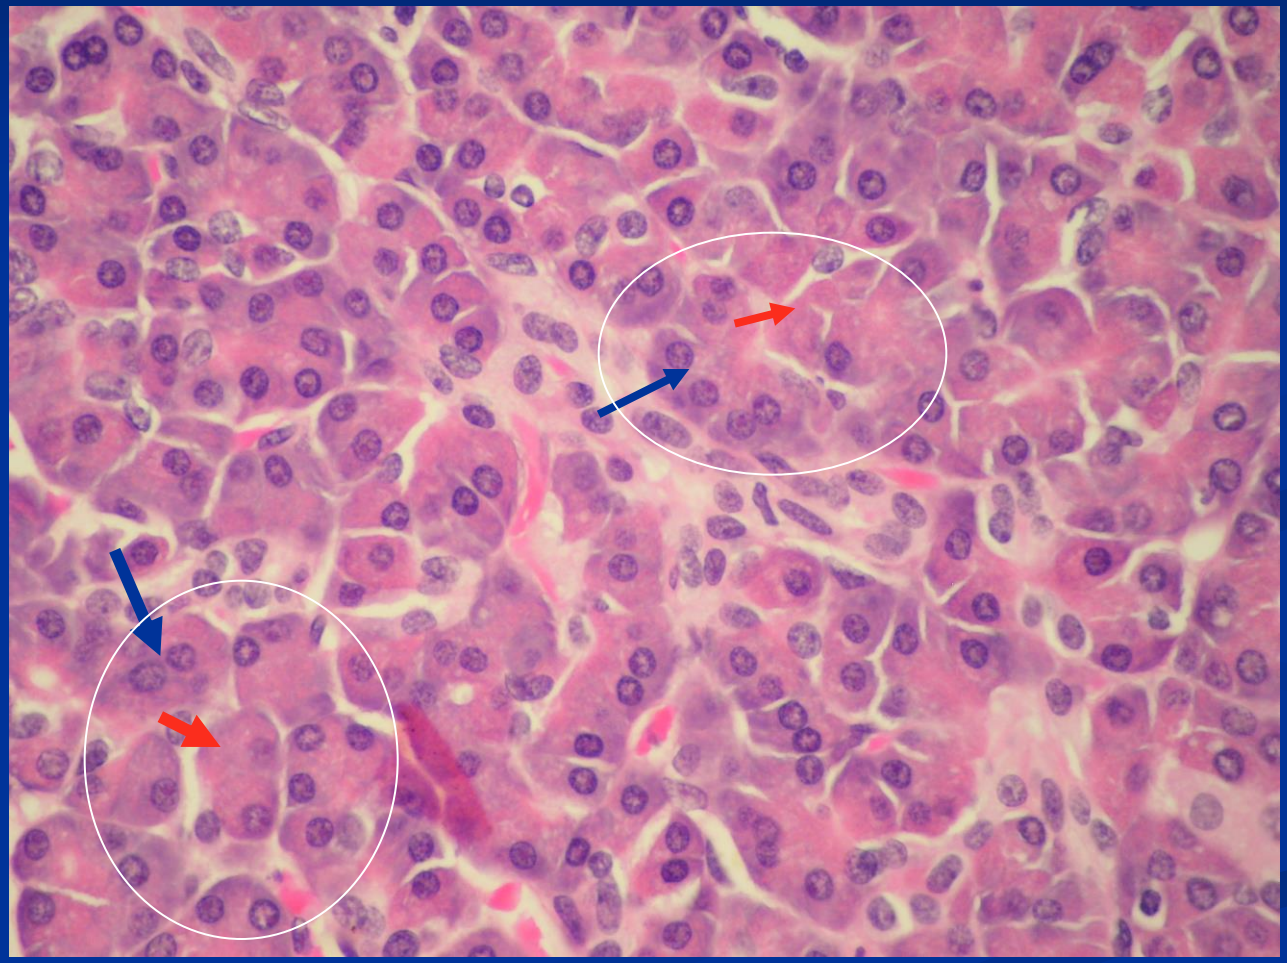




pancreatic Serour acini: protein secretory cells



Zymogenic granules
basophilil cell cytoplasm

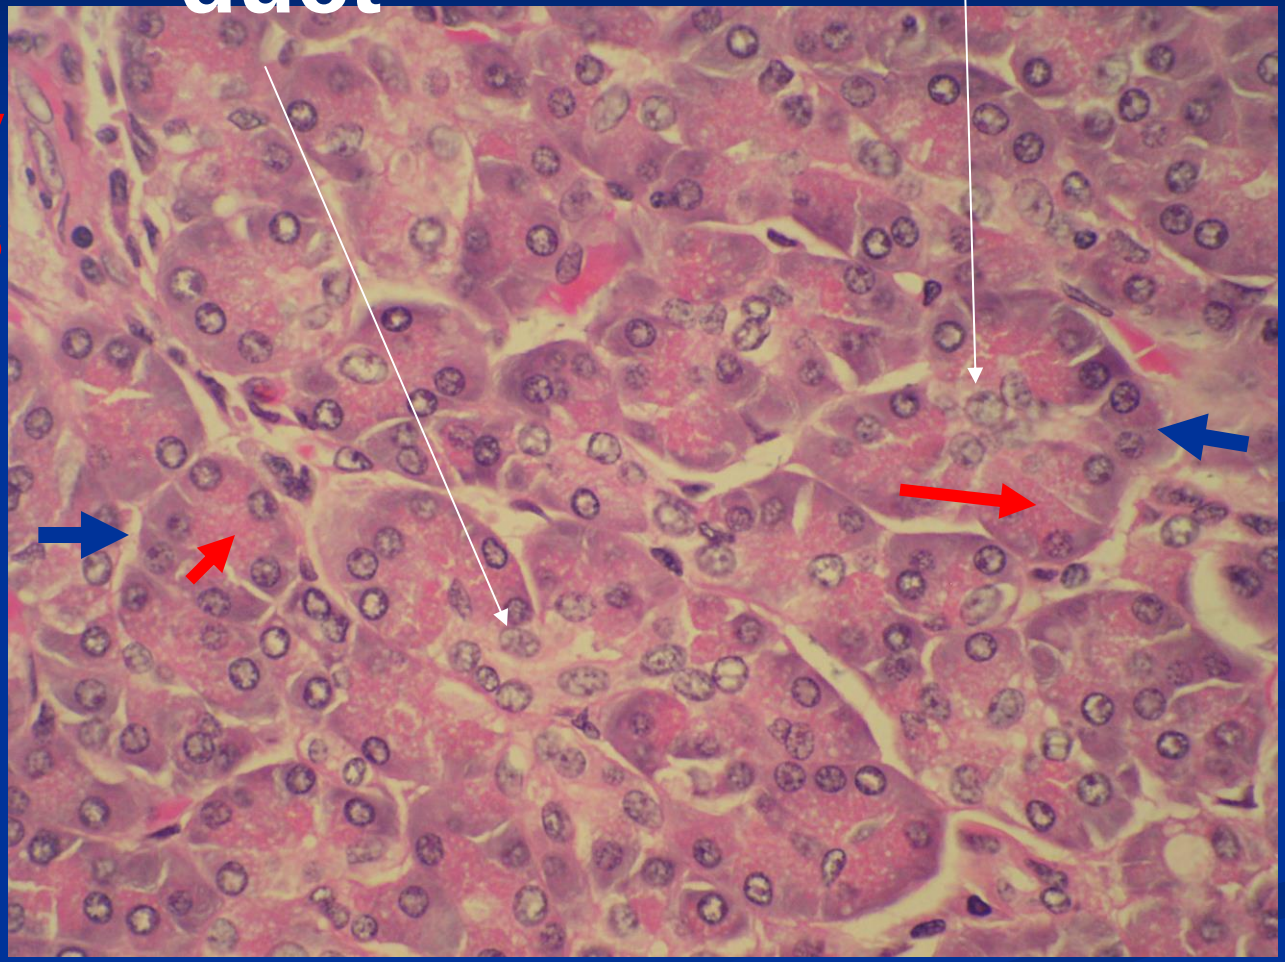


Inter calated duct

Centroacinar cells

Secretory granules

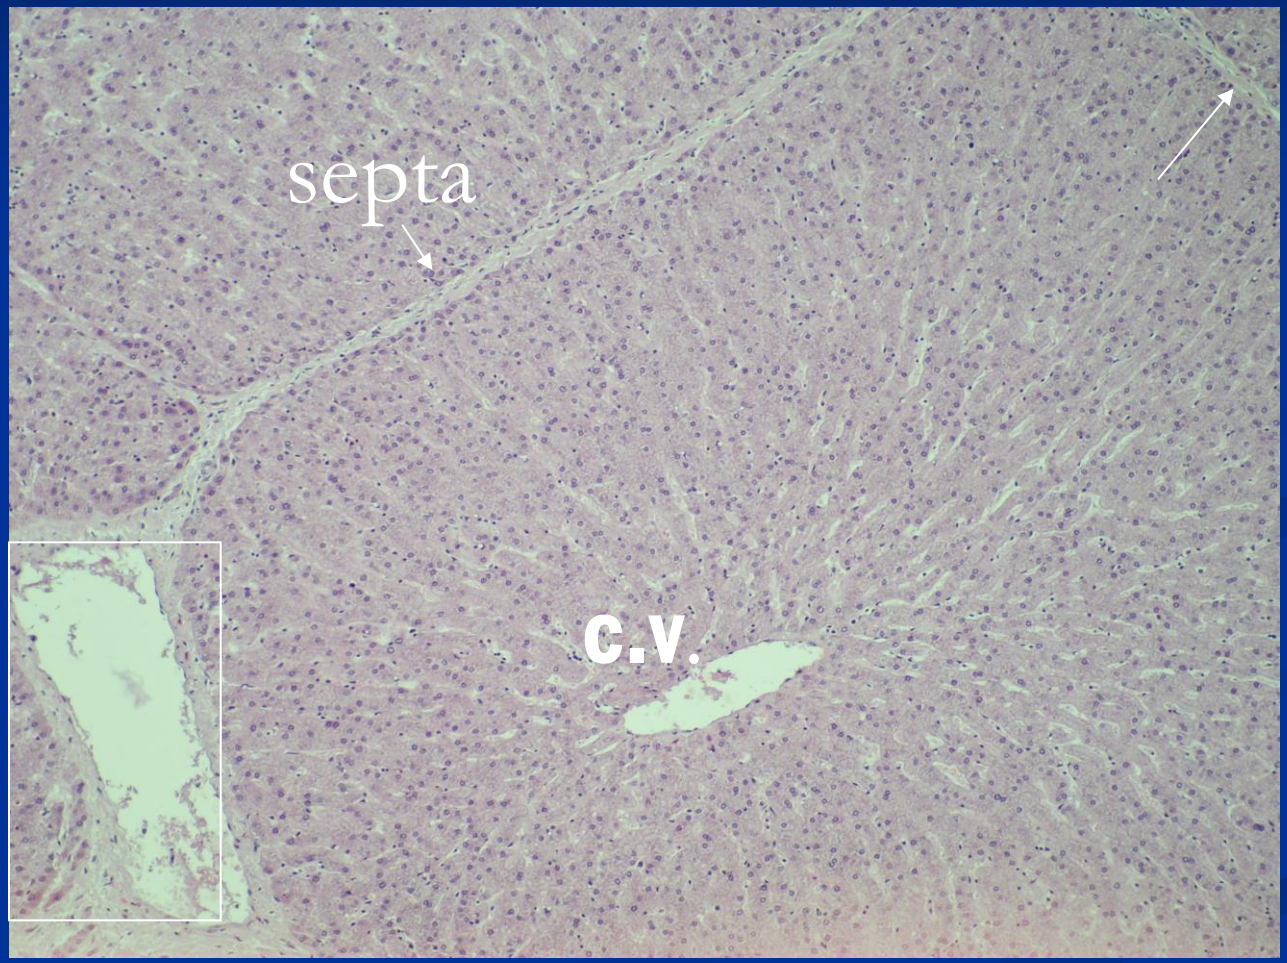
r-ER



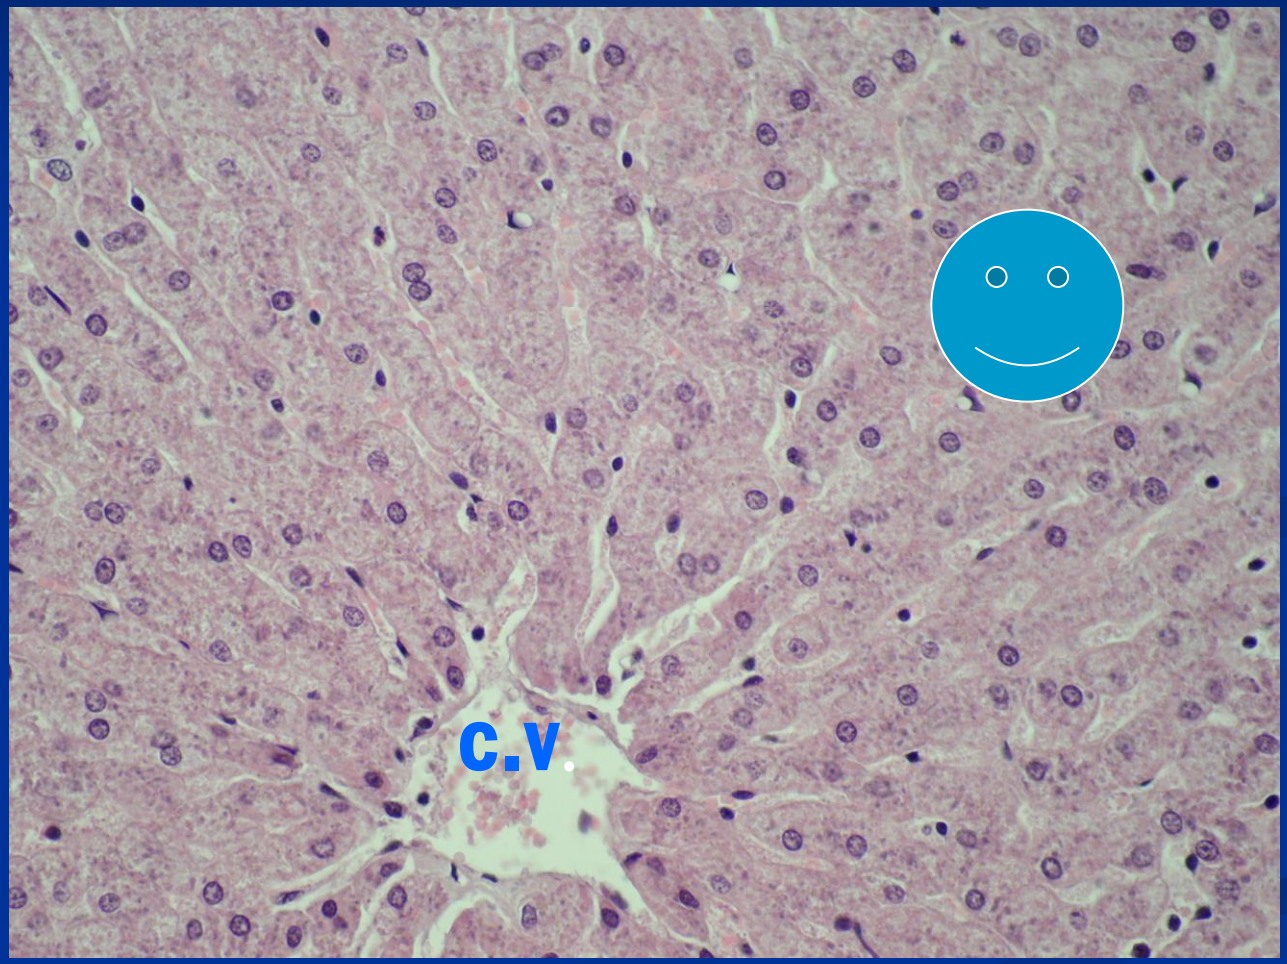
The Liver

Animal liver glisson'capsule

Portal space

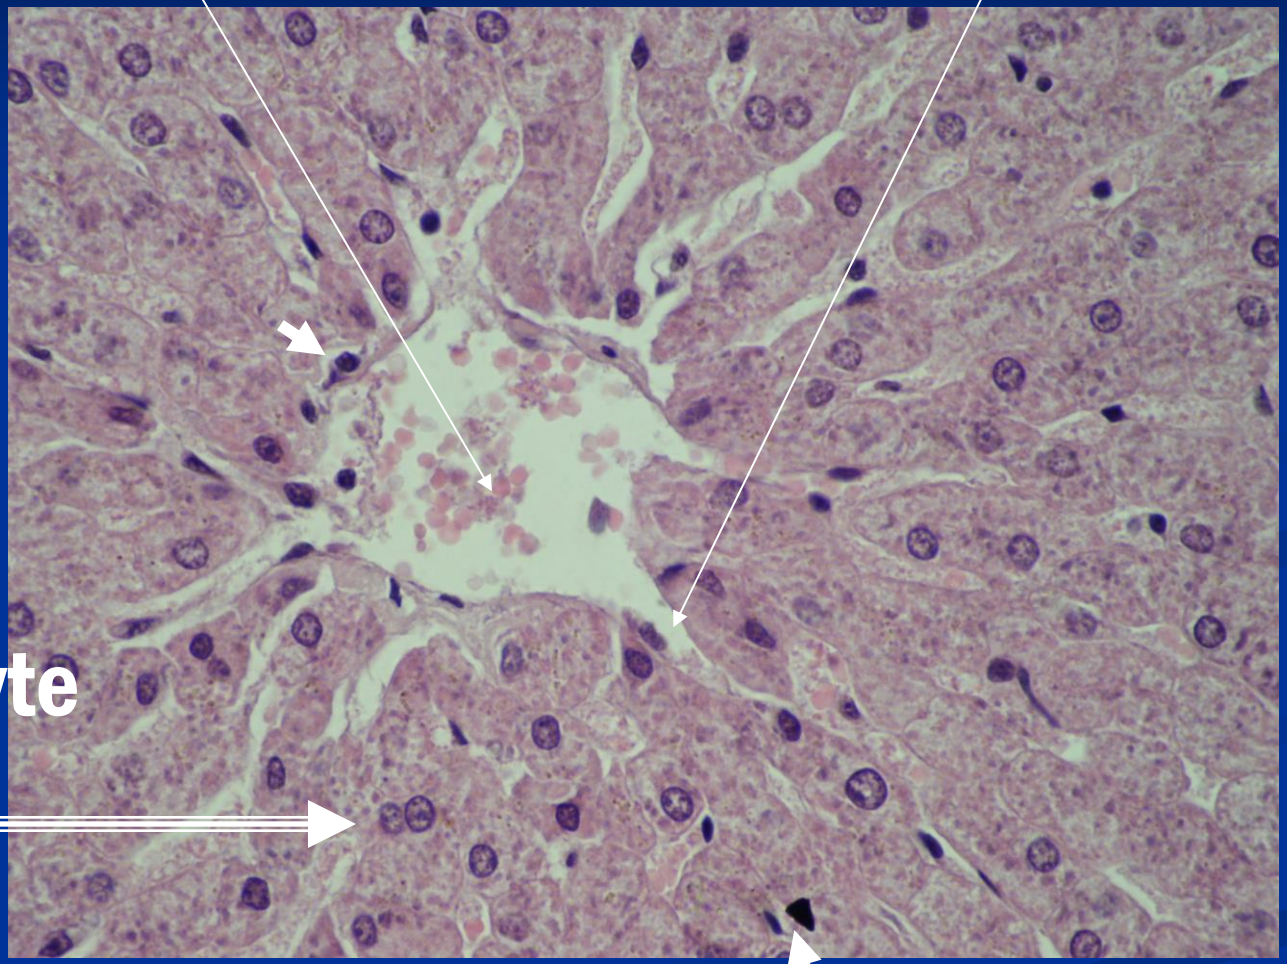


Parenchyma portion



Central vein

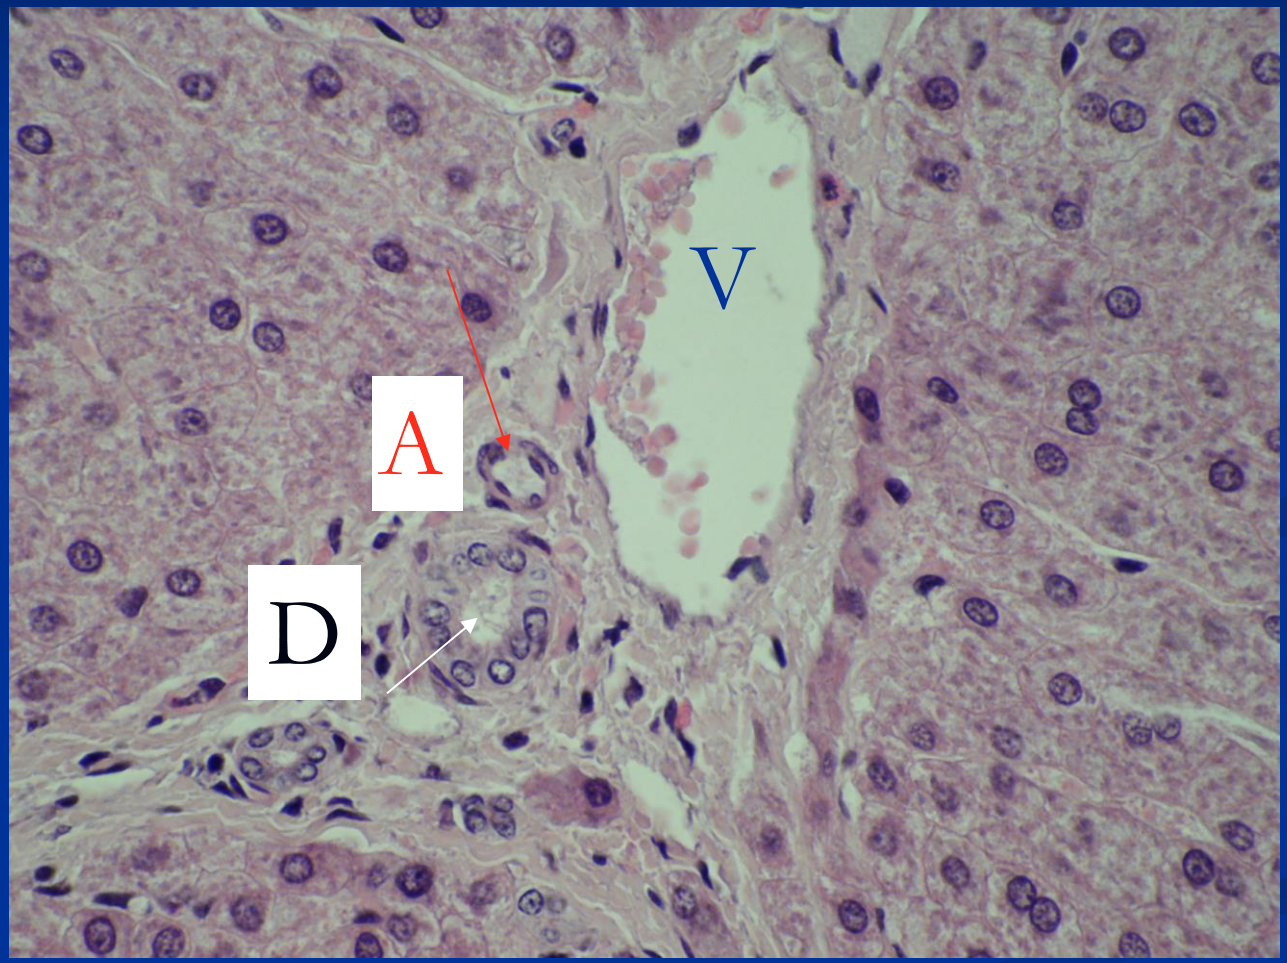
Sinusoid(endothelium)



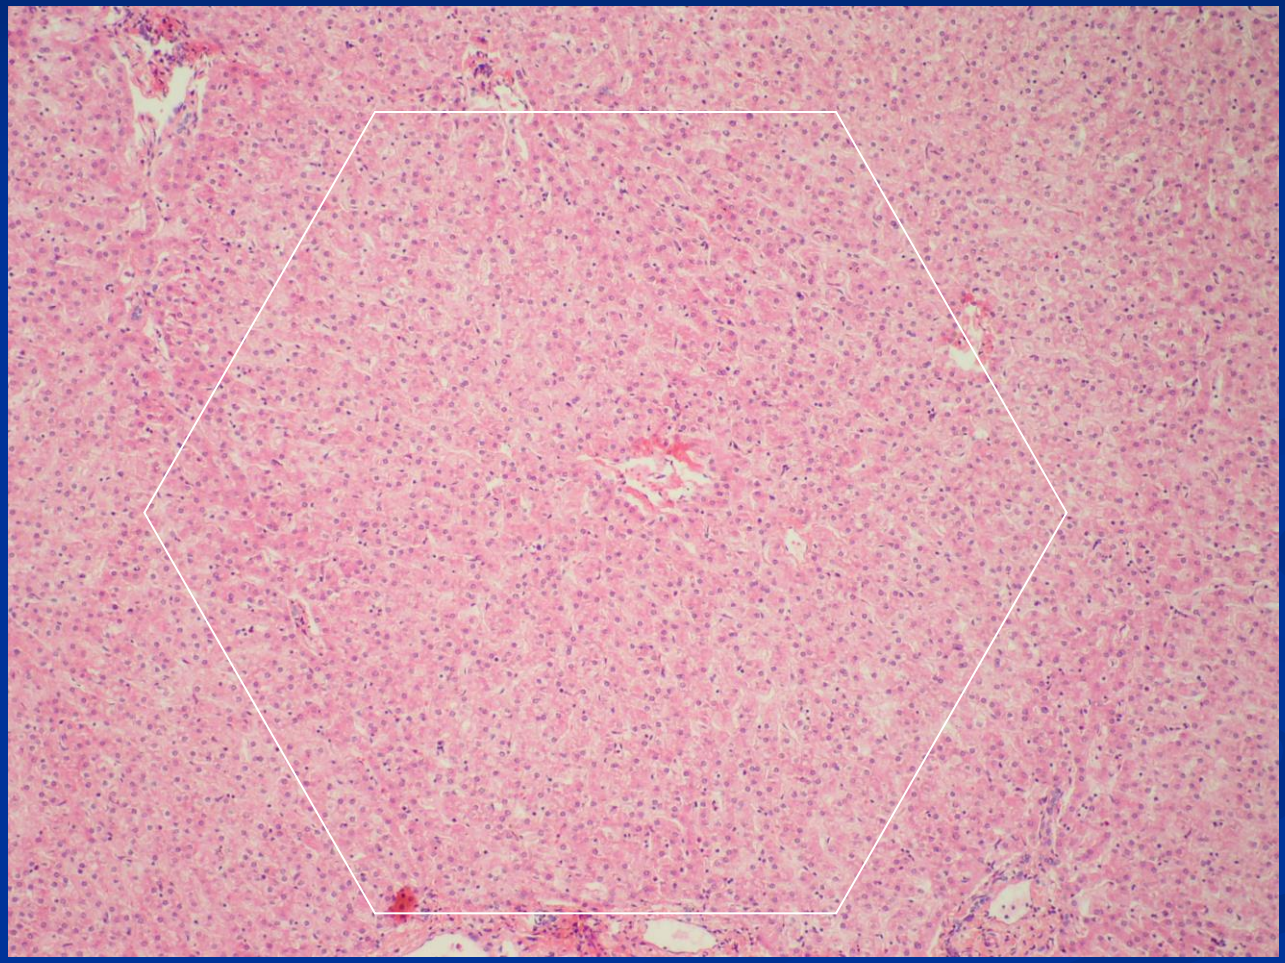
hepatocyte

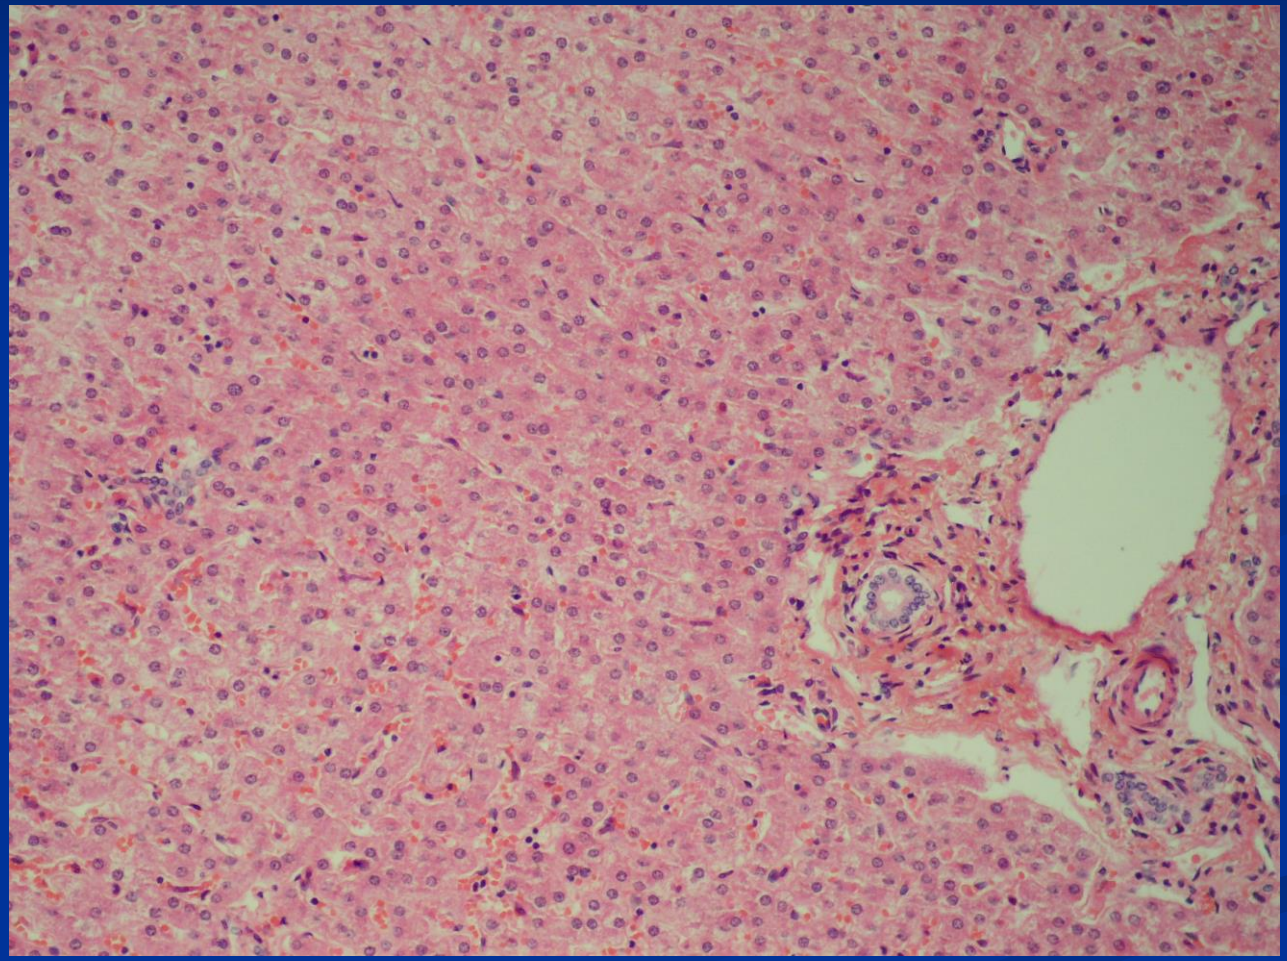
Kupffer Cell

Portal vein hepatic artery bile duct

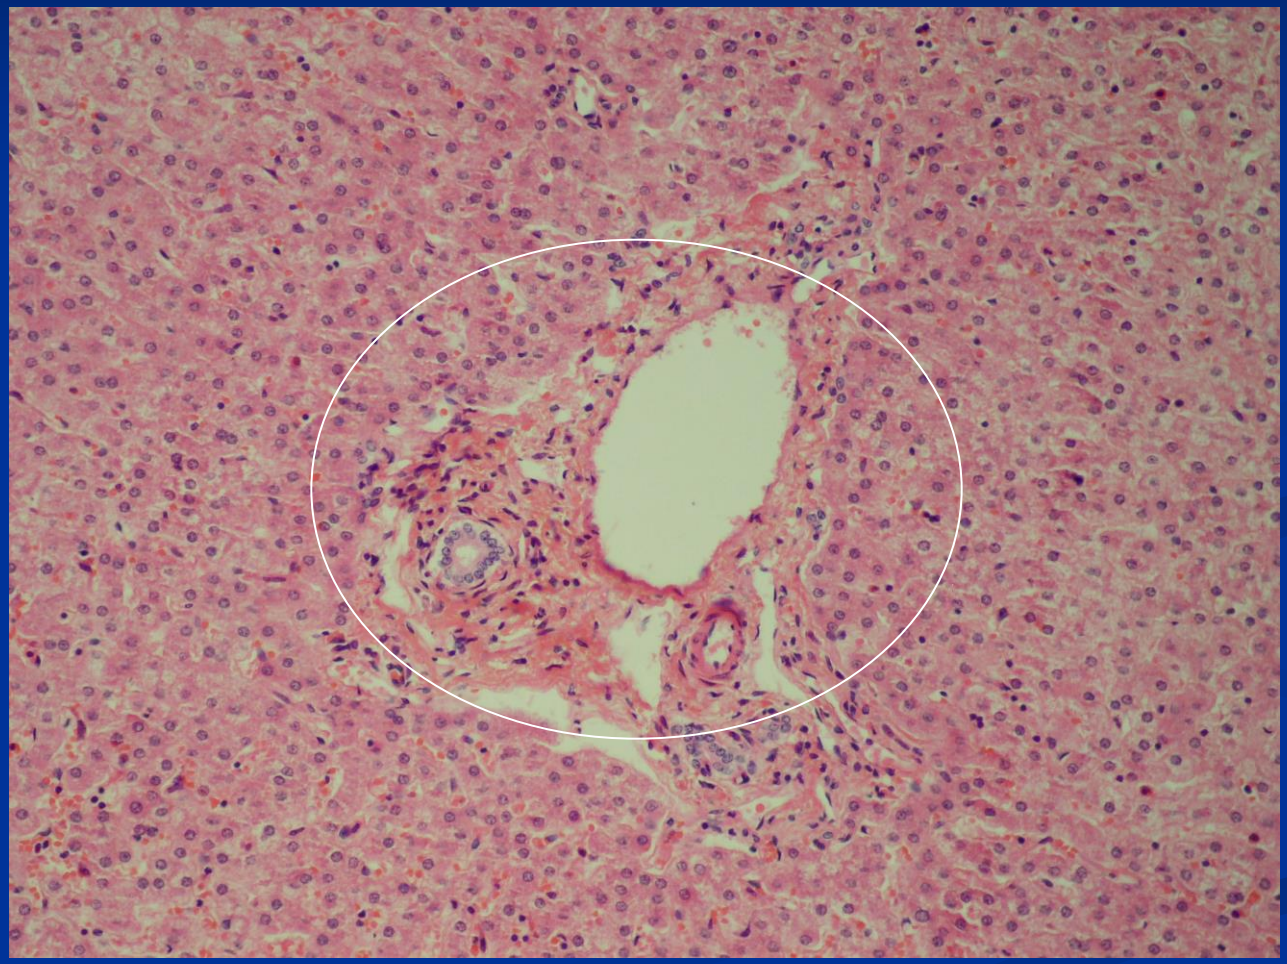


Human Liver

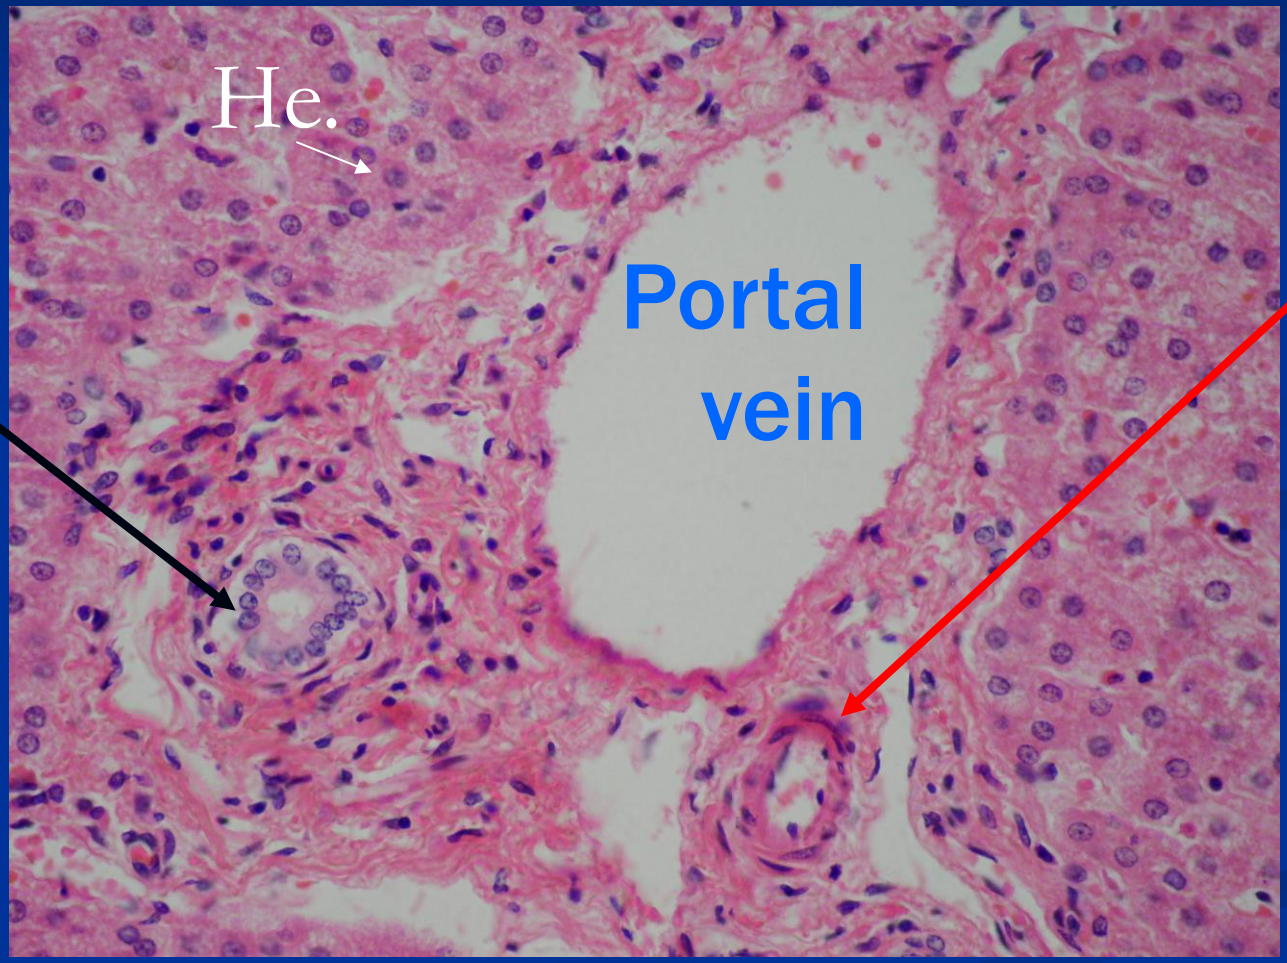




Portal space



bile duct hepatic artery



Silver impregnation reticular fibers

P.A.S reaction

glycogen
